*Serving on the Committee on the Budget, 100th Congress.

STAFF

HAROLD P. HANSON, *Executive Director*
ROBERT C. KETCHAM, *General Counsel*
CAROLYN C. GREENFELD, *Chief Clerk*
R. THOMAS WEIMER, *Republican Staff Director*
PAULA M. TEEPLES, *Legislative Clerk*

COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY

SUBCOMMITTEE MEMBERSHIPS AND THE JURISDICTIONS

ONE-HUNDREDTH CONGRESS

SUBCOMMITTEE ON INVESTIGATIONS AND OVERSIGHT

B374 Rayburn HOB—(202)225-4494

ROBERT A. ROE, New Jersey, *Chairman*

HAROLD L. VOLKMER, Missouri
DAVID E. PRICE, North Carolina
GEORGE E. BROWN, JR., California
JAMES A. TRAFICANT, JR., Ohio
(VACANCY)

DON RITTER, Pennsylvania
F. JAMES SENSENBRENNER, JR., Wisconsin
RON PACKARD, Californaia
ERNEST L. KONNYU, California

Greg Simon, *Acting Staff Director and Counsel*

Jurisdiction: Review and study, on a continuing basis, of the application, administration, execution, and effectiveness of those laws, or parts of laws, the subject matter of which is within the jurisdiction of the committee and the organization and operation of the Federal and private agencies and entities having responsibilities in or for the administration and execution thereof, in order to determine whether such laws and the programs thereunder are being implemented and carried out in accordance with the intent of the Congress. In addition, the Subcommittee on Investigations and Oversight and the appropriate subcommittee with legislative authority may cooperatively review and study any conditions or circumstances which indicate the necessity or desirability of enacting new or additional legislation within the jurisdiction of the committee, and may undertake futures research and forecasting on matters within the jurisdiction of the committee. The Subcommittee on Investigations and Oversight shall in no way limit the responsibility of other subcommittees from carrying out their oversight responsibilities, nor shall any investigation be undertaken by the Subcommittee on Investigations and Oversight without (a) consultation with the Chairman of the appropriate subcommittee with legislative authority and (b) approval of the Chairman of the committee.

SUBCOMMITTEE ON NATURAL RESOURCES, AGRICULTURE RESEARCH AND ENVIRONMENT

388 HOB Annex 2—(202)226-6980

JAMES H. SCHEUER, New York, *Chairman*

TIM VALENTINE, North Carolina
DAVE MCCURDY, Oklahoma
HENRY J. NOWAK, New York
C. THOMAS MCMILLEN, Maryland
GEORGE E. BROWN, JR., California
CLAUDINE SCHNEIDER, Rhode Island
ROBERT C. SMITH, New Hampshire
PAUL B. HENRY, Michigan
JOEL HEFLEY, Colorado

George S. Kopp, *Staff Director and Counsel*

Jurisdiction: Legislation, general and special oversight and all other matters relating to natural resources, including, but not limited to, water research, and, to the extent appropriate, agriculture R&D and population; legislation, risk assessment and other matters relating to environmental research and development generally—including, but not limited to, research and development activities of the Environmental Protection Agency; environmental health, safety, life sciences, pharmaceutical, medical, and biotechnology activities of Executive departments and agencies, as appropriate; the National Weather Service; operational and research and development activities related to the atmosphere (including meteorology, aeronomy, climate, weather modification); those ocean R&D activities related to the quality and management of the environment of the National Oceanic and Atmospheric Administration; and operations of earth observing systems (except for SARSAT).

SUBCOMMITTEE ON ENERGY RESEARCH AND DEVELOPMENT

B374 Rayburn HOB—(202)225-8056

MARILYN LLOYD, Tennessee, *Chairman*

RICK BOUCHER, Virginia
TERRY L. BRUCE, Illinois
RICHARD H. STALLINGS, Idaho
DOUG WALGREN, Pennsylvania
TIM VALENTINE, North Carolina
JAMES A. TRAFICANT, JR., Ohio
JIM CHAPMAN, Texas
SID MORRISON, Washington
HARRIS W. FAWELL, Illinois
LAMAR SMITH, Texas
ERNEST L. KONNYU, California
JOEL HEFLEY, Colorado

John V. Dugan, Jr., *Staff Director*

Jurisdiction: Legislation, general and special oversight and all other matters relating to all energy R&D and projects therefore; all federally owned or operated nonmilitary energy laboratories; basic energy sciences; high energy and nuclear physics; policy and management programs of the Department of Energy; and uranium enrichment and waste management activities, as appropriate.

SUBCOMMITTEE ON SCIENCE, RESEARCH AND TECHNOLOGY

2319 Rayburn HOB—(202)225-8844

DOUG WALGREN, Pennsylvania, *Chairman*

BUDDY MACKAY, Florida
LEE H. HAMILTON, Indiana
HENRY J. NOWAK, New York
DAVID E. PRICE, North Carolina
GEORGE E. BROWN, JR., California
NORMAN Y. MINETA, California
TERRY L. BRUCE, Illinois
CARL C. PERKINS, Kentucky
DAVID R. NAGLE, Iowa
JIMMY HAYES, Louisiana
TIM VALENTINE, North Carolina
JIM CHAPMAN, Texas
DAVID E. SKAGGS, Colorado

SHERWOOD L. BOEHLERT, New York
PAUL B. HENRY, Michigan
CLAUDINE SCHNEIDER, Rhode Island
DON RITTER, Pennsylvania
SID MORRISON, Washington
D. FRENCH SLAUGHTER, Virginia
LAMAR SMITH, Texas
JACK BUECHNER, Missouri
CONSTANCE A. MORELLA, Maryland

Grace Ostenso, *Staff Director*

Jurisdiction: Legislation, general and special oversight and all other matters relating to the National Science Foundation; the National Bureau of Standards; the Office of Science and Technology Policy; the Office of Technology Assessment; scientific research and development and applications; science policy; scientific resources (including manpower); science education; science information and information sciences; technology transfer; technology assessment; innovation and industrial R&D; productivity and competitiveness; standards (weights, measures, etc.); patent policies as they relate to Federal research and development programs; R&D involving governmental health, nutritional and handicapped programs; intergovernmental mechanisms for R&D; geographic distribution of Federal R&D; and tax policy and the effect on R&D.

SUBCOMMITTEE ON SPACE SCIENCE AND APPLICATIONS

2321 Rayburn HOB—(202)225-7858

BILL NELSON, Florida, *Chairman*

GEORGE E. BROWN, JR., California
HAROLD L. VOLKMER, Missouri
NORMAN Y. MINETA, California
ROBERT G. TORRICELLI, New Jersey
JAMES A. TRAFICANT, JR., Ohio
JIM CHAPMAN, Texas
CARL C. PERKINS, Kentucky
C. THOMAS MCMILLEN, Maryland
DAVID R. NAGLE, Iowa
JIMMY HAYES, Louisiana
JAMES H. SCHEUER, New York
RALPH M. HALL, Texas
BUDDY MACKAY, Florida
DAVID E. SKAGGS, Colorado

ROBERT S. WALKER, Pennsylvania
RON PACKARD, California
ROBERT C. SMITH, New Hampshire
D. FRENCH SLAUGHTER, JR.,, Virginia
ERNEST L. KONNYU, California
JACK BUECHNER,Missouri
JOEL HEFLEY, Colorado
CONSTANCE A. MORELLA, Maryland
TOM LEWIS, Florida

Jurisdiction: Legislation, general and special oversight and all other matters relating to the National Aeronautics and Space Administration (except aeronautical research and technology); national programs of research and development in space exploration and control, space applications, space commercialization, space communications and related matters; and research and development of earth observing systems.

SUBCOMMITTEE ON INTERNATIONAL SCIENTIFIC COOPERATION

822 HOB Annex 1—(202)226-3636

RALPH M. HALL, Texas, *Chairman*

MARILYN LLOYD, Tennessee
BUDDY MACKAY, Florida
ROBERT G. TORRICELLI, New Jersey
RICHARD H. STALLINGS, Idaho
JAMES H. SCHEUER, New York

F. JAMES SENSENBRENNER, JR., Wisconsin
SHERWOOD L. BOEHLERT, New York
RON PACKARD, California
HARRIS W. FAWELL, Illinois

Robert E. Palmer, *Staff Director*

Jurisdiction: International scientific cooperation; international technology transfer; international cooperative R&D (including global change, space station, nuclear and non-nuclear energy, the superconducting super collider, and international cooperative funding therefore); international scientific and technological competitiveness; international information and communications policy (including scientific data banks, technical communication and translation, and SARSAT); resolutions of joint cooperation with other national parliamentary committees on science and technology; international trade policy and its effect on science and technology and on R&D; international agriculture research policy (including the international implications of genetic engineering); and international intellectual property rights.

SUBCOMMITTEE ON TRANSPORTATION, AVIATION AND MATERIALS

2321 Rayburn HOB—(202)225-9662

DAVE MCCURDY, Oklahoma, *Chairman*

DAN GLICKMAN, Kansas
BILL NELSON, Florida
C. THOMAS MCMILLEN, Maryland
JIMMY HAYES, Louisiana

TOM LEWIS, Florida
ROBERT S. WALKER, Pennsylvania
F. JAMES SENSENBRENNER, JR., Wisconsin

Anthony C. Taylor, Staff Director

Jurisdiction: Legislation, general and special oversight and all other matters relating to civil aviation research and development (includes aeronautical research and technology programs of the National Aeronautics and Space Administration and research and development programs of the Federal Aviation Administration); transportation programs of the Department of Energy; aviation-weather services; materials R&D and national materials policies, both domestic and international; oversight of surface transportation research and development programs of the Department of Transportation, Urban Mass Transportation Administration, Federal Railroad Administration, Federal Highway Administration, National Highway Traffic Safety Administration, and Coast Guard and the Maritime Administration; oversight of research and development in communications other than that for which the Subcommittee on Space Science and Applications is responsible.

The Chairman and Ranking Republican Member shall serve as ex officio members of all subcommittees and shall have the right to vote on all matters before the subcommittees, subject to the provisions of Rule 28 of the Committee Rules Governing Procedure.

TECHNOLOGY POLICY TASK FORCE*

2321 Rayburn HOB—(202)225-6375

BUDDY MACKAY, Florida, *Chairman*

GEORGE E. BROWN, JR., California
DOUG WALGREN, Pennsylvania
TIM VALENTINE, North Carolina
C. THOMAS MCMILLEN, Maryland
DAVID E. PRICE, North Carolina
DAVID R. NAGLE, Iowa
JIMMY HAYES, Louisiana
DAVID E. SKAGGS, Colorado
NORMAN Y. MINETA, California

RON PACKARD, California
CLAUDINE SCHNEIDER, Rhode Island
TOM LEWIS, Florida
PAUL B. HENRY, Michigan
HARRIS W. FAWELL, Illinois
CONSTANCE A. MORELLA, Maryland

Ronald E. Williams, *Study Director*

*100th Congress, 6-months appointment.

HISTORY OF APPOINTMENTS

COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY

ONE-HUNDREDTH CONGRESS

January 8, 1987 Robert A. Roe, New Jersey, was elected Chairman of the Committee on Science, Space, and Technology, by the adoption of H. Res. 39.

The following Members were elected to the Committee by H. Res. 54, adopted January 22, 1987: George E. Brown, Jr., California; James H. Scheuer, New York; Marilyn Lloyd, Tennessee; Doug Walgren, Pennsylvania; Dan Glickman, Kansas; Harold L. Volkmer, Missouri; Bill Nelson, Florida; Ralph M. Hall, Texas; Dave McCurdy, Oklahoma; Norman Y. Mineta, California; Buddy MacKay, Florida; Tim Valentine, North Carolina; Robert G. Torricelli, New Jersey; Rick Boucher, Virginia; Terry L. Bruce, Illinois; Richard H. Stallings, Idaho; Bart Gordon, Tennessee; James A. Traficant, Jr., Ohio; Jim Chapman, Texas; Lee H. Hamilton, Indiana; Henry J. Nowak, New York; Carl C. Perkins, Kentucky; C. Thomas McMillen, Maryland; David E. Price, North Carolina; David R. Nagle, Iowa; and Jimmy Hayes, Louisiana.

The following Members were elected to the Committee by H. Res. 45, adopted January 21, 1987: Manuel Lujan, Jr., New Mexico; Robert S. Walker, Pennsylvania; F. James Sensenbrenner, Jr., Wisconsin; Claudine Schneider, Rhode Island; Sherwood L. Boehlert, New York; Tom Lewis, Florida; Don Ritter, Pennsylvania; Sid Morrison, Washington; Ron Packard, California; Robert C. Smith, New Hampshire; Paul B. Henry, Michigan; Harris W. Fawell, Illinois; D. French Slaughter, Jr., Virginia; Lamar Smith, Texas; Ernest L. Konnyu, California; Jack Buechner, Missouri; Joel Hefley, Colorado; and Constance A. Morella, Maryland.

Bart Gordon, Tennessee, resigned February 19, 1987, H. Res. 89.
David E. Skaggs, Colorado, elected March 30, 1987, H. Res. 133.
Christopher Shays, Connecticut, elected November 4, 1987, H. Res. 304.
Paul E. Kanjorski, Pennsylvania, and George J. Hochbrueckner, New York, elected December 15, 1987, H. Res. 332.

LEGISLATIVE AND OVERSIGHT JURISDICTION OF THE COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY

"RULE X. ESTABLISHMENT AND JURISDICTION OF STANDING COMMITTEES

"The Committees and Their Jurisdiction

"1. There shall be in the House the following standing committees, each of which shall have the jurisdiction and related functions assigned to it by this clause and clauses 2, 3, and 4; and all bills, resolutions, and other matters relating to subjects within the jurisdiction of any standing committee as listed in this clause shall (in accordance with and subject to clause 5) be referred to such committees, as follows:

* * * * * * *

"(r) Committee on Science, Space, and Technology.

"(1) Astronautical research and development, including resources, personnel,equipment, and facilities.

"(2) Bureau of Standards, standardization of weights and measures and the metric system.

"(3) National Aeronautics and Space Administration.

"(4) National Aeronautics and Space Council.

"(5) National Science Foundation.

"(6) Outer space, including exploration and control thereof.

"(7) Science scholarships.

"(8) Scientific research and development, and demonstration, and projects therefor, and all federally owned or operated nonmilitary energy laboratories.

"(9) Civil aviation research and development.

"(10) Environmental research and development.

"(11) All energy research, development, and demonstration, and projects therefor, and all federally owned or operated nonmilitary energy laboratories.

"(12) National Weather Service.

"In addition to its legislative jurisdiction under the preceding provisions of this paragraph (and its general oversight function under clause 2(b)(1)), the committee shall have the special oversight functions provided for in clause 3(f) with respect to all nonmilitary research and development."

* * * * * * *

"SPECIAL OVERSIGHT FUNCTIONS

"3. (f) The Committee on Science, Space, and Technology shall have the function of reviewing and studying, on a continuing basis, all laws, programs, and Government activities dealing with or involving nonmilitary research and development."

STATUS OF BILLS AND RESOLUTIONS
REPORTED BY THE COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY

Bill Number	Title	Passed House	Passed Senate	Conference Action	Public Law
H.R. 812	To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services. *(H.Rept. 100-96, May 18, 1987)*	June 8, 1987 (amended)	Aug. 5, 1987 (amended)		Aug. 20, 1987 P.L. 100-107
H.R. 2782	To authorize appropriations to the National Aeronautics and Space Administration for research and development; space flight, control and data communications; construction of facilities; and research and program management, and for other purposes. *(H.Rept. 100-204, July 7, 1987)*	July 9, 1987 (amended)	July 10, 1987 (amended)		Oct. 30, 1987 P.L. 100-147
H.R. 3545	The Omnibus Reconciliation Act pursuant to sec. 4 of the concurrent resolution on the budget for fiscal year 1988 insofar as it amends the Nuclear Waste Policy Act of 1982 those portions within the Committee's jurisdiction (sections 2002, insofar as that section would add new sections 403(i) and 410 to the Act, 2006, and 2008 of the Senate amendment and modifications thereto). *(Conference Report H.Rept. 100-495, Dec. 21, 1987)*			Dec. 21, 1987 (House) Dec. 22, 1987 (Senate)	Dec. 22, 1987 P.L. 100-203
H.R. 1777	In conference: Title XI, secs. 1101-1106, the provisions of H.R. 3497, to require the President to take appropriate actions domestically and internationally to establish a Global Change Research program aimed at understanding the cumulative impacts of man on his environment. *(Conference Report H.Rept. 100-475, Dec. 14, 1987)*	June 23, 1987	Oct. 8, 1987	Dec. 15, 1987 (House) Dec. 16, 1987 (Senate)	Dec. 22, 1987 P.L. 100-204
H.R. 2310	To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes. *(H.Rept. 100-123, Part 1, June 3, 1987)*	Oct. 1, 1987 (amended)	Oct. 28, 1987 (amended)	Dec. 17, 1987 (Senate); Dec. 18, 1987 (House)	Dec. 30, 1987 P.L. 100-223
H.R. 1517	To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes. *(H.Rept. 100-286, Part 2, Oct. 6, 1987)*	Nov. 3, 1987 (amended)		Dec. 17, 1987 (Senate; Sec. 203, H.R. 2310) Dec. 18, 1987 (House; Sec. 203, H.R. 2310)	Dec. 30, 1987 P.L. 100-223

STATUS OF BILLS AND RESOLUTIONS REPORTED BY THE COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY

Bill Number	Title	Passed House	Passed Senate	Conference Action	Public Law
H.R. 145	To provide for a computer standards program within the National Bureau of Standards, to provide for Government-wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes. *(H.Rept. 100-153, Part 1, June 11, 1987)*	June 22, 1987 (amended)	Dec. 21, 1987		Jan. 8, 1988 P.L. 100-235
H.R. 1612	To authorize appropriations under the Earthquake Hazards Reduction Act of 1977 for fiscal years 1988 and 1989. *(H.Rept. 100-89, Part 2, May 21, 1987)*	June 9, 1987 (amended)	Dec. 21, 1987	Dec. 22, 1987 (Senate) Feb. 16, 1988 (House)	Feb. 29, 1988 P.L. 100-252
H.R. 1414	To amend the Price-Anderson provisions of the Atomic Energy Act of 1954 to extend and improve the procedures for liability and indemnification for nuclear incidents. *(H.Rept. 100-104, Part 2, July 22, 1987)*	July 30, 1987 (amended)	Mar. 18, 1988	Aug. 2, 1988 (House) Aug. 5, 1988 (Senate)	Aug. 20, 1988 P.L. 100-408
H.R. 2737	To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program. *(H.Rept. 100-580, Part 2, May 2, 1988)*	May 23, 1988 (S. 52)	June 17, 1987 (S. 52)	June 10, 1988 (Senate) Sep. 9, 1988 (House)	Sep. 22, 1988 P.L. 100-441
H.R. 4419	Authorizing appropriations for activities under the Federal Fire Prevention and Control Act of 1974. *(H.Rept. 100-589, Apr. 27, 1988)*	May 24, 1988	Aug. 10, 1988		Oct. 6, 1988 P.L. 100-476
H.R. 4417	To authorize appropriations to the Secretary of Commerce for the programs of the National Bureau of Standards for fiscal year 1989, and for other purposes. *(H.Rept. 100-673, Part 1, June 3, 1988)*	Sep. 26, 1988	Oct. 5, 1988		Oct. 24, 1988 P.L. 100-519
H.R. 4418	To authorize appropriations for the National Science Foundation for fiscal years 1989 and 1990, and for other purposes. *(H.Rept. 100-649, May 24, 1988)*	June 9, 1988	June 17, 1988	Sep. 27, 1988 (House) Oct. 14, 1988 (Senate)	Oct. 31, 1988 P.L. 100-570
H.R. 4686	To amend the Federal Aviation Act of 1958 relating to aviation research. *(H.Rept. 100-894, Sep. 8, 1988)*	Sep. 20, 1988	Oct. 20, 1988		Nov. 3, 1988 P.L. 100-591
H.R. 4399	To facilitate commercial access to space, and for other purposes. *(H.Rept. 100-639, May 19, 1988)*	May 24, 1988	Oct. 14, 1988		Nov. 15, 1988 P.L. 100-657
S. 2470	To promote energy conservation and technology competitiveness in the American steel and aluminum industries. *(H.Rept. 100-1061, Oct. 6, 1988)*	Oct. 12, 1988	Aug. 9, 1988		Nov. 17, 1988 P.L. 100-680
H.R. 4561	To authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes. *(H.Rept. 100-650, May 24, 1988)*	June 2, 1988 (H.R. 4561)	Aug. 9, 1988 (S. 2209)	Oct. 19, 1988 (House) Oct. 21, 1988 (Senate)	Nov. 17, 1988 P.L. 100-685

STATUS OF BILLS AND RESOLUTIONS REPORTED BY THE COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY

Bill Number	Title	Passed House	Passed Senate	Conference Action	Public Law
S. 1667	To authorize appropriations for the atmospheric and satellite programs of the National Oceanic and Atmospheric Administration for fiscal years 1988 and 1989, and for other purposes. *(H.Rept. 100–406, Oct. 27, 1987)*	Nov. 20, 1987 (amended)	Sep. 10, 1987		Nov. 17, 1988 P.L. 100–685, Title IV
H.R. 3048	To establish a 5-year national action plan to research and develop high-temperature superconducting materials and to designate appropriate roles, mechanisms and responsibilities of various Federal departments and agencies in implementing such a national action plan. *(H.Rept. 100–900, Sep. 9, 1988)*	Sep. 20, 1988	Oct. 5, 1988	Oct. 21, 1988 (House) Oct. 21, 1988 (Senate)	Nov. 19, 1988 P.L. 100–697
H.Res. 55	In memorium of the crew of the space shuttle Challenger.	Jan. 28, 1987			
H.Res. 369	Honoring the twenty–fifth anniversary of the Cerro Tololo Inter–American Observatory.	Feb. 16, 1988			
H.Res. 450	To express the sense of the House of Representatives that the Federal Aviation Administration should immediately establish a research and development program to study structural fatigue, wear, corrosion, and damage to aircraft resulting from age and intensive utilization and to conduct nondestructive and destructive testing of older aircraft on a regular basis. *(H.Rept. 100–895, Sep. 8, 1988)*	Sep. 20, 1988			
H.Res. 574	To commemorate the successful return to flight by the Space Shuttle Discovery.	Oct. 12, 1988			
H.Con. Res. 290	Supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction. *(H.Rept. 100–920, Sep. 15, 1988)*	Sep. 20, 1988	Oct. 19, 1988 (S.Con. Res. 131)		
H.R. 2160	To authorize appropriations to the Secretary of Commerce for the programs of the National Bureau of Standards for fiscal year 1988. *(H.Rept. 100–98, May 19, 1987)*	June 4, 1987 (amended)			
H.R. 1522	To authorize appropriations for activities under the Federal Fire Prevention and Control Act of 1974. *(H.Rept. 100–103, May 21, 1987)*	June 8, 1987 (amended)			
H.R. 2330	To authorize appropriations to the National Science Foundation for the fiscal year 1988, and for other purposes. *(H.Rept. 100–110, May 28, 1987)*	June 3, 1987 (amended)			
H.R. 2355	To authorize appropriations for environmental research, development, and demonstration for the fiscal years 1988 and 1989, and for other purposes. *(H.Rept. 100–111, May 28, 1987)*	June 4, 1987 (amended)			
H.R. 791	To authorize water resources research activities of the U.S. Geological Survey, and for other purposes. *(H.Rept. 100–155, Part 4, Sep. 30, 1987)*	Dec. 2, 1987 (amended)			

STATUS OF BILLS AND RESOLUTIONS REPORTED BY THE COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY

Bill Number	Title	Passed House	Passed Senate	Conference Action	Public Law
H.R. 2916	To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further U.S. technological leadership, and for other purposes. *(H.Rept. 100-266, Aug. 4, 1987)*				
H.R. 3228	To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider project. *(H.Rept. 100-413, Oct. 29, 1987)*				
H.R. 4505	To authorize appropriations to the Department of Energy for civilian research and development programs for fiscal year 1989. *(H.Rept. 100-636, May 19, 1988)*	June 3, 1988	Oct. 21, 1988		
H.R. 3779	To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes. *(H.Rept. 100-893, Sep. 8, 1988)*	Sep. 20, 1988			
H.R. 5132	To amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer. *(H.Rept. 100-943, Part 1, Sep. 20, 1988)*	Oct. 21, 1988			
H.R. 3704	To amend the Federal Fire Prevention and Control Act of 1974 to direct the Director of the Federal Emergency Management Agency, acting through the Administrator of the United States Fire Administration, to propose and promulgate a model code and guidlelines governing the use and installation of automatic sprinkler systems in places of public accommodation affecting commerce, and for other purposes. *(H.Rept. 100-956, Sep. 22, 1988)*	Sep. 26, 1988			
S. 1966	To authorize the National Biotechnology Policy Commission, and for other purposes. *(H.Rept. 100-992, Part 1, Sep. 28, 1988)*	June 17, 1988			
H.R. 4502	To authorize the National Biotechnology Policy Commission, and for other purposes. *(H.Rept. 100-993, Part 1, Sep.28, 1988)*				
S. 1081	To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan. *(H.Rept. 100-1067, Part 1, Oct. 6, 1988)*	Oct. 12, 1988	Aug. 9, 1988		Nov. 8, 1988 Vetoed by the President

HOUSE BILLS

H.R. 3 **Jan. 6, 1987**

MR. GEPHARDT

To enhance the competitiveness of American industry, and for other purposes.

(Jointly referred to the Committees on Agriculture; Banking, Finance and Urban Affairs; Education and Labor; Foreign Affairs; Energy and Commerce; and Ways and Means)

Subsumes in Conference H.R. 2916 and H.R. 2160.

Apr. 30, 1987.—Passed the House by the Roll Call Vote (No. 78) of 290 ayes to 137 nays, as amended.

July 21, 1987.—Passed the Senate by the Roll Call Vote (No. 208) of 71 ayes to 21 nays, in lieu of S. 1420 with an amendment, striking all after the enacting clause and substituting the language of S. 1420 as it was amended.

Aug. 5, 1987.— The Senate insists on its amendments and requests a conference with the House; appointing as conferees: Senators Bentsen, Matsunaga, Moynihan, Baucus, Boren, Packwood, Chafee, Roth and Danforth from the Committee on Finance; Senators Proxmire, Sarbanes, Dixon, Garn, Heinz, Cranston, Gramm, Exon and Danforth from the Committee on Banking, Housing and Urban Affairs (Senators Cranston and Gramm solely for the consideration of sections 1029–1036 of Title X; Senators Exon and Danforth solely for the consideration of Title XIV); Senators Hollings, Inouye, Exon, Riegle, Danforth, Packwood and Pressler from the Committee on Commerce, Science and Transportation; Senators Kennedy, Pell, Metzenbaum, Mikulski, Adams, Hatch, Stafford and Quayle from the Committee on Labor and Human Resources; Senators Bumpers, Sasser and Weicker from the Committee on Small Business; Senators DeConcini, Leahy and Hatch from the Committee on the Judiciary; Senators Pell, Sarbanes, Dodd, Helms and Lugar from the Committee on Foreign Relations; Senators Glenn, Chiles, Bingaman, Roth and Stevens from the Committee on Governmental Affairs.

Aug. 7, 1987.—House disagreed to Senate amendments by unanimous consent and agreed to the Senate request for a conference; appointing as conferees: Messrs. Rostenkowski, Gibbons, Duncan, de la Garza, Brown of California, Roberts, St Germain, Fauntroy, Wylie, Fascell, Bonker, Broomfield, Dingell, Florio, Lent, Hawkins, Ford of Michigan, Jeffords, Rodino, Kastenmeier, Fish, Brooks, Conyers, Horton, Jones of North Carolina, Biaggi, Mineta, Davis of Michigan, Oberstar, Hammerschmidt, LaFalce, Smith of Iowa, McDade, Roe, Walgren, Lujan and Gephardt.

Aug. 7, 1987.—House agreed to the Duncan motion to instruct the House conferees to maintain strong support of the House position on all provisions that advance the competitive position of United States industries, support enhanced negotiating authority for the United States Trade Representative, provide improvements in our trade laws to ensure that United States industries and workers will not have to suffer adverse effects of unfair trading practices and that the national defense will not be jeopardized, and result in legislation that can be broadly supported by all interests.

Aug. 7, 1987.—Conferees met.

Sep. 16, 1987.—Supplemental House conferees appointed from Committees of jurisdiction. Committee on Science, Space, and Technology conferees appointed for the following sections and Titles of H.R. 3: Section 911 of the House bill and modifications committed to conference — Messrs. Roe, Walgren, MacKay, Valentine, Brown of California, Scheuer, Lujan, Boehlert, Ritter and Packard; Sections 3852 and 3853 of the Senate amendment, and modifications committed to conference — Messrs. Roe, Walgren, MacKay, Brown of California, Scheuer, Lujan, Morrison of Washington, Ritter, Mrs. Lloyd and Mrs. Morella; Section 3871 of the Senate amendment, and modifications committed to conference — Messrs. Roe, Walgren, MacKay, Brown of California, Scheuer, Lujan, Boehlert, Walker, Sensenbrenner and Mrs. Lloyd; Sections 3881 through 3884 of the Senate amendment, and modifications committed to conference — Messrs. Roe, McCurdy, Glickman, Nelson of Florida, McMillen of Maryland, Hayes of Louisiana, Lujan, Lewis of Florida, Walker and Ritter; Titles XL through XLIV and Sections 4503 through 4505 of the Senate amendment, and modifications committed to conference — Messrs. Roe, Walgren, Brown of California, Scheuer, Glickman, Lujan, Boehlert, Ritter, Mrs. Lloyd and Miss Schneider; Section 4902 of the Senate amendment, and modifications committed to conference — Messrs. Roe, Walgren, Brown of California, Scheuer, Glickman, Lujan, Lewis of Florida, Packard, Buechner and Mrs. Lloyd; Sections 461 through 471 and 904 of the House bill, and Sections 2305, 3801, and 3909 of the Senate amendment, and modifications committed to conference — Messrs. Roe, Walgren, Brown of California, Lujan, and Boehlert; Section 411 of the Senate amendment, and modifications committed to conference — Messrs. Roe, Hall of Texas, Torricelli, Lujan and Sensenbrenner; and Sections 3861 through 3867 of the Senate amendment, and modifications committed to conference — Messrs. Roe, Walgren, Valentine, Lujan and Ritter.

Sep. 18, 1987.—Senate agreed that Conferees Cranston and Gramm have jurisdiction over all issues within Title X.

Oct. 5, 1987.—The Speaker made corrections in the appointment of conferees in the conference on H.R. 3. The Committee conferees on the eighth panel are appointed for consideration of section 412 of the Senate amendment, in lieu of section 411.

Oct. 21, 1987.—Conferees met.

Nov. 5, 10, 1987.—Conferees met.

Apr. 20, 1988.—Conferees agreed.

H.R. 3—Continued

Apr. 20, 1988.—Conference report filed in the House (H.Rept. 100-576).
Apr. 20, 1988.—Committee on Rules meeting. Rule granted; four hours, open.
Apr. 21, 1988.—House agreed to Conference report by the roll call vote (No. 66) of 312 ayes to 107 nays (Cong. Record H2277).
Apr. 22, 25, 26, 1988.—Conference report considered by the Senate (Cong. Record S4540–S4552; S4657–S4687; S4718–S4771).
Apr. 27, 1988.—Senate agreed to the Conference report by the roll call vote (No. 110) of 63 ayes to 35 nays (Cong. Record S4832–S4926).
May 24, 1988.—Received message from the President announcing his veto of H.R. 3 (H. Doc. 100–200).
May 24, 1988.—House voted to override the President's veto by the roll call vote (No. 150) of 308 ayes to 113 nays; clearing the measure for the Senate (Cong. Record H3533–H3553).
May 25, 1988.—Received in the Senate.
June 6, 1988.—Senate began consideration of the President's veto message (Cong. Record S7231–S7257; S7268–S7272).
June 8, 1988.—The Senate, by the roll call vote (No. 169) of 61 ayes to 37 nays (not the required 2/3 of the Senators voting aye) failed to override the veto of the President. A motion to reconsider the vote pending (Cong. Record S7339–S7386).

Provisions incorporated in H.R. 4848, introduced June 16, 1988. For further action, see H.R. 4848.

H.R. 145 **Jan. 6, 1987**

MR. GLICKMAN (FOR HIMSELF), MR. BROOKS, MR. ROE, MR. BROWN OF CALIFORNIA, MR. WALGREN, MR. HORTON, MR. BOEHLERT, MR. WYDEN, MR. HUGHES, MR. BUSTAMANTE, MR. NEAL, MR. EDWARDS OF CALIFORNIA

To provide for a computer standards program within the National Bureau of Standards, to provide for Government-wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes.

(Jointly referred to the Committees on Science, Space, and Technology, and Government Operations)

Hearings printed. No. 8.

Feb. 5, 1987.—Referred jointly to the Subcommittees on Science, Research and Technology and Transportation, Aviation and Materials.
Feb. 26, 1987.—Subcommittees on Science, Research and Technology and Transportation, Aviation and Materials joint hearing held.
Apr. 9, 1987.—Subcommittee on Science, Research and Technology meeting (markup). Ordered bill forwarded to the committee with amendments.
Apr. 29, 1987.—Subcommittee on Transportation, Aviation and Materials meeting (markup). Ordered bill forwarded, with amendments recommended by the Subcommittee on Science, Research and Technology, to the committee.
May 20, 1987.—Committee meeting (markup). Ordered bill reported with amendments.
June 11, 1987.—Report filed in the House (H.Rept. 100–153, Part 1).
June 11, 1987.—Committee on Government Operations report filed in the House (H.Rept.100–153, Part 2).
June 22, 1987.—Passed the House under suspension of the Rules, with amendments (Cong. Record H5339–H5344).
June 23, 1987.—Received in the Senate; Senate concurrence requested.
June 25, 1987.—Held at Senate desk.
Dec. 21, 1987.—Passed the Senate (Cong. Record S18634–H18637).
Dec. 30, 1987.—Presented to the President.
Jan. 8, 1988.—Signed by the President. Public Law 100–235.

H.R. 173 **Jan. 6, 1987**

MR. LAGOMARSINO, MR. ROBERT F. SMITH

To allow the National Aeronautics and Space Administration to accept restricted gifts.

Feb. 5, 1987.—Referred to the Subcommittee on Space Science and Applications.

See H.R. 2782.

H.R. 474 **Jan. 7, 1987**

MR. HUGHES (FOR HIMSELF), MISS SCHNEIDER, MR. LEWIS OF GEORGIA, MR. LAGOMARSINO, MRS. ROUKEMA

Entitled the "Plastic Waste Study Act of 1987".

(Jointly referred to the Committees on Merchant Marine and Fisheries; Science, Space, and Technology; and Energy and Commerce)

Feb. 5, 1987.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.R. 717 **Jan. 22, 1987**

MR. BROWN OF CALIFORNIA

To promote economic competitiveness in the United States, and for other purposes.

(Jointly referred to the Committees on Science, Space, and Technology; Education and Labor; Ways and Means; and Banking, Finance and Urban Affairs)

Feb. 5, 1987.—Referred to the Subcommittee on Science, Research and Technology.

H.R. 737 **Jan. 26, 1987**

MR. DYSON, MR. FOGLIETTA, MR. WILSON OF TEXAS, MR. MAVROULES, MR. MCMILLEN OF MARYLAND, MR. SOLARZ, MR. DWYER OF NEW JERSEY, MR. SAXTON, MR. OLIN, MRS. BENTLEY, MR. MFUME, MR. MORRISON OF CONNECTICUT, MR. TOWNS, MRS. LLOYD, MR. KOLTER, MR. PICKETT, MR. DEFAZIO, MR. MRAZEK, MR. MARTINEZ, MR. OWENS OF NEW YORK, MR. SCHULZE, MR. FEIGHAN, MR. PEPPER, MR. AKAKA, MR. HAWKINS, MR. NEAL, MRS. MEYERS OF KANSAS, MR. MURPHY, MR. HOWARD, MRS. BOXER, MR. BERMAN, MR. BATES, MR. GARCIA, MR. STOKES, MR. PICKLE, MR. PRICE OF NORTH CAROLINA, MR. ROYBAL, MR. DELLUMS, MR. CARDIN, MR. SUNIA, MR. VENTO, MR. HAYES OF ILLINOIS, MR. LEATH OF TEXAS, MR. HOYER, MR. ST GERMAIN, MR. CONYERS, MR. CONTE, MR. FAUNTROY, MR. SAVAGE, AND MR. PANETTA

Relating to the incineration at sea of hazardous waste.

(Jointly referred to the Committees on Merchant Marine and Fisheries, and Science, Space, and Technology)

Feb. 5, 1987.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.R. 790 **Jan. 28, 1987**

MR. DORNAN OF CALIFORNIA, MR. MACK, MR. CAMPBELL, MR. YOUNG OF ALASKA, MR. OXLEY, MRS. BENTLEY, AND MR. GRAY OF ILLINOIS

Entitled the "National Space Policy Act of 1987".

Feb. 5, 1987.—Referred to the Subcommittee on Space Science and Applications.

H.R. 791 **Jan. 28, 1987**

MR. GEJDENSON (FOR HIMSELF), MR. MILLER OF CALIFORNIA, MR. UDALL, MR. LUJAN, MR. LEHMAN OF CALIFORNIA, MR. KILDEE, MRS. BYRON, MR. KOSTMAYER, MR. OWENS OF UTAH, MR. RICHARDSON, MR. DE LUGO, MR. STUDDS, MRS. JOHNSON OF CONNECTICUT, MR. LELAND, MR. HENRY, MR. HAWKINS, MR. FAZIO, MRS. BURTON OF CALIFORNIA, MR. SOLARZ, MR. MOODY, MR. SAXTON, MR. MARTINEZ, MR. LIPINSKI, MR. TALLON, MR. JEFFORDS, MR. MORRISON OF CONNECTICUT, MR. FUSTER, MR. KOLTER, MR. DWYER OF NEW JERSEY, MR. MOAKLEY, MRS. KENNELLY, MR. SMITH OF FLORIDA, MR. WOLPE, MR. TAUKE, MR. WHITTAKER, MR. MCKINNEY, MR. BEILENSON, MR. ATKINS, MR. BUSTAMANTE, MR. SHAW, MR. TOWNS, MR. MRAZEK, MR. MURPHY, MR. HUGHES, MR. MCHUGH, MR. MURTHA, MR. DEFAZIO, MR. SHARP, MR. WELDON, MR. SPRATT, MR. DYSON, MR. KANJORSKI, MR. MCMILLEN OF MARYLAND, MR. TORRES, MR. CAMPBELL, MR. BILBRAY, MR. LEVINE OF CALIFORNIA, MR. TRAFICANT, MR. WEISS, MR. BIAGGI, MR. VENTO, MR. DIXON OF CALIFORNIA, MR. FOGLIETTA, MR. CONYERS, MR. HOCHBRUECKNER, MR. GREGG, MR. TORRICELLI, MR. FEIGHAN, MR. SIKORSKI, MR. FISH, MR. MCGRATH, MR. JONTZ, MR. CONTE, MR. HOWARD, MR. ANDERSON, MR. MINETA, MR. APPLEGATE, MR. SAVAGE, MR. SUNIA, MR. BOSCO, MR. BORSKI, MR. VALENTINE, MR. WISE, MR. GRAY OF ILLINOIS, MR. VISCLOSKY, MR. LANCASTER, MS. SLAUGHTER OF NEW YORK, MR. LEWIS OF GEORGIA, MR. CARDIN, MR. HAYES OF LOUISIANA, MR. GRANT, MR. HAMMERSCHMIDT, MR. SHUSTER, MR. STANGELAND, MR. GINGRICH, MR. CLINGER, MR. MOLINARI, MR. MCEWEN, MR. PETRI, MR. SUNDQUIST, MR. PACKARD, MR. BOEHLERT, MRS. BENTLEY, MR. LIGHTFOOT, MR. HASTERT, MR. INHOFE, MR. BALLENGER, MR. UPTON, MR. CHAPMAN, MR. GALLO, MR. BEREUTER

H.R. 791—Continued

To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

(Sequentially referred to the Committees on Agriculture; Energy and Commerce; Public Works and Transportation; and Science, Space, and Technology for a period ending not later than September 11, 1987, for consideration of such portions of the bill and amendments as fall within the jurisdictions of those committees pursuant to clause 1(a), (h), (p), and (r), Rule X, respectively)

Similar to H.R. 2253.

Hearings printed. No. 59.

June 12, 1987.—Committee on Interior and Insular Affairs report filed in the House (H.Rept. 100–155, Part 1).
June 17, 1987.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.
July 21, 1987.—Subcommittee hearing held.
July 29, 1987.—Sequential referral extended until September 30, 1987.
Sep. 16, 1987.—Subcommittee meeting (markup). Ordered forwarded to the committee with an amendment in the nature of a substitute.
Sep. 29, 1987.—Committee meeting (markup). Ordered bill reported with amendments.
Sep. 30, 1987.—Report filed in the House (H.Rept. 100–15, Part 4).
Sep. 30, 1987.—Committee on Energy and Commerce report filed in the House (H.Rept. 100–155, Part 2).
Sep. 30, 1987.—Committee on Public Works and Transportation report filed in the House (H.Rept. 100–155, Part 3).
Sep. 30, 1987.—Committee on Agriculture report filed in the House (H.Rept. 100–155, Part 5).
Nov. 30, 1987.—Committee on Rules hearing requested.
Dec. 1, 1987.—Committee on Rules hearing; Rule granted providing for 2-1/2 hours of debate. The Rule makes in order the text of H.R. 3676 as original text for the purposes of amendment (H. Res. 318).
Dec. 2, 1987.—Passed the House by the roll call vote (No. 449) of 399 ayes to 15 nays, after agreeing to (1) the Foley amendment in the nature of a substitute (text of H.R. 3676); (2) the Lujan amendment that reduces the appropriations authorization for water resource activities by $19 million over 3 fiscal years; (3) the Miller of California amendment specifying that EPA contracting authority provided in the bill is limited to amounts provided in advance of appropriation Acts; and (4) the Solomon amendment that provides for a study of the impact on groundwater and agricultural interests over proposals to dredge sediments containing PCBs from the Hudson River and the disposal of the sediments on land. H.Res. 318, the Rule under which the bill was considered was adopted by voice vote (Cong. Record H10801–H10841).
Dec. 4, 1987.—received in the Senate and referred to the Committee on Environment and Public Works.
Sep. 30, 1988.—Report filed in the Senate (S.Rept. 100–567).
Oct. 7, 1988.—Passed the Senate after agreeing to a committee amendment in the nature of a substitute, and Byrd (for Burdick) amendment No. 3638, of a technical nature (Cong. Record S155209; S15337–S15368).
Oct. 12, 1988.—House concurrence requested.

H.R. 812 **Jan. 28, 1987**

MR. WALGREN (FOR HIMSELF) AND MR. BOEHLERT, MR. PERKINS, MR. BIAGGI, MR. FAWELL, MR. CHAPMAN, MR. BARNARD, MR. RITTER, MR. ATKINS, MR. FRENZEL, MR. ROE, MR. BROWN OF CALIFORNIA, MR. CLINGER, MR. BUECHNER, MR. HUTTO, MR. TOWNS, MR. HUGHES, MR. LEHMAN OF FLORIDA, MISS SCHNEIDER, MR. HAMILTON, MR. SMITH OF FLORIDA, MS. KAPTUR, MR. FASCELL, MR. MACKAY, MR. FEIGHAN, MR. EMERSON, MR. PEPPER, MR. BILIRAKIS, MR. NELSON OF FLORIDA, MR. BENNETT, MR. LEWIS OF FLORIDA, MR. MARTINEZ, MR. MINETA, MR. IRELAND, MR. MICA, MR. SKAGGS, MR. FISH, MS. SAIKI, MR. HYDE, MR. GRANT, MR. BRUCE

To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

Hearings printed. No. 5.

Feb. 5, 1987.—Referred to the Subcommittee on Science, Research and Technology.
Mar. 4, 1987.—Subcommittee hearing held.
Mar. 17, 1987.—Subcommittee meeting (markup). Ordered measure forwarded to the committee with amendments.
May 13, 1987.—Committee meeting (markup). Ordered bill reported with amendments.
May 18, 1987.—Report filed in the House (H.Rept. 100–96).
June 8, 1987.—Passed the House under suspension of the Rules, with amendments; in addition, agreed to amend the title (Cong. Record H4266–H4269).
June 11, 1987.—Received in the Senate; Senate concurrence requested.
June 11, 1987.—Referred to the Senate Committee on Commerce, Science and Transportation.
July 28, 1987.—Senate Committee on Commerce, Science and Transportation ordered measure favorably reported (as approved by the Committee, the bill establishes the Malcolm Baldrige Quality Award).
Aug. 4, 1987.—Senate Committee on Commerce, Science and Transportation report filed in the Senate (S.Rept. 100–143).
Aug. 5, 1987.—Passed the Senate after agreeing to a Committee amendment in the nature of a substitute, and to amend the title (Cong. Record H4266–H4269).
Aug. 7, 1987.—House agreed to the amendments of the Senate, clearing the measure for the President (Cong. Record H7341–H7344).
Aug. 10, 1987.—Presented to the President.
Aug. 20, 1987.—Signed by the President. Public Law 100–107.

H.R. 942 **Feb. 3, 1987**

MR. TRAFICANT

To prohibit further launches of the space shuttle until improved safety features have been developed and installed.

Feb. 6, 1987.—Referred to the Subcommittee on Space Science and Applications.

H.R. 1155 **Feb. 19, 1987**

MR. MICHEL (FOR HIMSELF), MR. LOTT, MR. LEWIS OF CALIFORNIA, MRS. MARTIN OF ILLINOIS, MR. LAGOMARSINO, MR. VANDER JAGT, MR. FISH, MR. BROOMFIELD, MR. LUJAN, MR. LENT, MR. FRENZEL, MR. GRADISON, MR. MOORHEAD, MR. ARCHER, MR. CHANDLER, MR. ROTH OF WISCONSIN, MR. NIELSON OF UTAH, MISS SCHNEIDER, MR. OXLEY, MR. COATS, MR. SCHAEFER, MR. IRELAND, MR. JEFFORDS, MR. WYLIE, MR. MADIGAN, MR. DAUB, MR. WHITTAKER, MR. SUNDQUIST, MR. STANGELAND, MR. BOEHLERT, MR. KOLBE

Entitled, "The Trade, Employment, and Productivity Act of 1987".

(Jointly referred to the Committees on Education and Labor; Ways and Means; Science, Space, and Technology; Judiciary; Government Operations; Energy and Commerce; Public Works and Transportation; Merchant Marine and Fisheries; Banking, Finance and Urban Affairs; and Foreign Affairs)

Hearings printed. No. 13.

Feb. 26, 1987.—Referred to the Subcommittee on Science, Research and Technology.
Feb. 19, 25; Mar. 11, 1987.—Subcommittee hearings held on Title II, the Administration's request for the National Science Foundation.

For more information on Title II of H.R. 1155, see H.R. 2330.

H.R. 1414 **Mar. 4, 1987**

MR. UDALL

To amend the Price-Anderson provisions of the Atomic Energy Act of 1954 to extend and improve the procedures for liability and indemnification for nuclear incidents.

(Referred on May 21, 1987, for a period ending not later than July 20, 1987, of such portions of the bill and amendments as fall within the jurisdiction of the committee pursuant to clause 1(h), Rule X, and to the Committee on Science, Space, and Technology for consideration of such portions of the bill and amendments, except sections 2 and 15 thereof, as fall within the jurisdiction of the committee, pursuant to clause 1(r), Rule X.

Hearings printed. No. 30.

May 29, 1987.—Referred to the Subcommittee on Energy Research and Development.
June 17, 1987.—Subcommittee hearing held.
June 24, 1987.—Subcommittee meeting (markup). Ordered measure forwarded to the committee with amendments.
July 20, 1987.—Sequential referral to Committees on Energy and Commerce and Science, Space, and Technology extended until July 22, 1987.
July 22, 1987.—Committee meeting held (markup). Ordered bill reported with amendments.
July 22, 1987.—Report filed in the House (H.Rept. 100-104, Part 2).
July 22, 1987.—Committee on Energy and Commerce report filed in the House (H.Rept. 100-104, Part 3).
July 28, 1987.—Committee on Rules hearing. Rule granted: two-hours; open.
July 29, 1987.—House completed all general debate and began reading for amendment H.R. 1414, but came to no resolution thereon, after having rejected: (1) the Eckart amendment that sought to remove the limit on liability of the nuclear power industry (Roll Call Vote No. 289 of 119 ayes to 300 nays); and (2) the Wyden amendment that sought to establish a system of penalties for contractors who violate Department of Energy nuclear safety regulations and to permit the Attorney General to sue Energy Department contractors in court in the event of an accident caused by the gross negligence or willful misconduct of the contractor's top corporate officials (Roll Call Vote No. 290 of 193 ayes to 226 nays). A point of order against this amendment was overruled. (Cong. Record H6748-H6758; H6764-H6792).
July 30, 1987.—Passed the House (Roll Call Vote No. 293 of 396 ayes to 17 nays), after having rejected: (1) the Lujan motion to recommit the bill to the 3 committees of jurisdiction; agreed to: (1) an amendment in the nature of a substitute made in order by the rule (text of H.R. 2994); rejected the following amendments: (1) the Sikorski amendment that sought to provide that a court may not authorize the payment of legal costs unless it was determined that such payments would be equitable, would not jeopardize the compensation of victims, and would reimburse only reasonably incurred legal expenses (Roll Call Vote No. 292 of 183 ayes to 230 nays); (2) the Walgren amendment that sought to require Energy Department contractors involved in the transportation of high-level nuclear waste to maintain the maximum available amount of commercial insurance coverage and to permit the Justice Department to sue a waste transportation contractor in court in the event of an accident caused by the bad faith, willful misconduct or gross negligence of any of the contractor's corporate officers, managers, or supervisors, (by division vote of 4 ayes to 13 nays); (3) the Gekas amendment that sought to authorize a regulatory authority to exclude any or all of amounts paid by a utility for a deferred premium from the rates it would otherwise charge its customers; and (4) the Crane amendment that sought to strike language establishing the Presidential Commission on Catastrophic Nuclear Accidents (Cong. Record H6815-H6839).
July 31, 1987.—Received in the Senate; placed on Senate calendar.
Mar. 16, 1988.—Senate began consideration of H.R. 1414, taking action on the amendments proposed thereto, as follows: Adopted: (1) by unanimous vote of 94 ayes (No. 54), the Johnston-Metzenbaum modified amendment No. 1664, to impose civil and criminal penalties for violations of Department of Energy regulations; (2) Johnston amendment No. 1668, to make

H.R. 1414—Continued

changes to conform with provisions of existing law and to delete provisions that would remove the limitation on liability for accidents involving nuclear waste; (3) Breaux amendment No. 1669, to encourage the continued use and availability of radioisotopes for medical purposes; (4) McClure amendment No of compensation plans submitted to Congress following a catastrophic nuclear accident; (5) N requiring the Department of Energy to enter into indemnification agreements under subsection 170(d) with all contractors engaging in activities involving a nuclear risk; (6) McClure modified amendment No. 1674, to extend the indemnification authority under the Price-Anderson Act for 30 years, until August 1, 2017, and to require the Nuclear Regulatory Commission to report to Congress by August 1, 2013, and the Secretary of Energy by August 1, 1997, and every 10 years thereafter, on the need for modifications to the Price-Anderson provisions; and (7) Johnston amendment No. 1675, to provide Price-Anderson coverage when the Secretary undertakes work involving nuclear waste. Rejected: (1) Metzenbaum modified amendment No. 1665, to require recovery of funds paid by the United States to a Federal contractor indemnified if such person was guilty of gross negligence or willful misconduct the amendment.); (2) Bumpers amendment No. 1667 (to amendment No. 1665), of a perfecting nature (amendment defeated by Vote No. 55); (3) by 21 ayes to 72 nays (Vote No. 56), Breaux amendment No. 1670, to increase the amount of financial protections available to compensate persons injured as a result of a nuclear incident at a commercial nuclear power plant. Withdrawn: (1) Bumpers amendment No. 1666 (to amendment No. 1665), of a perfecting nature, to modify the liability provisions; (2) McClure amendment No. 1673, to provide that the Department of Energy funds indemnifying contractors will be the exclusive source of payments for public liability where such liability does not exceed the aggregate limit on liability established under the Price-Anderson Act; and a unanimous consent agreement was reached providing for further consideration of the bill and amendments proposed thereto.

Mar. 17, 1988.—Senate continued consideration of H.R. 1414, taking action on further amendments proposed thereto. Adopted: (1) by 45 ayes to 36 nays (Vote No. 58), McClure amendment No. 1678, to extend the indemnification authority under the Price- until August 1, 2017, and to require the Nuclear Regulatory Commission to report to Congress by August 1, 2013, and the Secretary of Energy by August 1, 1997, and every 10 years thereafter, on the need for modifications to the Price-Anderson Act provisions; (2) by 50 ayes to 34 nays (Vote No. 57), Breaux amendment No. 1679 (to amendment No. 1678), in the nature of a substitute, to extend the indemnification authority under the Price-Anderson Act for 20 years, until August 1, 2007, and to require the reports to Congress by the Secretary of Energy by August 1, 1993, and August 1, 2003, on the need for modifications to the Price-Anderson Act provisions. Vitiated: McClure modified amendment No. 1674, to extend the indemnification authority under the Price- and to require the Nuclear Regulatory Commission to report to Congress by August 1, 1997, and every 10 years thereafter, on the need for modifications to the Price-Anderson Act provisions, which was agreed to March 16, 1988, that action was vitiated. Pending: Glenn-Roth amendn board to ensure the safety of Department of Energy nuclear facilities, to apply the provisions of OSHA to certain Department of Energy nuclear facilities, and to ensure independent research on the effects of radiation on human beings.

Mar. 18, 1988.—The Senate passed H.R. 1414, after taking action on the following proposed amendment: Rejected: the Glenn-Roth amendment No. 1677, to create an independent oversight board to ensure the safety of Department of Energy nuclear facilities, to apply the provisions of OSHA to certain Department of Energy nuclear facilities, and to ensure independent research on the effects of radiation on human beings. (By 48 ayes to 43 nays (Vote No. 62), the Senate tabled the amendment.

Mar. 28, 1988.—House concurrence requested.

July 8, 1988.—Committees on Energy and Commerce, and Merchant Marine and Fisheries request Committee on Rules hearing.

July 11, 1988.—Committee on Science, Space, and Technology requests that Committee on Rules hearing be postponed until the Committee is able to study the impact of and seek understanding of the new Section 234A (Civil Monetary Penalties for Violations of Department of Energy Regulations) in Section 17 of the Senate-passed version of H.R. 1414. The request was granted.

July 13, 1988.—Comments requested on Section 17 from the Department of Energy.

July 26, 1988.—Department of Energy comments received: unfavorable.

July 27, 1988.—Committee on Rules hearing. Rule granted: one-hour, closed.

Aug. 2, 1988.—House agreed to the Udall motion to agree, with an amendment to the Senate amendment numbered 16 by the roll call (No. 251) vote of 346 ayes to 54 nays; and to disagree to the Senate amendments numbered 1 through 15, returning the bill to the Senate. The Rule providing for consideration of the Senate amendments was agreed to by voice vote (Cong. Record H6113-H6134).

Aug. 5, 1988.—The Senate passed H.R. 1414 after receding from its amendments 1 through 15, and concurring in the amendment of the House to its amendment numbered 16; clearing the bill for the President (Cong. Record S10929-S10935).

Aug. 11, 1988.—Presented to the President.

Aug. 20, 1988.—Signed by the President. Public Law 100-408.

H.R. 1425 — **Mar. 5, 1987**

MR. GEPHARDT (FOR HIMSELF), MR. KASTENMEIER, MR. EVANS OF ILLINOIS, MR. TOWNS, MR. LELAND, MR. FROST, MR. OBERSTAR, MR. OBEY, MR. MOODY, MR. JONTZ, MR. WILLIAMS, MR. BRYANT, MR. KOLTER, MR. ALEXANDER, MR. WATKINS, MR. MURPHY, MR. SABO, MR. SAVAGE, MR. CONYERS, MR. DELLUMS, MR. SIKORSKI, MR. OWENS OF NEW YORK, MR. HAYES OF ILLINOIS, MR. LIPINSKI, MR. CLAY, MR. FORD OF MICHIGAN, MR. MOAKLEY, MR. DORGAN OF NORTH DAKOTA, MR. GARCIA, MR. GRAY OF ILLINOIS, MR. FAUNTROY, MR. PERKINS, MR. MFUME, MR. LEWIS OF GEORGIA, MR. JOHNSON OF SOUTH DAKOTA, MR. RANGEL, MR. VOLKMER, MR. DYMALLY, MS. PELOSI

To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

(Jointly referred to the Committees on Agriculture; Ways and Means; Education and Labor; Science, Space, and Technology; Banking, Finance and Urban Affairs; and Foreign Affairs)

Mar. 16, 1987.—Referred to the Subcommittee on Science, Research and Technology.

H.R. 1510 — **Mar. 10, 1987**

MR. KASTENMEIER, MR. MOORHEAD, MR. BERMAN, MR. CARDIN, MR. SLAUGHTER OF VIRGINIA, MR. COBLE, AND MR. HUGHES

To amend title 35, United States Code, and the National Aeronautics and Space Act of 1958, with respect to the use of inventions in outer space.

(Jointly referred to the Committees on Judiciary, and Science, Space, and Technology)

Identical to and supersedes H.R. 1521.

Mar. 12, 1987.—Referred to the Subcommittee on Space Science and Applications.
Apr. 7, 1987.—Report received from the National Aeronautics and Space Administration; favorable.
Apr. 9, 1987.—Committee on the Judiciary report filed in the House (H.Rept. 100-51, Part 1).
Oct. 3, 1988.—Committee meeting (markup). Ordered bill reported without amendments.
Oct. 3, 1988.—Report filed in the House H.Rept. 100-51, Part 2).
Oct. 5, 1988.—Passed the House, amended (Cong. Record H9669-H9671).
Oct. 5, 1988.—Received in the Senate; Senate concurrence requested.
Oct. 6, 1988.—Referred to the Senate Committee on the Judiciary.

H.R. 1513 — **Mar. 10, 1987**

MR. LEWIS OF FLORIDA, MR. SHAW, MR. BENNETT, MR. NELSON OF FLORIDA, MR. HUTTO, MR. PEPPER, MR. GRANT, MR. FASCELL, MR. YOUNG OF FLORIDA

To direct the Administrator of the Environmental Protection Agency to develop and demonstrate a water resources-aquatic plant management project and to provide grants for scientific research to support such project.

Mar. 18, 1987.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.R. 1517 — **Mar. 10, 1987**

MR. PACKARD (FOR HIMSELF), MR. LOWERY OF CALIFORNIA, MR. ROWLAND OF GEORGIA, MRS. JOHNSON OF CONNECTICUT, MR. MOORHEAD, MR. DORNAN OF CALIFORNIA, MR. LEWIS OF CALIFORNIA, MR. DANNEMEYER, MR. SENSENBRENNER, MR. SUNDQUIST, MR. GRAY OF ILLINOIS, MR. SUNIA, MR. LAGOMARSINO, MR. LUNGREN, MR. CRAIG, MR. HOLLOWAY, MR. LEWIS OF GEORGIA, MRS. BENTLEY, MR. MACKAY, MR. BEILENSON, MR. WHITTAKER, MR. BURTON OF INDIANA, MR. PORTER, MR. KONNYU, MR. BADHAM, MR. SHUMWAY, MR. GARCIA, MR. DREIER OF CALIFORNIA, MR. DEWINE, MR. ROE, MR. YOUNG OF ALASKA, MR. SLAUGHTER OF VIRGINIA, MR. HUNTER, MR. MCCANDLESS, MR. STRATTON, MR. BARTLETT, MR. STANGELAND, MS. MORELLA, MR. FAWELL, MR. LIPINSKI, MR. MCCOLLUM, MR. BALLENGER, MR. MOLINARI, MR. TOWNS, MR. TORRICELLI, MR. OWENS OF UTAH, MR. SMITH OF NEW JERSEY, MR. CONYERS, MR. EDWARDS OF OKLAHOMA, MR. ECKART, MR. SKAGGS, MR. STOKES, MR. DAUB, MR. VALENTINE, MR. MCMILLAN OF NORTH CAROLINA, MR. HUGHES, MR. JOSEPH KENNEDY, MRS. COLLINS, MS. SLAUGHTER OF NEW YORK, MR. KOSTMAYER, MR. BOEHLERT, MR. SHUSTER, MR. PETRI, MR. LIGHTFOOT, MR. KOLTER, MR. CHAPMAN, MR. INHOFE, MR. DEFAZIO, MR. CARDIN, MR. BOSCO, MR. ALEXANDER, MR. BORSKI, MRS. ROUKEMA, MR. KOLBE, MR. MARKEY, MR. BEREUTER, MR. BUECHNER, MR. HAMMERSCHMIDT, MR. HENRY, MRS. MEYERS OF KANSAS, MR. GRANT, MR. ORTIZ, MR. SHAW, MR. MINETA, MR. APPLEGATE, MR. FOGLIETTA, MR. RITTER

To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

(Jointly referred to the Committees on Public Works and Transportation, and Science, Space, and Technology)

Hearings printed. No. 67.

H.R. 1517—Continued

Mar. 16, 1987.—Referred to the Subcommittee on Transportation, Aviation and Materials.
Aug. 7, 1987.—Committee on Public Works and Transportation report filed in the House (H.Rept. 100–286, Part 1).
Sep. 9, 1987.—Subcommittee hearing held.
Sep. 9, 1987.—Subcommittee meeting (markup). Ordered bill forwarded to the committee with an amendment in the nature of a substitute reflecting the recommendations of the Committee on Public Works and Transportation.
Sep. 29, 1987.—Committee meeting (markup). Ordered bill reported with an amendment in the nature of a substitute.
Oct. 6, 1987.—Report filed in the House (H.Rept. 100–286, Part 2).
Nov. 3, 1987.—Passed the House, as amended, under Suspension of the Rules, by the roll call vote (No. 405) of 405 ayes to 4 nays (Cong. Record H9842–H9490).
Nov. 4, 1987.—Received in the Senate.
Nov. 4, 1987.—Referred to the Committee on Commerce, Science and Transportation.
Dec. 15, 1987.—Provisions of H.R. 1517 became sec. 203 of the Conference Report (H.Rept. 100–484) for H.R. 2310, the Airport and Airway Improvement Amendments Act of 1987.

See H.R. 2310.

H.R. 1521 **Mar. 10, 1987**

MR. ROE (FOR HIMSELF) AND MR. NELSON OF FLORIDA

To amend title 35, United States Code, and the National Aeronautics and Space Act of 1958, with respect to the use of inventions in outer space.

(Jointly referred to the Committees on Judiciary, and Science, Space, and Technology)

Identical to H.R. 1510.

Mar. 16, 1987.—Referred to the Subcommittee on Space Science and Applications.
Apr. 7, 1987.—Report received from the National Aeronautics and Space Administration; favorable.

Superseded by H.R. 1510.

H.R. 1522 **Mar. 10, 1987**

MR. ROE (BY REQUEST)

To authorize appropriations for activities under the Federal Fire Prevention and Control Act of 1974.

Administration proposal, No. 725.

Hearings printed. No. 16.

Mar. 5, 1987.—Subcommittee on Science, Research and Technology hearing held prior to introduction.
Mar. 13, 1987.—Referred to the Subcommittee on Science, Research and Technology.
Mar. 17, 1987.—Subcommittee meeting (markup). Ordered measure forwarded to the committee with amendments.
May 13, 1987.—Committee meeting (markup). Ordered bill reported with amendments.
May 21, 1987.—Report filed in the House (H.Rept. 100–103).
June 8, 1987.—Passed the House under suspension of the Rules, with amendments (Cong. Record H4269–H4272).
June 9, 1987.—Received in the Senate; Senate concurrence requested.
June 9, 1987.—Referred to the Senate Committee on Commerce, Science and Transportation.

H.R. 1523 **Mar. 10, 1987**

MR. ROE (BY REQUEST)

To authorize appropriations for environmental research, development, and demonstration for fiscal years 1988 and 1989.

Administration proposal, No. 755.

Mar. 12, 1987.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.R. 1612 **Mar. 16, 1987**

MR. ROE (BY REQUEST)

To authorize appropriations under the Earthquake Hazards Reduction Act of 1977 for fiscal years 1988 and 1989.

(Jointly referred to the Committees on Science, Space, and Technology, and Interior and Insular Affairs)

Administration proposal, No. 835.

Hearings printed. No. 14.

Mar. 10, 1987.—Subcommittee on Science, Research and Technology hearing held prior to introduction.
Mar. 17, 1987.—Referred to the Subcommittee on Science, Research and Technology.
Mar. 17, 1987.—Subcommittee meeting (markup). Ordered measure forwarded to the committee with amendments.
May 12, 1987.—Committee on Interior and Insular Affairs report filed in the House (H.Rept. 100–89, Part 1).
May 13, 1987.—Committee meeting (markup). Ordered bill reported with amendments.
May 21, 1987.—Report filed in the House (H.Rept. 100–89, Part 2).
June 8, 1987.—Passed the House under suspension of the Rules, with amendments; in addition, agreed to amend the title (Cong. Record H4272–H4276).
June 9, 1987.—Received in the Senate; Senate concurrence requested.
June 9, 1987.—Referred to the Senate Committee on Commerce, Science, and Transportation.
Dec. 9, 1987.—Report filed in the Senate (S.Rept. 100–239).
Dec. 22, 1987.—Passed the Senate after agreeing to a Committee amendment in the nature of a substitute, and Byrd (for Hollings) amendment No. 1379, in the nature of a substitute.
Dec. 22, 1987.—Received in the House; House concurrence requested.
Feb. 16, 1988.—House agreed to Senate amendment, clearing measure for the President (Cong. Record H305–H308).
Feb. 19, 1988.—Presented to the President.
Feb. 29, 1988.—Signed by the President. Public Law 100–252.

H.R. 1615 **Mar. 16, 1987**

MR. BROWN OF CALIFORNIA (FOR HIMSELF), MR. OWENS OF NEW YORK, MR. SOLARZ, MR. BONER OF TENNESSEE, MR. GARCIA, MRS. BOXER, MR. HUGHES, MR. ATKINS, MR. CLAY

To establish the Government Information Agency to enhance the economic, scientific, and technological position of the United States by acquiring, processing, and distributing the fruits of federally-performed and federally-sponsored research, development, and analysis, and for other purposes.

(Jointly referred to the Committees on Government Operations; Rules; and Science, Space, and Technology)

Hearings printed. No. 36.

Mar. 20, 1987.—Referred to the Subcommittee on Science, Research and Technology.
June 24, 1987.—Reports requested from the following agencies: NASA; Department of Labor; National Science Foundation; Department of Commerce; Department of Defense; Department of Energy; Department of Health and Human Services; Department of Agriculture; Office of Management and Budget; Office of Science and Technology Policy; National Commission on Libraries and Information Science; Government Printing Office; Environmental Protection Agency; and the Smithsonian Institution.
July 14, 15, 1987.—Subcommittee hearings held.
July 29, 1987.—Report received from NASA: unfavorable.
Aug. 7, 1987.—Report received from the Central Intelligence Agency: unfavorable.
Sep. 22, 1987.—Report received from Department of Agriculture: unfavorable.
Oct. 6, 1987.—Report received from the Environmental Protection Agency: unfavorable.

H.R. 1621 **Mar. 16, 1987**

MR. GLICKMAN, MR. WALGREN, MR. BEILENSON, MR. MOLLOHAN, MR. DE LA GARZA, MR. TAUKE, MR. LEWIS OF GEORGIA, MR. SOLARZ, MR. SMITH OF FLORIDA, MR. GARCIA, MR. LEWIS OF FLORIDA, MR. OWENS OF NEW YORK, MR. ATKINS

To direct the Secretary of Transportation, in consultation with the National Research Council, National Academy of Sciences, and National Academy of Engineers, to carry out certain highway research.

(Jointly referred to the Committees on Public Works and Transportation, and Science, Space, and Technology)

Mar. 19, 1987.—Referred to the Subcommittee on Transportation, Aviation and Materials.

H.R. 1627 — **Mar. 16, 1987**

MR. ROE (BY REQUEST)

To amend title II of the Marine Protection, Research, and Sanctuaries Act of 1972, as amended, to authorize appopriations for fiscal years 1988 and 1989.

(Jointly referred to the Committees on Science, Space, and Technology, and Merchant Marine and Fisheries)

Administration proposal, No. 753.

Mar. 18, 1987.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.R. 1633 — **Mar. 17, 1987**

MR. ANDREWS (FOR HIMSELF), MR. BARTON OF TEXAS, MR. HALL OF TEXAS, MR. CHAPMAN, MR. MINETA, MS. MORELLA, MR. GORDON, MR. MCMILLEN OF MARYLAND, MR. PERKINS, MR. BUSTAMANTE, MR. MRAZEK, MR. SANDER LEVIN, MR. HARRIS, MR. BROWN OF CALIFORNIA, MRS. BENTLEY, MR. SUNIA, MR. LAGOMARSINO, MR. LANCASTER, MR. TOWNS, MR. DARDEN, MR. BUECHNER, MR. ESPY, MR. BRYANT, MR. DE LUGO

To establish a National Space Grant College and Fellowship Program.

Mar. 23, 1987.—Referred to the Subcommittee on Space Science and Applications.

The intent of the provisions of H.R. 1633, as incorporated within H.R. 2782, enacted pursuant to Title II, P.L. 100-147, the National Aeronautics and Space Administration Authorization, 1988, on October 30, 1987.

H.R. 1650 — **Mar. 17, 1987**

MR. JEFFORDS

To establish a Trade Development Investment Trust Fund to provide funds for efforts to improve the United States competitiveness in international trade, and for other purposes.

(Jointly referred to the Committees on Education and Labor; Ways and Means; and Science, Space, and Technology)

Mar. 23, 1987.—Referred jointly to the Subcommittees on Science, Research and Technology and International Scientific Cooperation.

H.R. 1733 — **Mar. 19, 1987**

MR. MINETA, MR. ATKINS, MRS. BOXER, MR. BROWN OF CALIFORNIA, MR. BUSTAMANTE, MR. CHAPMAN, MR. EDWARDS OF CALIFORNIA, MR. FAUNTROY, MR. GARCIA, MR. GRAY OF ILLINOIS, MR. LEVINE OF CALIFORNIA, MR. LEWIS OF GEORGIA, MR. LOWRY OF WASHINGTON, MR. MRAZEK, MISS SCHNEIDER, MR. BERMAN, MR. CARPER, MR. OWENS OF NEW YORK, MR. TORRES, MR. TOWNS, MR. KOLTER, MR. MARTINEZ, MR. SMITH OF FLORIDA

To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.

Mar. 31, 1987.—Referred to the Subcommittee on Space Science and Applications.

The intent of the provisions of H.R. 1733, as incorporated within H.R. 2782, enacted pursuant to Title I, Sec. 105, P.L. 100-147, the National Aeronautics and Space Administration Authorization, 1988, on October 30, 1987.

H.R. 1739 — **Mar. 19, 1987**

MR. ROE (BY REQUEST)

To authorize appropriations for carrying out the National Climate Program for fiscal years 1988 and 1989.

Administration proposal, No. 898.

Mar. 24, 1987.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.R. 1740 — **Mar. 19, 1987**

MR. ROE (BY REQUEST)

To authorize appropriations for the fiscal years 1988 and 1989 for the Office of Commercial Space Transportation of the Department of Transportation.

Administration proposal, No. 644.

Mar. 24, 1987.—Referred to the Subcommittee on Space Science and Applications.

The provisions of H.R. 1740 were provided for pursuant to Sec. 213 of S. 2209 (H.R. 4561), and enacted as P.L. 100-685, the National Aeronautics and Space Administration Authorization, 1989, on November 17, 1988.

H.R. 1741 **Mar. 19, 1987**

MR. ROE (BY REQUEST)

To authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes.

Administration proposal, No. 938.

Hearings printed, Nos. 20, 35, 43.

Feb. 5, 1987.—Committee posture hearing held prior to introduction.
Mar. 31, 1987.—Referred jointly to the Subcommittees on Space Science and Applications and Transportation, Aviation and Materials.
Feb. 24, 25; Mar. 3, 5, 10, 11, 18, 1987.—Subcommittee on Space Science and Applications hearings held prior to introduction.
Mar. 19, 1987.—Subcommittees on Space Science and Applications and Transportation, Aviation and Materials joint hearing held.
Mar. 10, 11, 17, 1987.—Subcommittee on Transportation, Aviation and Materials hearings held prior to introduction.
Mar. 31; Apr. 8, 1987.—Subcommittee on Space Science and Applications hearings held.
Apr. 29, 1987.—Subcommittee on Transportation, Aviation and Materials meeting (markup). Ordered bill forward to the committee with amendments.
May 6, 1987.—Subcommittee on Space Science and Applications hearing held.
May 12, 1987.—Subcommittee on Space Science and Applications meeting (markup). Began consideration.
June 24, 1987.—Subcommittee on Space Science and Applications meeting (markup). Ordered clean bill, incorporating actions of the Subcommittee on Transporation, Aviation and Materials and reflecting the recommendations of the Subcommittee on Space Science and Applications, to be introduced for committee consideration.

Superseded by H.R. 2782.

H.R. 1777 **Mar. 25, 1987**

MR. MICA, MRS. SNOWE (BY REQUEST)

To authorize appropriations for fiscal years 1988 and 1989 for the Department of State, the United States Information Agency, the Voice of America, the Board for International Broadcasting, and for other purposes.

Retained at Committee level.

June 23, 1987.—Passed the House.
Oct. 8, 1987.—Passed the Senate by the roll call vote of 85 ayes to 8 nays, after striking all after the enacting clause and inserting in lieu thereof the text of S. 1394, the Senate companion measure, after taking action on additional amendments proposed thereto (Cong. Record S13825–S13875).
Oct. 8, 1987.—The Senate insisted on its amendments; requested a conference with the House and appointed as conferees: Senators Pell, Biden, Sarbanes, Helms, and Lugar (Cong. Record S13875).
Oct. 20, 1987.—House agreed to a conference and appointed as conferees from the Committee on Science, Space, and Technology for consideration of sections 401 through 404, including the provisions of H.R. 3497, "To require the President to take appropriate actions domestically and internationally to establish a Global Change Research Program aimed at understanding the cumulative impacts of man on his environment.": Messrs. Roe, Scheuer, Hall, Lujan and Sensenbrenner.
Dec. 2, 3, 1987.—Conferees met.
Dec. 14, 1987.—Conference Report filed in the House (H.Rept. 100–475), which includes the provisions of H.R. 3497 as Title XI, secs. 1101–1106.
Dec. 15, 1987.—Conference Report agreed to in the House by the roll call vote (No. 481) of 366 ayes to 49 nays; clearing the measure for the Senate (Cong. Record H11420–H11431).
Dec. 16, 1987.—Senate agreed to the Conference Report (Cong. Record S18185–S18198).
Dec. 22, 1987.—Presented to the President.
Dec. 22, 1987.—Signed by the President. Public Law 100–204.

H.R. 1905 — **Apr. 1, 1987**

MR. ROE (FOR HIMSELF), MR. WALGREN, MR. BROWN OF CALIFORNIA, MR. BOEHLERT, MR. VOLKMER, MR. NELSON OF FLORIDA, MR. HALL OF TEXAS, MR. MINETA, MR. BOUCHER, MR. TRAFICANT, MR. HAMILTON, MR. DWYER OF NEW JERSEY, MS. OAKAR, MR. LEHMAN OF CALIFORNIA, MR. ANDREWS, MR. GRAY OF ILLINOIS, MR. VALENTINE, MR. WILLIAMS, MR. SABO, MR. PRICE OF NORTH CAROLINA, MR. DE LUGO, MR. MACKAY, MR. SMITH OF TEXAS, MR. HUGHES, MR. HOUGHTON, MR. FEIGHAN, MRS. BENTLEY, MR. SMITH OF IOWA, MR. LANCASTER, MR. SKAGGS, MR. BRUCE, MR. MARTINEZ

To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

Hearings printed. No. 55.

Apr. 6, 1987.—Referred to the Subcommittee on Science, Research and Technology.
June 25, 1987.—Committee hearing held.

Similar provisions incorporated within H.R. 4418, the National Science Foundation Authorization Act for FY's 1989 and 1990; and enacted as Title II, P.L. 100-570, the National Science Foundation Authorization Act of 1988, on October 31, 1988.

H.R. 1964 — **Apr. 7, 1987**

MR. BROWN OF CALIFORNIA (FOR HIMSELF) AND MR. RITTER

To amend the Metric Conversion Act of 1975 to increase the use of the metric system in Government programs.

Apr. 14, 1987.—Referred to the Subcommittee on Science, Research and Technology.
Apr. 28, 1987.—Subcommittee hearing held.

Superseded by Title VI of H.R. 2916, and subsequently became section 5164 of H.R. 4848, the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100–418).

H.R. 2036 — **Apr. 9, 1987**

MR. BATES (FOR HIMSELF), MR. SCHEUER, MR. WAXMAN, MR. EDWARDS OF CALIFORNIA, MR. LELAND, MR. SIKORSKI, MR. ECKART, MR. BEILENSON, MR. TRAFICANT, MR. MCCLOSKEY, MR. PEASE, MR. FAZIO, MR. CLINGER, MR. JEFFORDS, MR. LAFALCE, MR. JACOBS, MR. FRANK, MR. VENTO, MR. ROYBAL, MR. STUDDS, MS. OAKAR, MR. ATKINS, MR. FOGLIETTA, MR. WOLPE, MR. LEWIS OF GEORGIA, MR. DEFAZIO, MS. PELOSI, MR. RÓDINO, MR. TOWNS, MR. LOWRY OF WASHINGTON, MR. MFUME, MR. TALLON, MR. FAWELL, MR. FAUNTROY, MR. FISH, MR. DYSON, MR. LIPINSKI, MR. BROWN OF CALIFORNIA, MR. GEPHARDT, MR. GLICKMAN, MR. STARK, MR. ALEXANDER, MR. MRAZEK, MR. AUCOIN, MR. FORD OF TENNESSEE, MR. BRYANT, MR. DELLUMS, MRS. SCHROEDER, MR. ASPIN, MR. DONNELLY, MR. MARKEY, MR. CARPER, MR. BROOKS, MR. DYMALLY, MR. CROCKETT, MR. SHAYS, MR. DWYER OF NEW JERSEY, MR. KASTENMEIER, MR. WEISS, MR. SABO, MR. BERMAN, MR. SUNIA, MISS SCHNEIDER, MR. ST GERMAIN, MRS. BOXER, MRS. ROUKEMA, MR. LANTOS, MR. KOLBE, MR. TORRES, MR. DURBIN AND MR. DIXON OF CALIFORNIA

To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

(Jointly referred to the Committees on Energy and Commerce; Science, Space, and Technology; Ways and Means; and Foreign Affairs)

Apr. 16, 1987.—Referred jointly to the Subcommittees on Natural Resources, Agriculture Research and Environment, and International Scientific Cooperation.

H.R. 2068 **Apr. 9, 1987**

MR. RITTER (FOR HIMSELF), MR. WALGREN, MR. BOEHLERT, MR. BROWN OF CALIFORNIA, MR. GLICKMAN, MR. MORRISON OF WASHINGTON, MR. DAVIS OF ILLINOIS, MR. HAYES OF LOUISIANA, MR. SKAGGS, MR. MARTINEZ

To establish the National Bureau of Standards and Industrial Competitiveness, and for other purposes.

(Jointly referred to the Committees on Science, Space, and Technology, and Energy and Commerce)

Hearings printed, No. 22.

Apr. 24, 1987.—Referred to the Subcommittee on Science, Research and Technology.
Apr. 28, 1987.—Subcommittee hearing held.

Superseded by Title I of H.R. 2916, which subsequently became sections 5111 through 5115 of H.R. 4848, the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100–418).

H.R. 2069 **Apr. 9, 1987**

MR. RITTER (FOR HIMSELF), MR. BROWN OF CALIFORNIA, MR. FAWELL, MR. FRENZEL, MR. HOUGHTON, MR. MATSUI, AND MR. VALENTINE

To create a National Commission on Commercial and National Defense Applications of Superconductors to study methods of developing improved superconductors and expanding the commercial and strategic use of superconductors.

(Jointly referred to the Committees on Science, Space, and Technology, and Armed Services)

Apr. 15, 1987.—Referred to the Subcommittee on Science, Research and Technology.
May 4, 1987.—Referred to the Subcommittee on Transportation, Aviation and Materials.
May 18, 1987.—Referred to the Subcommittee on Energy Research and Production.
June 10, 1987.—Committee hearing held.

Superseded by Title III of H.R. 2916, and subsequently became section 5143 of H.R. 4848, the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100–418).

H.R. 2134 **Apr. 22, 1987**

MR. WALGREN, MR. OBERSTAR, MR. PURSELL, MR. SOLARZ, MR. TAUZIN, MR. VOLKMER, MR. FOGLIETTA, MR. THOMAS A. LUKEN, MR. MARTINEZ, MR. ATKINS, MR. LANCASTER, MR. MARKEY, MR. FRANK, MR. JOSEPH KENNEDY, MR. STUDDS, MR. SOLOMON, MR. MINETA, MR. JONES OF NORTH CAROLINA, MR. TALLON, MR. GEKAS, MR. SWIFT, MR. MCHUGH, MR. MOAKLEY, MR. HUGHES, MR. ROE, MR. OWENS OF NEW YORK, MR. VALENTINE, MRS. BENTLEY, MR. HOCHBRUECKNER, MR. FISH, MR. LEWIS OF GEORGIA, MR. BALLENGER, MR. BONKER, MR. ESPY

To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

(Jointly referred to the Committees on Education and Labor, and Science, Space, and Technology)

Apr. 27, 1987.—Referred to the Subcommittee on Science, Research and Technology.

94-889 - 89 - 2

H.R. 2135 **Apr. 22, 1987**

MR. WATKINS

To establish as an executive department of the Government a Department of International Trade and Industry, to establish the National Oceanic and Atmospheric Administration and the Bureau of the Census as independent agencies, and for other purposes.

(Jointly referred to the Committees on Government Operations; Energy and Commerce; Foreign Affairs; Merchant Marine and Fisheries; Post Office and Civil Service; Science, Space, and Technology; and Ways and Means)

Apr. 27, 1987.—Referred jointly to the Subcommittees on Science, Research and Technology, and Natural Resources, Agriculture Research and Environment.

H.R. 2151 **Apr. 23, 1987**

MR. MACKAY (FOR HIMSELF), MR. BROWN OF CALIFORNIA, MR. WALGREN, MR. TOWNS, MR. ACKERMAN, MR. LELAND, MR. DYMALLY, MR. NELSON OF FLORIDA, MR. MOODY, MR. COOPER, MR. MOAKLEY, MR. GILMAN, MR. BOEHLERT, MR. PENNY, MR. CARPER, MR. VALENTINE, MR. GEJDENSON, MR. GORDON, MR. MURPHY, MR. MCCLOSKEY, MR. NEAL, MR. WISE, MRS. BOXER, MR. JEFFORDS, MR. RAHALL, MR. COELHO, MR. STARK, MR. FRANK, MR. ROE, MS. SNOWE, MS. MORELLA, MR. WEISS, MR. DELLUMS, MR. VENTO, MRS. KENNELLY, MR. JONTZ, MR. MINETA, MR. JACOBS, MR. SABO, MR. SOLARZ, MR. RINALDO, MS. OAKAR, MR. HOWARD, MR. MARKEY, MR. DOWNEY OF NEW YORK, MR. BORSKI, MR. CLARKE

To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

(Jointly referred to the Committees on Science, Space, and Technology, and Agriculture)

Apr. 28, 1987.—Referred to the Subcommittee on Science, Research and Technology.

Superseded by S. 1081.

H.R. 2159 **Apr. 23, 1987**

MR. WALGREN

To amend the Stevenson-Wydler Act to establish the National Technical Information Corporation as a wholly-owned Government corporation under the direction and supervision of the Secretary of Commerce.

Hearings printed. No. 36.

Apr. 28, 1987.—Referred to the Subcommittee on Science, Research and Technology.

June 24, 1987.—Reports requested from the following agencies: NASA; Department of Labor; National Science Foundation; Department of Commerce; Department of Defense; Department of Commerce; Department of Energy; Department of Health and Human Services; Department of Agriculture; Office of Management and Budget; Office of Science and Technology Policy; National Commission on Libraries and Information Science; Government Printing Office; Environmental Protection Agency; and Smithsonian Institution.

July 14, 15, 1987.—Subcommittee hearings held.

Sep. 21, 1987.—Report received from Department of Agriculture: unfavorable.

Sep. 29, 1987.—Report received from the National Archives: unfavorable.

Oct. 15, 1987.—Report received from the Environmental Protection Agency: unfavorable.

Superseded by Title II of H.R. 4417; and enacted pursuant to P.L. 100-519, the National Institute of Standards and Technology Authorization Act for Fiscal Year 1989, on October 24, 1988.

H.R. 2160 **Apr. 23, 1987**

MR. WALGREN (FOR HIMSELF) AND MR. BOEHLERT

To authorize appropriations to the Secretary of Commerce for the programs of the National Bureau of Standards for fiscal year 1988, and for other purposes.

Hearings printed. Nos. 3, 22.

Apr. 9, 1987.—Subcommittee on Science, Research and Technology meeting (markup). Ordered bill to be introduced reflecting Subcommittee recommendations.
Apr. 28, 1987.—Referred to the Subcommittee on Science, Research and Technology.
May 13, 1987.—Subcommittee on Science, Research and Technology discharged from further consideration of measure.
May 13, 1987.—Committee meeting (markup). Ordered bill reported without amendments.
May 19, 1987.—Report filed in the House (H.Rept. 100–98).
June 2, 1987.—Committee on Rules hearing. Rule granted: one-hour, open.
June 4, 1987.—Passed the House after agreeing to a Walker amendment that ensures that the National Technical Information Service may procure quality printing services at the most cost-effective rate (Cong. Record H4207–H4215).
June 9, 1987.—Received in the Senate; Senate concurrence requested.
June 9, 1987.—Placed on Senate calendar.
July 22, 1987.—Transferred to Senate Subjects on Table calendar.
Aug. 7, 1987.—Subsumed in conference on H.R. 3, the Omnibus Trade Act. H.R. 3 subsequently vetoed by the President.
Sep. 30, 1988.—H.R. 2160 indefinitely postponed by the Senate.

The provisions of H.R. 2160 were enacted pursuant to Title V, Subtitle B, Part I, Secs. 5111-5163, P.L. 100-418, the Omnibus Trade and Competitiveness Act of 1988, on August 23, 1988.

H.R. 2165 **Apr. 23, 1987**

MR. BROWN OF CALIFORNIA (FOR HIMSELF), MR. GEPHARDT, MISS SCHNEIDER, MR. BARNARD, MR. BEILENSON, MR. BERMAN, MR. BONIOR OF MICHIGAN, MR. COELHO, MR. CONYERS, MR. CROCKETT, MR. DIXON OF CALIFORNIA, MR. DYMALLY, MR. FAUNTROY, MR. FAZIO, MR. FISH, MR. FUSTER, MR. GRAY OF PENNSYLVANIA, MR. HAWKINS, MR. HUGHES, MR. LEVINE OF CALIFORNIA, MR. LIPINSKI, MR. LOWERY OF CALIFORNIA, MR. MCMILLEN OF MARYLAND, MR. MACKAY, MR. ROBINSON, MR. SAXTON, MR. TORRES, MR. UDALL, MR. WAXMAN, MR. WOLPE, MR. TOWNS, MR. MARTINEZ, MR. ANDREWS, MR. MATSUI, MR. VALENTINE, MS. PELOSI, MR. LANCASTER, MR. PACKARD, MR. MINETA, MR. BOEHLERT, MR. WALGREN, MR. CLINGER, MR. HAYES OF LOUISIANA, MR. SYNAR, MR. LAFALCE, MR. MCCURDY, MR. HOWARD, MR. NEAL, MR. STOKES, MR. BUSTAMANTE, MR. MFUME, MR. BONKER, MS. KAPTUR, MR. SABO, MR. FEIGHAN

To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

(Jointly referred to the Committees on the Judiciary, and Science, Space, and Technology)

Hearings printed, No. 22.

Apr. 29, 1987.—Subcommittee on Science, Research and Technology hearing held prior to Subcommittee referral.
May 1, 1987.—Referred to the Subcommittee on Science, Research and Technology.

Superseded by Title I of H.R. 2916, which subsequently became sections 5111 through 5115 of H.R. 4848, the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100–418).

H.R. 2191 — **Apr. 28, 1987**

MR. VALENTINE (FOR HIMSELF), MR. RITTER, MR. PRICE OF NORTH CAROLINA, MR. PERKINS, MR. DYMALLY, MR. MINETA, MR. BROWN OF CALIFORNIA, MR. SCHEUER, MRS. LLOYD, MR. NELSON OF FLORIDA, MR. EDWARDS OF CALIFORNIA, MR. FAZIO, MR. LEVINE OF CALIFORNIA, MR. OWENS OF NEW YORK, MR. KONNYU, MR. LUJAN AND MR. BUSTAMANTE

To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.

Hearings printed, No. 22.

Apr. 29, 1987.—Subcommittee on Science, Research and Technology hearing held prior to Subcommittee referral.
May 1, 1987.—Referred jointly to the Subcommittees on Science, Research and Technology and International Scientific Cooperation.
July 6, 1987.—Agency comment requested from the National Science Foundation.
July 8, 1987.—Referred to the Subcommittee on Transportation, Aviation and Materials.

Superseded by Title V of H.R. 2916, and subsequently became section 5142 of H.R. 4848, the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100–418).

H.R. 2205 — **Apr. 29, 1987**

MR. DREIER OF CALIFORNIA, MR. LIPINSKI, MR. LAGOMARSINO, MR. MARTINEZ, MR. DORNAN OF CALIFORNIA, MR. DAUB, MR. NIELSON OF UTAH, MR. DONALD E. LUKENS, MR. KOLTER

To establish the Value Engineering Council.

(Jointly referred to the Committees on Government Operations, and Science, Space, and Technology)

May 1, 1987.—Referred to the Subcommittee on Science, Research and Technology.

H.R. 2219 — **Apr. 29, 1987**

MISS SCHNEIDER (FOR HERSELF), MR. WALGREN, MR. ECKART

To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a Center on State and Local Initiatives on Productivity, Technology, and Innovation, and for other purposes.

Hearings printed, No. 22.

Apr. 30, 1987.—Subcommittee on Science, Research and Technology hearing held prior to Subcommittee referral.
May 1, 1987.—Referred to the Subcommittee on Science, Research and Technology.

Superseded by Title IV of H.R. 2916, and subsequently became section 5122 of H.R. 4848, the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100-418).

H.R. 2253 — **Apr. 30, 1987**

MR. SCHEUER (FOR HIMSELF), MISS SCHNEIDER, MR. HENRY, MR. MCMILLEN OF MARYLAND, MR. MCCURDY, MR. SMITH OF NEW HAMPSHIRE, MR. VALENTINE, MR. WAXMAN, MR. EDWARDS OF CALIFORNIA, MR. BEILENSON, MRS. JOHNSON OF CONNECTICUT, MR. FRANK, MR. BROWN OF CALIFORNIA, MR. BEVILL, MR. NEAL, MR. CONYERS, MR. DE LUGO, MR. STOKES, MRS. BENTLEY, MR. UPTON, MR. JONTZ, MR. MARTINEZ, MR. GRANT, MR. ACKERMAN, MR. LANCASTER, MR. DYMALLY, MR. KOLTER, MR. DWYER OF NEW JERSEY, MR. LAFALCE, MS. PELOSI, MR. GILMAN, MR. SUNIA, MR. SOLOMON, MR. GUARINI, MRS. ROUKEMA, MR. VENTO, MR. HOCHBRUECKNER, MR. WALGREN

To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

(Jointly referred to the Committees on Energy and Commerce, and Science, Space, and Technology)

Hearings printed. No. 59.

May 6, 1987.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.
July 21, 1987.—Subcommittee hearing held.
Sep. 16, 1987.—Subcommittee meeting (markup). Ordered forwarded to the Committee with an amendment in the nature of a substitute.
Sep. 29, 1987.—Committee meeting (markup). Ordered bill reported with amendments.

Superseded by H.R. 791.

H.R. 2310 **May 7, 1987**

MR. MINETA (FOR HIMSELF), MR. HOWARD, MR. HAMMERSCHMIDT, MR. GINGRICH, MR. BUSTAMANTE, MRS. JOHNSON OF CONNECTICUT, MR. HAYES OF LOUISIANA, MR. VISCLOSKY

To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.

(Jointly referred to the Committees on Public Works and Transportation, and Science, Space, and Technology)

Hearings printed. No. 6.

Apr. 29, 1987.—Subcommittee on Transportation, Aviation and Materials markup on programs within the Committee's jurisdiction held. Ordered bill to be introduced reflecting the Subcommittee recommendations.

May 8, 1987.—Referred to the Subcommittee on Transportation, Aviation and Materials.

May 20, 1987.—Subcommittee on Transportation, Aviation and Materials discharged from further consideration.

May 20, 1987.—Committee meeting (markup). Ordered bill reported with amendments.

June 3, 1987.—Report filed in the House (H.Rept. 100–123, Part 1).

June 26, 1987.—Committee on Public Works and Transportation report filed in the House (H.Rept. 100–123, Part 2).

Aug. 3, 1987.—Committee on Ways and Means ordered an amendment reported (requested by the Committee on Public Works and Transportation) to add a tax title to the bill, proposing that the Committee on Rules make the amendment in order as original text of the bill for ultimate House Floor consideration (Committee on Ways and Means Print Number 100–21).

Sep. 14, 1987.—Committee on Rules hearing requested.

Sep. 30, 1987.—Committee on Rules hearing. Rule granted: modified open rule providing 2-1/2 hours of debate on the measure. The bill shall be considered for an amendment under the 5-minute rule. In lieu of the amendments printed in the bill, the rule makes in order an amendment in the nature of a substitute consisting of the text of H.R. 3350 as an original bill for the purpose of amendment under the 5-minute rule (H.Res. 275).

Sep. 30, 1987.—The House failed to agree to H.Res. 275, providing for consideration of H.R. 2310 by the roll call vote (No. 338) of 178 ayes to 235 nays (Cong. Record H7929–H7937).

Sep. 30, 1987.—Committee on Rules hearing. Rule granted: modified open rule providing 2-1/2 hours of debate on H.R. 2310. The bill shall be considered for amendment under the 5-minute rule. In lieu of the amendments printed in the bill, the rule makes in order an amendment in the nature of a substitute consisting of the text of H.R. 3350 as an original bill for the purpose of amendment under the 5-minute rule (H.Res. 278).

Oct. 1, 1987.—The House passed H.R. 2310 after agreeing to the amendment in the nature of a substitute made in order by the rule (text of H.R. 3350); and agreeing to the following amendments thereto: (1) the Sundquist amendment that makes foreign participation in Federal-funded airport projects contingent upon reciprocal opportunities for United States firms operating abroad; (2) the Mineta amendment that authorizes the Transportation Department to permit Puerto Rico and the United States territories to use funds allocated under the State apportionment formula for primary and commercial airports; (3) the Solomon amendment that reopens any flight service stations that were closed between March 25 and July 15 if such closing left areas uncovered by full capacity flight service equipment; (4) the Hughes amendment that prohibits the expenditure of Federal funds for nonsafety airway assistance at Pomona airport near Atlantic City, New Jersey, until a regional airport development authority is established; (5) the Denny Smith amendment that requires a study on possible improvements in the accuracy and reliability of Loran-C radio navigation systems; (6) the Hertel amendment that establishes Federal penalties for interference with aircraft accident investigations; (7) the Collins amendment that provides for a ten percent set-aside of all airport business concessions for small business concerns owned by women and socially and economically disadvantaged individuals; (8) the Bustamante amendment that eliminates certain deed restrictions applicable to the nonaviation portion of the Laredo, Texas International Airport; and (9) the Hammerschmidt amendment that extends for ten years the Essential Air Service program which provides assistance to preserve air service to small communities (agreed to by the roll call vote (No. 343) of 385 ayes to 14 nays). Rejected the the following amendments to H.R. 2310: (1) the Lujan amendment that sought to provide a five-year rather than a two-year authorization for the research, engineering, and development program; (2) the Moorhead amendment that sought to strike the provisions placing a restriction on grants for the Burbank-Glendale-Pasadena Airport (rejected by the roll call vote (No. 342) of 198 ayes to 211 nays; (3) the Porter amendment that sought to require that 75 percent of air traffic controllers at high density airports are full performance level controllers (rejected by a division vote of 4 ayes to 16 nays); (4) the Schumer amendment that sought to direct airport operators to restrict aircraft landing and take off to scheduled airliners during periods of substantial air traffic delays; and (5) the Howard amendment that sought to remove the Airport and Airway Trust Fund from the unified Federal budget (rejected by the roll call vote (No. 344) of 197 ayes to 202 nays (Cong. Record H7978–H8038). H.Res. 278, the rule under which the bill was considered, was agreed to by the roll call vote (No. 340) of 368 ayes to 42 nays (Cong. Record H7977–H7978).

Oct. 6, 1987.—Received in the Senate and placed on the Senate Calendar.

Oct. 28, 1987.—Passed the Senate by the roll call vote (No. 356) of 96 ayes to 1 nay, after striking all after the enacting clause and inserting in lieu thereof the text of S. 1184, the Senate companion measure, after agreeing to committee amendments and the following amendments thereto: (1) the Hollings amendment to amend Federal Aviation Act of 1958, to require the installation and use of collision avoidance systems in aircraft; (2) the Exon amendment to improve air service to certain small communities; (3) the Bentsen amendment to provide for a release of restrictions contained in the instrument of disposal by which the United States conveyed certain property on which the Laredo International Airport, Laredo, Texas, is located; (4) the Chiles amendment to provide that the Secretary of Transportation shall, by rules and regulations, or by order where necessary, require all persons to give adequate public notice, in the form and manner prescribed by the Secretary, of the construction or alteration, or of the proposed construction or alteration, of any structure where notice will promote safety in air commerce as well as the efficient use and preservation of the navigable airspace, and airport traffic capacity at public-use airports; (5) the Bentsen-Packwood amendment to extend the Airport and Airway Trust Fund taxes; (6) the McCain amend-

H.R. 2310—Continued

ment to require a study by the Secretary of Transportation of the various methods of air traffic control which might be utilized at the Grand Canyon Airport; (7) the Ford (for Reid) amendment to review the need and utilization of special use airspace to determine its impact on the quality of the environment; (8) the Ford (for Wirth and Armstrong) amendment to release certain conditions in connection with Stapleton International Airport, Denver, Colorado; (9) the Ford (for Stevens) amendment to authorize the Secretary of Transportation to make grants for minimum facility and safety improvements at public airports other than commercial service airports (action on this amendment was subsequently vitiated); (10) the Ford (for Inouye) amendment to provide that airport grant funds made available to the State of Hawaii under section 505 may be used to acquire properties referred to as areas 46A and 46B of the United States General Services Administration Facility Site in Moanalua, Honolulu, Oahu, Hawaii, or to reimburse the State of Hawaii for such acquisitions; and to provide for the release of certain conditions on use of certain airport property in Hawaii; (11) the Ford (for Stevens) amendment to designate the Federal Aviation Administration flight service station located in Juneau, Alaska, as the "Dave Scheytt Flight Service Station"; (12) the Graham amendment to provide that contracting for engineering and design services provisions shall apply except to the extent that a State adopts or has adopted by statute a formal procedure for the procurement of such services; (13) the Stevens amendment to authorize the Secretary of Transportation to make grants for minimum facility and safety improvements at public airports other than commercial service airports; (14) the Sarbanes-Mikulski amendment to require the Administrator of the Federal Aviation Administration to conduct a study of noise abatement proposals under consideration by airport operators and local governments for the purpose of identifying those proposals which, under existing law or administrative policy, are not currently eligible for Federal assistance and determining whether or not such proposals should be made eligible for Federal assistance; (15) the Domenici amendment to assist Sierra Blanca Regional Airport, Ruidoso, New Mexico, in obtaining financial assistance for certain fire protection; (16) the Ford (for Bumpers) amendment to permit assistance to the Municipal Airport of the City of Dermott, Arkansas, notwithstanding the fact that it is located on leased lands; (17) the Lautenberg amendment to amend the National Driver Register Act of 1982, to assist in the identification of operators of aircraft who have driving problems by permitting access to the National Driver Register; (18) the Lautenberg amendment to require the Secretary of Transportation to initiate a supplementary rulemaking to require the installation and use of cockpit voice recorders and flight data recorders on commuter aircraft and other aircraft, commensurate with the recommendations of the National Transportation Safety Board; (19) the Wilson amendment to provide for a civil penalty assessment demonstration program, and to require greater security at airport and airport areas; (20) the Lautenberg amendment to provide limitations on funding and certain other activities at the Atlantic City Airport, in Pomona, New Jersey; (21) the Ford amendment to change the amended definition of "airport development" under the Airport and Airway Improvement Act of 1982; (22) the Ford amendment to prohibit the Federal Aviation Administration from discriminating against operations of air carrier aircraft with fewer than 61 seats in establishing criteria for airport control towers and navigational aids; (23) the Cohen-Mitchell amendment of a clarifying nature, to provide that the term "passengers enplaned" also includes passengers on board international flights which transit an airport for non-traffic purposes; (24) the Metzenbaum amendment to require the Secretary of Transportation to issue regulations requiring adequate, uniform life preservers, life rafts, and flotation devices for passengers, including small children and infants, on any flight of an air carrier which the Secretary determines a part of which flight will occur over water and adequate information and instructions as to the use of such preservers, rafts, and flotation devices. Rejected the following amendment in the nature of a substitute offered by Senator Kassebaum to the Exon amendment, to extend section 419 of the Federal Aviation Act of 1958 through September 30, 1990, by the roll call vote (No. 355) of 57 ayes to 37 nays (the Senate tabled the amendment); and withdrew the Metzenbaum amendment to provide that the Secretary of Transportation shall issue certain regulations to ensure greater safety to air passengers, and to report to Congress on specific regulations the Secretary has adopted or intends to adopt to modernize and improve the oversight and inspection of air carrier maintenance and safety-regulated procedures (Cong. Record S15247-S15329).

Oct. 28, 1987.—The Senate insisted on its amendments and requested a conference with the House thereon.

Nov. 17, 1987.—The Senate appointed as conferees: Senators Hollings, Ford, Exon, Danforth, Kassebaum; and Senators Bentsen, Matsunaga, and Packwood for consideration of Title II solely.

Nov. 20, 1987.—The House agreed to the request of the Senate for a conference on H.R. 2310 and appointed from the Committee on Science, Space, and Technology the following conferees for consideration of section 102(b) of the House bill and sections 107 and 120 of the Senate amendment, and modifications thereto committed conference: Messrs. Roe, McCurdy, Glickman, Lujan and Lewis of Florida (Cong. Record H10691-H10692).

Dec. 2, 1987.—Conferees met.

Dec. 15, 1987.—Conference Report filed in the House (H.Rept. 100-484)(Cong. Record H11476-H11501).

Dec. 17, 1987.—Senate agreed to Conference Report (Cong. Record S18252-S18257).

Dec. 18, 1987.—Conference Report passed the House by the roll call vote (No. 496) of 410 ayes to 1 nay; clearing the measure for the President (Cong. Record H11696-H11705).

Dec. 20, 1987.—Presented to the President.

Dec. 30, 1987.—Signed by the President. Public Law 100-223.

H.R. 2315 **May 7, 1987**

MR. GREEN

To amend the National Science Foundation Act of 1950 to provide for the continuing evaluation and improvement of curricula in the fields of mathematics, science, and technology, and for the continuing evaluation of developments in educational applications of new technologies.

May 12, 1987.—Referred to the Subcommittee on Science, Research and Technology.

H.R. 2330 **May 7, 1987**

MR. WALGREN

To authorize appropriations to the National Science Foundation for the fiscal year 1988, and for other purposes.

Retained at Committee level.

Hearings printed. No. 13.

Mar. 24, 1987.—Committee posture hearing held prior to introduction.
Feb. 19, 25; Mar. 11, 1987.—Subcommittee on Science, Research and Technology hearings held prior to introduction (Title II of H.R. 1155, the Administration's request for the National Science Foundation).
Apr. 9, 1987.—Subcommittee on Science, Research and Technology markup held prior to introduction. ~~Ordered~~ bill to be introduced reflecting the Subcommittee recommendations.
May 20, 1987.—Committee meeting (markup). Ordered bill reported with amendments.
May 28, 1987.—Report filed in the House (H.Rept. 100–110).
June 2, 1987.—Committee on Rules hearing. Rule granted: one-hour, open.
June 3, 1987.—Passed the House by the roll call vote (No. 165) of 408 ayes to 3 nays, after agreeing to the committee amendments (Cong. Record H4160–H4172).
June 5, 1987.—Received in the Senate; Senate concurrence requested.
June 5, 1987.—Referred to the Senate Committee on Labor and Human Resources.

H.R. 2355 **May 8, 1987**

MR. SCHEUER

To authorize appropriations for environmental research, development, and demonstration for the fiscal years 1988 and 1989, and for other purposes.

Retained at Committee level.

Hearings printed. No. 54.

Apr. 1, 1987.—Subcommittee on Natural Resources, Agriculture Research and Environment hearing held prior to introduction.
May 7, 1987.—Subcommittee on Natural Resources, Agriculture Research and Environment markup held prior to introduction. Ordered bill to be introduced reflecting Subcommittee recommendations.
May 13, 1987.—Committee meeting (markup). Ordered bill reported with amendments.
May 28, 1987.—Report filed in the House (H.Rept. 100–111).
June 2, 1987.—Committee on Rules hearing. Rule granted: one-hour, open.
June 4, 1987.—Passed the House after agreeing to the committee amendments; the Lujan amendment that requires the Administrator of EPA to report to Congress within 180 days after enactment on the current status of research into the use of oxygenated fuels containing ethanol or methanol to reduce carbon monoxide and ozone emissions; the Richardson amendment that directs the Administrator to insure that the results of the radon mitigation and prevention demonstration program are applicable in all areas of the Nation where exposure to radon in buildings may be a significant problem; and the Richardson amendment that directs the Administrator, within 90 days of the date of submission of the report on methanol/ethanol oxygenated fuels to the Congress, to develop a technology transfer program to provide this information and other appropriate technical assistance to States and localities to carry out research and demonstration projects. Rejected the Bruce amendment that sought to increase the authorizations for acid deposition research by $3 million in each of fiscal years 1988 and 1989 by the roll call vote (No. 166) of 124 ayes to 278 nays. A point of order was sustained against the Jeffords amendment that sought to add language regarding control of acid deposition by requiring the States to submit plans establishing emission limitations and compliance schedules for controlling sulfur dioxide emissions from utility boilers, and to require the Secretary of State to conduct a study and submit a report on the effects of transborder pollution by sulfur dioxide (Cong. Record H4215–H4242).
June 9, 1987.—Received in the Senate; Senate concurrence requested.
June 9, 1987.—Referred to the Senate Committee on Environment and Public Works.

H.R. 2368 **May 11, 1987**

MRS. LLOYD (FOR HERSELF), MR. SCHEUER, AND MR. MCCURDY

To authorize appropriations to the Department of Energy for civilian energy research and development programs for fiscal year 1988.

Retained at Committee level.

Hearings printed. Nos. 10, 33, 38, 39, 42, 48, 49, 58, 60.

Mar. 17, 1987.—Committee posture hearing held on Department of Energy FY 1988 R&D Budget.
Mar. 3, 1987.—Subcommittee on Transportation, Aviation and Materials hearing held prior to introduction.
Feb. 24, 25, 26; Mar. 3, 4, 5, 11, 17, 18, 19, 24, 1987.—Subcommittee on Energy Research and Development hearings held prior to introduction.
Mar. 25, 1987.—Subcommittee on Energy Research and Development meeting (markup) held prior to introduction. Ordered bill to be introduced reflecting the Subcommittee recommendations.
Apr. 29, 1987.—Subcommittee on Transportation, Aviation and Materials markup held prior to introduction. Ordered bill to be introduced reflecting the Subcommittee recommendations.

H.R. 2369 — **May 11, 1987**

MRS. LLOYD (FOR HERSELF), MR. SCHEUER, AND MR. MCCURDY

To authorize appropriations to the Department of Energy for civilian energy programs for fiscal year 1988.

(Jointly referred to the Committees on Energy and Commerce; Interior and Insular Affairs; and Science, Space, and Technology)

Retained at Committee level.

Hearings printed. Nos. 10, 33, 38, 39, 42, 48, 49, 58, 60.

Mar. 17, 1987.—Committee posture hearing held prior to introduction on the Department of Energy FY 1988 R&D Budget.
Mar. 3, 1987.—Subcommittee on Transportation, Aviation and Materials hearing held prior to introduction.
Feb. 24, 25, 26; Mar. 3, 4, 5, 11, 17, 18, 19, 24, 1987.—Subcommittee on Energy Research and Development hearings held prior to introduction.
Mar. 25, 1987.—Subcommittee on Energy Research and Development meeting (markup). Ordered bill to be introduced reflecting the Subcommittee recommendations.
Apr. 29, 1987.—Subcommittee on Transportation, Aviation and Materials markup held prior to introduction. Ordered bill to be introduced reflecting the Subcommittee recommendations.

H.R. 2492 — **May 21, 1987**

MR. BOEHLERT (FOR HIMSELF), MR. MACKAY, MR. WALGREN, MISS SCHNEIDER, MR. HAYES OF ILLINOIS, MR. ROBINSON, MR. GRANT, MR. FAZIO, MR. RAHALL, MR. FUSTER, MR. KOLTER, MR. ATKINS, MR. FEIGHAN

To establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such Services.

May 28, 1987.—Referred to the Subcommittee on Science, Research and Technology.
Apr. 30, 1987.—Subcommittee hearing held prior to introduction.

Superseded by Title II of H.R. 2916, and subsequently became section 5121 of H.R. 4848, the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100–418).

H.R. 2520 — **May 27, 1987**

MR. DORNAN OF CALIFORNIA

To repeal certain provisions of law which violate the doctrine of separation of powers and to eliminate certain restrictions on the authority of the executive branch.

(Jointly referred to the Committees on Foreign Affairs; Armed Services; Banking, Finance and Urban Affairs; Veterans' Affairs; Interior and Insular Affairs; and Science, Space, and Technology)

May 29, 1987.—Referred to the Subcommittee on Energy Research and Development.

H.R. 2527 — **May 27, 1987**

MR. PANETTA

To direct the Administrator of the Environmental Protection Agency to conduct a study of possible solutions to certain problems associated with disposal of nonbiodegradable plastics, and to control pollution of the environment caused by the discarding of plastics on the land and in water.

(Jointly referred to the Committees on Energy and Commerce; Merchant Marine and Fisheries; Public Works and Transportation; and Science, Space, and Technology)

June 12, 1987.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.R. 2541 — **May 28, 1987**

MR. BROWN OF CALIFORNIA (FOR HIMSELF), MR. VOLKMER, MR. MCCURDY, MR. AKAKA, MR. MACKAY, MR. ECKART, MR. BATES

To establish a hydrogen research and development program.

June 3, 1987.—Referred jointly to the Subcommittees on Energy Research and Development, and Transportation, Aviation and Materials.

H.R. 2542 — **May 28, 1987**

MR. BROWN OF CALIFORNIA (FOR HIMSELF), MR. VOLKMER, MR. MCCURDY, MR. AKAKA, AND MR. MACKAY

To promote the development of technologies which will enable fuel cells to use alternative fuel sources.

June 1, 1987.—Referred to the Subcommittee on Energy Research and Development.

H.R. 2737 **June 22, 1987**

MISS SCHNEIDER (FOR HERSELF), MR. LUJAN, MR. BROWN OF CALIFORNIA, MR. PARTON OF TEXAS, MR. GLICKMAN, MR. JOHNSON OF SOUTH DAKOTA, MR. MCCURDY, MR. MACKAY, MR. NEAL, MR. MILLER OF WASHINGTON, MRS. VUCANOVICH, MR. SAVAGE, MR. CHAPMAN, MR. NIELSON OF UTAH, MR. BONKER, MR. MRAZEK, MR. SLATTERY, MR. ROBERTS, MR. SWEENEY, MR. FAWELL, MR. WHITTAKER, MR. SKAGGS, MS. MORELLA, MR. CAMPBELL, MR. PICKLE

To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.

(Jointly referred to the Committees on Science, Space, and Technology, and Interior and Insular Affairs)

Hearings printed. No. 45.

July 7, 1987.—Referred to the Subcommittee on Science, Research and Technology.
Nov. 3, 1987.—Subcommittee hearing held.
Apr. 14, 1988.—Subcommittee meeting (markup). Ordered bii forwarded to the committee with amendments.
Apr. 21, 1988.—Committee meeting (markup). Ordered bill reported with amendments.
Apr. 26, 1988.—Committee on Interior and Insular Affairs report filed in the House (H.Rept. 100-580, Part 1).
May 2, 1988.—Report filed in the House (H.Rept. 100-580, Part 2).
May 23, 1988.—Passed the House under Suspension of the Rules. Subsequently, passage was vacated and S. 52, a similar Senate-passed bill, was passed in lieu after being amended to contain the language of H.R. 2737, as passed (Cong. Record H3472-H3475).

The provisions of H.R. 2737, within S. 52, enacted pursuant to P.L. 100-441, the Continental Scientific Drilling and Exploration Act, on September 22, 1988.

H.R. 2751 **June 23, 1987**

MRS. LLOYD

To provide permanent authority to the Department of Energy to indemnify its civilian nuclear energy research and development contractors.

June 24, 1987.—Referred to the Subcommittee on Energy Research and Development.
June 24, 1987.—Subcommittee meeting (markup). Ordered measure forwarded to the committee without amendments.
July 22, 1987.—Committee meeting held (markup). Ordered bill reported with amendments.

H.R. 2782 **June 25, 1987**

MR. ROE

To authorize appropriations to the National Aeronautics and Space Administration for research and development; space flight, control and data communications; construction of facilities; and research and program management; and for other purposes.

Supersedes H.R. 1741.

Retained at Committee level.

June 26, 1987.—Committee meeting (markup). Ordered measure reported with an amendment.
July 6, 1987.—Committee on Rules meeting requested.
July 7, 1987.—Report filed in the House (H.Rept. 100-204).
July 8, 1987.—Committee on Rules hearing. Rule granted: one-hour, open.
July 9, 1987.—Passed the House by the roll call vote (No. 253) of 372 ayes to 34 nays, after agreeing to the committee amendment as amended by the Mineta substitute amendment, that strikes language on the use of the Space Station; the Lujan amendment that directs NASA to review and report to Congress on a plan to ensure participation of qualified individuals from outside NASA and the military in filling mission specialist astronaut positions; the Torricelli amendment that clarifies provisions relating to procurement competition in the Space Shuttle Solid Rocket Motor program; the Traficant amendment that changes the percentage difference between bids submitted by foreign and domestic firms from 5 to 10 percent in language defining when the Administrator must award contracts to domestic firms; and the Smith of New Hampshire amendment that strikes language requiring that the positions of Administrator and Deputy Administrator not be occupied by retired commissioned officers of the armed forces unless a period of ten years has passed since active duty, agreed to by the roll call vote (No. 251) of 268 ayes to 135 nays. Rejected the Morrison of Connecticut amendment that sought to set a cap on the total authorization at $9.367 billion by the roll call vote of 148 ayes to 257 nays (No. 252) (Cong. Record H6120-H6149).
July 10, 1987.—Received in the Senate; Senate concurrence requested.
July 10, 1987.—Passed the Senate, after striking all after the enacting clause and inserting in lieu thereof the text of S.1164, the Senate companion measure (Cong. Record S9781-S9788).
Oct. 8, 1987.—House agreed to the amendment of the Senate with an amendment; clearing the measure for further Senate action (Cong. Record H8313-H8326).
Oct. 13, 1987.—Senate concurred in the amendment of the House to the Senate amendment, clearing the measure for the President (Cong. Record S14172-S14179).
Oct. 21, 1987.—Presented to the President.
Oct. 30, 1987.—Signed by the President. Public Law 100-147.

H.R. 2916 **July 13, 1987**

MR. ROE (FOR HIMSELF), MR. WALGREN, MR. BOEHLERT, MR. BROWN OF CALIFORNIA, MR. SCHEUER, MRS. LLOYD, MISS SCHNEIDER, MR. GLICKMAN, MR. VOLKMER, MR. NELSON OF FLORIDA, MR. HALL OF TEXAS, MR. MCCURDY, MR. MINETA, MR. HENRY, MR. MACKAY, MR. VALENTINE, MR. BRUCE, MR. STALLINGS, MR. TRAFICANT, MS. MORELLA, MR. CHAPMAN, MR. HAMILTON, MR. PERKINS, MR. PRICE OF NORTH CAROLINA, MR. NAGLE, MR. SKAGGS, MR. BOUCHER, MR. LUJAN, MR. RITTER, MR. TORRICELLI, MR. BUECHNER, MR. NOWAK, MR. MCMILLEN OF MARYLAND, MR. HAYES OF LOUISIANA

To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

July 14, 1987.—Referred to the Subcommittee on Science, Research and Technology.
July 14, 1987.—Subcommittee meeting held (markup). Ordered bill forwarded to the committee with amendments.
July 23, 1987.—Committee meeting (markup). Ordered bill reported with an amendment in the nature of a substitute.
Aug. 4, 1987.—Report filed in the House (H.Rept. 100-266).
Aug. 7, 1987.—Subsumed in Conference on H.R. 3, the Omnibus Trade Act, which was vetoed by the President.

Supersedes H.R. 2165 (as Title I); H.R. 2492 (as Title II); H.R. 2069 (as Title III); H.R. 2219 (as Title IV); H.R. 2191 (as Title V); H.R. 1964 (as Title VI).

Ultimately, the provisions of H.R. 2916 were enacted pursuant to Title V, Part I, Subtitle B of P.L. 100-418, the Omnibus Trade and Competitiveness Act of 1988, on August 23, 1988.

H.R. 2958 **July 15, 1987**

MR. LEVINE OF CALIFORNIA (FOR HIMSELF), MRS. COLLINS, MR. OWENS OF NEW YORK, MR. BUSTAMANTE, MR. FAZIO, MS. KAPTUR, MR. MARTINEZ, MR. WATKINS, MR. LANCASTER, MR. FAUNTROY, MR. SAWYER, MR. DWYER OF NEW JERSEY, MR. FOGLIETTA, MR. WISE

To establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes.

(Jointly referred to the Committees on Government Operations; Energy and Commerce; Banking, Finance and Urban Affairs; Foreign Affairs; Ways and Means; Education and Labor; and Science, Space, and Technology)

July 23, 1987.—Referred to the Subcommittee on Science, Research and Technology; and to the Subcommittee on International Scientific Cooperation for Title II, Subtitles E and F solely.

H.R. 3006 **July 23, 1987**

MR. LUJAN, MR. RICHARDSON

To improve the integration of universities and private industry into the National Laboratory system of the Department of Energy in order to speed the development of technology in areas of significant economic potential.

(Jointly referred to the Committees on Science, Space, and Technology; Energy and Commerce; and Armed Services)

July 27, 1987.—Referred to the Subcommittee on Energy Research and Development.

H.R. 3024 **July 28, 1987**

MR. RITTER (FOR HIMSELF), MR. LUJAN, MR. BROWN OF CALIFORNIA, MISS SCHNEIDER, MR. BOEHLERT, MR. LEWIS OF FLORIDA, MR. FAWELL, MR. HENRY, MR. FISH, MR. HOUGHTON, MR. RICHARDSON, MR. WELDON, MR. NEAL, MR. MORRISON OF WASHINGTON, MR. GINGRICH, MR. MACKAY, MR. BARNARD, MR. LANCASTER, MR. WORTLEY

To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.

(Jointly referred to the Committees on Science, Space, and Technology, and Armed Services)

Hearings printed. No. 57.

Aug. 4, 1987.—Referred jointly to the Subcommittees on Science, Research and Technology; Energy Research and Development; and Transportation, Aviation and Materials.

Oct. 7, 1987.—Subcommittees on Science, Research and Technology, and Transportation, Aviation and Materials joint hearing held.

Provisions of H.R. 3024, creating a National Commission on Superconductivity, enacted pursuant to Title V, Part I, Subpart D, Sec. 5143, P.L. 100–418, the Omnibus Trade and Competitiveness Act of 1988, on August 23, 1988.

H.R. 3048 **July 29, 1987**

MR. MCCURDY (FOR HIMSELF) AND MISS SCHNEIDER, MS. OAKAR, MR. BRUCE, MR. MACKAY, MR. BROWN OF CALIFORNIA, MR. DURBIN, MR. EDWARDS OF CALIFORNIA, MR. BONKER, MR. PACKARD, MR. MINETA, MR. MORRISON OF WASHINGTON, MR. TORRICELLI, MR. LEWIS OF FLORIDA, MR. CHAPMAN, MR. HAMILTON, MR. NOWAK, MR. PERKINS, MR. MCMILLEN OF MARYLAND, MR. PRICE OF NORTH CAROLINA, MR. NAGLE, MR. HAYES OF LOUISIANA, MR. SKAGGS, AND MR. GLICKMAN

To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.

Hearings printed. Nos. 56, 57, 69.

Aug. 4, 1987.—Referred to the Subcommittees on Science, Research and Technology; Energy Research and Development; and Transportation, Aviation and Materials.

Oct. 7, 1987.—Subcommittees on Science, Research and Technology, and Transportation, Aviation and Materials joint hearing held.

June 10, 1988.—Committee hearing held.

July 7, 1988.—Subcommittee on Transportation, Aviation and Materials meeting (markup). Ordered measure forwarded to the committee with an amendment in the nature of a substitute.

Aug. 3, 1988.—Subcommittee on Energy Research and Development meeting (markup). Ordered bill forwarded to the committee with an amendment in the nature of a substitute.

Aug. 10, 1988.—Subcommittee on Science, Research and Technology meeting (markup). Ordered bill forwarded to the committee with an amendment in the nature of a substitute.

Aug. 11, 1988.—Committee meeting (markup). Ordered bill reported with an amendment in the nature of a substitute.

Sep. 9, 1988.—Report filed in the House (H.Rept. 100–900).

Sep. 20, 1988.—Passed the House under Suspension of the Rules (Cong. Record H7830–H7835).

Sep. 22, 1988.—Received in the Senate; Senate concurrence requested.

Sep. 23, 1988.—Placed on Senate Legislative Calendar under general orders.

Oct. 5, 1988.—Passed the Senate after agreeing to Byrd (for Johnston) amendment No. 3423, in the nature of a substitute (Cong. Record S14634–S14642; S14725–S14729).

Oct. 21, 1988.—House agreed to the Senate amendment to H.R. 3048 with an amendment; and disagreed to the Senate amendment to the title, by the roll call (No. 457) vote of 353 ayes to 1 voting "present" (Cong. Record H10722–H10734; H10751).

Oct. 21, 1988.—The Senate agreed to the House amendment to the Senate amendment, receding from its amendment to the title; thus clearing the measure for the President.

Nov. 11, 1988.—Presented to the President.

Nov. 19, 1988.—Signed by the President. Public Law 100–697.

H.R. 3077 — **Aug. 3, 1987**

MR. MORRISON OF WASHINGTON

To suspend certain activities of the Secretary of Energy under the Nuclear Waste Policy Act of 1982, to authorize construction of regional monitored retrievable storage facilities, and for other purposes.

(Jointly referred to the Committees on Interior and Insular Affairs; Energy and Commerce; Science, Space, and Technology; and Public Works and Transportation)

Aug. 7, 1987.—Referred to the Subcommittee on Energy Research and Development.

H.R. 3094 — **Aug. 4, 1987**

MR. GREEN

To authorize the Administrator of the Environmental Protection Agency to establish an industrial assistance program for reducing the generation of all environmental pollutants and hazardous waste at their source, to assist States in establishing waste reduction progrmas, to establish an Office of Waste Reduction, and for other purposes.

(Jointly referred to the Committees on Energy and Commerce, and Science, Space, and Technology)

Aug. 7, 1987.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.R. 3217 — **Aug. 7, 1987**

MR. MCCURDY (FOR HIMSELF), MR. BROWN OF CALIFORNIA, AND MISS SCHNEIDER, MR. MINETA, MR. MORRISON OF WASHINGTON, MR. LEWIS OF FLORIDA

To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.

(Jointly referred to the Committees on Science, Space, and Technology, and Armed Services)

Hearings printed. No. 57.

Aug. 21, 1987.—Referred jointly to the Subcommittees on Transportation, Aviation and Materials; Energy Research and Development; and Science, Research and Technology.

Oct. 7, 1987.—Subcommittees on Science, Research and Technology, and Transportation, Aviation and Materials joint hearing held.

The intent of the provisions of H.R. 3217 enacted within H.R. 3048, pursuant to P.L. 100–697, the National Superconductivity and Competitiveness Act of 1988, on November 19, 1988.

H.R. 3228 — **Aug. 7, 1987**

MR. ROE (FOR HIMSELF), MR. LUJAN, MR. TORRICELLI, MR. FAWELL, MR. FAZIO, MR. BARTON OF TEXAS, MR. BOULTER, MR. BRUCE, MR. DURBIN, MR. HASTERT, MR. LEWIS OF FLORIDA, MR. MARTIN OF NEW YORK, MR. H.R. 3228—Continued

TEXAS, MS. SNOWE, MR. SOLOMON, MR. STALLINGS, MR. STENHOLM, MR. STOKES, MR. STUMP, MR. SUNDQUIST, MR. SWEENEY, MR. SWIFT, MR. THOMAS OF CALIFORNIA, MR. TRAFICANT, MR. UDALL, MR. UPTON, MR. VOLKMER, MR. WEBER, MR. WHITTAKER, MR. WORTLEY, MR. WILSON OF TEXAS, MR. WYLIE, MR. YOUNG OF ALASKA, MR. YOUNG OF FLORIDA, MR. BEILENSON, MR. BEREUTER, MR. BLAZ, MR. BROOKS, MR. CHANDLER, MR. COELHO, MR. COURTER, MR. FLAKE, MR. FOLEY, MR. GRANT, MR. HUCKABY, MR. HUTTO, MR. INHOFE, MR. IRELAND, MR. LOWRY OF WASHINGTON, MR. MATSUI, MR. OWENS OF NEW YORK, MR. PANETTA, MR. ROYBAL, MR. SHAW, MR. SOLARZ, MR. STARK, MR. STRATTON, MR. TAUKE, MR. TAYLOR, MR. TORRES, MR. TOWNS, MR. VANDER JAGT, MR. YATES, MR. MONTGOMERY, MR. RANGEL, MR. DOWNEY OF NEW YORK, MR. COLEMAN OF MISSOURI, MR. DARDEN, MR. WHITTEN, MR. KILDEE, MR. BENNETT, MR. AKAKA, MR. GUNDERSON, MR. MOODY, MR. ROBERTS, MR. SMITH OF FLORIDA, MR. BARNARD, MR. BARTLETT, MR. BATES, MR. BILBRAY, MR. BROWN OF CALIFORNIA, MR. EMERSON, MR. FASCELL, MR. HOCHBRUECKNER, MR. HOWARD, MR. LEVINE OF CALIFORNIA, MR. LEWIS OF GEORGIA, MR. ROEMER, MR. SUNIA, MR. FLORIO, MR. FRENZEL, MR. BILIRAKIS, MR. BONIOR OF MICHIGAN, MR. ASPIN, MR. AUCOIN, MR. LATTA, MR. FLIPPO, MR. HAYES OF LOUISIANA, MR. DAUB, MR. GUARINI, MR. JONES OF TENNESSEE, MRS. LLOYD, MR. COOPER, MR. STAGGERS

To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

Apr. 7, 8, 9, 1987.—Hearings held by the Committee prior to introduction.
Sep. 21, 1987.—Referred to the Subcommittee on Energy Research and Development.
Oct. 15, 1987.—Subcommittee on Energy Research and Development discharged from further consideration.
Oct. 15, 1987.—Committee meeting (markup). Ordered bill reported with an amendment.
Oct. 29, 1987.—Report filed in the House (H.Rept. 100–413).

H.R. 3244 **Sept. 9, 1987**

MR. LEWIS OF FLORIDA (FOR HIMSELF) AND MR. SHAW, MR. GRANT

To direct the Secretary of the Army to develop and demonstrate methods for the management and control of aquatic plants in Lake Okeechobee, Florida, and for other purposes.

(Jointly referred to the Committees on Public Works and Transportation, and Science, Space, and Technology)

Sep. 14, 1987.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.R. 3300 **Sept. 17, 1987**

MRS. BOXER (FOR HERSELF), MR. BERMAN, MR. DELLUMS, MS. PELOSI, MS. KAPTUR, MR. LELAND, MR. SAVAGE, MR. FAUNTROY, MR. STOKES, MR. BLAZ, MR. CONYERS, MR. HOWARD, MR. NEAL, MR. SWIFT, MR. DYMALLY, MR. ST GERMAIN, MR. AKAKA, MR. MRAZEK, MR. SOLARZ, MR. TOWNS, MR. OWENS OF NEW YORK, MR. DYSON, AND MR. CROCKETT

To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.

(Jointly referred to the Committees on Energy and Commerce; Merchant Marine and Fisheries; Public Works and Transportation; and Science, Space, and Technology)

Sep. 22, 1987.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.R. 3350 **Sept. 29, 1987**

MR. HOWARD (FOR HIMSELF), MR. MINETA, MR. HAMMERSCHMIDT, MR. GINGRICH, MR. ROE, MR. LUJAN, MR. MCCURDY, MR. LEWIS OF FLORIDA, MR. ROSTENKOWSKI, AND MR. DUNCAN

To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.

(Jointly referred to the Committees on Public Works and Transportation; Science, Space, and Technology; and Ways and Means)

Retained at Committee level.

Oct. 1, 1987.—Amendment to H.R. 2310 made in order by H.Res. 278.

See H.R. 2310.

H.R. 3463 — **Oct. 9, 1987**

MR. HALL OF TEXAS (FOR HIMSELF) AND MR. SENSENBRENNER

To require the Secretary of Energy to make certain assessments with respect to the research and development of the Superconducting Super Collider program.

Oct. 15, 1987.—Provisions of H.R. 3463 incorporated into H.R. 3228 as section 103.
Oct. 19, 1987.—Referred jointly to the Subcommittees on Energy Research and Development, and International Scientific Cooperation.

See H.R. 3228.

H.R. 3497 — **Oct. 15, 1987**

MR. HALL OF TEXAS (FOR HIMSELF) AND MR. SCHEUER

To require the President to take appropriate actions domestically and internationally to establish a Global Change Research Program aimed at understanding the cumulative impacts of man on his environment.

(Jointly referred to the Committees on Science, Space, and Technology and Foreign Affairs)

Oct. 19, 1987.—Referred jointly to the Subcommittees on Natural Resources, Agriculture Research and Environment, and International Scientific Cooperation.

Subsumed in conference on H.R. 1777.

H.R. 3499 — **Oct. 15, 1987**

MR. JONES OF NORTH CAROLINA (FOR HIMSELF) AND MR. MORRISON OF WASHINGTON

To amend the Nuclear Waste Policy Act of 1982 to encourage the continuation of research on the subseabed disposal of nuclear waste by establishing an Office of Alternative Disposal Methods, and for other purposes.

(Jointly referred to the Committees on Interior and Insular Affairs; Energy and Commerce; Science, Space, and Technology; and Merchant Marine and Fisheries)

Oct. 19, 1987.—Referred jointly to the Subcommittees on Natural Resources, Agriculture Research and Environment, and Energy Research and Development.

H.R. 3545 — **Oct. 26, 1987**

MR. GRAY OF PENNSYLVANIA

To provide for reconciliation pursuant to section 4 of the concurrent resolution on the budget for fiscal year 1988.

Dec. 11, 1987.—House agreed to Conference.
Dec. 15, 1987.—Conferees were appointed from the Committee on Science, Space, and Technology, for consideration of secs. 2002 (insofar as that section would add new secs. 403(i) and 410 to the Nuclear Waste Policy Act of 1982), 2006 and 2008 of the Senate amendment, and modifications committed to Conference: Messrs. Roe, Brown of California, Scheuer, Valentine, Chapman, and Mrs. Lloyd; Messrs. Morrison of Washington, Smith of Texas, Fawell and Konnyu (Cong. Record H11444).
Dec. 21, 1987.—Conferees met.
Dec. 21, 1987.—Conference Report filed in the House (H.Rept. 100–495).
Dec. 21, 1987.—House agreed to Conference Report by the roll call vote (No. 508) of 237 ayes to 81 nays (Cong. Record H11959; H11967).
Dec. 22, 1987.—Senate agreed to Conference Report by the roll call vote (No. 419) of 61 ayes to 28 nays (Cong. Record S18638; S18661).
Dec. 22, 1987.—Presented to the President.
Dec. 22, 1987.—Signed by the President. Public Law 100–203.

H.R. 3656 — **Nov. 18, 1987**

MR. SENSENBRENNER

To establish an interagency committee to review proposed international scientific and technological agreements and increase through negotiations for such agreements equivalent technolgical access between the United States and foreign countries.

(Jointly referred to the Committees on Foreign Affairs; the Judiciary; Science, Space, and Technology; and Ways and Means)

Nov. 23, 1987.—Referred jointly to the Subcommittees on Science, Research and Technology, and International Scientific Cooperation.

H.R. 3676 **Nov. 30, 1987**

MR. FOLEY

To authorize the water resources activities of the United States Geological Survey, to coordinate and improve ground water research, development and demonstration activities of Federal agencies, to improve understanding of the relationship between agricultural practices and ground water use, to provide assistance for small communities with ground water radium contamination, and for other purposes.

(Jointly referred to the Committees on Interior and Insular Affairs; Agriculture; Energy and Commerce; Public Works and Transportation; and Science, Space, and Technology)

Retained at Committee level.

Dec. 2, 1987.—Amendment to H.R. 791 made in order by the Rule, H.Res. 318.

See H.R. 791.

H.R. 3704 **Dec. 3, 1987**

MR. WALGREN (FOR HIMSELF), MR. BOEHLERT, MR. LUJAN, MR. ATKINS

To amend the Federal Fire Prevention and Control Act of 1974 to direct the Director of the Federal Emergency Management Agency, acting through the Administrator of the United States Fire Administration, to propose and promulgate a model code and guidelines governing the use and installation of automatic sprinkler systems in places of public accommodation affecting commerce, and for other purposes.

Hearings printed. Nos. 16, 99.

Dec. 8, 1987.—Referred to the Subcommittee on Science, Research and Technology.
Mar. 2, 10, 1988.—Subcommittee hearings held.
Apr. 14, 1988.—Subcommittee meeting (markup). Ordered bill forwarded to the Committee with an amendment in the nature of a substitute.
Apr. 21, 1988.—Committee meeting (markup). Ordered bill reported with an amendment.
Sep. 22, 1988.—Report filed in the House (H.Rept. 100–956).
Sep. 26, 1988.—Passed the House, amended, under Suspension of the Rules; agreed to amend the title (Cong. Record H8323–H8327).
Sep. 29, 1988.—Received in the Senate, and referred to the Senate Committee on Commerce, Science, and Transportation.

H.R. 3765 **Dec. 15, 1987**

MR. NELSON OF FLORIDA (FOR HIMSELF), MR. ROE, MR. LUJAN, MR. WALKER, MR. BROWN OF CALIFORNIA, MR. LEWIS OF FLORIDA, MR. VOLKMER, MR. PACKARD, MR. HALL OF TEXAS, MR. HENRY, MR. MCCURDY, MR. SLAUGHTER OF VIRGINIA, MR. MINETA, MS. MORELLA, MR. MACKAY, MR. TORRICELLI, MR. CHAPMAN, MR. NOWAK, MR. PERKINS, MR. NAGLE, MR. SKAGGS, MR. LAGOMARSINO, MR. SENSENBRENNER, MR. KONNYU, MR. BUECHNER, MR. HEFLEY, MR. MCMILLEN OF MARYLAND, MR. HAYES OF LOUISIANA, AND MRS. LLOYD

To facilitate commercial access to space, and for other purposes.

Hearings printed. No. 114.

Dec. 21, 1987.—Referred to the Subcommittee on Space, Science and Applications.
Feb. 16, 17, 1988.—Subcommittee hearings held.
Apr. 14, 1988.—Subcommittee meeting (markup). Ordered bill, reflecting the Subcommittee recommendations, to be introduced.

Superseded by H.R. 4399.

H.R. 3779 — **Dec. 17, 1987**

MR. BUECHNER (FOR HIMSELF), MR. HAYES OF LOUISIANA, MR. HENRY, MR. LEWIS OF FLORIDA, MR. LUJAN, MR. MCCURDY, MR. RITTER, MR. SLAUGHTER OF VIRGINIA, MR. NELSON OF FLORIDA, MR. KONNYU, MR. WALKER, MR. SENSENBRENNER, MRS. ROUKEMA

To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes.

Hearings printed. No. 109.

Jan. 4, 1988.—Referred to the Subcommittee on Transportation, Aviation and Materials.
June 16, 1988.—Subcommittee hearing held.
June 29, 1988.—Subcommittee meeting (markup). Ordered measure forwarded to the committee without amendments.
Aug. 11, 1988.—Committee meeting (markup). Ordered bill reported without amendments.
Sep. 8, 1988.—Report filed in the House (H.Rept. 100–893).
Sep. 20, 1988.—Passed the House under Suspension of the Rules (Cong. Record H7841–H7843).
Sep. 22, 1988.—Received in the Senate, and referred to the Senate Committee on Commerce, Science, and Transportation.
Oct. 19, 1988.—Provisions of H.R. 3779 became Title VI of S. 2209, the National Aeronautics and Space Administration Act, 1989 (Cong. Record H10386–H10399).
Oct. 21, 1988.—Provisions of H.R. 3779 also became Section 8 of H.R. 4686, the Aviation Safety Research Act of 1988 (Cong. Record H10713–H10718).
Nov. 3, 1988.—H.R. 4686 enacted: Public Law 100–591.
Nov. 17, 1988.—S. 2209 enacted: Public Law 100–685.

H.R. 3809 — **Dec. 18, 1987**

MR. JOSEPH KENNEDY, MR. DWYER OF NEW JERSEY, MR. FAUNTROY, MR. LOWRY OF WASHINGTON, MR. OWENS OF NEW YORK, MR. HAYES OF ILLINOIS, MR. LEWIS OF GEORGIA, MR. GRAY OF PENNSYLVANIA, MS. PELOSI, MR. ACKERMAN, MR. JONTZ, MR. SOLARZ, MR. BATES, MR. SCHUMER, MR. WEISS, MRS. MEYERS OF KANSAS, MR. ATKINS, MR. EDWARDS OF CALIFORNIA, MR. TRAFICANT, MR. PENNY, MR. DYMALLY, MR. MILLER OF CALIFORNIA, MR. KILDEE

To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

(Jointly referred to the Committees on Energy and Commerce, and Science, Space, and Technology)

Jan. 4, 1988.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

Superseded by H.R. 5373.

H.R. 3858 — **Jan. 25, 1988**

MR. TORRICELLI, MR. MCMILLEN OF MARYLAND, MR. MRAZEK, MR. DE LUGO, MR. TOWNS, MR. LEVINE OF CALIFORNIA, MR. BROWN OF CALIFORNIA, MR. ATKINS, MR. MINETA, MR. FAZIO

To establish a National Mars Commission, and for other purposes.

(Jointly referred to the Committees on Science, Space, and Technology, and Foreign Affairs)

Jan. 29, 1988.—Referred to the Subcommittee on Space Science and Applications.
Mar. 22, 1988.—Hearing held in conjunction with the Subcommittee hearings on H.R. 4157, the National Aeronautics and Space Administration Authorization, FY 1989.

Provisions became Title II, Section 207, of H.R. 4561, the Multiyear National Aeronautics and Space Administration Authorization Act; ultimately enacted pursuant to P.L. 100–685, the National Aeronautics and Space Administration Authorization, 1989, on November 17, 1988.

H.R. 4036 — **Feb. 29, 1988**

MR. MRAZEK, MR. DOWNEY OF NEW YORK, MR. BROWN OF CALIFORNIA, MR. STUDDS, MR. BERMAN, MR. HAMILTON, MS. PELOSI, MR. BUSTAMANTE, MR. MORRISON OF CONNECTICUT, MR. KILDEE, MR. CHAPMAN, MR. FEIGHAN, MR. MCHUGH, MR. LEHMAN OF FLORIDA, MR. ACKERMAN, MR. LUJAN, MISS SCHNEIDER, MS. MORELLA, MR. BEILENSON, MR. MAVROULES, MR. TORRICELLI, MR. BOEHLERT, MR. LANTOS

To establish the Commission on International Security and Satellite Monitoring.

(Jointly referred to the Committees on Science, Space, and Technology; Foreign Affairs; and the Permanent Select Committee on Intelligence)

Mar. 3, 1988.—Referred jointly to the Subcommittees on International Scientific Cooperation, and Natural Resources, Agriculture Research and Environment.

H.R. 4071 **Mar. 2, 1988**

MR. SLATTERY, MR. BATES, MR. BOSCO, MRS. BOXER, MRS. COLLINS, MR. GLICKMAN, MR. MORRISON OF CONNECTICUT, MR. OWENS OF NEW YORK, MR. OWENS OF UTAH, MR. RANGEL, MR. JONTZ, MR. NEAL, MR. GONZALEZ, MR. ECKART, MR. DELLUMS, MR. LIPINSKI, MR. EVANS OF ILLINOIS, MR. TOWNS

To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.

(Jointly referred to the Committees on Interior and Insular Affairs, Energy and Commerce, Armed Services, and Science, Space, and Technology)

Mar. 9, 1988.—Referred to the Subcommittee on Energy Research and Development.

H.R. 4157 **Mar. 15, 1988**

MR. ROE (BY REQUEST)

To authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes.

Administration proposal, No. 3071.

Hearings printed. Nos. 94, 121.

Mar. 3, 8, 9, 10, 1988.—Subcommittee on Space Science and Applications hearings held prior to introduction.
Mar. 21, 1988.—Referred jointly to the Subcommittees on Space Science and Applications, and Transportation, Aviation and Materials.
Mar. 22, 1988.—Subcommittee on Space Science and Applications hearing.
Apr. 12, 13, 1988.—Subcommittee on Transportation, Aviation and Materials hearings.
Apr. 14, 1988.—Subcommittee on Space Science and Applications meeting (markup). Began consideration of H.R. 4157.
Apr. 27, 1988.—Subcommittee on Transportation, Aviation and Materials meeting (markup). Ordered measure forwarded to the committee with amendments.
May 4, 1988.—Subcommittee on Space Science and Applications meeting (markup). Ordered measure forwarded to the committee with amendments.
May 10, 1988.—Bill introduced in the House, reflecting the recommendations of the Subcommittees' of jurisdiction, for consideration by the committee.

Superseded by H.R. 4561.

H.R. 4193 **Mar. 17, 1988**

MR. BONKER (FOR HIMSELF), MR. DICKS, MR. LOWRY OF WASHINGTON, MR. MILLER OF WASHINGTON, MR. DEFAZIO, MR. PEPPER, MR. STARK, MR. FOGLIETTA, MR. FISH, MS. OAKAR, MR. JOSEPH KENNEDY

To create a Federal facility nuclear cleanup trust fund, to require the Secretary of Energy and the Administrator of the Environmental Protection Agency to enter into compliance agreements for environmental cleanup of Federal nuclear facilities, to create a special environmental counsel, to provide for research and development for Federal nuclear facilities, and for other purposes.

(Jointly referred to the Committees on Energy and Commerce; Interior and Insular Affairs; Armed Services; Science, Space, and Technology; Public Works and Transportation; and the Judiciary)

Mar. 24, 1988.—Jointly referred to the Subcommittees on Natural Resources, Agriculture Research and Environment, and Energy Research and Development.

H.R. 4210 **Mar. 21, 1988**

MR. LOWRY OF WASHINGTON (FOR HIMSELF), MR. JONES OF NORTH CAROLINA, MR. STUDDS, MR. SAXTON, MR. HUGHES, MR. DAVIS OF MICHIGAN, MISS SCHNEIDER

To reauthorize Title II of the Marine Protection, Research, and Sanctuaries Act of 1972, for fiscal years 1989 and 1990, and for other purposes.

(Jointly referred to the Committees on Merchant Marine and Fisheries, and Science, Space, and Technology)

Mar. 24, 1988.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Envirn
May 13, 1988.—Committee on Merchant Marine and Fisheries report filed in the House (H.Rept. 100-624, Part 1).
Oct. 3, 1988.—Committee on Science, Space, and Technology agreed to be discharged from further consideration.
Oct. 3, 1988.—Considered by the House under Suspension of the Rules (Cong. Record H9384-H9392).
Oct. 4, 1988.—Passed the House, amended, by the roll call (No. 402) vote of 415 ayes to 2 nays (Cong. Record H9467-H9468).
Oct. 7, 1988.—Placed on Senate Legislative Calendar.
Oct. 12, 1988.—Passed the Senate after agreeing to amendments proposed thereto: (1) Byrd (for Hollings) amendment No. 3676, to strike Title III and Title IV (Cong. Record S15607-S15610). S. 2761, the Senate companion measure, indefinitely postponed.
Oct. 13, 1988.—House concurrence requested.
Oct. 13, 1988.—House agreed to the Senate amendments, clearing the measure for the President (Cong. Record H10183-H10186).
Oct. 27, 1988.—Presented to the President.
Nov. 7, 1988.—Signed by the President. Public Law 100-627.

H.R. 4211 **Mar. 21, 1988**

MR. LOWRY OF WASHINGTON (FOR HIMSELF), MR. JONES OF NORTH CAROLINA, MR. STUDDS, MR. SAXTON, MR. HUGHES, MR. DAVIS OF MICHIGAN, MISS SCHNEIDER

To reauthorize the National Ocean Pollution Planning Act of 1978 for fiscal years 1989 and 1990, and for other purposes.

(Jointly referred to the Committees on Merchant Marine and Fisheries, and Science, Space, and Technology)

Mar. 24, 1988.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.
May 26, 1988.—Committee on Merchant Marine and Fisheries report filed in the House (H.Rept. 100–657, Part 1).
Oct. 3, 1988.—Committee on Science, Space, and Technology agreed to be discharged from further consideration.
Oct. 3, 1988.—Considered by the House under Suspension of the Rules (Cong. Record H9392–H9393).
Oct. 4, 1988.—Passed the House, amended, by the roll call (No. 403) of 398 ayes to 21 nays (Cong. Record H9468).
Oct. 7, 1988.—Placed on Senate Legislative Calendar.
Oct. 19, 1988.—Passed the Senate; clearing the measure for the President (Cong. Record S16829).
Oct. 27, 1988.—Presented to the President.
Nov. 8, 1988.—Signed by the President. Public Law 100–636.

H.R. 4218 **Mar. 22, 1988**

MR. BROWN OF CALIFORNIA (FOR HIMSELF), MR. WALKER, MR. VOLKMER, MR. TORRICELLI, MR. PERKINS, MR. BATEMAN, MR. KOLBE, MR. LUJAN, MR. BATES, MR. ROE, MR. FAUNTROY, MR. AKAKA, MR. MAZZOLI, MR. LEWIS OF GEORGIA, MR. DE LUGO, MR. FAZIO, MR. BUECHNER, MR. PACKARD, MR. OLIN, MR. LEVINE OF CALIFORNIA, MR. SMITH OF NEW HAMPSHIRE, MR. KONNYU, MR. DAVIS OF ILLINOIS, MR. NAGLE

To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.

Mar. 25, 1988.—Referred to the Subcommittee on Space Science and Applications.

Provisions enacted pursuant to Sec. 217, P.L. 100–685, the National Aeronautics and Space Administration Authorization, 1989, on November 17, 1988.

H.R. 4224 **Mar. 22, 1988**

MR. MORRISON OF WASHINGTON (FOR HIMSELF), MR. SWIFT, MR. CHANDLER, MR. LOWRY OF WASHINGTON, MR. DICKS, MR. BORSKI, MR. NEAL, MR. FAWELL

To require the Secretary of Energy to develop a plan for demonstrating the technical feasibility of burning weapons grade nuclear materials that have been removed from dismantled nuclear weapons in nuclear reactors of the Department of Energy and to report to Congress on that plan, and to require the President to consider inviting the Soviet Union to participate in the demonstration.

(Jointly referred to the Committees on Armed Services and Space, Science, and Technology)

Mar. 25. 1988.—Referred to the Subcommittee on Energy Research and Development.

H.R. 4226 **Mar. 22, 1988**

MR. SHARP (FOR HIMSELF), MRS. LLOYD, MR. BROWN OF CALIFORNIA, MISS SCHNEIDER, MR. JONTZ, MR. WALGREN, MR. MORRISON OF CONNECTICUT, MR. VALENTINE, MR. NEAL, MR. HORTON, MR. STUDDS, MR. WOLPE, MR. DELLUMS, MR. SUNIA, MR. EVANS OF ILLINOIS, MR. OWENS OF UTAH, MR. ST GERMAIN, MR. ECKART, MR. KOSTMAYER, MR. FRANK, MRS. COLLINS, MR. FOGLIETTA, MR. HAYES OF ILLINOIS, MR. HOUGHTON, MR. HOCHBRUECKNER, MS. OAKAR, MR. NOWAK, MR. SOLARZ, MR. KOLTER, MR. MAVROULES, MR. JEFFORDS, MR. SKELTON, MR. ACKERMAN, MR. VISCLOSKY, MR. HUGHES, MR. RIDGE, MR. VENTO, MR. YATES, MR. CLEMENT, MR. CARPER, MR. KASTENMEIER, MR. MCCLOSKEY, MR. LIPINSKI, MR. MCHUGH, MR. OBERSTAR, MR. GEJDENSON, MR. RODINO, MR. AKAKA, MS. SAIKI, MR. MRAZEK, MR. CHAPMAN, MR. STALLINGS, MR. SKAGGS, MR. THOMAS A. LUKEN, MR. FAZIO, MR. TRAFICANT, MR. RICHARDSON, MR. FEIGHAN, MS. PELOSI, MR. ATKINS, MR. MARKEY, MR. DWYER OF NEW JERSEY, MR. DURBIN, MR. BRUCE, MR. BATES, MR. WISE, MR. SHAYS, MR. WEISS, MR. WYDEN, MR. BRYANT, MR. FORD OF TENNESSEE, MR. DEFAZIO, MR. KILDEE, MS. KAPTUR, MR. SWIFT, MRS. SCHROEDER, MR. LELAND

To promote the development and commercialization of renewable energy and energy conservation.

(Jointly referred to the Committees on Energy and Commerce, and Science, Space, and Technology)

Supersedes S. 1294.

Hearings printed. No. 128.

Mar. 25, 1988.—Referred to the Subcommittee on Energy Research and Development.
June 30, 1988.—Subcommittee hearing held.
Sep. 22, 1988.—Subcommittee meeting (markup). Ordered bill forwarded to the committee with amendments.

See H.R. 4505.

H.R. 4230 **Mar. 23, 1988**

MR. ENGLISH (FOR HIMSELF), MR. ROBINSON, MR. WYDEN, MR. DIOGUARDI, MR. GIBBONS, MR. FASCELL, MR. GILMAN, MR. NELSON OF FLORIDA, MR. PEPPER, MR. MACKAY, MR. DE LUGO, MR. ACKERMAN, MR. COLEMAN OF TEXAS, MR. INHOFE, MR. KLECZKA, MR. LAGOMARSINO, MR. RANGEL, MR. BILBRAY, MR. HOCHBRUECKNER, MRS. ROUKEMA, MR. MCGRATH, MR. TORRES, MR. WATKINS, MR. MCCURDY, MR. DYSON, MR. AKAKA, MR. SYNAR, MR. GRANT, MR. COELHO, MR. FAUNTROY, MR. DEFAZIO, MRS. BOXER, MR. CLINGER, MR. TOWNS, MR. LANTOS, MR. BENNETT, MR. MANTON, MR. IRELAND, MR. DOWNEY OF NEW YORK, MR. RINALDO, MS. SLAUGHTER OF NEW YORK, MR. SKELTON, MR. JONTZ, MR. LEATH OF TEXAS, MR. OWENS OF UTAH, MR. GRAY OF ILLINOIS, MR. DOWDY OF MISSISSIPPI, MR. DIXON OF CALIFORNIA, MR. SMITH OF FLORIDA, MR. ORTIZ, MR. STARK, MRS. BENTLEY, MR. BRYANT, MR. ERDREICH, MRS. SCHROEDER, MR. FAZIO, MS. PELOSI, MR. MICA, MR. LEWIS OF GEORGIA, MR. FUSTER, MR. DE LA GARZA, MR. HASTERT, MR. BEVILL, MR. BIAGGI, MR. EDWARDS OF OKLAHOMA, MR. GARCIA, MR. GORDON, MR. HYDE, MR. LANCASTER, MR. LELAND, MR. MAZZOLI, MR. PORTER, MR. ROE, MR. ROWLAND OF GEORGIA, MR. SHAW, MR. BROWN OF CALIFORNIA, MR. BORSKI, MR. CHAPMAN, MR. DWYER OF NEW JERSEY, MR. FEIGHAN, MR. HATCHER, MR. HORTON, MR. LIPINSKI, MR. OWENS OF NEW YORK, MR. RITTER, MR. SKAGGS, MR. CARR, MS. KAPTUR, MR. STALLINGS, MR. FLAKE, MR. CLEMENT, MR. MAVROULES, MR. SHAYS, MR. MARTIN OF NEW YORK, MR. SWIFT, MR. WOLPE

To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

(Jointly referred to the Committees on Government Operations; the Judiciary; Ways and Means; Foreign Affairs; Energy and Commerce; Education and Labor; Armed Services; Merchant Marine and Fisheries; Science, Space, and Technology; the Permanent Select Committee on Intelligence; and Post Office and Civil Service)

Apr. 26, 1988.—Referred to Subcommittee on Science, Research, and Technology.

H.R. 4231 **Mar. 23, 1988**

MR. BRENNAN (FOR HIMSELF), MISS SCHNEIDER, MR. PICKETT, MR. HUGHES, MR. HOWARD, MR. ROE, MR. SCHEUER, MRS. BOXER, MS. SAIKI, MR. DE LUGO, MR. FAWELL, MR. MANTON, MR. COURTER, MR. DYSON, MR. WEISS, MR. SMITH OF FLORIDA, MR. OWENS OF NEW YORK, MR. NEAL, MR. BEILENSON, MR. LAGOMARSINO, MR. BORSKI, MR. DEFAZIO, MR. DWYER OF NEW JERSEY, MR. MAVROULES, MR. MARTINEZ, MR. CARDIN, MR. RODINO, MR. LEVINE OF CALIFORNIA, MR. GONZALEZ, MR. HERTEL, MR. MILLER OF CALIFORNIA, MS. SNOWE, MR. MORRISON OF CONNECTICUT, MR. DELLUMS, MR. HOCHBRUECKNER, MR. JOSEPH KENNEDY

To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

(Jointly referred to the Committees on Merchant Marine and Fisheries, and Science, Space, and Technology)

Mar. 28, 1988.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.R. 4283 **Mar. 29, 1988**

MR. SKEEN (FOR HIMSELF), MR. LUJAN, MR. RICHARDSON

To preserve the independence of the scientific evaluation group for the Waste Isolation Pilot Plant in New Mexico.

Apr. 12, 1988.—Referred to the Subcommittee on Energy Research and Development.

H.R. 4331 **Mar. 31, 1988**

MR. COOPER

To amend the Clean Air Act to provide further controls of certain stationary sources of sulfur dioxides and nitrogen oxides to reduce acid deposition, to provide for the commercialization of clean coal technologies for existing stationary sources, and for other purposes.

(Jointly referred to the Committees on Energy and Commerce, and Science, Space, and Technology)

Apr. 12, 1988.—Referred to the Subcommittee on Energy Research and Development.

H.R. 4335 **Mar. 31, 1988**

MR. SCHEUER (FOR HIMSELF), MISS SCHNEIDER, MR. BROWN OF CALIFORNIA, MR. WAXMAN, MR. LOWRY OF WASHINGTON, MR. WALGREN, MR. KASTENMEIER, MR. HENRY, MR. TOWNS, MR. GILMAN, MR. ACKERMAN, MR. MACKAY, MS. SAIKI, MR. BUECHNER, MR. VALENTINE, MR. WEISS, MR. BOEHLERT, MR. HOCHBRUECKNER, MR. OWENS OF NEW YORK, MR. AKAKA, MR. RANGEL, MR. MCMILLEN OF MARYLAND, MR. GARCIA, MR. LEWIS OF GEORGIA, MR. BONKER, MR. MRAZEK, MR. BEILENSON, MR. HAYES OF ILLINOIS, MRS. BOXER, MR. BORSKI, MR. HAMILTON, MR. JONTZ, MR. KOSTMAYER, MR. FOGLIETTA, MR. LANTOS, MR. NEAL, MR. HUGHES, MR. LEVINE OF CALIFORNIA, MRS. COLLINS, MR. SUNIA, MR. FUSTER, MR. SMITH OF FLORIDA, MR. KILDEE, MR. LEACH OF IOWA, MR. BATES, MR. CONYERS, MR. KONNYU, MR. ROSE, MS. OAKAR, MR. BOUCHER, MR. STARK, MR. WOLPE, MS. PELOSI, MR. SANDER LEVIN, MR. LELAND, MR. EVANS OF ILLINOIS, MR. COOPER, MR. DE LUGO, MR. SABO, MR. OBERSTAR, MR. JEFFORDS, MR. DAVIS OF ILLINOIS, MR. SKAGGS, MR. CLARKE, MR. BONIOR OF MICHIGAN, MR. MINETA, MR. THOMAS OF GEORGIA, MR. PORTER, MR. VENTO, MRS. MEYERS OF KANSAS, MR. DEFAZIO, MR. HAWKINS, MR. ROE, MR. MATSUI, MR. SMITH OF NEW HAMPSHIRE, MR. CARPER, MR. SOLARZ, MR. JOSEPH KENNEDY, MR. RITTER, MR. ATKINS, MR. OWENS OF UTAH, MR. MCHUGH, MR. RAVENEL, MR. NELSON OF FLORIDA, MR. PRICE OF NORTH CAROLINA, MR. MCCOLLUM, MS. MORELLA, MR. SCHUETTE

To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

(Jointly referred to the Committees on Science, Space, and Technology, and Merchant Marine and Fisheries)

Hearings printed. No. 143.

Apr. 12, 1988.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.
June 9, 30, 1988.—Subcommittee hearings held.
Aug. 2, 1988.—Subcommittee meeting (markup). Ordered bill forwarded to committee with amendments.

H.R. 4399 **Apr. 18, 1988**

MR. NELSON OF FLORIDA (FOR HIMSELF), MR. ROE, MR. LUJAN, MR. WALKER, MR. BROWN OF CALIFORNIA, MR. PACKARD, MR. VOLKMER, MR. SMITH OF NEW HAMPSHIRE, MR. MINETA, MR. SLAUGHTER OF VIRGINIA, MR. TORRICELLI, MR. KONNYU, MR. TRAFICANT, MR. BUECHNER, MR. CHAPMAN, MR. HEFLEY, MR. PERKINS, MS. MORELLA, MR. MCMILLEN OF MARYLAND, MR. LEWIS OF FLORIDA, MR. NAGLE, MR. HAYES OF LOUISIANA, MR. HALL OF TEXAS, MR. MACKAY, MR. SKAGGS, MR. NOWAK, MR. LAGOMARSINO, MR. SENSENBRENNER, MRS. LLOYD, AND MR. SCHEUER

To facilitate commercial access to space, and for other purposes.

Supersedes H.R. 3765.

Retained at Committee level.

Apr. 21, 1988.—Committee meeting (markup). Ordered bill reported.
May 19, 1988.—Report filed in the House (H.Rept. 100–639).
May 24, 1988.—Passed the House under Suspension of the Rules (Cong. Record H3512–H3518).
May 25, 1988.—Received in the Senate.
May 25, 1988.—Referred to the Senate Committee on Commerce, Science and Transportation.
Sep. 30, 1988.—Senate Committee ordered bill reported with an amendment in the nature of a substitute.
Oct. 7, 1988.—Report filed in the Senate (S.Rept. 100–593).
Oct. 14, 1988.—Passed the Senate, after agreeing to a committee amendment in the nature of a substitute, and an amendment proposed thereto: (1) Byrd (for Hollings) amendment No. 3711, to revise the period of applicability of Federal financial support for launches (Cong. Record S16366–S16373).
Oct. 18, 1988.—Received in the House; House concurrence requested.
Oct. 21, 1988.—House agreed to the Senate amendment to H.R. 4399 by the roll call (No. 456) vote of 355 ayes to 1 nay; clearing the bill for the President (Cong. Record H10718–H10722; H10751).
Nov. 3, 1988.—Presented to the President.
Nov. 15, 1988.—Signed by the President. Public Law 100–657.

H.R. 4417 **Apr. 20, 1988**

MR. WALGREN

To authorize appropriations to the Secretary of Commerce for the programs of the National Bureau of Standards for fiscal year 1989, and for other purposes.

Retained at Committee level.

Hearings printed. No. 96.

Mar. 15, 16, 17, 1988.—Subcommittee on Science, Research and Technology hearings held prior to introduction.
Apr. 19, 1988.—Subcommittee on Science, Research and Technology meeting (markup). Ordered bill to be introduced reflecting the recommendations of the Subcommittee.
Apr. 21, 1988.—Committee meeting (markup). consideration.
May 5, 1988.—Committee meeting (markup). Ordered bill reported with an amendment.
May 24, 1988.—Committee on Rules hearing requested.
June 3, 1988.—Report filed in the House (H.Rept. 100–673, Part 1).
June 3, 1988.—Sequentially referred to the Committee on Energy and Commerce for a period ending not later than June 8, 1988, for consideration of such provisions of Title II of the amendment as fall within its jurisdiction pursuant to clause 1(h), Rule X.
June 8, 1988.—Sequential referral to the Committee on Energy and Commerce extended for a period ending not later than June 24, 1988.
June 16, 1988.—Referred to the Committee on Energy and Commerce Subcommittee on Commerce, Consumer Protection, and Competitiveness.
June 22, 1988.—Sequential referral to the Committee on Energy and Commerce extended for a period ending not later than July 8, 1988.
June 30, 1988.—Subcommittee on Commerce, Consumer Protection, and Competitiveness (Committee on Energy and Commerce) hearing held.
July 8, 1988.—Committee on Energy and Commerce report filed in the House (H.Rept. 100–673, Part 2).
Aug. 11, 1988.—Committee on Rules hearing. Rule granted; one-hour, open. The Rule providing one-hour of debate makes in order the text of H.R. 5183 as original text for purposes of amendment (H.Res. 522).
Sep. 26, 1988.—Passed the House, after agreeing to: (1) the amendment in the nature of a substitute (text of H.R. 5183, as provided in H. Res. 522, the previously passed Rule under which the bill was considered); (2) the Roe technical amendments; (3) the Walgren amendment that prohibits privatization of the functions of the National Technical Information Service by the roll call (No. 346) vote of 219 ayes to 116 nays; and (4) the Dymally amendment that establishes an international standards program to provide assistance to other countries wishing to make their nation's standards comparable to the United States (Cong. Record H8272–H8283).
Sep. 29, 1988.—Received in the Senate, and referred to the Committee on Commerce, Science, and Transportation.
Oct. 5, 1988.—Senate Committee on Commerce, Science, and Transporation discharged from further consideration.
Oct. 5, 1988.—Passed the Senate; S. 2701, the Senate companion measure, indefinitely postponed; clearing the bill for the President (Cong. Record S14735–S14736).
Oct. 13, 1988.—Presented to the President.
Oct. 24, 1988.—Signed by the President. Public Law 100–519.

H.R. 4418 **Apr. 20, 1988**

MR. WALGREN

To authorize appropriations for the National Science Foundation for fiscal years 1989 and 1990, and for other purposes.

Retained at Committee level.

H.R. 4418—Continued

Hearings printed. No. 115.

Mar. 22, 23, 24, 1988.—Subcommittee on Science, Research and Technology hearings held prior to introduction.

Apr. 19, 1988.—Subcommittee on Science, Research and Technology meeting (markup). Ordered bill to be introduced reflecting the recommendations of the Subcommittee.

May 5, 1988.—Committee meeting (markup). Ordered bill reported with an amendment.

May 24, 1988.—Committee on Rules hearing requested.

May 24, 1988.—Report filed in the House (H.Rept. 100–649).

May 25, 1988.—Committee on Rules hearing. Rule granted: one-hour; open.

June 9, 1988.—Passed the House by the roll call vote (No. 177) of 405 ayes to 5 nays after agreeing to: (1) the Roe technical amendment that authorizes Presidential awards for teaching excellence; (2) the Roe technical amendment that strikes certain language relating to conflict of interest standards for members of the National Science Board; (3) the Roe amendment that makes conforming changes in language prohibiting use of funds for an icebreaking research vessel not built in a United States shipyard; (4) the Boehlert amendment that reduces the authorization by $85 million; (5) the Traficant amendment that gives domestic firms a 6 percent cost advantage over foreign firms when competing for contracts related to programs in the bill, only if the product is completely assembled and at least 50 produced in the United States; and (6) the Fields amendment that clarifies language relating to the building of an icebreaking research vessel providing that no bid submitted by a foreign shipyard (receiving direct or indirect government subsidies) be considered as an indicator or "world free-market price" as defined in the bill (Cong. Record H4073–H4092).

June 14, 1988.—Received in the Senate and placed on the Senate Calendar.

June 17, 1988.—Passed the Senate by the roll call vote (No. 191), of 88 ayes to 1 nay, after striking all after the enacting clause and inserting in lieu thereof the text of S.1632, the Senate companion measure, after agreeing to the committee amendments and amendments proposed thereto, as follows: (1) the Byrd (for Kennedy) amendment No. 2406, in the nature of a substitute; (2) the Byrd (for Simon) amendment No. 2407 (to amendment No. 2406), to provide that the Office of Science and Technology Policy shall prepare and submit a report to the Congress, not later than November 1, 1988, on desalinization research and technology (Cong. Record S8074–S8089; S8108).

Sep. 26, 1988.—H. Res. 547, providing for agreeing to the Senate amendment to H.R. 4418, with an amendment, was agreed to by the House under Suspension of the Rules (Cong. Record H8327–H8338).

Sep. 27, 1988.—H. Res. 547, the resolution providing for agreeing to the Senate amendment to the text of H.R. 4418, with an amendment, was passed by the roll call (No. 352) vote of 402 ayes to 2 nays; returning the bill to the Senate (Cong. Record H8427).

Sep. 30, 1988.—Received in the Senate; Senate concurrence requested.

Oct. 14, 1988.—Senate concurred in the amendments of the House to the Senate amendments to H.R. 4418 (Cong. Record S15936–S15947).

Oct. 18, 1988.—Cleared for the President (Cong. Record H10306).

Oct. 21, 1988.—Presented to the President.

Oct. 31, 1988.—Signed by the President. Public Law 100–570.

H.R. 4419 **Apr. 20, 1988**

MR. WALGREN

To authorize appropriations for activities under the Federal Fire Prevention and Control Act of 1974.

Retained at Committee level.

Mar. 10, 1988.—Subcommittee on Science, Research and Technology hearing held prior to introduction.

Apr. 14, 1988.—Subcommittee on Science, Research and Technology meeting (markup) held prior to introduction. Ordered bill to be introduced reflecting the Subcommittee recommendations.

Apr. 21, 1988.—Committee meeting (markup). Ordered bill reported with amendments.

Apr. 27, 1988.—Report filed in the House (H.Rept. 100–589).

May 24, 1988.—Passed the House under Suspension of the Rules (Cong. Record H3519–H3522).

May 25, 1988.—Received in the Senate.

May 25, 1988.—Referred to the Senate Committee on Commerce, Science and Transportation.

July 27, 1988.—Senate Committee on Commerce, Science and Transportation report filed in the Senate (S.Rept. 100–435).

Aug. 10, 1988.—Passed the Senate after agreeing to a committee amendment thereto (Cong. Record S11512–S11513).

Sep. 7, 1988.—Received in the House; House concurrence requested.

Sep. 26, 1988.—House concurred in the Senate amendments; clearing the bill for the President (Cong. Record H8338–H8339).

Sep. 30, 1988.—Presented to the President.

Oct. 6, 1988.—Signed by the President. Public Law 100–476.

H.R. 4454 **Apr. 26, 1988**

MR. COURTER (FOR HIMSELF), MR. SMITH OF NEW JERSEY, MR. GALLO, MR. SAXTON, MR. DWYER OF NEW JERSEY, MR. LAGOMARSINO, MR. JONTZ, MR. HAWKINS, MR. BEILENSON, MR. BOEHLERT, MR. WORTLEY, MR. CLEMENT, MRS. BOXER, MR. SOLOMON, MRS. MEYERS OF KANSAS

To establish programs to promote recycling, and for other purposes.

(Jointly referred to the Committees on Science, Space, and Technology; Education and Labor; Energy and Commerce; and Merchant Marine and Fisheries)

May 3, 1988.—Referred jointly to the Subcommittees on Natural Resources, Agriculture Research and Environment, and Science, Research and Technology.

H.R. 4465 **Apr. 26, 1988**

MR. OWENS OF UTAH (FOR HIMSELF), MR. JEFFORDS, MR. BERMAN, MR. LUJAN, MISS SCHNEIDER, MS. OAKAR, MRS. BOXER, MR. FAUNTROY, MR. DIXON OF CALIFORNIA, MR. EVANS OF ILLINOIS, MR. CHAPMAN, MR. GARCIA, MR. CONTE, MR. FOGLIETTA, MR. HOCHBRUECKNER, MRS. MEYERS OF KANSAS, AND MR. SHARP

To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.

(Jointly referred to the Committees on Science, Space, and Technology; Energy and Commerce; Ways and Means; Armed Services; Banking, Finance and Urban Affairs; Small Business; Foreign Affairs; and Post Office and Civil Service)

May 11, 1988.—Referred to the Subcommittee on Energy Research and Development.

H.R. 4489 **Apr. 28, 1988**

MR. RICHARDSON (FOR HIMSELF), MR. CHENEY, MR. HUBBARD, MR. NIELSON OF UTAH, MR. COELHO, MR. LUJAN, MR. TAUZIN, MR. OXLEY, MR. DARDEN, MR. SKEEN, MR. HALL OF TEXAS, MR. FIELDS, MRS. LLOYD, MR. DANNEMEYER, MR. ENGLISH, MR. SCHAEFER, MR. WATKINS, MR. EDWARDS OF OKLAHOMA, MR. HUCKABY, MR. RHODES, MR. CAMPBELL, MR. BLILEY, MR. DOWDY OF MISSISSIPPI, MR. COATS, MR. STALLINGS, MR. PASHAYAN, MR. MCCURDY, MR. BARTON OF TEXAS, MR. HAYES OF LOUISIANA, MR. IRELAND, MRS. BYRON, MR. MORRISON OF WASHINGTON, MR. WHITTAKER, MR. YOUNG OF ALASKA, MR. MURPHY, MR. STUMP, MR. CRAIG, MRS. VUCANOVICH, MR. INHOFE, MR. HANSEN, MR. ROGERS, MR. MCEWEN, MR. COMBEST, MR. CALLAHAN, MR. BILIRAKIS, MR. MARLENEE, MR. DENNY SMITH, MR. HEFLEY, MR. NEAL, MR. TOWNS, MR. CHAPMAN, MR. DE LA GARZA, MR. OWENS OF UTAH

To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

(Jointly referred to the Committees on Energy and Commerce; Interior and Insular Affairs; Science, Space, and Technology; and Ways and Means)

Hearings printed. No. 144.

May 17, 1988.—Referred to the Subcommittee on Energy Research and Development.
Oct. 6, 1988.—Subcommittee hearing held.

H.R. 4502 **Apr. 29, 1988**

MR. SCHEUER, MR. MCCURDY, MR. KONNYU, MR. MCMILLEN OF MARYLAND, MR. SHAYS, MR. BRUCE, MR. TORRICELLI, MR. STALLINGS, MR. SMITH OF TEXAS, MR. SMITH OF NEW HAMPSHIRE, MR. HENRY, MR. HOCHBRUECKNER, MR. MACKAY, MR. SKAGGS, MS. MORELLA

To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.

(Jointly referred to the Committees on Energy and Commerce, and Science, Space, and Technology)

Similar to S. 1966.

Hearings printed. No. 138.

May 4, 1988.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.
July 14, 1988.—Subcommittee joint hearing held with Subcommittee on Science, Research and Technology.
Aug. 2, 1988.—Subcommittee on Natural Resources, Agriculture Research and Environment meeting (markup). Ordered bill forwarded to the committee with an amendment in the nature of a substitute.
Aug. 3, 1988.—Sequentially referred to the Subcommittee on Science, Research and Technology.
Aug. 10, 1988.—Subcommittee on Science, Research and Technology meeting (markup). Ordered bill forwarded to the committee with an amendment in the nature of a substitute.
Aug. 11, 1988.—Committee meeting (markup). Ordered bill reported with an amendment in the nature of a substitute.
Sep. 28, 1988.—Report filed in the House (H.Rept. 100-993, Part 1)

H.R. 4505 **May 2, 1988**

MRS. LLOYD

To authorize appropriations to the Department of Energy for civilian research and development programs for fiscal year 1989.

Retained at Committee level.

Hearings printed. Nos. 91, 101, 103, 117, 139, 140, 142, 151.

Mar. 2, 3, 8, 9, 10, 15, 16, 17, 23, 24, 29, 30, 1988.—Subcommittee on Energy Research and Development hearings held prior to introduction.
Mar. 24, 1988.—Subcommittee on Transportation, Aviation and Materials hearing on Department of Energy transportation programs held prior to introduction.
Mar. 31, 1988.—Subcommittee on Natural Resources, Agriculture Research and Environment hearing held on Department of Energy environmental programs prior to introduction.
Apr. 20, 1988.—Subcommittee on Energy Research and Development meeting (markup). Ordered bill to be introduced reflecting the recommendations of the subcommittee.
Apr. 27, 1988.—Subcommittee on Natural Resources, Agriculture Research and Environment meeting (markup). Ordered bill to be introduced reflecting the subcommittee's recommendations for the Department of Energy environmental programs.
Apr. 27, 1988.—Subcommittee on Transportation, Aviation and Materials meeting (markup). Ordered bill to be introduced reflecting the subcommittee's recommendations for the Department of Energy transportation programs.
Apr. 29, 1988.—Committee meeting (markup). Began consideration.
May 5, 1988.—Committee meeting (markup). Ordered bill reported with an amendment.
May 19, 1988.—Report filed in the House (H.Rept. 100-636).
May 24, 1988.—Committee on Rules hearing requested.
May 25, 1988.—Committee on Rules hearing. Rule granted: one-hour; open.
June 2, 1988.—House began consideration of H.R. 4505, concluding all debate thereon (Cong. Record H3910-H3916).
June 3, 1988.—Passed the House by the roll call vote (No. 167) of 290 ayes to 27 nays, after agreeing to the following amendments: (1) the committee amendment in the nature of a substitute; (2) the Boehlert amendment, as amended by the Roe substitute amendment (substitute agreed to by a recorded vote [No. 166] of 309 ayes to 16 nays), that directs the Secretary to seek foreign participation commitments in the Superconducting Super Collider project at a level not less than 2 per centum nor more than 33 per centum of the total estimated cost of the project as determined at the time of final site selection; (3) the Packard amendment that requires the State in which the SSC is sited to contribute a minimum of 10 per centum of the total initial estimated cost of the project with non-Federal funds and/or in-kind contributions; and (4) the Traficant amendment that provides "Buy American" provisions for the awarding of contracts, and requires the Secretary to report to Congress on contracts entered into with foreign entities in Fiscal Year 1988 and on the number of contracts that meet the Buy American provisions but which are determined by the United States Trade Representative to be in violation of GATT. Rejected the following amendments: (1) the Buechner amendment that sought to limit the authorization for the SSC project to $100 million for Fiscal Year 1989; and (2) the Boehlert amendment was offered, but subsequently withdrawn, that sought to prohibit use of funds for clean coal technology demonstration projects in Fiscal Year 1989 until timetables and targets have been established for acid rain control (Cong. Record H3927-H3960).
June 7, 1988.—Received in the Senate.
June 7, 1988.— Referred to the Senate Committee on Energy and Natural Resources.
Sep. 15, 1988.—Senate Committee on Energy and Natural Resources ordered bill reported with an amendment in the nature of a substitute.
Oct. 21, 1988.—Passed the Senate after agreeing to a Committee amendment in the nature of a substitute, and an amendment proposed thereto: Byrd (for Johnston) amendment No. 3770, in the nature of a substitute (Cong. Record S17157-S17168; S17241-S17250).

H.R. 4560 **May 10, 1988**

MR. LOTT

To designate the National Space Technology Laboratories in Bay St. Louis, Mississippi, as the "John C. Stennis Space Center".

May 13, 1988.—Referred to the Subcommittee on Space Science and Applications.
May 20, 1988.—Provisions instituted by Executive Order 12641.

H.R. 4561 (S. 2209) **May 10, 1988**

MR. NELSON OF FLORIDA (FOR HIMSELF), MR. MCCURDY, MR. WALKER, AND MR. LEWIS OF FLORIDA

To authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes.

Supersedes H.R. 4157, and as enacted as P.L. 100–685 includes provisions of S. 1667 and H.R. 3779.

Retained at Committee level.

May 12, 1988.—Committee meeting (markup). Ordered bill reported with an amendment.
May 24, 1988.—Committee on Rules hearing requested.
May 24, 1988.—Report filed in the House. (H.Rept. 100–650).
May 25, 1988.—Committee on Rules hearing. Rule granted: one-hour; open.
June 2, 1988.—Passed the House by the roll call vote (No. 165) of 360 ayes to 26 nays, after agreeing to the following amendments: (1) the committee amendment in the nature of a substitute; (2) a Roe technical amendment; (3) a Skaggs amendment that requires the Administrator to undertake discussions with representatives of countries and international entities re: the development of international docking interface standards for spacecraft docking; and (4) a Traficant amendment requiring the Administrator to report to Congress on contracts entered into with foreign entities, and report on the number of contracts that meet the "Buy American" requirements, but which are determined by the United States Trade Representative to be in violation of the General Agreement on Tariffs and Trade (GATT) (Cong. Record H3889–H3910).
June 7, 1988.— Received in the Senate.
June 7, 1988.—Referred to the Senate Committee on Commerce, Science and Transportation.
July 26, 1988.—The Senate Committee on Commerce, Science, Transportation filed report to accompany S. 2209, the Senate companion bill to H.R. 4561, in the Senate (S.Rept. 100–429).
Aug. 9, 1988.—S. 2209 passed the Senate, after agreeing to the committee amendment in the nature of a substitute, and the following amendments proposed thereto: (1) Byrd (for Glenn and Metzenbaum) amendment No. 2827, to provide authority for the lease of certain property and the making of certain agreements related to the construction and operation of an aerospace institute in Ohio; and (2) Byrd (for Hollings) amendment No. 2828, to authorize certain atmospheric and satellite programs and functions (Cong. Record S11213–S11228).
Oct. 19, 1988.—House passed S. 2209, with an amendment, under Suspension of the Rules; returning the bill to the Senate (Cong. Record H10386–H10399).
Oct. 20, 1988.—Received in the Senate; Senate concurrence requested.
Oct. 21, 1988.—Senate concurred in the amendment of the House to S. 2209, clearing the bill for the President (Cong. Record S17114–S17118).
Nov. 9, 1988.—S. 2209 presented to the President.
Nov. 17, 1988.—S. 2209 signed by the President. Public Law 100–685.

H.R. 4686 **May 25, 1988**

MR. LEWIS OF FLORIDA (FOR HIMSELF), MR. GLICKMAN, AND MR. MCCURDY

To amend the Federal Aviation Act of 1958 relating to aviation research.

Hearings printed. No. 109.

June 7, 1988.—Referred to the Subcommittee on Transportation, Aviation and Materials.
June 16, 1988.—Subcommittee hearing held.
June 29, 1988.—Subcommittee meeting (markup). Ordered bill forwarded to the committee with amendments.
Aug. 11, 1988.—Committee meeting (markup). Ordered bill reported with an amendment.
Sep. 8, 1988.—Report filed in the House (H.Rept. 100–894).
Sep. 20, 1988.—Passed the House under Suspension of the Rules (Cong. Record H7837–H7841).
Sep. 22, 1988.—Received in the Senate.
Sep. 23, 1988.—Placed on Senate Legislative Calendar under general orders.
Oct. 20, 1988.—Passed the Senate, after striking all after the enacting clause and inserting the text of S. 2746, the Senate companion measure, after agreeing to a committee amendment in the nature of a substitute, and amendments proposed thereto: (1) Dole (for Kassebaum) amendment No. 3751, in the nature of a substitute; and (2) Byrd (for Metzenbaum) amendment No. 3752, to provide for crashworthy fuselage fuel tanks and fuel lines. S. 2746 was indefintely postponed (Cong. Record S16989–S16996).
Oct. 21, 1988.—House agreed to Senate amendment, clearing the bill for the President (Cong. Record H10712–H10718).
Oct. 27, 1988.—Presented to the President.
Nov. 3, 1988.—Signed by the President. Public Law 100–591.

H.R. 4816 — **June 14, 1988**

MR. SOLOMON

To amend the Export Administration Act of 1979 to prohibit United States corporations from entering into commercial ventures using the Soviet space station and to prohibit United States satellites from being launched from launch vehicles owned by certain countries.

Retained at Committee level.

H.R. 4848 — **June 16, 1988**

MR. ROSTENKOWSKI (FOR HIMSELF), MR. FOLEY, MR. COELHO, MR. RODINO, MR. BROOKS, MR. DINGELL, MR. FASCELL, MR. ST GERMAIN, MR. PEPPER, MR. DE LA GARZA, MR. JONES OF NORTH CAROLINA, MR. ROE, MR. LAFALCE, MR. HAWKINS, MR. ANDERSON, MR. ASPIN, MR. GIBBONS, MR. BONKER, MR. DOWNEY OF NEW YORK, MR. RUSSO, MR. MATSUI, MR. GUARINI, MR. MICA, MR. FAUNTROY, MR. SWIFT, MR. SHARP, MR. WOLPE, MR. SKELTON, MR. HATCHER, MR. KASTENMEIER, MR. HUGHES, MR. BIAGGI, MR. GORDON, MR. PRICE OF NORTH CAROLINA, MR. PENNY, MR. ROBINSON, MR. PICKLE, MR. VANDER JAGT, MR. ARCHER, MR. FRENZEL, MR. RANGEL, MR. STARK, MR. GRADISON, MR. SCHULZE, MR. JENKINS, MR. PEASE, MR. ANTHONY, MR. DONNELLY, MR. THOMAS OF CALIFORNIA, MR. BROWN OF COLORADO, MR. GREGG, MR. MCGRATH, MR. DORGAN OF NORTH DAKOTA, MRS. KENNELLY, MR. ANDREWS, MR. CHANDLER, MR. SANDER LEVIN, MR. MOODY, MR. ROSE, MRS. LLOYD, MS. PATTERSON, MR. JACOBS, MR. FLIPPO, MR. KILDEE, MR. CHAPMAN, MR. WISE, MR. STALLINGS

To enhance the competitiveness of American industry, and for other purposes.

(Jointly referred to the Committees on Ways and Means; Agriculture; Banking, Finance and Urban Affairs; Education and Labor; Foreign Affairs; Energy and Commerce; the Judiciary; Government Operations; Merchant Marine and Fisheries; Public Works and Transportation; Small Business; Science, Space, and Technology; Rules; and Armed Services)

For prior activity, see H.R. 3.

Committee legislation incorporated within H.R. 4848: H.R. 1964, H.R. 2068, H.R. 2069, H.R. 2160, H.R. 2165, H.R. 2191, H.R. 2219, H.R. 2492, H.R. 2916.

June 21, 1988.—Referred jointly to the Subcommittees on Science, Research and Technology; International Scientific Cooperation; and Transportation, Aviation and Materials.

July 12, 1988.—Committee on Rules hearing. Rule granted; two-hours, open.

July 13, 1988.—Passed the House by the roll call vote (No. 231) of 376 ayes to 45 nays; after rejecting the Michel motion to recommit the bill to the Committee on Ways and Means with instructions to report it back forthwith containing an amendment to strike language relating to ethyl alcohol and mixtures for fuel use, by the roll call vote (No. 230) of 183 ayes to 237 nays. H.Res. 491, the rule under which H.R. 4848 was considered was agreed to earlier (Cong. Record H5520–H5695).

July 25, 1988.—Received in the Senate; Senate concurrence requested.

July 26, 1988.—Placed on Senate calendar.

Aug. 2, 1988.—Senate began consideration (Cong. Record S10569–S10596).

Aug. 3, 1988.—Passed the Senate, amended, by the roll call (No. 288) vote of 85 ayes to 11 nays (Cong. Record S10653–S10737).

Aug. 11, 1988.—Presented to the President.

Aug. 23, 1988.—Signed by the President. Public Law 100–418.

H.R. 4934 — **June 28, 1988**

MR. RICHARDSON, MR. HUBBARD

To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

(Jointly referred to the Committees on Energy and Commerce; Interior and Insular Affairs; Science, Space, and Technology; and Ways and Means)

Hearings printed. No. 144.

July 7, 1988.—Referred to the Subcommittee on Energy Research and Development.

Oct. 6, 1988.—Subcommittee hearing held.

H.R. 4935 — **June 28, 1988**

MR. SOLOMON (FOR HIMSELF), MR. SWINDALL, MR. ROGERS, MR. BADHAM, MR. MARTIN OF NEW YORK, MR. DORNAN OF CALIFORNIA, MR. WORTLEY, MR. CRAIG, MR. PARRIS, MR. STRATTON, MR. BOULTER, MR. NEAL, MR. DELAY, MR. LEWIS OF CALIFORNIA, MR. MCEWEN, MR. INHOFE, MR. DANNEMEYER

To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.

(Jointly referred to the Committees on Foreign Affairs, and Science, Space, and Technology)

Retained at Committee level.

H.R. 4971 — **June 30, 1988**

MR. KASTENMEIER

To regulate the use of genetically-engineered animals in agricultural activities, and for other purposes.

(Jointly referred to the Committees on Agriculture, Energy and Commerce, and Science, Space, and Technology)

July 7, 1988.—Referred jointly to the Subcommittees on Science, Research and Technology, and Natural Resources, Agriculture Research and Environment.

H.R. 4975 — **June 30, 1988**

MR. NIELSON OF UTAH (FOR HIMSELF), MR. CHENEY, MR. HUBBARD, MR. SKEEN, MR. MCEWEN, MR. COMBEST, MR. EDWARDS OF OKLAHOMA, MR. YOUNG OF ALASKA, MR. STALLINGS, MR. WATKINS, MR. CAMPBELL, MR. BLILEY, MR. LUJAN, MR. HANSEN, MR. STUMP, MR. PASHAYAN, MR. INHOFE, MR. BARTON OF TEXAS, MR. WHITTAKER, MR. COATS, MR. MARLENEE, MRS. VUCANOVICH, MR. ROGERS, MR. BILIRAKIS, MR. OXLEY, MR. MOORHEAD, MR. SCHAEFER, MR. DANNEMEYER, MR. CRAIG, MR. CALLAHAN, MR. TAUZIN, MR. MURPHY

To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

(Jointly referred to the Committees on Energy and Commerce, Interior and Insular Affairs, Science, Space, and Technology, and Ways and Means)

Hearings printed. No. 144.

July 7, 1988.—Referred to the Subcommittee on Energy Research and Development.
Oct. 6, 1988.—Subcommittee hearing held.

H.R. 5000 — **July 7, 1988**

MR. HOCHBRUECKNER (FOR HIMSELF), MR. BIAGGI, MR. CLEMENT, MR. CONYERS, MR. COOPER, MR. COURTER, MR. DEFAZIO, MR. DOWNEY OF NEW YORK, MR. FRANK, MR. GALLO, MR. GILMAN, MR. GARCIA, MR. HARRIS, MR. HAWKINS, MR. MRAZEK, MR. OWENS OF NEW YORK, MR. ROYBAL, MR. SABO, MR. SMITH OF FLORIDA, MR. STUDDS, MR. TOWNS, MR. VENTO, MR. WORTLEY, MRS. BOXER, MR. HUGHES, MR. BERMAN, MR. JEFFORDS, MR. BOEHLERT, MR. HENRY, MR. SOLARZ, MR. SCHEUER, MR. WEISS, MR. SAXTON, MISS SCHNEIDER, MR. GEJDENSON, MRS. COLLINS, MS. PELOSI, MR. ATKINS, MR. DELLUMS, MS. OAKAR, MR. FAZIO, MR. SPRATT, MR. HAYES OF ILLINOIS, MR. BROWN OF CALIFORNIA, MR. EVANS OF ILLINOIS, MR. FISH, MR. TRAFICANT, MR. ACKERMAN, MS. SAIKI, MR. LANCASTER, MR. JONTZ, MR. DONNELLY, MR. PICKLE, MR. EDWARDS OF CALIFORNIA, MR. JOSEPH KENNEDY, MR. BRYANT, MR. GREGG, MR. NEAL, MR. MORRISON OF CONNECTICUT, MR. MANTON, MR. SENSENBRENNER, MR. DIXON OF CALIFORNIA

To encourage scientific research and development of technologies relating to recycling, and for other purposes.

(Jointly referred to the Committees on Science, Space, and Technology, Energy and Commerce, Armed Services, and Agriculture)

Hearings printed. No. 132.

July 21, 1988.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.
Aug. 10, 1988.—Subcommittee hearing held.

H.R. 5032 — **July 13, 1988**

MR. BOEHLERT (FOR HIMSELF), MR. STOKES, MR. PEASE, MR. ACKERMAN, MR. DIOGUARDI, MR. FISH, MR. GARCIA, MR. GILMAN, MR. HOCHBRUECKNER, MR. HORTON, MR. HOUGHTON, MR. LAFALCE, MR. MCGRATH, MR. MCHUGH, MR. MARTIN OF NEW YORK, MR. MRAZEK, MR. NOWAK, MR. SCHEUER, MS. SLAUGHTER OF NEW YORK, MR. SOLARZ, MR. WEISS, MR. WORTLEY, MR. SCHUMER, MR. BIAGGI, MR. ATKINS

To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

(Jointly referred to the Committees on Energy and Commerce, and Science, Space, and Technology)

July 19, 1988.—Referred to the Subcommittee on Energy Research and Development.

H.R. 5040 — **July 13, 1988**

MR. UDALL, MR. NEAL

To establish a standard nuclear reactor program to develop an inherently safe and economic nuclear reactor, and for other purposes.

(Jointly referred to the Committees on Interior and Insular Affairs; Energy and Commerce; and Science, Space, and Technology)

July 19, 1988.—Referred to the Subcommittee on Energy Research and Development.

H.R. 5051 — **July 14, 1988**

MR. DINGELL (FOR HIMSELF) AND MR. BLILEY, MR. WYDEN, MR. LENT, MR. ECKART, MR. COATS, MR. SLATTERY, MR. OXLEY, MR. SIKORSKI, MR. BILIRAKIS, MR. BOUCHER, MR. COOPER, MR. THOMAS A. LUKEN, MR. WALGREN, MR. WAXMAN, MR. MADIGAN, MR. SHARP, MR. MARKEY, MR. SWIFT, MRS. COLLINS, MR. SYNAR, MR. HALL OF TEXAS, MR. RICHARDSON, MR. BRYANT, MR. BATES, MR. BRUCE, MR. AKAKA, MR. ARCHER, MR. ATKINS, MR. BARNARD, MRS. BENTLEY, MRS. BOXER, MR. CLAY, MR. DE LUGO, MR. FAZIO, MR. GARCIA, MR. HOUGHTON, MRS. JOHNSON OF CONNECTICUT, MS. KAPTUR, MR. KLECZKA, MR. LANCASTER, MR. LEHMAN OF FLORIDA, MR. SANDER LEVIN, MR. LEVINE OF CALIFORNIA, MR. LEWIS OF GEORGIA, MR. MARTINEZ, MS. OAKAR, MS. PELOSI, MR. SCHUETTE, MR. WOLPE, MR. ENGLISH, MR. SMITH OF FLORIDA, MISS SCHNEIDER, MRS. MEYERS OF KANSAS

To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

(Jointly referred to the Committee on Energy and Commerce, and the Committee on Science, Space, and Technology for consideration of such provisions of section 3(d) as fall within the jurisdiction of that committee pursuant to clause 1(r)(2) of rule X)

Hearings printed. No. 127.

July 19, 1988.—Referred to the Subcommittee on Science, Research and Technology.
Aug. 9, 1988.—Subcommittee hearing held.

H.R. 5056 — **July 14, 1988**

MR. DE LA GARZA (FOR HIMSELF), AND MR. MADIGAN, MR. BROWN OF CALIFORNIA, MR. STENHOLM, MR. ROBERTS, MR. JEFFORDS, MR. LANCASTER, MRS. MARTIN OF ILLINOIS, AND MRS. SMITH OF NEBRASKA

To authorize agricultural research programs, improve the operations of the National Agricultural Library, and for other purposes.

(Jointly referred to the Committees on Agriculture, and Merchant Marine and Fisheries)

Title VII, Section 702: Amendments to the Critical Agricultural Materials Act (regarding Guayule research) which fall within the jurisdiction of the Committee on Science, Space, and Technology.

Sep. 23, 1988.—Committee on Agriculture report filed in the House (H.Rept. 100–978, Part 1).
Sep. 26, 1988.—Passed the House, amended, under Suspension of the Rules (Cong. Record H8214–H8228).
Sep. 29, 1988.—Received in the Senate, and referred to the Senate Committee on Agriculture, Nutrition and Forestry.

H.R. 5070 — **July 14, 1988**

MR. LOWRY OF WASHINGTON (FOR HIMSELF) AND MR. JONES OF NORTH CAROLINA

To establish the National Oceanic and Atmospheric Administration as an independent agency of the Government, and for other purposes.

(Jointly referred to the Committees on Merchant Marine and Fisheries, and Science, Space, and Technology)

July 19, 1988.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.R. 5120 — **Aug. 1, 1988**

MR. ROE (FOR HIMSELF) AND MR. WALGREN, MISS SCHNEIDER

To provide for a system of standardization of measurement of bolts to increase bolt quality and reduce the danger of substandard bolt failure, and for other purposes.

Aug. 3, 1988.—Referred to the Subcommittee on Science, Research and Technology.
Aug. 9, 1988.—Subcommittee hearing held.

H.R. 5132 **Aug. 2, 1988**

MRS. LLOYD (FOR HERSELF), MR. MORRISON OF WASHINGTON, MR. VALENTINE, MR. LUJAN, MR. BRUCE, MR. FAWELL, MR. STALLINGS, MR. CHAPMAN, MR. HOCHBRUECKNER, MR. WALGREN, MR. TRAFICANT, AND MR. KANJORSKI

To amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer.

Retained at Committee level.

Hearings printed. No. 122.

July 27, 1988.—Subcommittee on Energy Research and Development hearing held prior to introduction.
Aug. 3, 1988.—Subcommittee on Energy Research and Development meeting (markup). Ordered recommendations on H.R. 5132 forwarded to the committee.
Aug. 11, 1988.—Committee meeting (markup). Ordered bill reported with an amendment in the nature of a substitute.
Sep. 20, 1988.—Report filed in the House (H.Rept. 100–943, Part 1).
Sep. 20, 1988.—Sequentially referred to the Committees on Armed Services, and the Judiciary for those portions of H.R. 5132 that fall within their jurisdictions for a period ending not later than September 30, 1988.
Sep. 30, 1988.—Committees on Armed Services, and the Judiciary granted an extension of the sequential referral for a period ending not later than October 7, 1988.
Oct. 12, 1988.—Committees on Armed Services, and the Judiciary granted an extension of the sequential referral for a period ending not later than October 18, 1988.
Oct. 18, 1988.—Committees on Armed Services and the Judiciary discharged from further consideration; H.R. 5132 placed on Union Calendar.
Oct. 21, 1988.—Passed the House after agreeing to the Lloyd amendment in the nature of a substitute, and to amend the title (Cong. Record H11087–H11091).
Oct. 21, 1988.—Received in the Senate; referred to the Senate Committee on Energy and Natural Resources.

H.R. 5183 **Aug. 9, 1988**

MR. ROE

To authorize appropriations to the Secretary of Commerce for the programs of the National Institute of Standards and Technology for fiscal year 1989, and for other purposes.

Retained at Committee level.

Aug. 11, 1988.—The Rule providing one-hour of debate on H.R. 4417, the National Bureau of Standards Authorization Act for FY 1989, makes in order the text of H.R. 5183 as original text for purposes of amendment (H.Res. 522).
Sep. 13, 1988.—Views received from Department of Commerce: favorable (Exec. Comm. 100–4315).

H.R. 5228 **Aug. 11, 1988**

MR. ROE (FOR HIMSELF) AND MR. BILBRAY, MRS. VUCANOVICH

To authorize the appropriation of funds to reimburse persons whose property was damaged by an explosion in Clark County, Nevada, for certain uninsured expenses in connection with such damage.

Aug. 23, 1988.—Referred to the Subcommittee on Space Science and Applications.

H.R. 5249 **Sept. 7, 1988**

MR. DAVIS OF MICHIGAN, MR. SCHUETTE, MR. BROOMFIELD, MR. HERTEL, MR. UPTON

To protect the Great Lakes from the disposal of medical waste, and for other purposes.

(Jointly referred to the Committees on Merchant Marine and Fisheries; Science, Space, and Technology; Energy and Commerce; and Public Works and Transportation)

Sep. 12, 1988.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.R. 5279 **Sept. 13, 1988**

MR. BROWN OF CALIFORNIA (FOR HIMSELF), MISS SCHNEIDER, MR. WALGREN, MR. MARKEY, MR. SCHEUER, MR. UDALL, MR. HOCHBRUECKNER, MR. AUCOIN, MR. OLIN, MR. MOAKLEY, MR. STARK, MR. FAUNTROY, MR. SABO, MR. BUSTAMANTE, MR. EVANS OF ILLINOIS, MR. VENTO, AND MR. OWENS OF NEW YORK

To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.

(Jointly referred to the Committees on Foreign Affairs; Science, Space, and Technology; and Armed Services)

Sep. 16, 1988.—Referred jointly to the Subcommittees on Energy Research and Development, and Space Science and Applications.

H.R. 5373 **Sept. 23, 1988**

MR. JOSEPH KENNEDY (FOR HIMSELF), MR. GRAY OF PENNSYLVANIA, MR. SOLARZ, MR. ATKINS, MR. DYMALLY, MR. DWYER OF NEW JERSEY, MR. WEISS, MR. LEWIS OF GEORGIA, MR. TRAFICANT, MR. BONKER, MR. FAUNTROY, MR. HAYES OF ILLINOIS, MRS. MEYERS OF KANSAS, MR. OWENS OF NEW YORK, MS. PELOSI, AND MR. JONTZ

To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

(Jointly referred to the Committees on Energy and Commerce; and Science, Space, and Technology)

Supersedes H.R. 3809.

Hearings printed. No. 152.

Sep. 27, 1988.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.
Sep. 28, 1988.—Subcommittee hearing held.

H.R. 5380 **Sept. 26, 1988**

MR. AUCOIN (FOR HIMSELF) AND MR. FAZIO

To establish a national energy policy to reduce global warming, and for other purposes.

(Jointly referred to the Committees on Energy and Commerce; Science, Space, and Technology; Ways and Means; Armed Services; Banking, Finance and Urban Affairs; Government Operations; Foreign Affairs; Small Business; Interior and Insular Affairs; and Agriculture)

Oct. 3, 1988.—Referred jointly to the Subcommittees on Energy Research and Development; Natural Resources, Agriculture Research and Environment; Science, Research and Technology; and International Scientific Cooperation.

H.R. 5405 **Sept. 27, 1988**

MR. VOLKMER

To amend the Omnibus Trade and Competitiveness Act of 1988 to repeal certain requirements for the implementation of the metric system of measurements.

Oct. 4, 1988.—Referred to the Subcommittee on Science, Research and Technology.

H.R. 5421 **Sept. 29, 1988**

MR. JONES OF NORTH CAROLINA (FOR HIMSELF), MR. LOWRY OF WASHINGTON, AND MR. STUDDS

To provide for development of a National Global Change Research Plan to coordinate oceanographic, atmospheric, terrestrial, and cryospheric research programs, and to establish the Council on Global Environmental Policy.

(Jointly referred to the Committees on Science, Space, and Technology; Merchant Marine and Fisheries; and Interior and Insular Affairs)

Oct. 5, 1988.—Referred jointly to the Subcommittees on Natural Resources, Agriculture Research and Environment; Science, Research and Technology; Space Science and Applications; and International Scientific Cooperation.

H.R. 5424 **Sept. 29, 1988**

MR. SHARP

To amend the Energy Policy and Conservation Act to increase the efficiency and effectiveness of State energy conservation programs conducted under such Act, and for other purposes.

(Jointly referred to the Committees on Energy and Commerce, and Science, Space, and Technology)

Oct. 18, 1988.—Referred to the Subcommittee on Energy Research and Development.

H.R. 5433 **Sept. 30, 1988**

MR. LUJAN

To assist in creating a viable domestic uranium enrichment industry, to insure the maximum economic utilization of the existing diffusion plant assests, to establish mechanisms which would permit the creation of a privately owned corporation or a mixed government-privately owned corporation to utilize the federal government's investment in centrifuge technology and in the centrifuge assests, to establish alternate sources of enrichment supply, so as to create American jobs, to return monies to the government and to increase American industrial competitiveness in world wide nuclear fuel sales.

(Jointly referred to the Committees on Energy and Commerce; Interior and Insular Affairs; and Science, Space, and Technology)

Oct. 5, 1988.—Referred to the Subcommittee on Energy Research and Development.

H.R. 5444 **Oct. 3, 1988**

MR. HEFLEY

To reestablish the National Aeronautics and Space Council, and for other purposes.

Oct. 13, 1988.—Referred jointly to the Subcommittees on Space Science and Applications, and Transportation, Aviation and Materials.

Provisions of H.R. 5444 enacted pursuant to Title IV, P.L. 100–685, the National Aeronautics and Space Administration Authorization, 1989, on November 17, 1988.

H.R. 5460 **Oct. 5, 1988**

MISS SCHNEIDER (FOR HERSELF), MR. BROWN OF CALIFORNIA, MR. GILMAN, MR. UDALL, MR. BOLAND, MR. BOEHLERT, MR. MACKAY, MR. STARK, MR. JEFFORDS, MR. SCHEUER, MR. MILLER OF WASHINGTON, MRS. BOXER, MS. MORELLA, MR. ST GERMAIN, MR. SHAYS, MR. MINETA, MR. PORTER, MR. HUNTER, MR. SMITH OF NEW HAMPSHIRE, MR. JOSEPH KENNEDY, MR. BUECHNER, MR. AUCOIN, MR. TORRES, MR. ATKINS, MR. HOCHBRUECKNER, MR. BATES, MR. BEILENSON, MR. RAVENEL, MS. SAIKI, MR. BERMAN, MR. BLAZ, MR. LEVINE OF CALIFORNIA, MS. SNOWE, MR. LAFALCE, MR. MARKEY, MR. DEFAZIO, MR. WEISS, MR. DELLUMS, MS. PELOSI, MR. SIKORSKI

To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

(Jointly referred to the Committees on Energy and Commerce; Science, Space, and Technology; Ways and Means; Foreign Affairs; Public Works and Transportation; Government Operations; Agriculture; Interior and Insular Affairs; Banking, Finance and Urban Affairs; Armed Services; Merchant Marine and Fisheries)

Oct. 14, 1988.—Referred to the Subcommittees on Energy Research and Development; Science, Research and Technology (Title IV, Secs. 417, 419, 420); and Transportation, Aviation and Materials (Title VI, Secs. 611-619).

H.R. 5466 **Oct. 5, 1988**

MR. ROE (FOR HIMSELF) AND MR. LEWIS OF FLORIDA

To require the Environmental Protection Agency to conduct research on the management of infectious medical wastes.

(Jointly referred to the Committees on Science, Space, and Technology, and Energy and Commerce)

Oct. 12, 1988.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.R. 5518 **Oct. 12, 1988**

MR. WALGREN

To establish the Congressional Scholarships for Science, Mathematics, and Engineering, and for other purposes.

Oct. 18, 1988.—Referred to the Subcommittee on Science, Research and Technology.

H.R. 5571 **Oct. 21, 1988**

MR. MCMILLEN OF MARYLAND

To protect the Chesapeake Bay from the disposal of medical waste, and for other purposes.

(Jointly referred to the Committees on Public Works and Transportation; Energy and Commerce; Science, Space, and Technology; Merchant Marine and Fisheries; and the Judiciary)

Oct. 21, 1988.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

HOUSE RESOLUTIONS

H.Res. 55 **Jan. 26, 1987**

MR. ROE, MR. LUJAN, MR. SAWYER

In memorium of the crew of the space shuttle Challenger.

Retained at Committee level.

Jan. 28, 1987.—Committee on Science, Space, and Technology discharged from further consideration.
Jan. 28, 1987.—House agreed to Resolution (Cong. Record H431–H435).

H.Res. 164 **May 11, 1987**

MR. GREEN

Expressing the sense of the House of Representatives that the NASA Distinguished Service Medal should be taken away from Arthur Rudolph.

May 18, 1987.—Referred to the Subcommittee on Space Science and Applications.

H.Res. 369 **Feb. 8, 1988**

MR. ROE (FOR HIMSELF) AND MR. LUJAN

Honoring the 25th Anniversary of the Cerro Tololo Inter-American Observatory.

Retained at Committee level.

Feb. 16, 1988.—Passed the House under Suspension of the Rules (Cong. Record H308–H309).

H.Res. 450 **May 17, 1988**

MR. GLICKMAN (FOR HIMSELF), MR. MCCURDY, MR. LEWIS OF FLORIDA

To express the sense of the House of Representatives that the Federal Aviation Administration should immediately establish a research and development program to study structural fatigue, wear, corrosion and damage to aircraft resulting from age and intensive utilization and to conduct non-destructive and destructive testing of older aircraft on a regular basis.

Hearings printed. No. 109.

May 25, 1988.—Referred to the Subcommittee on Transportation, Aviation and Materials.
June 16, 1988.—Subcommittee hearing held.
June 29, 1988.—Subcommittee meeting (markup). Ordered resolution forwarded to the committee with an amendment.
Aug. 11, 1988.—Committee meeting (markup). Ordered resolution reported with an amendment.
Sep. 8, 1988.—Report filed in the House (H.Rept. 100–895).
Sep. 20, 1988.—Passed the House under Suspension of the Rules (Cong. Record H7835–H7837).

H.Res. 574 **Oct. 5, 1988**

MR. ROE (FOR HIMSELF), MR. NELSON OF FLORIDA, MR. LUJAN, AND MR. WALKER

To commemorate the successful return to flight by the Space Shuttle Discovery.

Retained at Committee level.

Oct. 12, 1988.—Passed the House under Suspension of the Rules by the roll call (No. 445) vote of 395 ayes to 0 nays (Cong. Record H10021–H10022; H10122).

94-889 - 89 - 3

HOUSE JOINT RESOLUTIONS

H.J.Res. 646 **Aug. 11, 1988**

MR. WAXMAN (FOR HIMSELF), MR. LEVINE OF CALIFORNIA, AND MISS SCHNEIDER

Establishing the National Commission on Human Resources.

(Jointly referred to the Committees on Education and Labor; Energy and Commerce; Science, Space, and Technology; and, Foreign Affairs)

Aug. 23, 1988.—Referred to the Subcommittee on Science, Research and Technology.

H.J.Res. 668 **Sept. 29, 1988**

MR. GONZALEZ

To reduce the amount of manmade material in space.

(Jointly referred to the Committees on Science, Space, and Technology, and Foreign Affairs)

Oct. 3, 1988.—Referred to the Subcommittee on Space Science and Applications.

HOUSE CONCURRENT RESOLUTIONS

H.Con.Res. 52 **Feb. 19, 1987**

MR. GREEN, MR. KOSTMAYER, MR. BATES, MR. OLIN, MR. ECKART, MR. GARCIA, MR. FAZIO, MR. MRAZEK, MR. SANDER LEVIN, MR. FAWELL, MR. LAGOMARSINO, MR. HUGHES, MR. CROCKETT, MR. FISH, MR. ATKINS, MR. BEILENSON, MR. DWYER OF NEW JERSEY, MR. SHUMWAY, MR. HORTON, MR. EDWARDS OF CALIFORNIA, MR. KOLTER, MR. LIPINSKI, MR. OWENS OF UTAH, MR. EVANS OF ILLINOIS, MR. SYNAR

To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

(Jointly referred to the Committees on Science, Space, and Technology, and Foreign Affairs)

Mar. 4, 1987.—Referred to the Subcommittee on International Scientific Cooperation.

H.Con.Res. 69 **Mar. 10, 1987**

MR. ROE, MR. VALENTINE

Expressing the sense of the Congress that procurement of the new United States weather radar system, NEXRAD, continue on schedule and according to the established minimum requirements agreed to by the National Weather Service, the Federal Aviation Administration, and the Department of Defense.

Mar. 18, 1987.—Referred jointly to the Subcommittees on Natural Resources, Agriculture Research and Environment, and Transportation, Aviation and Materials.

H.Con.Res. 71 **Mar. 10, 1987**

MR. ROE

Expressing the sense of the Congress that the Federal Government take immediate steps to support a National STORM Program.

Mar. 18, 1987.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.Con.Res. 73 **Mar. 11, 1987**

MR. HUCKABY (FOR HIMSELF) AND MR. UDALL

Expressing the sense of the Congress that the United States should enter into a joint high-level scientific study with the Soviet Union to determine the long-term climatic and environmental effects of a nuclear exchange.

(Jointly referred to the Committees on Science, Space, and Technology; Armed Services; Foreign Affairs; and Interior and Insular Affairs)

Hearings printed. No. 26.

Mar. 13, 1987.—Referred to the Subcommittee on International Scientific Cooperation.
June 23, 1987.—Subcommittee hearing held.

H.Con.Res. 167 **July 23, 1987**

MR. SCHEUER

Declaring the support of the Congress for continuation of civil land remote-sensing activities, for the benefit of all mankind, through the continuation and commercialization of the existing Landsat program.

July 29, 1987.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.Con.Res. 254 **Mar. 1, 1988**

MR. STARK (FOR HIMSELF), MR. BROWN OF CALIFORNIA, MR. LUJAN, MR. HALL OF TEXAS, MR. SENSENBRENNER, MR. MORRISON OF WASHINGTON, MISS SCHNEIDER, MR. MACKAY, MR. LAGOMARSINO, MS. OAKAR, MR. SKAGGS, MR. CHAPMAN, MR. GARCIA, MRS. BOXER, MR. BARNARD, MRS. BENTLEY, MRS. BOGGS, MR. FOGLIETTA, MR. MARTINEZ, MR. HUGHES, MR. ECKART, MR. DAVIS OF ILLINOIS, MR. DE LUGO, MR. PACKARD

Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

Mar. 9, 1988.—Referred jointly on Energy Research and Development and International Scientific Cooperation.

H.Con.Res. 290 **May 3, 1988**

MR. BROWN OF CALIFORNIA (FOR HIMSELF), MR. WALGREN, MR. SCHEUER, MR. LEWIS OF CALIFORNIA, MR. LOWRY OF WASHINGTON, MR. LUJAN, MR. BOEHLERT, MR. ROE, MR. SKAGGS, MR. NOWAK, MR. HANSEN, MR. MINETA, AND MR. PERKINS

Supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction.

May 9, 1988.—Referred to the Subcommittee on Science, Research and Technology.
Aug. 11, 1988.—Subcommittee on Science, Research and Technology discharged from further consideration.
Aug. 11, 1988.—Committee meeting (markup). Ordered resolution reported without amendments.
Sep. 15, 1988.—Report filed in the House (H.Rept. 100-920).
Sep. 20, 1988.—Passed the House under Suspension of the Rules (Cong. Record H7829-H7830).
Sep. 22, 1988.—Received in the Senate, and referred to the Senate Committee on Foreign Relations.
Oct. 19, 1988.—Senate Committee on Foreign Relations discharged from further consideration of S. Con. Res. 131 (Senate companion measure to H. Con. Res. 290), and S. Con. Res. 131 was agreed to (Cong. Record S16847-S16848).

H.Con.Res. 353 **Aug. 10, 1988**

MR. BUECHNER (FOR HIMSELF), MR. MACKAY, MR. ROE, MR. NELSON OF FLORIDA, MR. SLAUGHTER OF VIRGINIA, MR. MCCURDY, MR. WAXMAN, MS. MORELLA, MR. CONTE, MR. PACKARD, MR. LEWIS OF CALIFORNIA, MR. GALLEGLY, MR. BOEHLERT, MR. PICKETT, MR. RHODES, MR. HARRIS, MR. FLIPPO, MR. WEBER, MR. HUCKABY, MR. INHOFE, MR. SKEEN, MR. MCMILLEN OF MARYLAND, MR. PERKINS, MR. NEAL, MR. RITTER, MR. FAZIO, MR. LEVINE OF CALIFORNIA, MR. GINGRICH, MR. HAYES OF LOUISIANA, MR. LEWIS OF FLORIDA, MR. HUTTO, MR. BEVILL, AND MR. BATEMAN

Expressing the sense of the Congress that the United States should make the space program a national priority.

Aug. 26, 1988.—Referred to the Subcommittee on Space Science and Applications.

H.Con.Res. 366 **Sept. 16, 1988**

MR. LEWIS OF FLORIDA (FOR HIMSELF), MR. HUTTO, MR. GRANT, MR. BENNETT, MR. MACKAY, MR. GIBBONS, MR. YOUNG OF FLORIDA, MR. NELSON OF FLORIDA, MR. MACK, MR. MICA, MR. SHAW, MR. SMITH OF FLORIDA, MR. LEHMAN OF FLORIDA, MR. FASCELL, MR. CALLAHAN, MR. LIVINGSTON, MRS. BOGGS, MR. TAUZIN, MR. BAKER, MR. ROSE, MR. RAVENEL, MR. ARCHER, MR. FIELDS, MR. ANDREWS, MR. ROE, MR. ORTIZ, MR. LANCASTER, MRS. BENTLEY, MR. FLIPPO, MR. BILIRAKIS, MR. ATKINS, MR. BEVILL, MR. BLAZ, MR. MCCOLLUM

Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

(Jointly referred to the Committees on Armed Services, and Science, Space, and Technology)

Sep. 21, 1988.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.

H.Con.Res. 374 **Sept. 26, 1988**

MR. PACKARD, MR. ROE, MR. LUJAN, MR. WALKER, MR. NELSON OF FLORIDA, MR. LEWIS OF FLORIDA, MR. HALL OF TEXAS, MR. SMITH OF NEW HAMPSHIRE, MR. BUECHNER, MR. ROWLAND OF CONNECTICUT, MR. BOEHLERT, MR. SENSENBRENNER, MR. HEFLEY, MR. RITTER, MR. VOLKMER, MR. SLAUGHTER OF VIRGINIA, MR. ROWLAND OF GEORGIA, MR. STALLINGS, MR. NAGLE, MS. MORELLA, MR. BROWN OF CALIFORNIA, MR. LEVINE OF CALIFORNIA, MR. MCMILLEN OF MARYLAND, MRS. LLOYD, MR. BATEMAN, MR. TRAFICANT, MR. KONNYU, MR. SKAGGS, MR. MINETA, MR. TORRICELLI, MR. HAYES OF LOUISIANA, MR. FIELDS, MR. PERKINS, MR. MCCURDY, MR. ENGLISH, MR. SCHEUER, MR. HUNTER, MR. WEBER, MR. LOWERY OF CALIFORNIA, MR. MCCOLLUM, MR. DENNY SMITH, MR. LEWIS OF CALIFORNIA, MR. HUBBARD, MR. DORNAN OF CALIFORNIA, MR. HOUGHTON, MR. HORTON, MR. SOLOMON, MR. FROST, MR. BUSTAMANTE, MR. ANDREWS, MR. MARTINEZ, MR. MRAZEK, MR. CHAPMAN, MRS. BOGGS, MRS. BENTLEY, MR. MCEWEN

Expressing the sense of the Congress regarding funding for the space station program.

Oct. 5, 1988.—Referred to the Subcommittee on Space Science and Applications.

H.Con.Res. 384 **Oct. 3, 1988**

MR. TRAFICANT

Expressing the sense of the Congress that the National Aeronautics and Space Administration should develop and maintain a crew rescue capability in support of the Space Station Freedom.

Oct. 21, 1988.—Referred to the Subcommittee on Space Science and Applications.

SENATE BILLS AND RESOLUTIONS

S. 52 **Jan. 6, 1987**

To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific *Drilling Program.*

(Jointly referred to the Committees on Interior and Insular Affairs, and Science, Space, and Technology.)

Supersedes H.R. 2737.

June 17, 1987.—Passed the Senate.
July 7, 1987.—Referred to the Subcommittee on Science, Research and Technology.
Nov. 3, 1987.—Subcommittee hearing held.
May 23, 1988.—Passed the House under Suspension of the Rules, after being amended to contain the language of H.R. 2737, as passed (Cong. Record H3472–H3475).
June 10, 1988.—Senate concurred in the amendment of the House to S. 52, with the Byrd (for Johnston) amendment No. 2344, of a technical nature (Cong. Record S7596; S7602–S7604).
Sep. 9, 1988.—House agreed to the Senate amendment to the House amendment to S. 52; clearing the measure for the President (Cong. Record H7374–H7375).
Sep. 13, 1988.—Presented to the President.
Sep. 22, 1988.—Signed by the President. Public law 100–441.

S. 1081 **Apr. 23, 1987**

To establish a coordinated National Nutrition Monitoring and Related Research program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

(Jointly referred to the Committees on Agriculture, and Science, Space, and Technology)

Supersedes H.R. 2151.

Hearings printed. No. 153.

Aug. 9, 1988.—Passed the Senate.
Sep. 9, 1988.—Referred to the Subcommittee on Science, Research and Technology.
Sep. 30, 1988.—Subcommittee hearing held.
Oct. 3, 1988.—Committee meeting (markup). Ordered bill reported with amendments.
Oct. 6, 1988.—Report filed in the House (H.Rept. 100–1067, Part 1).
Oct. 12, 1988.—Passed the House, amended, under Suspension of the Rules by the roll call (No. 444) vote of 311 ayes to 44 nays (Cong. Record H10003–H10015; H10121).
Oct. 18, 1988.—Senate concurred in amendment of the House, clearing the bill for the President (Cong. Record S16673–S16680).
Oct. 27, 1988.—Presented to the President.
Nov. 8, 1988.—Vetoed by the President.

S. 1294 **May 28, 1987**

To promote the development of technologies which will enable fuel cells to use alternative fuel sources.

Aug. 9, 1988.—Passed the Senate.
Aug. 23, 1988.—Referred to the Subcommittee on Energy Research and Development.
Sep. 22, 1988.—Subcommittee meeting (markup). Provisions of bill incorporated into H.R. 4226, the Renewable Energy and Energy Conservation Commercialization and Development Act.

Superseded by H.R. 4226.

S. 1667 **Aug. 12, 1987**

An original bill to authorize certain atmospheric and satellite programs and functions of the National Oceanic and Atmospheric Administration, and for other purposes.

Hearings printed. No. 61.

Sep. 10, 1987.—Passed the Senate.
Sep. 15, 1987.—In House, referred to the Committee on Science, Space, and Technology.
Sep. 16, 1987.—Referred to the Subcommittee on Natural Resources, Agriculture Research and Environment.
Oct. 1, 1987.—Subcommittee hearing held.
Oct. 8, 1987.—Subcommittee meeting (markup). Ordered bill forwarded to the Committee with an amendment in the nature of a substitute.
Oct. 15, 1987.—Committee meeting (markup). Ordered bill reported with an amendment.
Oct. 27, 1987.—Report filed in the House (H.Rept. 100–406).
Nov. 9, 1987.—Committee on Rules hearing requested.
Nov. 10, 1987.—Committee on Rules hearing. Rule granted: one-hour; open.
Nov. 20, 1987.—Passed the House by the roll call vote (No. 446) of 341 ayes to 65 nays; after agreeing to the Committee amendment in the nature of a substitute; and an amendment of Mr. Smith of New Hampshire that directs the National Weather Service of NOAA to issue weekly reports describing the acid content in precipitation in the United States. The Rule (H.Res. 307) under which the bill was considered was agreed to by the roll call vote (No. 445) of 269 ayes to 139 nays (Cong. Record H10676–H10688).
Nov. 30, 1987.—Received in the Senate; Senate concurrence requested.
Aug. 9, 1988.—Passed the Senate as Title II of S. 2209, the National Aeronautics and Space Administration Authorization, 1989 (Cong. Record S11231–S11228).
Oct. 19, 1988.—Became Title IV of S. 2209, as amended by the House (Cong. Record H10386–H10399).
Nov. 17, 1988.—Provisions enacted pursuant to Title IV, P.L. 100–685, the National Aeronautics and Space Administration Authorization, 1989.

See H.R. 4561.

S. 1966 **Dec. 18, 1987**

To amend the Public Health Service Act to improve information and research on biotechnology and the human genome, and for other purposes.

(Jointly referred to the Committees on Energy and Commerce, Science, Space, and Technology, and Agriculture)

Similar to H.R. 4502.

Hearings printed. No. 138.

June 17, 1988.—Passed the Senate.
June 29, 1988.—Referred jointly to the Subcommittees on Science, Research and Technology, and Natural Resources, Agriculture Research and Environment.
July 14, 1988.—Joint Subcommittees' hearing held.
Aug. 2, 1988.—Subcommittee on Natural Resources, Agriculture Research and Environment meeting (markup). Ordered bill forwarded to the committee with an amendment in the nature of a substitute.
Aug. 10, 1988.—Subcommittee on Science, Research and Technology meeting (markup). Ordered bill forwarded to the committee with an amendment in the nature of a substitute.
Aug. 11, 1988.—Committee meeting (markup). Ordered bill reported with an amendment in the nature of a substitute.
Sep. 28, 1988.—Report filed in the House (H.Rept. 100–992, Part 1).
Oct. 13, 1988.—Committee on Agriculture report filed in the House (H.Rept. 992, Part 2).

S. 2209 (H.R. 4561) **Mar. 23, 1988**

To authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control data communications, construction of facilities, and research and program management, and for other purposes.

July 26, 1988.—The Senate Committee on Commerce, Science, and Transportation filed report to accompany S. 2209 in the Senate (S.Rept. 100–429).
Aug. 9, 1988.—S. 2209 passed the Senate, after agreeing to the committee amendment in the nature of a substitute, and the following amendments proposed thereto: (1) Byrd (for Glenn and Metzenbaum) amendment No. 2827, to provide authority for the lease of certain property and the making of certain agreements related to the construction and operation of an aerospace institute in Ohio; and (2) Byrd (for Hollings) amendment No. 2828, to authorize certain atmospheric and satellite programs and functions (Cong. Record S11213–S11228).
Oct. 19, 1988.—House passed S. 2209, with an amendment, under Suspension of the Rules; returning the bill to the Senate (Cong. Record H10386–H10399).
Oct. 20, 1988.—Received in the Senate; Senate concurrence requested.
Oct. 21, 1988.—Senate concurred in the amendment of the House to S. 2209, clearing the bill for the President (Cong. Record S17114–S17118).
Nov. 9, 1988.—S. 2209 presented to the President.
Nov. 17, 1988.—S. 2209 signed by the President. Public Law 100–685.

Supersedes H.R. 4157 and H.R. 4561. As enacted as P.L. 100–685, includes the provisions of S. 1667 and H.R. 3779, as Titles IV and VI, respectively.

S. 2470 **June 6, 1988**

To promote technology competitiveness and energy conservation in the American steel industry.

Hearings printed. No. 119.

Aug. 9, 1988.—Passed the Senate.
Sep. 9, 1988.—Referred jointly to the Subcommittees on Energy Research and Development, and Science, Research and Technology.
Sep. 15, 1988.—Joint Subcommittees' hearing held.
Sep. 22, 1988.—Subcommittee on Energy Research and Development meeting (markup). Ordered bill forwarded to the committee with an amendment.
Oct. 3, 1988.—Subcommittee on Science, Research and Technology discharged from further consideration.
Oct. 3, 1988.—Committee meeting (markup). Ordered bill reported with an amendment.
Oct. 6, 1988.—Report filed in the House (H.Rept. 100–1061).
Oct. 12, 1988.—Passed the House, amended, under Suspension of the Rules (Cong. Record H10015–H10021).
Oct. 21, 1988.—Senate concurred in the amendment of the House to S. 2470, clearing the measure for the President (Cong. Record S17134–S17135).
Nov. 7, 1988.—Presented to the President.
Nov. 17, 1988.—Signed by the President. Public Law 100–680.

EXECUTIVE COMMUNICATIONS AND MESSAGES FROM THE PRESIDENT REFERRED TO THE COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY

191 **Jan. 6, 1987**

Letter from the Secretary of Commerce transmitting a study entitled "The Domestic Mining and Processing Industries - A Strategic Resource", pursuant to 30 U.S.C. 1604(c).

192 **Jan. 6, 1987**

Letter from the Secretary of Energy transmitting the Eighth Annual Report on the Automotive Technology Development Program, pursuant to 42 U.S.C. 5914.

193 **Jan. 6, 1987**

Letter from the Administrator, Environmental Protection Agency, transmitting a report entitled "Long-Range Research Agenda for 1987-1991", pursuant to 42 U.S.C. 4361.

194 **Jan. 6, 1987**

Letter from the Director, National Science Foundation, transmitting a report on research facility needs of universities, pursuant to 42 U.S.C. 1886.

195 **Jan. 6, 1987**

Letter from the Secretary of Commerce transmitting the Annual Report on Ocean Pollution, Monitoring, and Research covering fiscal year 1984.

8 **Jan. 21, 1987**

Message from the President of the United States transmitting a report on the activities and accomplishments of the United States in aeronautics and space during calendar year 1985, pursuant to 42 U.S.C. 2476.

544 **Feb. 10, 1987**

Letter from the Secretary of Defense transmitting notification of the waiver of a monetary set-aside of Section 10 (b)(2) for reasons previously stated, pursuant to 15 U.S.C. 3710(b).

644 **Feb. 19, 1987**

Letter from the Secretary of Transportation transmitting a draft of proposed legislation to authorize appropriations for the fiscal years 1988 and 1989 for the Office of Commercial Space Transportation of the Department of Transportation, pursuant to 31 U.S.C. 1110.

669 **Feb. 24, 1987**

Letter from the Secretary of Energy transmitting the Annual Report on the Office of Alcohol Fuels covering Fiscal Year 1986, pursuant to 42 U.S.C. 8818(c)(1).

679 **Feb. 25, 1987**

Letter from the Secretary of Energy transmitting comprehensive reports on the first two projects negotiated under the Department of Energy's (DOE) Clean Coal Technology Demonstration Program, pursuant to Public Law 99-190.

680 **Feb. 25, 1987**

Letter from the Secretary of Energy transmitting the 1987 Annual Report that provides a description of 1986 accomplishments and planned activities for 1987 and 1988 at the Western New York Nuclear Service Center near West Valley, New York, pursuant to 42 U.S.C. 2021a nt.

683 **Feb. 26, 1987**

Letter from the Administrator of Veterans Affairs, Veterans Administration, transmitting a report on technology transfer functions in the Veterans Administration's research and development program for fiscal year 1985, pursuant to 15 U.S.C. 3710(b).

724 **Mar. 2, 1987**

Letter from the Assistant Secretary for Conservation and Renewable Energy, Department of Energy, transmitting notification of the delay in submission of the annual revisions to the Comprehensive Program Management Plans for the Wind and Ocean Energy Programs; revised plans to be available within 60 days, pursuant to 42 U.S.C. 9203(c)and 9002(d).

725 **Mar. 2, 1987**

Letter from the General Counsel, Federal Emergency Management Agency, transmitting a draft of proposed legislation to authorize appropriations for activities under the Federal Fire Prevention and Control Act of 1974, pursuant to 31 U.S.C. 1110.

753 **Mar. 4, 1987**

Letter from the Secretary of Commerce transmitting a draft of proposed legislation to amend title II of the Marine Protection, Research, and Sanctuaries Act of 1972, as amended, to authorize appropriations for fiscal years 1988 and 1989, pursuant to 31 U.S.C. 1110.

755 **Mar. 4, 1987**

Letter from the Administrator, U.S. Environmental Protection Agency transmitting a draft of proposed legislation to authorize appropriations for environmental research, development, and demonstration for fiscal years 1988 and 1989, pursuant to 31 U.S.C. 1110.

835 **Mar. 10, 1987**

Letter from the General Counsel, Federal Emergency Management Agency, transmitting a draft of proposed legislation to authorize appropriations under the Earthquake Hazards Reduction Act of 1977 for fiscal years 1988 and 1989, pursuant to 31 U.S.C. 1110.

897 **Mar. 16, 1987**

Letter from the Secretary of Energy transmitting the Sixth Annual Report on the Methane Transportation Research, Development and Demonstration Program - Fiscal Year 1986, pursuant to 15 U.S.C. 3808.

898 **Mar. 16, 1987**

Letter from the Secretary of Commerce transmitting a draft of proposed legislation to authorize appropriations for carrying out the National Climate Program for fiscal years 1988 and 1989.

938 **Mar. 19, 1987**

Letter from the Administrator, National Aeronautics and Space Administration, transmitting a draft of proposed legislation to authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes, pursuant to 31 U.S.C. 1110.

975 **Mar. 24, 1987**

Letter from the Administrator, National Oceanic and Atmospheric Administration, transmitting notification of the intention to award a contract for the performance of certain commercial-type functions at the Assessment and Information Services Center facility located in Rockville, Maryland, pursuant to 15 U.S.C. 1530.

988 **Mar. 25, 1987**

Letter from the Secretary of Energy transmitting the Tenth Report entitled: "Comprehensive Program and Plan for Federal Energy Education, Extension and Information Activities", pursuant to 42 U.S.C. 7373(2).

1035 **Mar. 30, 1987**

Letter from the Interagency Task Force, National Acid Precipitation Assessment Program, transmitting the 1985 Annual Report of the National Acid Precipitation Assessment Program, pursuant to 42 U.S.C. 8903(e).

1076 **Apr. 2, 1987**

Letter from the Secretary of Commerce transmitting a draft of proposed legislation to authorize appropriations to the Secretary of Commerce for the programs of the National Bureau of Standards for fiscal years 1988 and 1989, and for other purposes, pursuant to 31 U.S.C. 1110.

1214 **Apr. 21, 1987**

Letter from the Administrator, U.S. Environmental Protection Agency, transmitting a preliminary report on the Agency's implementation plan for indoor air quality and radon gas research, pursuant to Section 403(d), Superfund Amendments and Reauthorization Act of 1986.

1222 **Apr. 21, 1987**

Letter from the Secretary of Energy transmitting a copy of the Summary Report of the responses to the Department's Clean Coal Technology Program Announcement issued in November 1986, which invited statements of interest in, and informational proposals for, projects employing emerging clean coal technologies that are capable of retrofitting, repowering, or modernizing existing facilities, pursuant to Public Law Numbers 99-500 and 99-591, Section 101(h).

1231 **Apr. 22, 1987**

Letter from the Secretary of Energy transmitting the Department's tenth annual report for fiscal year 1986 of the activities under the Electric and Hybrid Vehicle Research, Development, and Demonstration Act of 1976, pursuant to 15 U.S.C.2513.

1425 **May 18, 1987**

Letter from the Secretary of Energy transmitting the comprehensive report on a project negotiated under the Department's Clean Coal Technology Demonstration Program which describes the "LIMB Demonstration Project Extension", pursuant to Public Law 99-190.

1440 **May 19, 1987**

Letter from the Assistant Secretary for Conservation and Renewable Energy, Department of Energy, transmitting the Eleventh Annual Report of activities of the Geothermal Energy Coordination and Management Project for Fiscal Year 1986, pursuant to 30 U.S.C. 1162(a).

1443 **May 19, 1987**

Letter from the General Counsel, Department of Energy, transmitting a draft of proposed legislation to authorize appropriations to the Department of Energy, for civilian energy programs for fiscal year 1988 and fiscal year 1989, and for other purposes, pursuant to 31 U.S.C. 1110.

1450 **May 20, 1987**

Letter from the Secretary of Energy transmitting the Sixth Annual Revised Comprehensive Program Management Plan which presents the current strategy of the Federal wind energy program, related progress in the private sector, and management structure and major elements of the Federal program, including milestones for Fiscal Years 1987 and 1988, pursuant to 42 U.S.C. 9203(c).

1452 **May 20, 1987**

Letter from the Secretary of Energy transmitting the Second Report, which supplements the earlier Summary Report (Executive Communication Number 1222) of the Department's Clean Coal Technology Program Announcement issued in November, 1986, analyzing the technologies that were addressed in the submittals, and containing the Project Summary Forms, pursuant to Public Law Numbers 99-500 and 99-591, Section 101(h).

1507 **June 1, 1987**

Letter from the Administrator, National Aeronautics and Space Administration, transmitting a report on the proposed use of $4.2 million of Space Flight Control and Data Communications funds for the design and construction of facilities at two Space Shuttle landing sites at Ben Guerir Airfield in Morocco, and at White Sands Space Harbor, New Mexico, pursuant to Public Law 99-170, Section 103 (99 Stat. 1015).

1556 **June 8, 1987**

Letter from the Secretary of Energy transmitting a comprehensive report on the the fourth project negotiated under the Department of Energy's (DOE) Clean Coal Technology Demonstration Program entitled "Enhancing the Use of Coals by Gas Reburning and Sorbent Injection", pursuant to Public Law 99-190.

1567 **June 9, 1987**

Letter from the Administrator, Environmental Protection Agency, transmitting the Agency's 5-year plan for environmental research, development and demonstration, together with comments of the Science Advisory Board, pursuant to 42 U.S.C. 4361.

1659 **June 24, 1987**

Letter from the Secretary of Energy transmitting the fifth annual revision to the Comprehensive Program Management Plan for the Federal Ocean Thermal Energy Conversion Program, pursuant to 42 U.S.C. 9002(d).

1662 **June 24, 1987**

Letter from the Director, Office of Civilian Radioactive Waste Management, Department of Energy, transmitting the Mission Plan Amendment relating to the disposal of radioactive waste as a follow-up to an earlier Mission Plan report submitted in July 1985 (EC1664), pursuant to Public Law 97-425, Section 301(b)(3).

1682 **June 29, 1987**

Letter from the Interagency Task Force transmitting the 1986 annual report of the National Acid Precipitation Assessment Program, pursuant to 42 U.S.C. 8903(e).

1742 **July 13, 1987**

Letter from the Director, Office of Personnel Management, transmitting notification of a proposed National Bureau of Standards demonstration project which addresses the Government's problem of attracting and keeping qualified personnel, especially in high-technology fields, pursuant to 5 U.S.C. 4703(b)(4)(B). (6).

1770 **July 15, 1987**

Letter from the Administrator, U.S. Environmental Protection Agency, transmitting Part Two of the Agency's "Indoor Air Quality Implementation Plan", to accompany the report submitted in April (Executive Communication Number 1214; Apr. 21, 1987), pursuant to Section 403(d), Superfund Amendments and Reauthorization Act of 1986.

51 **June 17, 1987**

Message from the President of the United States transmitting the Administration's eighth annual report of the international scientific and technological activities of U.S. Government agencies during Fiscal Year 1986, pursuant to 22 U.S.C. 2656c.

56 **July 20, 1987**

Message from the President of the United States transmitting the annual report of the National Science Foundation for Fiscal Year 1986, pursuant to 42 U.S.C. 1862(e).

1835 **July 27, 1987**

Letter from the Assistant Secretary, Conservation and Renewable Energy, Department of Energy, transmitting notification of the delay in submission of the fourth annual update to the Comprehensive Ocean Thermal Techology Application, pursuant to 42 U.S.C. 9002(d).

1860 **July 28, 1987**

Letter from the The Under Secretary, National Oceanic and Atmospheric Administration, transmitting notification of the intention to award a contract for the performance of certain commercial-type functions at the Dulles International Airport, Chantilly, Virginia, pursuant to 15 U.S.C. 1530.

1865 **July 28, 1987**

Letter from the Secretary of Commerce transmitting a draft of proposed legislation to amend the National Ocean Pollution Planning Act of 1978, as amended, to authorize appropriations to carry out the provisions of the Act for fiscal years 1988 and 1989, and for other purposes.

1874 **July 29, 1987**

Letter from the Secretary of Energy transmitting the views of the Department on the adoption of certain amendments to H.R. 1414, the Price-Anderson Amendments Act of 1987, during Floor consideration.

59 **Aug. 3, 1987**

Message from the President of the United States transmitting the United States Arctic Research Plan submitted by the Interagency Arctic Research Policy Committee, pursuant to 15 U.S.C. 4108(a).

2034 **Sept. 9, 1987**

Letter from the Assistant Secretary, National Oceanic and Atmospheric Administration, Department of Commerce, transmitting notification of the intention to award a contract for the performance of weather observation activities at the Long Beach Airport, Long Beach, California, pursuant to Public Law 99-190, Section 8089 (99 Stat. 1216).

2035 **Sept. 9, 1987**

Letter from the Secretary of Transportation transmitting the second annual report of activities under the Commercial Space Launch Act of 1984, pursuant to 49 U.S.C. app. 2621(a).

2076 **Sept. 10, 1987**

Letter from the Administrator, National Aeronautics and Space Administration, transmitting a report on the proposed use of R&D funds for the design and construction of a Spacecraft Solid Rocket Motor (SRM) High Energy X-Ray Facility at Kennedy Space Center, Florida, pursuant to Public Law 99-170, Section 103 (99 Stat. 1014).

2234 **Oct. 13, 1987**

Letter from the Chairman, National Science Board, transmitting a report on the explanation and justification of action with regard to science activities taken during the preceding two years, pursuant to 42 U.S.C. 1864(e).

2274 **Oct. 21, 1987**

Letter from the Secretary of Energy transmitting the Ninth Annual Report on the Automotive Technology Development Program, pursuant to 42 U.S.C. 5914.

2355 **Nov. 5, 1987**

Letter from the Secretary of Energy transmitting the fifth report on a project negotiated under the Department of Energy's (DOE) Clean Coal Technology Demonstration Program entitled "Prototype Commercial Coal/Oil Co-processing Plant", pursuant to Public Law 99-190.

2382 **Nov. 9, 1987**

Letter from the Secretary of Energy transmitting the sixth report on a project negotiated under the Department of Energy's (DOE) Clean Coal Technology Demostration Program entitled "UCG/Clean Fuels Proof-of-Concept Project", pursuant to Public Law 99-190.

2500 **Dec. 3, 1987**

Letter from the Adiministrator, National Aeronautics and Space Administration, transmitting a report on the design and construction of space shuttle support facilities at Yundum International Airport, Banjul, Gambia, to provide contingency landing capabilities, pursuant to Public Law 98-361, Section 103 (98 Stat. 424).

2566 **Dec. 14, 1987**

Letter from the Secretary of Commerce transmitting a copy of the 1987 "Directory of Japanese Technical Resources", pursuant to 15 U.S.C. 3704(d).

2734 **Jan. 25, 1988**

Letter from the Assistant Secretary for Conservation and Renewable Energy, Department of Energy, transmitting the Department's notification of the delay in submission of the annual revisions to the Comprehensive Program Management Plans for the Wind and Ocean Energy Programs; revised plans to be submitted within 90 days, pursuant to 42 U.S.C. 9203(c), 9002(d).

2735 **Jan. 25, 1988**

Letter from the President, National Academy of Sciences, transmitting the report of the Academy's Super Collider Site Evaluation Committee in response to the request of the Department of Energy for an independent technical evaluation of the proposals it received for locating the nation's proposed Superconducting Super Collider (SSC).

2753 **Jan. 25, 1988**

Letter from the Secretary of Energy transmitting a comprehensive report on the seventh project negotiated under the Department of Energy's Clean Coal Technology Demostration Program entitled "The Appalachian Project", pursuant to Public Law 99-190.

2834 **Feb. 3, 1988**

Letter from the Secretary of Energy transmitting the Department's Eleventh Report entitled, "Comprehensive Program and Plan for Federal Energy Education, Extension and Information Activities", pursuant to 42 U.S.C. 7373(2).

104 **Jan. 27, 1988**

Message from the President of the United States transmitting a report on current government activities in the area of research on the so-called "Greenhouse Effect", pursuant to Public Law 99-383, Section 9 (100 Stat. 816).

2851 **Feb. 4, 1988**

Letter from the Secretary of Transportation transmitting the Department's annual report on activities conducted under the Commercial Space Launch Act for fiscal year 1987, pursuant to 49 U.S.C. app. 2621(a).

2852 **Feb. 4, 1988**

Letter from the Deputy Administrator, National Oceanic and Atmospheric Administration, Department of Commerce, transmitting notification of the agency's intention to award a contract for conversion to contract performance the weather observation activities at the John F. Kennedy International Airport, Jamaica, New York; contract being awarded as a result of an OMB Circular Number A-76 cost comparison, pursuant to Public Law 99-509.

2853 **Feb. 4, 1988**

Letter from the Deputy Adminstrator, National Oceanic and Atmospheric Administration, Department of Commerce, transmitting notification of the agency's intention to award a contract for conversion to contract performance the weather observation activities at LaGuardia Airport, Flushing, New York; contract being awarded as a result of an OMB Circular Number A-76 cost comparison, pursuant to Public Law 99-509.

2863 **Feb. 8, 1988**

Letter from the Director, National Science Foundation, transmitting a report on women and minorities in science and engineering, pursuant to 42 U.S.C. 1885d.

2864 **Feb. 8, 1988**

Letter from the Secretary of Commerce transmitting the Annual Report on Ocean Pollution, Monitoring, and Research covering fiscal year 1986.

112 **Feb. 22, 1988**

Message from the President of the United States transmitting the second biennial report of the Interagency Arctic Research Policy Committee, pursuant to 15 U.S.C. 4108(a).

118 **Feb. 24, 1988**

Message from the President of the United States transmitting a draft of proposed legislation to encourage innovation and productivity, stimulate trade, and promote the competitiveness and technological leadership of the United States.

3071 **Mar. 7, 1988**

Letter from the Administrator, National Aeronautics and Space Administration, transmitting a draft of proposed legislation to authorize appropriations to the National Aeronautics and Space Administration for research and development; space flight, control and data communications; construction of facilities; and research and program management; and for other purposes, pursuant to 31 U.S.C. 1110.

3096 **Mar. 8, 1988**

Letter from the Secretary of Energy transmitting the Department's eleventh annual report for fiscal year 1987 of the activities under the Electric and Hybrid Vehicle Research, Development, and Demonstration Act of 1976, pursuant to 15 U.S.C.2513.

124 **Mar. 14, 1988**

Message from the President of the United States transmitting the Administration's annual report on the international scientific and technological activities of U.S. Government agencies during Fiscal Year 1987, pursuant to 22 U.S.C. 2656c.

3139 **Mar. 15, 1988**

Letter from the Secretary of the Air Force transmitting a report on waivers of minimum funding and staffing requirements for technology transfer from Federal laboratories, pursuant to 15 U.S.C. 3710(b).

3188 **Mar. 21, 1988**

Letter from the Secretary of Energy transmitting the Department's seventh annual report on the Methane Transportation Research, Development and Demonstration Program for fiscal year 1987, pursuant to 15 U.S.C. 3808.

3189 **Mar. 21, 1988**

Letter from the Director, National Science Foundation, transmitting a draft of proposed legislation to authorize appropriations for the National Science Foundation for fiscal years 1989 through 1993, and make amendments to the National Science Foundation Act of 1950 and related laws, pursuant to 31 U.S.C. 1110.

3238 **Mar. 28, 1988**

Letter from the General Counsel, Federal Emergency Management Agency, transmitting a draft of proposed legislation to authorize appropriations for activities under the Federal Fire Prevention and Control Act of 1974, pursuant to 31 U.S.C. 1110.

3240 **Mar. 28, 1988**

Letter from the Secretary of Energy transmitting the 1987 annual report on the high-level radioactive waste management demonstration project at the Western New York Service Center, West Valley, New York, pursuant to 42 U.S.C. 2021a nt.

3268 **Mar. 29, 1988**

Letter from the Administrator, Environmental Protection Agency, transmitting a draft of proposed legislation to authorize appropriations for environmental research, development, and demonstration for fiscal years 1989 and 1990, pursuant to 31 U.S.C. 1110.

3387 **Apr. 12, 1988**

Letter from the Secretary of Commerce transmitting a report on Federal Government activities to obtain, translate, abstract, and disseminate Japanese technical literature, pursuant to 15 U.S.C. 3704(d).

3388 **Apr. 12, 1988**

Letter from the Administrator, National Aeronautics and Space Administration, transmitting the draft of a proposed new section to be added to the FY 1989 NASA authorization bill which authorizes NASA to lease a Commercially Developed Space Facility (Executive Communication Number 3071), pursuant to 31 U.S.C. 1110.

3389 **Apr. 12, 1988**

Letter from the Administrator, National Aeronautics and Space Administration, transmitting the draft of a proposed new section 7 to be added to the draft FY 1989 NASA authorization bill (Executive Communication Number 3071), pursuant to 31 U.S.C. 1110.

131 **Apr. 18, 1988**

Message from the President of the United States transmitting a report of the National Science Board, "Science and Engineering Indicators— 1987", the eighth in a continuing series in which important aspects of the status of American science and engineering are examined, pursuant to 42 U.S.C. 1863(j).

3458 **Apr. 19, 1988**

Letter from the Secretary of Transportation transmitting a draft of proposed legislation to authorize appropriations for the fiscal years 1989 and 1990 for the Office of Commercial Space Transportation of the Department of Transportation, and for other purposes, pursuant to 31 U.S.C. 1110.

134 **Apr. 25, 1988**

Message from the President of the United States transmitting the annual report of the Nation's progress in aeronautics and space during calendar year 1986, pursuant to 42 U.S.C. 2476.

3557 **May 3, 1988**

Letter from the Acid Precipitation Task Force transmitting the 1987 annual report of the National Acid Precipitation Assessment Program, pursuant to 42 U.S.C. 8903(e).

3561 **May 4, 1988**

Letter from the General Counsel, Department of Transportation, transmitting copies of the FY 1989 budget requests of the Federal Aviation Administration to the Department, including requests for "Facilities and Equipment" and "Research, Engineering, and Development", pursuant to 49 U.S.C. app. 2205(f).

3566 **May 5, 1988**

Letter from the Assistant Secretary for Conservation and Renewable Energy, Department of Energy, transmitting the Twelfth Annual Report of activities of the Geothermal Energy Coordination and Management Project for Fiscal Year 1987, pursuant to 30 U.S.C. 1162(a).

3674 **May 23, 1988**

Letter from the Secretary of Energy transmitting the sixth annual update to the Comprehensive Ocean Thermal Technology Application and Market Development Plan, pursuant to 42 U.S.C. 9002(d).

3675 **May 23, 1988**

Letter from the Chairman, National Aeronautics and Space Administration, transmitting a proposed amendment to the FY 1989 NASA authorization concerning nuclear fuel acquisition, pursuant to 31 U.S.C. 1110.

3793 **June 10, 1988**

Letter from the Secretary of Energy transmitting the Seventh Annual Revised Comprehensive Program Management Plan which presents the current strategy of the Federal wind energy program, related progress in the private sector, and management structure and major elements of the Federal program, including milestones for Fiscal Years 1988 and 1989, pursuant to 42 U.S.C. 9203(c).

3808 **June 14, 1988**

Letter from the Secretary of Commerce, Department of Commerce, transmitting a report on barriers to the commercialization of federal computer software and the feasibility and cost of compiling an inventory of federally funded training software, pursuant to 15 U.S.C. 3710.

144 **June 15, 1988**

Message from the President of the United States transmitting the Annual Report of the National Science Foundation for Fiscal Year 1987, pursuant to 42 U.S.C. 1862(e).

3846 **June 21, 1988**

Letter from the Secretary of Commerce transmitting an amended draft of proposed legislation to authorize appropriations for carrying out the National Climate Program for fiscal years 1988 and 1989; proposed original draft submitted March 16, 1987 (Executive Communication Number 898), pursuant to 31 U.S.C. 1110.

3849 **June 21, 1988**

Letter from the Secretary of Commerce transmitting an amended draft of proposed legislation to amend title II of the Marine Protection, Research, and Sanctuaries Act of 1972, as amended, to authorize appropriations for fiscal years 1988 and 1989; proposed original draft transmitted March 4, 1987 (Executive Communication Number 753), pursuant to 31 U.S.C. 1110.

3883 **June 27, 1988**

Letter from the Secretary of Commerce transmitting a draft of proposed legislation to amend the National Ocean Pollution Planning Act of 1978, as amended, to authorize appropriations to carry out the provisions of the Act for fiscal years 1988 and 1989, and for other purposes, pursuant to 31 U.S.C. 1110.

3959 **July 7, 1988**

Letter from the Secretary of Energy transmitting the first annual report on the clean coal technology demonstration program for the period ending December 31, 1987.

4075 **July 26, 1988**

Letter from the Secretary of Energy transmitting the fifth annual update to the Comprehensive Ocean Thermal Technology Application and Market Development Plan, pursuant to Public Law 96-310, Section 6(b).

4086 **July 26, 1988**

Letter from the Presiding Officer of the National Ocean Pollution Policy Board, National Oceanic and Atmospheric Administration, transmitting a report on the Review of FY 1989 Agency Requests for Appropriations to Support Marine Pollution Research, Development, and Monitoring, June 1988, pursuant to 33 U.S.C. 1703(a).

4107 **Aug. 1, 1988**

Letter from the Secretary, Department of Commerce, transmitting a draft of proposed legislation to amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish Thomas A. Edison Prizes, with the objective of encouraging residents of the United States to develop innovative technologies that could improve the quality of life in this Nation and the world.

4315 **Sept. 13, 1988**

Letter from the Secretary of Commerce transmitting the views of the Department on H.R. 5183, to authorize appropriations to the Secretary of Commerce for the programs of the National Institute of Standards and Technology for fiscal year 1989, and for other purposes.

4333 **Sept. 15, 1988**

Letter from the Administrator, National Aeronautics and Space Administration, transmitting the agency's waiver of minimum funding and staffing requirements for technology transfers; a statement of reasons; alternative plans for conducting technology transfer functions, pursuant to 15 U.S.C. 3710(b).

4334 **Sept. 15, 1988**

Letter from the Administrator, Federal Aviation Administration, transmitting the agency's initial report on its progress in developing and certifying the Traffic Alert and Collision Avoidance System (TCAS), covering the months of January through May 1988, pursuant to Public Law 100-223, Section 203(b) (101 Stat. 1518).

4405 **Sept. 30, 1988**

Letter from the Director, National Science Foundation, transmitting the second biennial report on scientific and engineering research facilities at universities and colleges for 1988, pursuant to 42 U.S.C. 7454(c).

4439 **Oct. 6, 1988**

Letter from the Administrator, National Aeronautics and Space Administration, transmitting a report outlining the planned funding levels in the agency's current FY 1988 operating plan which exceed amounts authorized, pursuant to Public Law 100-147, Section 104(2).

4443 **Oct. 6, 1988**

Letter from the Secretary of Energy transmitting a comprehensive report on the ninth project negotiated under the Department's Clean Coal Technology Demonstration Program entitled, "Advanced Slagging Combustor Utility Demonstration Project", proposed by TRW, Inc., pursuant to Public Law 99-190.

4446 **Oct. 7, 1988**

Letter from the Secretary of Energy transmitting a comprehensive report on the eighth project negotiated under the Department of Energy's (DOE) Clean Coal Technology Demonstration Program entitled "Nucla CFB Demonstration Project", pursuant to Public Law 99-190.

4509 **Oct. 21, 1988**

Letter from the Secretary of Commerce transmitting a draft of proposed legislation to establish $200,000 prizes to accompany the National Medals of Science and Technology and for other purposes.

PETITIONS AND MEMORIALS REFERRED TO THE COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY

---

40 **Apr. 21, 1987**

A memorial of the Legislature of the State of Nevada, relative to the construction of the new atomic particle accelerator called the Superconducting Super Collider.

53 **Apr. 23, 1987**

A memorial of the House of Representatives of the State of Idaho, relative to a national program of commercial nuclear power development.

133 **June 18, 1987**

A memorial of the Legislature of the State of Nevada, relative to the Nevada Test Site.

45 **June 9, 1987**

Petition of Alabama League of Municipalities, Montgomery, Alabama, relative to an appropriate legislative response to acid rain.

51 **June 30, 1987**

Petition of Association of County Commissions of Alabama, Montgomery, Alabama, relative to acid rain regulatory programs.

190 **Aug. 7, 1987**

A memorial of the House of Representatives of the State of Illinois, relative to locating the Superconducting Super Collider (SSC) in Illinois.

197 **Sept. 9, 1987**

A memorial of the General Assembly of the State of New York, relative to the Superconducting Super Collider.

60 **Aug. 7, 1987**

Petition of Texas Association of Counties, Austin, Texas, relative to the Superconducting Super Collider.

78 **Sept. 21, 1987**

Petition of Gulf Power Company Chapter, The National Management Association, Pensacola, Florida, relative to acid rain.

304 **Apr. 11, 1988**

A memorial of the House of Representatives of the State of Illinois, relative to coal mining.

151 **Apr. 11, 1988**

Petition of Illinois State Board of Education, Springfield, Illinois, relative to energy physics.

336 **Apr. 27, 1988**

A memorial of the Legislature of the State of Idaho, relative to nuclear power.

231 **Sept. 8, 1988**

Petition of Ohio Valley Regional Development Commission, Portsmouth, Ohio, relative to the United States Enrichment Corporation.

485 **Oct. 18, 1988**

A memorial of the Legislature of the State of California, relative to the genome project.

LIST OF BILLS AND RESOLUTIONS REFERRED TO SUBCOMMITTEES

SUBCOMMITTEE ON NATURAL RESOURCES, AGRICULTURE RESEARCH AND ENVIRONMENT

Bills

H.R. 474—Plastic waste

H.R. 737—Ocean incineration research

H.R. 791—Ground water research

H.R. 1513—Aquatic plant management

H.R. 1523—Environmental R&D authorization

H.R. 1627—Marine protection and research

H.R. 1739—National Climate Protection Act

H.R. 2036—Ozone protection (also ISC Subc.)

H.R. 2135—Department of International Trade and Industry Act of 1987 (also SRT Subc.)

H.R. 2253—Ground water research

H.R. 2527—Plastic waste

H.R. 3094—Industrial assistance program for reducing environmental pollutants and hazardous waste

H.R. 3244—Management and control of aquatic plants

H.R. 3300—OTA report re: hazardous waste reduction and management

H.R. 3497—Global change research (also ISC Subc.)

H.R. 3499—Amend Nuclear Waste Policy Act (also ERD Subc.)

H.R. 3809—Indoor air quality

S. 1667—National Oceanic and Atmospheric Administration Authorization

H.R. 4036—Commission on International Security and Satellite Monitoring (also ISC Subc.)

H.R. 4193—Create Federal facility nuclear cleanup trust fund (also ERD Subc.)

H.R. 4210—Reauthorize Title II of Marine Protection, Research and Sanctuaries Act of 1972

H.R. 4211—Reauthorize the National Ocean Pollution Planning Act of 1978

H.R. 4231—Amend the Marine Protection, Research and Sanctuaries Act of 1972

H.R. 4335—Conservation of biological diversity

H.R. 4454—Recycling promotion

H.R. 4502—Biotechnology (also SRT Subc.)

H.R. 4971—Regulate use of genetically-engineered animals in agriculture (also SRT Subc.)

H.R. 5000—Encourage R&D of technologies relating to recycling

H.R. 5070—Establish NOAA as an independent agency

H.R. 5249—Medical waste control in the Great Lakes

H.R. 5373—Indoor air quality

H.R. 5380—Energy policy to reduce global warming (also ERD, SRT, and ISC Subcs.)

H.R. 5421—Global environment policy (also SRT, SSA, and ISC Subcs.)

H.R. 5466—Management of medical waste by EPA

H.R. 5571—Medical waste control in Chesapeake Bay

S. 1966—Biotechnology (also SRT Subc.)

Resolutions

H.Con. Res. 69—NEXRAD (also TAM Subc.)

H.Con. Res. 71—STORM program

H.Con. Res. 167—Land remote-sensing and LANDSAT

H.Con. Res. 366—The Air Force should continue use of the weather reconnaisance aircraft, WC-130, in coordination with NOAA-operated satellites

SUBCOMMITTEE ON ENERGY RESEARCH AND DEVELOPMENT

Bills

H.R. 1414—Price-Anderson amendments

H.R. 2069—Superconductors (also SRT and TAM Subcs.)

H.R. 2520—To eliminate certain restrictions on authority of Executive Branch

H.R. 2541—Hydrogen R&D (also TAM Subc.)

H.R. 2542—Renewable Energy/Fuel Cell Systems

H.R. 2751—The Department of Energy and indemnification of civilian nuclear energy R&D contractors

H.R. 3006—DOE National Laboratory cooperative research initiatives

H.R. 3024—Superconductor manufacturing and processing technology (also SRT and TAM Subcs.)

H.R. 3048—Superconductivity and competitiveness (also SRT and TAM Subcs.)

H.R. 3077—Regional monitored retrievable storage and disposal of radioactive waste

H.R. 3217—Superconductivity, competitiveness, and national security (also SRT and TAM Subcs.)

H.R. 3228—Superconducting Super Collider program

H.R. 3463—Assessments re: R&D of the Superconducting Super Collider program (also ISC Subc.)

H.R. 3499—Amend Nuclear Waste Policy Act (also NRARE Subc.)

H.R. 4071—Nuclear whistleblowers protection

H.R. 4193—Create Federal facility nuclear cleanup trust fund (also NRARE Subc.)

H.R. 4224—Require DOE to develop a demonstration plan to study the technical feasibility of burning weapons grade nuclear materials

H.R. 4226—Promote development and commercialization of renewble energy and energy conservation

H.R. 4283—Re: the Waste Isolation Pilot Plant in New Mexico

H.R. 4331—Acid Rain abatement

H.R. 4465—Solar energy R&D

H.R. 4489—Uranium enrichment industry viability

H.R. 4934—Uranium enrichment industry viability

H.R. 4975—Uranium enrichment industry viability

H.R. 5032—Acid rain

H.R. 5040—Standard Nuclear Reactor development

H.R. 5279—Promote ban on use of nuclear power sources in orbit (also SSA Subc.)

H.R. 5380—Energy policy to reduce global warming (also NRARE, SRT, and ISC Subcs.)

H.R. 5424—State energy conservation improvement (also TAM Subc.)

H.R. 5433—Uranium enrichment industry viability

H.R. 5460—Global warming prevention (also SRT and TAM Subcs.)

S. 1294—Enable fuel cells to use alternative fuel sources

S. 2470—Steel and aluminum energy conservation (also SRT Subc.)

Resolutions

H.Con. Res. 254—International cooperation in development of International Thermonuclear Experimental Reactor (also ISC Subc.)

SUBCOMMITTEE ON SCIENCE, RESEARCH AND TECHNOLOGY

Bills

H.R. 145—Computer security (also TAM Subc.)

H.R. 717—Economic competitiveness

H.R. 812—National Quality Improvement Award

H.R. 1155—Trade, employment and productivity

H.R. 1425—Nutrition monitoring (Subtitle B)

H.R. 1522—Federal Fire Prevention and Control Act reauthorization

H.R. 1612—Earthquake Hazards Reduction reauthorization

H.R. 1615—Establish Government Information Agency

H.R. 1650—U.S. competitiveness in international trade (also ISC Subc.)

H.R. 1905—Universities research facilities revitalization

H.R. 1964—Metric conversion

H.R. 2068—National Bureau of Standards and industrial competitiveness

H.R. 2069—Superconductors (also TAM and ERD Subcs.)

H.R. 2134—Advanced technician training

H.R. 2135—Department of International Trade and Industry Act of 1987 (also NRARE Subc.)

H.R. 2151—Nutrition monitoring

H.R. 2191—Semiconductor R&D (also ISC and TAM Subcs.)

H.R. 2159—National Technical Information Act

H.R. 2160—National Bureau of Standards FY 1988 Authorization

H.R. 2165—National Policy and Technology Foundation Act

H.R. 2205—Value Engineering Council

H.R. 2219—Competitiveness enhancement

H.R. 2315—Evaluation and improvement of science and mathematics education

H.R. 2492—Federal Industrial Extension Act

H.R. 2737—Continental Scientific Drilling and Exploration

H.R. 2916—Technology competitiveness

H.R. 2958—Trade and technology policy (also ISC Subc.)

H.R. 3024—Superconductor manufacturing and processing technology (also TAM and ERD Subcs.)

H.R. 3048—Superconductivity and competitiveness (also TAM and ERD Subcs.)

H.R. 3217—Superconductivity, competitiveness, and national security (also TAM and ERD Subcs.)

H.R. 3656—International scientific and technological agreements (also ISC Subc.)

H.R. 3704—Hotel-Motel Fire safety

S. 52—Continental Scientific Drilling and Exploration Act

H.R. 4230—Omnibus Antidrug Abuse Act

H.R. 4502—Biotechnology (also NRARE Subc.)

H.R. 4848—Omnibus Trade Act (also TAM and ISC Subcs.)

H.R. 4971—Regulate use of genetically-engineered animals in agriculture (also NRARE Subc.)

H.R. 5051—Fastener quality assurance

H.R. 5120—Provide for system of standardization of measurement of bolts

H.R. 5380—Energy policy to reduce global warming (also ERD, NRARE, and ISC Subcs.)

H.R. 5405—Repeal certain requirements for the implementation of the metric system

H.R. 5421—Global environment research and policy (also NRARE, SSA, and ISC Subcs.)

H.R. 5460—Global warming prevention (also ERD and TAM Subcs.)

H.R. 5518—Establish Congressional Scholarships for Science, Mathematics, and Engineering

S. 1081—Nutrition monitoring

S. 1966—Biotechnology (also NRARE Subc.)

S. 2470—Steel and aluminum energy conservation (also ERD Subc.)

Resolutions

H.Con. Res. 290—Endorsing establishment of a U.S. Decade for Natural Disaster Reduction

H.J. Res. 646—Establish the National Commission on Human Resources

SUBCOMMITTEE ON SPACE SCIENCE AND APPLICATIONS

Bills

H.R. 173—NASA/restricted gifts

H.R. 790—National Space Policy Act

H.R. 942—The space shuttle and safety

H.R. 1510—Inventions in Outer Space

H.R. 1521—Inventions in Outer Space

H.R. 1633—National Space Grant College and Fellowship Act

H.R. 1733—Uses of the Space Station

H.R. 1740—FY 1988 and 1989 authorization for the Office of Commercial Space Transportation of the Department of Transportation

H.R. 1741—NASA FY 1988 Authorization (also TAM Subc.)

H.R. 3765—Commercial Space Launch Amendments Act

H.R. 3858—National Mars Commission

H.R. 4157—NASA Authorization, 1989 (also TAM Subc.)

H.R. 4218—NASA to promote development of human settlements in space

H.R. 4560—John C. Stennis Space Center

H.R. 5228—Reimbursement to persons whose property was damaged by explosion of ammonium perchlorate plant

H.R. 5279—Promote ban on the use of nuclear power sources in orbit (also ERD Subc.)

H.R. 5421—Global environment policy (also NRARE, SRT, and ISC Subcs.)

H.R. 5444—Reestablish National Aeronautics and Space Council (also TAM Subc.)

Resolutions

H.Res. 164—Re: NASA distinguished service medal

H.J. Res. 668—Space debris

H.Con. Res. 353—U.S. should make the space program a national priority

H.Con. Res. 374—Funding for the space station program

H.Con. Res. 384—NASA should develop a crew rescue capability in support of the space station

SUBCOMMITTEE ON INTERNATIONAL SCIENTIFIC COOPERATION

Bills

H.R. 1650—U.S. competitiveness in international trade (also SRT Subc.)

H.R. 2036—Ozone protection (also NRARE Subc.)

H.R. 2191—Semiconductor R&D (also TAM Subc.)

H.R. 2958—Trade and technology policy (also SRT Subc.)

H.R. 3463—Assessments re: R&D of the Superconducting Super Collider program (also ERD Subc.)

H.R. 3497—Global change research (also NRARE Subc.)

H.R. 3656—International scientific and technological agreements (also SRT Subc.)

H.R. 4036—Commission on International Security and Satellite Monitoring (also NRARE Subc.)

H.R. 4848—Omnibus Trade Act (also SRT and TAM Subcs.)

H.R. 5380—Energy policy to reduce gobal warming (also ERD, NRARE, and SRT Subcs.)

H.R. 5421—Global environment policy (also NRARE, SRT, and SSA Subcs.)

Resolutions

H.Con. Res. 52—Establish cooperative international research program re: the "Greenhouse Effect"

H.Con. Res. 73—Climatic and environmental effects of a nuclear exchange

H.Con. Res. 254—International cooperation in development of International Thermonuclear Experimental Reactor (also ERD Subc.)

SUBCOMMITTEE ON TRANSPORTATION, AVIATION AND MATERIALS

Bills

H.R. 145—Computer security (also SRT Subc.)

H.R. 1517—Aircraft collision avoidance systems

H.R. 1621—Highway research

H.R. 1741—NASA FY 1988 Authorization (also SSA Subc.)

H.R. 2069—Superconductors (also SRT and ERD Subcs.)

H.R. 2191—Semiconductor research (also SRT and ISC Subcs.)

H.R. 2310—Airport and Airway Improvement Amendments

H.R. 2541—Hydrogen R&D (also ERD Subc.)

H.R. 3024—Superconductor manufacturing and processing technology (also SRT and ERD Subcs.)

H.R. 3048—Superconductivity and competitiveness (also SRT and ERD Subs.)

H.R. 3217—Superconductivity, competitiveness and national security (also SRT and ERD Subcs.)

H.R. 3779—Air traffic controller performance research

H.R. 4157—NASA Authorization, 1989 (also SSA Subc.)

H.R. 4686—Aviation safety research

H.R. 4848—Omnibus Trade Act (also SRT and TAM Subcs.)

H.R. 5424—State energy conservation improvement (also ERD Subc.)

H.R. 5444—Reestablish National Aeronautics and Space Council (also SSA Subc.)

H.R. 5460—Global warming prevention (also ERD and SRT Subcs.)

Resolutions

H.Con. Res. 69—NEXRAD (also NRARE Subc.)

H.Res. 450—Resolution regarding aging aircraft

LIST OF BILLS AND RESOLUTIONS NOT REFERRED TO SUBCOMMITTEES

FULL COMMITTEE

Bills

H.R. 3—Omnibus Trade Act

H.R. 1777—Title XI, Global Climate Protection provisions of FY's 1988 and 1989 Foreign Relations Authorization

H.R. 2330—National Science Foundation FY 1988 Authorization

H.R. 2355—Environmental Protection Agency FY 1988 and 1989 Authorization

H.R. 2368—Department of Energy FY 1988 Authorization for civilian energy R&D programs

H.R. 2369—Department of Energy FY 1988 Authorization

H.R. 2782—National Aeronautics and Space Administration Authorization

H.R. 3350—Amendment to Airport and Airway Improvement Act

H.R. 3545—Nuclear Waste Policy Act of 1982 provisions

H.R. 3676—Ground water research

H.R. 4399—Commercial Space Launch Act Amendments

H.R. 4417—National Bureau of Standards Authorization Act for FY 1989

H.R. 4418—National Science Foundation Authorization Act for FY's 1989 and 1990

H.R. 4419—Federal Fire Prevention and Control Act of 1974 Reauthorization

H.R. 4505—Department of Energy Authorization for civilian R&D programs for FY 1989

H.R. 4561—Multiyear NASA Authorization

H.R. 4816—Prohibition on U.S. Corporations from entering into commercial ventures in space with certain other countries.

H.R. 4935—Prohibition on U.S. satellites being launched by launch vehicles of certain countries.

H.R. 5132—National Laboratories and technology transfer.

H.R. 5183—the National Institute of Standards and Technology Authorization Act for FY 1989

Resolutions

H.Res. 55—Memorium to crew of space shuttle Challenger

H.Res. 369—Honoring the 25th anniversary of the Cerro-Tololo Inter-American Observatory

H.Res. 574—Commemorating the successful return to flight by the Space Shuttle Discovery

CHRONOLOGICAL LIST OF MEETINGS OF THE FULL COMMITTEE

FIRST SESSION

DATE	SUBJECT
Jan. 28, 1987	Posture Hearing—The Fiscal Year 1988 Federal R&D Budget with the Director of the Office of Science and Technology Policy
Jan. 28, 1987	Democratic Caucus (closed)
Feb. 3, 1987	Republican Conference (closed)
Feb. 3, 1987	Hearing—The Flight of the Voyager
Feb. 4, 1987	Hearing—The National Academy of Sciences Report on International Technology Transfer
Feb. 4, 1987	Meeting—Organization of the Committee for the 100th Congress
Feb. 5, 1987	Posture Hearing—The National Aeronautics and Space Administration
Feb. 26, 1987	Hearing—To Receive NASA's Response to the Committee's Investigation of the Challenger Accident
Mar. 17, 1987	Posture Hearing—The Department of Energy FY 1988 R&D Budget
Mar. 24, 1987	Posture Hearing—The National Science Foundation FY 1988 R&D Budget
Apr. 7, 1987	Hearing—The Superconducting Super Collider
Apr. 8, 1987	Hearing—The Superconducting Super Collider
Apr. 9, 1987	Hearing—The Superconducting Super Collider
Apr. 23, 1987	Hearing—The National Academy of Sciences Report on National Security Controls on International Technology Transfer; Establishment of Technology Policy Task Force Membership for 6-month appointment
May 13, 1987	Markup—H.R. 812, the National Quality Improvement Act; H.R. 1522, the Fire Prevention and Control Act Reauthorization; H.R. 1612, the Earthquake Hazards Reduction Act Reauthorization; H.R. 2160, the National Bureau of Standards Authorization; H.R. 2355, the Environmental Protection Agency Office of R&D Authorization
May 20, 1987	Markup—H.R. 2330, the National Science Foundation Authorization; H.R. 145, the Computer Security and Research Training Act; H.R. 2310, the Airport and Airway Improvement Amendments Act of 1987
June 3, 1987	Technology Policy Task Force Hearing—Previous Studies: Recommendations and Implementation
June 10, 1987	Hearing—Superconductivity
June 25, 1987	Technology Policy Task Force Hearing—Communications and Computers in the 21st Century
June 25, 1987	Hearing—H.R. 1905, the University Research Facilities Revitalization Act

CHRONOLOGICAL LIST OF MEETINGS OF THE FULL COMMITTEE

DATE	SUBJECT
June 26, 1987	Markup—H.R. 2782, the National Aeronautics and Space Administration Authorization, FY 1988; Appointment of additional Members to the Technology Policy Task Force
July 1, 1987	Technology Policy Task Force Hearing—The Effect of Technological Change on the Labor Force
July 15, 1987	Technology Policy Task Force Hearing—Cooperation in Industrial Research and Technology Development
July 22, 1987	Markup—H.R. 1414, the Price-Anderson Amendments Act; H.R. 2751, An Extension of Price-Anderson Authority for Department of Energy Contractors
July 23, 1987	Markup—H.R. 2916, the Technology Competitiveness Act of 1987
July 29, 1987	Technology Policy Task Force Hearing—The Commercial Development of Medical Biotechnology Engineering
Sep. 29, 1987	Markup—H.R. 1517, the Aircraft Collision Avoidance Act of 1987; H.R. 791 and H.R. 2253, Groundwater Research Legislation
Oct. 1, 1987	Technology Policy Task Force Hearing—Automobile Development and Production
Oct. 15, 1987	Markup—H.R. 3228, Authorizing the Superconducting Super Collider Program; S. 1667, the National Oceanic and Atmospheric Administration Reauthorization; and Reestablishment of the Membership of the Technology Policy Task Force for 6-month appointment
Oct 22, 1987	Technology Policy Task Force Hearing—Technology and Economics in a Shrinking World
Oct. 29, 1987	Review of the Results of the 1987 Antarctic Expedition to Study Ozone Depletion
Nov. 4, 1987	Technology Policy Task Force Hearing—Competitiveness and the Role of Large Corporations

SECOND SESSION

Feb. 23, 1988	Posture Hearing—The Federal Fiscal Year 1989 Research and Development Budget; Approval of Subcommittee assignments for Congressmen Kanjorski, Hochbrueckner, and Shays
Mar. 22, 1988	Hearing—The Superconducting Super Collider (SSC); Reestablishment of the Membership of the Technology Policy Task Force for 6-month appointment
Apr. 21, 1988	Markup—H.R. 3704, the Hotel and Motel Fire Safety Act; H.R. 4419, the Federal Fire Prevention and Control Act Reauthorization for Fiscal Years 1989, 1990, and 1991; H.R. 2737, the Continental Scientific Drilling and Exploration Act; H.R. 4399, the Commercial Space Launch Act Amendments; H.R. 4417, the National Bureau of Standards (NBS) Authorization Act for Fiscal Year 1989; and H.R.4418, the National Science Foundation (NSF) Authorization Act for Fiscal Years 1989 and 1990
Apr. 29, 1988	Markup—H.R. 4505, the Department of Energy (DOE) Fiscal Year 1989 Civilian Energy Research and Development Authorization Act
May 5, 1988	Markup—Completion of consideration of H.R. 4505, the DOE FY 1989 Civilian Energy R&D Authorization; H.R. 4417, the NBS FY 1989 Authorization; and H.R. 4418, the NSF Authorization for FY's 1989 and 1990

CHRONOLOGICAL LIST OF MEETINGS OF THE FULL COMMITTEE

DATE	SUBJECT
May 11, 1988	Technology Policy Task Force Forum—Capitalizing on Technology
May 12, 1988	Markup—H.R. 4561, the Multi-Year National Aeronautics and Space Administration (NASA) Authorization Act
Aug. 11, 1988	Markup—H.Con. Res. 290, Supporting the International Decade for Natural Disaster Reduction; S. 1966, the Biotechnology Competitiveness Act of 1988; H.R. 4502, the Biotechnology Science Coordination and Competitiveness Act of 1988; H.Res. 450, a Resolution establishing a Federal Aviation Administration R&D program to study aircraft; H.R. 4686, the Aviation Safety Research Act of 1988; H.R. 3779, the Controller Performance Research Act; H.R. 5132, the National Laboratory Competitiveness Act; and a Committee Resolution commending State Department Science and Technology Officers.
Sep. 23, 1988	Hearing—Implications of the Licensing Decision on the Chinese Long March Rocket
Sep. 27, 1988	Hearing—Continuation of Hearing on the Implications of the Licensing Decision on the Chinese Long March Rocket
Oct. 3, 1988	Markup—S. 1081, the National Nutrition Monitoring and Related Research Act of 1988; S. 2470, the Steel and Aluminum Energy Conservation and Technology Competitiveness Act of 1988; and H.R. 1510, legislation regarding patents and inventions in space.
Oct. 4, 1988	Technology Policy Task Force Markup—the Task Force Report, "Technology Policy and Its Effect on the National Economy"
Oct. 13, 1988	Meeting—Consideration of the Technology Policy Task Force Report and Policy Statement; Presentation by Space Shuttle "Discovery" Astronauts

MEETINGS OF SUBCOMMITTEES

SUBCOMMITTEE ON INVESTIGATIONS AND OVERSIGHT

SECOND SESSION

DATE	SUBJECT	FULL COMMITTEE MEETING
June 8, 1988	Hearing—Rocket Fuel Allocation in the Aftermath of Fuel Plant Explosion.	
June 24, 1988	Field Hearing—Local Impact of Rocket Fuel Plant Explosion (Henderson, Nevada).	
June 27, 1988	Field Hearing—The Cutting Edge: Science and Technology for America's Future (Bethlehem, Pennsylvania).	

SUBCOMMITTEE ON NATURAL RESOURCES, AGRICULTURE RESEARCH AND ENVIRONMENT

FIRST SESSION

DATE	SUBJECT	FULL COMMITTEE MEETING
Mar. 10, 1987	Hearing—Stratospheric Ozone Depletion	
Mar. 12, 1987	Hearing—Stratospheric Ozone Depletion	
Mar. 25, 1987	Hearing—The Department of Energy FY 1988 Authorization: Environmental Programs.	
Mar. 31, 1987	Joint Hearing—The Future of the LANDSAT System (Jointly with Subcommittee on International Scientific Cooperation).	
Apr. 1, 1987	Hearing—The Environmental Protection Agency FY 1988 R&D Budget Request.	
Apr. 2, 1987	Joint Hearing—The Future of the LANDSAT System (Jointly with Subcommittee on International Scientific Cooperation).	
Apr. 23, 1987	Hearing—Nuclear Medicine: The Department of Energy Research Program.	
May 7, 1987	Markup—The Environmental Protection Agency FY 1988 Authorization for Office of R&D; Department of Energy FY 1988 Authorization for Environmental Programs.	May 13, 1987 (H.R. 2355, EPA)
May 28, 1987	Hearing—Biological Diversity: Prospects and Problems	
July 21, 1987	Hearing—Groundwater Research Legislation (H.R. 2253 and H.R. 791).	
July 22, 1987	Hearing—Reauthorization of the National Climate Act Authorization and Global Climate Change.	
July 23, 1987	Hearing—Reauthorization of the National Climate Act Authorization and Global Climate Change.	
Sep. 16, 1987	Markup—H.R. 2253 and H.R. 791, Groundwater Research Legislation.	Sep. 29, 1987 (H.R. 791)
Sep. 17, 1987	Hearing—AIDS International Scientific Cooperation	
Sep. 22, 1987	Hearing—Conservation of Biological Biodiversity: Developing a National Strategy.	
Sep. 30, 1987	Joint Hearing—Global Change: Agency and International Involvement (Jointly with Subcommittee on International Scientific Cooperation).	
Oct. 1, 1987	Hearing—The National Oceanic and Atmospheric Administration Reauthorization.	

SUBCOMMITTEE ON NATURAL RESOURCES AND ENVIRONMENT

DATE	SUBJECT	FULL COMMITTEE MEETING
Oct. 8, 1987	Markup—The National Oceanic and Atmospheric Administration Reauthorization.	Oct. 15, 1987 (S. 1667)
Nov. 21, 1987	Field Hearing—Groundwater Contamination (Albuquerque, New Mexico).	
Nov. 30, 1987	Joint Field Hearing—Groundwater Resources on Long Island (Mineola, New York) (Jointly with Senate Committee on Environment and Public Works, Subcommittee on Water Resources, Transportation, and Infrastructure).	
	SECOND SESSION	
Mar. 8, 1988	Hearing—Modernization of the Weather Service	
Mar. 23, 1988	Hearing—Update on the Status of Landsat	
Mar. 31, 1988	Hearing—Department of Energy (DOE) FY 1989 Authorization (Environmental Programs).	
Apr. 6, 1988	Field Hearing—Environmental Health in the 21st Century (Research Triangle Park, North Carolina).	
Apr. 21, 1988	Hearing—Oversight of the Environmental Protection Agency's (EPA) FY 1989 Research Budget.	
Apr. 27, 1988	Hearing—Review of Acid Rain Precipitation Assessment Program.	
Apr. 27, 1988	Markup—DOE FY 1989 Authorization (Environmental Programs).	May 5, 1988 (H.R. 4505)
May 5, 1988	Hearing—The Office of Technology Assessment (OTA) Biotechnology Report.	
June 6, 1988	Field Hearing—The Quality of Health Care: Information for Consumers (New York, New York).	
June 9, 1988	Hearing—H.R. 4335, the National Biological Diversity Conservation and Environmental Research Act.	
June 22, 1988	Hearing—Conservation Strategies/Saving the Endangered Rhinoceros.	
June 29, 1988	Joint Hearing—Technology for Remediating Global Warming (Jointly with Subcommittee on Science, Research and Technology).	
June 30, 1988	Hearing—H.R. 4335, the National Biological Diversity Conservation and Environmental Research Act.	
July 14, 1988	Joint Hearing—U.S. Competitiveness in Biotechnology (Jointly with Subcommittee on Science, Research and Technology).	
Aug. 2, 1988	Markup—H.R. 4335, the National Biological Diversity and Environmental Research Act; H.R. 4502, the Biotechnology Science Coordination and Competitiveness Act of 1988, and S. 1966, a similar Senate-passed measure.	Aug. 11, 1988 (H.R. 4502/S. 1966)

94-889 - 89 - 4

SUBCOMMITTEE ON NATURAL RESOURCES AND ENVIRONMENT

DATE	SUBJECT	FULL COMMITTEE MEETING
Aug. 10, 1988	Hearing—Plastics in the Environment: H.R. 5000, the Recyclable Materials Science and Technology Development Act of 1988 (The Potential of Degradable Plastics).	
Sep. 10, 1988	Field Hearing—Remediation Strategies for the Stringfellow Superfund Site (Glen Avon, California).	
Sep. 28, 1988	Hearing—H.R. 5373, the Indoor Air Quality Act of 1988	
Oct. 3, 1988	Field Hearing—Medical Waste and Ocean Pollution Research and Monitoring.	

SUBCOMMITTEE ON ENERGY RESEARCH AND DEVELOPMENT

FIRST SESSION

DATE	SUBJECT	FULL COMMITTEE MEETING
Feb. 24, 1987	Hearing—Department of Energy (DOE) FY 1988 Authorization/ Magnetic Fusion - DOE and Outside Witnesses.	
Feb. 25, 1987	Hearing—DOE FY 1988 Authorization/Inertial Confinement Fusion - DOE Witnesses (closed) and Outside Witnesses (open).	
Feb. 26, 1987	Hearing—DOE Authorization/Fossil Energy - DOE Witnesses.	
Mar. 3, 1987	Hearing—DOE FY 1988 Authorization/General Science and Research - DOE and Outside Witnesses.	
Mar. 4, 1987	Hearing—DOE FY 1988 Authorization/Fossil Energy - Outside Witnesses.	
Mar. 4, 1987	Hearing—DOE FY 1988 Authorization/Basic Energy Sciences - DOE and Outside Witnesses.	
Mar. 5, 1987	Hearing—Doe FY 1988 Authorization/Solar and Renewables and Conservation/Departmental Administration - DOE Witnesses.	
Mar. 11, 1987	Hearing—DOE FY 1988 Authorization/Solar and Renewables and Conservation - Outside Witnesses.	
Mar. 17, 1987	Hearing—DOE FY 1988 Authorization/Nuclear Fission R&D - DOE Witnesses.	
Mar. 18, 1987	Hearing—DOE FY 1988 Authorization/Nuclear Fission R&D - Outside Witnesses.	
Mar. 18, 1987	Hearing—DOE FY 1988 Authorization/National Laboratories.	
Mar. 19, 1987	Hearing—DOE FY 1988 Authorization/Nuclear Waste Programs and Remedial Action - DOE and Outside Witnesses.	
Mar. 24, 1987	Hearing—DOE FY 1988 Authorization/Uranium Enrichment - DOE and Outside Witnesses.	
Mar. 25, 1987	Markup—DOE FY 1988 Authorization	
June 17, 1987	Hearing—H.R. 1414, the Price-Anderson Amendments Act of 1987.	
June 24, 1987	Markup—H.R. 1414, the Price-Anderson Amendments Act of 1987.	July 22, 1987
July 8, 1987	Hearing—Renewable Energy	
July 9, 1987	Hearing—Renewable Energy	

SUBCOMMITTEE ON ENERGY RESEARCH AND DEVELOPMENT

DATE	SUBJECT	FULL COMMITTEE MEETING
July 15, 1987	Hearing—Geosciences	
July 16, 1987	Hearing—Geosciences	
July 21, 1987	Joint Hearing—Global Prospects for U.S. Coal and Coal Technologies (Jointly with Subcommittee on International Scientific Cooperation).	
July 23, 1987	Joint Hearing—Global Prospects for U.S. Coal and Coal Technologies (Jointly with Subcommittee on International Scientific Cooperation).	
Sep. 23, 1987	Hearing—Hydrogen: Fuel of the Future	
Oct. 12, 1987	Field Hearing—Technology Transfer (Richland, Washington).	
Oct. 20, 1987	Hearing—Superconductivity	
Oct. 28, 1987	Joint Hearing—To Review the Office of Technology Assessment Report on Magnetic Fusion (Jointly with Subcommittee on International Scientific Cooperation).	

SECOND SESSION

Mar. 2, 1988	Hearing—Department of Energy (DOE) FY 1989 Authorization/Fossil Energy.	
Mar. 3, 1988	Hearing—DOE FY 1989 Authorization/Fossil Energy	
Mar. 8, 1988	Hearing—DOE FY 1989 Authorization/Solar and Renewables.	
Mar. 9, 1988	Hearing—DOE FY 1989 Authorization/Solar and Renewables.	
Mar. 10, 1988	Hearing—DOE FY 1989 Authorization/Conservation	
Mar. 15, 1988	Hearing—DOE FY 1989 Authorization/Uranium Enrichment.	
Mar. 16, 1988	Hearing—DOE FY 1989 Authorization/Nuclear Fission	
Mar. 17, 1988	Hearing—DOE FY 1989 Authorization/Nuclear Fission	
Mar. 23, 1988	Hearing—DOE FY 1989 Authorization/Basic Energy Sciences.	
Mar. 25, 1988	Field Hearing—"Work for Others" and the Status of Technology Transfer at the Oak Ridge National Laboratory (Oak Ridge, Tennessee).	
Mar. 29, 1988	Hearing—DOE FY 1989 Authorization/Energy R&D Programs.	
Mar. 30, 1988	Hearing—DOE FY 1989 Authorization/General Science and Research.	
Mar. 30, 1988	Hearing—DOE FY 1989 Authorization/Magnetic Fusion	

SUBCOMMITTEE ON ENERGY RESEARCH AND DEVELOPMENT

DATE	SUBJECT	FULL COMMITTEE MEETING
Apr. 20, 1988	Markup—DOE FY 1989 Authorization	May 5, 1988 (H.R. 4505)
May 13, 1988	Field Hearing—The State of the U.S. Oil and Gas Industry (Marshall, Texas).	
June 23, 1988	Hearing—The Government's Application Programs on High Temperature Superconductivity.	
June 30, 1988	Hearing—H.R. 4226, the Renewable Energy and Energy Conservation Commercialization and Development Act.	
July 27, 1988	Hearing—H.R. 5132, the National Laboratory Competitiveness Act of 1988.	
Aug. 3, 1988	Markup—H.R. 5132, the National Laboratory Competitiveness Act of 1988 and H.R. 3048, the National Superconductivity and Competitiveness Act of 1988.	Aug. 11, 1988 H.R. 3048/H.R. 5132
Sep. 15, 1988	Joint Hearing—S. 2470, the Steel and Aluminum Energy Conservation and Technology Competitiveness Act of 1988 (Jointly with Subcommittee on Science, Research and Technology).	
Sep. 22, 1988	Markup—H.R. 4226, the Renewable Energy and Energy Conservation Commercialization and Development Act; H.R. 2542, the Renewable Energy/Fuel Cell Systems Integration Act of 1988; and S. 2470, the Steel and Aluminum Energy Conservation and Technology Competitiveness Act of 1988.	Oct. 3, 1988 S. 2470
Oct. 6, 1988	Hearing—Uranium Enrichment Legislation (H.R. 4934; H.R. 4975; H.R. 4489).	

SUBCOMMITTEE ON SCIENCE, RESEARCH AND TECHNOLOGY

FIRST SESSION

DATE	SUBJECT	FULL COMMITTEE MEETING
Feb. 19, 1987	Hearing—The National Science Foundation (NSF) FY 1988 Authorization.	
Feb 25, 1987	Hearing—The NSF FY 1988 Authorization	
Feb. 26, 1987	Joint Hearing—H.R. 145, the Computer Security Act (Jointly with Subcommittee on Transportation, Aviation and Materials).	
Mar. 3, 1987	Hearing—The National Bureau of Standards (NBS) FY 1988 Authorization.	
Mar. 4, 1987	Hearing—H.R. 812, the National Quality Improvement Award Act, and NTIS Privatization.	
Mar. 5, 1987	Hearing—Hotel Fire Safety: What is Needed to Protect our Citizens; and the Federal Fire Prevention and Control Act Reauthorization.	
Mar. 10, 1987	Hearing—The Earthquake Hazards Reduction Act Reauthorization for Fiscal Year 1988 and 1989.	
Mar. 11, 1987	Hearing—The NSF FY 1988 Authorization	
Mar. 17, 1987	Markup—H.R. 812, the National Quality Improvement Award Act; H.R. 1522, the Federal Fire Prevention and Control Act Reauthorization; and H.R. 1612, the Earthquake Hazards Reduction Act Reauthorization.	May 13, 1987
Apr. 9, 1987	Markup—The NSF and NBS FY 1988 Authorizations	May 13, 1987 (NBS); May 20, 1987 (NSF)
Apr. 28, 1987	Hearing—The Role of Science and Technology in Competitiveness.	
Apr. 29, 1987	Hearing—The Role of Science and Technology in Competitiveness.	
Apr. 30, 1987	Hearing—The Role of Science and Technology in Competitiveness.	
June 4, 1987	Hearing—Competitiveness of the Construction Industry	
June 18, 1987	Hearing—The Role and Balance of Federal R&D Support	
July 14, 1987	Hearing—Scientific and Technical Information: Policy and Organization in the Federal Government (H.R. 2159 and H.R. 1615).	
July 14, 1987	Markup—H.R. 2916, The Technology Competitiveness Act of 1987.	July 23, 1987

SUBCOMMITTEE ON SCIENCE, RESEARCH AND TECHNOLOGY

DATE	SUBJECT	FULL COMMITTEE MEETING
July 15, 1987	Hearing—Scientific and Technical Information: Policy and Organization in the Federal Government (H.R. 2159 and H.R. 1615).	
Oct. 7, 1987	Joint Hearing—Superconductivity ((H.R. 3048; H.R. 3217; H.R. 3024)(Jointly with Subcommittee on Transportation, Aviation and Materials).	
Oct. 9, 1987	Field Hearing—Federal Science and Technology Support for Historically Black Colleges and Universities (Durham, North Carolina).	
Nov. 3, 1987	Joint Hearing—H.R. 2737, The Continental Scientific Drilling Program (Jointly with Subcommittee on Mining and Natural Resources of the Committee on Interior and Insular Affairs).	
Nov. 9, 1987	Field Hearing—Scientific and Technical Literacy in the Work Force (Raleigh, North Carolina).	
Nov. 10, 1987	Hearing—Whittier Narrows, California Earthquake: Lessons Learned.	
	SECOND SESSION	
Feb. 5, 1988	Field Hearing—Economic Development through Technology Transfer (Denver, Colorado).	
Feb. 8, 1988	Field Hearing—University/Industry Alliances (St. Louis, Missouri).	
Feb. 17, 1988	Hearing—Oversight of the Office of Science and Technology Policy.	
Feb. 24, 1988	Hearing—NTIS Privatization	
Mar. 2, 1988	Hearing—H.R. 3704, the Hotel and Motel Fire Safety Act	
Mar. 10, 1988	Hearing—H.R. 3704, the Hotel and Motel Fire Safety Act	
Mar. 10, 1988	Hearing—FY 1989 Reauthorization of the Federal Fire Prevention and Control Act of 1974.	
Mar. 15, 1988	Hearing—National Bureau of Standards FY 1989 Authorization.	
Mar. 16, 1988	Hearing—National Bureau of Standards FY 1989 Authorization.	
Mar. 17, 1988	Hearing—National Bureau of Standards FY 1989 Authorization.	
Mar. 22, 1988	Hearing—National Science Foundation FY 1989 Authorization.	
Mar. 23, 1988	Hearing—National Science Foundation FY 1989 Authorization.	
Mar. 24, 1988	Hearing—National Science Foundation FY 1989 Authorization.	

SUBCOMMITTEE ON SCIENCE, RESEARCH AND TECHNOLOGY

DATE	SUBJECT	FULL COMMITTEE MEETING
Apr. 14, 1988	Markup—H.R. 2737, the Continental Scientific Drilling and Exploration Act; H.R. 3704, the Hotel and Motel Fire Safety Act; H.R. 4419, the Federal Fire Prevention and Control Act of 1974 Reauthorization for FY's 1989, 1990, and 1991.	Apr. 21, 1988
Apr. 19, 1988	Markup—H.R. 4417, the National Bureau of Standards and Related Agencies Authorization Act, FY 1989; H.R. 4418, the National Science Foundation Authorization Act, FY's 1989 and 1990.	May 5, 1988
May 2, 1988	Field Hearing—Photonics (Rome, New York)	
June 23, 1988	Hearing—New Directions in Home Video	
June 28, 1988	Hearing—Women, Minorities, and the Disabled in Science and Technology.	
June 29, 1988	Joint Hearing—Technologies for Remediating Global Warming (Jointly with Subcommittee on Natural Resources, Agriculture Research and Environment).	
July 8, 1988	Field Hearing—Technology Transfer: A New Contact Sport (Denver, Colorado).	
July 13, 1988	Joint Hearing—U.S.-Japan Science and Technology Agreement (Jointly with Subcommittee on International Scientific Cooperation).	
July 14, 1988	Joint Hearing—U.S. Competitiveness in Biotechnology (Jointly with Subcommittee on Natural Resources, Agriculture Research and Environment).	
July 28, 1988	Hearing—Fire Safety in Multi-Family Housing	
Aug. 4, 1988	Hearing—Steel Research and Markets of the Future	
Aug. 9, 1988	Hearing—Counterfeit Bolt and Fasteners Legislation (H.R. 5051 and H.R. 5120).	
Aug. 10, 1988	Markup—S. 1966, the Biotechnology Competitiveness Act of 1988; H.R. 4502, the Biotechnology Science Coordination and Competitiveness Act of 1987; H.R. 3048, the National Superconductivity and Competitiveness Act of 1987.	Aug. 11, 1988
Sep. 15, 1988	Joint Hearing—S. 2470, the Steel and Aluminum Energy Conservation and Technology Competitiveness Act of 1988 (Jointly with Subcommittee on Energy Research and Development).	
Sep. 30, 1988	Hearing—S. 1081, the National Nutrition Monitoring and Related Research Act of 1988.	

SUBCOMMITTEE ON SPACE SCIENCE AND APPLICATIONS

FIRST SESSION

DATE	SUBJECT	FULL COMMITTEE HEARING
Feb. 24, 1987	Hearing—The National Aeronautics and Space Administration (NASA)—NASA Deputy Administrator and Comptroller.	
Feb. 24, 1987	Meeting—Organization of the Subcommittee	
Feb. 25, 1987	Hearing—NASA FY 1988 Authorization—Space Station; Office of Space Operations.	
Mar. 3, 1987	Hearing—NASA FY 1988 Authorization—Office of Space Science and Applications.	
Mar. 5, 1987	Hearing—NASA FY 1988 Authorization—Office of Space Flight.	
Mar. 10, 1987	Hearing—NASA FY 1988 Authorization	
Mar. 11, 1987	Hearing—NASA FY 1988 Authorization—Office of Commercial Space Transportation; Department of Commerce—Secretary of Commerce.	
Mar. 12, 1987	Hearing—NASA FY 1988 Authorization—Institutional Issues.	
Mar. 18, 1987	Hearing—NASA FY 1988 Authorization—Office of Safety, Reliability and Quality Assurance; Office of Aeronautics and Space Technology.	
Mar. 19, 1987	Joint Hearing—NASA FY 1988 Authorization—Institutional Issues (Jointly with the Subcommittee on Transportation, Aviation and Materials).	
Mar. 31, 1987	Hearing—NASA FY 1988 Authorization—Space Station	
Apr. 8, 1987	Hearing—NASA FY 1988 Authorization—Space Station Costs.	
Apr. 23, 1987	Hearing—NASA's Solid Rocket Motor Program	
Apr. 29, 1987	Hearing—Space Shuttle Recovery Oversight	
Apr. 30, 1987	Hearing—Space Shuttle Recovery Oversight	
May 6, 1987	Hearing—H.R. 1741, NASA FY 1988 Authorization—Solid Rocket Motor Program—Outside Witnesses.	
May 12, 1987	Markup—H.R. 1741, NASA FY 1988 Authorization	
June 24, 1987	Markup—NASA FY 1988 Authorization	June 26, 1987 (H.R. 2782)
July 22, 1987	Hearing—NASA Long Range Goals	
July 28, 1987	Hearing—Space Station Oversight	

SUBCOMMITTEE ON SPACE SCIENCE AND APPLICATIONS

DATE	SUBJECT	FULL COMMITTEE HEARING
Aug. 4, 1987	Hearing—Atlas-Centaur Investigation	
Sep. 15, 1987	Hearing—Status of the Commercial Launch Industry	
Sep. 16, 1987	Hearing—Results of the Development Motor 8 Test Firing	
Sep. 17, 1987	Hearing—Status of the Commercial Launch Industry	
Oct. 14, 1987	Hearing—Implementation of the NRC Recommendations on the Space Station.	
Dec. 10, 1987	Hearing—International Space Policy in the 1990's	

SECOND SESSION

Jan. 27, 1988	Hearing—The Solid Rocket Booster Test Firing	
Feb. 1, 1988	Field Hearing—National Long Range Goals in Space in the New Administration (Durham, New Hampshire).	
Feb. 5, 1988	Field Hearing—National Long Range Goals in Space in the New Administration (Iowa City, Iowa).	
Feb. 16, 1988	Hearing—H.R. 3765, the Commercial Space Launch Amendments Act of 1987.	
Feb. 17, 1988	Hearing—H.R. 3765, the Commercial Space Launch Amendments Act of 1987.	
Mar. 3, 1988	Posture Hearing—the National Aeronautics and Space Administration Authorization, FY 1989.	
Mar. 8, 1988	Hearing—the National Aeronautics and Space Administration Authorization, FY 1989.	
Mar. 9, 1988	Hearing—the National Aeronautics and Space Administration Authorization, FY 1989.	
Mar. 10, 1988	Hearing—the National Aeronautics and Space Administration Authorization, FY 1989.	
Mar. 22, 1988	Hearing—the National Aeronautics and Space Administration Authorization, FY 1989: Office of Exploration and Office of Aeronautics and Space Technology; H.R. 3858, National Mars Commission Legislation.	
Mar. 23, 1988	Hearing—the National Aeronautics and Space Administration Authorization, FY 1989: Commercially Developed Space Facility.	
Mar. 24, 1988	Hearing—the National Aeronautics and Space Administration Authorization, FY 1989: Institutional Issues; Tracking and Data.	
Mar. 29, 1988	Hearing—the National Aeronautics and Space Administration Authorization, FY 1989: Commercial Space Program.	
Mar. 30, 1988	Hearing—the National Aeronautics and Space Administration Authorization, FY 1989: Commercially Developed Space Facility.	

SUBCOMMITTEE ON SPACE SCIENCE AND APPLICATIONS

DATE	SUBJECT	FULL COMMITTEE HEARING
Mar. 31, 1988	Hearing—the National Aeronautics and Space Administration Authorization, FY 1989: Solid Rocket Motor Acquisition Plan.	
Apr. 14, 1988	Markup—H.R. 3765, the Commercial Space Launch Act Amendments of 1987 and H.R. 4157, the National Aeronautics and Space Administration Authorization, FY 1989.	Apr. 21, 1988 (H.R. 3765/H.R. 4399)
May 4, 1988	Markup—H.R. 4157, the National Aeronautics and Space Administration Authorization, FY 1989.	May 12, 1988 (H.R. 4561)
July 13, 1988	Hearing—Orbital Space Debris	

SUBCOMMITTEE ON INTERNATIONAL SCIENTIFIC COOPERATION

FIRST SESSION

DATE	SUBJECT	FULL COMMITTEE MEETING
Mar. 31, 1987	Joint Hearing—The Future of the LANDSAT System (Jointly with Subcommittee on Natural Resources, Agriculture Research and Environment).	
Apr. 2, 1987	Joint Hearing—The Future of the LANDSAT System (Jointly with Subcommittee on Natural Resources, Agriculture Research and Environment).	
May 7, 1987	Hearing—International Cooperation on the Superconducting Super Collider.	
June 23, 1987	Hearing—To Examine U.S./Soviet Science and Technology Exchanges.	
June 25, 1987	Hearing—To Examine U.S./Soviet Science and Technology Exchanges.	
July 21, 1987	Joint Hearing—Global Prospects for U.S. Coal and Coal Technologies (Jointly with Subcommittee on Energy Research and Development).	
July 23, 1987	Joint Hearing—Global Prospects for U.S. Coal and Coal Technologies (Jointly with Subcommittee on Energy Research and Development).	
July 29, 1987	Hearing—International Cooperation in the Global Change Program.	
July 30, 1987	Hearing—U.S./Latin American Cooperation in Science and Technology.	
Sep. 30, 1987	Joint Hearing—Global Change: Agency and International Involvement (Jointly with Subcommittee on Natural Resources, Agriculture Research and Environment).	
Oct. 28, 1987	Joint Hearing—To Review the Office of Technology Assessment Report on Magnetic Fusion (Jointly with Subcommittee on Energy Research and Development).	
Dec. 10, 1987	Hearing—Monitoring Technology Flow: Science, Technology and Trade Policy Implications.	

SECOND SESSION

Mar. 16, 1988	Hearing—International Participation in the Superconducting Super Collider.	
Mar. 17, 1988	Hearing—International Competitive Implications of Toxicological Standards: The Need for Consistent International Standards.	

SUBCOMMITTEE ON INTERNATIONAL SCIENTIFIC COOPERATION

DATE	SUBJECT	FULL COMMITTEE MEETING
Apr. 27, 1988	Hearing—Sharing Foreign Technology: Should We Pick Their Brains?	
June 14, 1988	Hearing—Science and the Summit	
July 13, 1988	Joint Hearing—U.S.-Japan Science and Technology Agreement (Jointly with Subcommittee on Science, Research and Technology).	

SUBCOMMITTEE ON TRANSPORTATION, AVIATION AND MATERIALS

FIRST SESSION

DATE	SUBJECT	FULL COMMITTEE MEETING
Feb. 25, 1987	Hearing—Rail Safety	
Feb. 26, 1987	Joint Hearing—H.R. 145, the Computer Security Act (Jointly with Subcommittee on Science, Research and Technology).	
Mar. 3, 1987	Hearing—The Department of Energy (DOE) FY 1988 Authorization (Transportation Programs).	
Mar. 10, 1987	Hearing—The National Aeronautics and Space Administration (NASA) FY 1988 Authorization (Aeronautics Programs).	
Mar. 11, 1987	Joint Hearing—The NASA FY 1988 Aerospaceplane Authorization (Jointly with Committee on Armed Services).	
Mar. 11, 1987	Hearing—The NASA FY 1988 Authorization (Aeronautics Programs).	
Mar. 18, 1987	Hearing—Bureau of Mines FY 1988 Authorization/Oversight.	
Mar. 19, 1987	Joint Hearing—The NASA FY 1988 Authorization—Institutional Issues (Jointly with Subcommittee on Space Science and Applications).	
Mar. 24, 1987	Hearing—The Federal Aviation Administration (FAA) Authorization/Oversight—The Airport and Airway Trust Fund Reauthorization.	
Mar. 25, 1987	Hearing—The Federal Aviation Administration (FAA) Authorization/Oversight—The Airport and Airway Trust Fund Reauthorization.	
Mar. 31, 1987	Hearing—National Critical Materials Reports	
Apr. 3, 1987	Field Hearing—High Speed Rail Technology (West Palm Beach, Florida).	
Apr. 23, 1987	Hearing—The FAA FY 1988 R,E&D Authorization	
Apr. 29, 1987	Markup—H.R. 1741, The NASA FY 1988 Authorization (Aeronautic Programs); H.R. 145, the Computer Security Act; the DOE FY 1988 Authorization (Transportation Programs); and the FAA FY 1988 R,E&D Authorization.	May 20, 1987 (H.R. 145, H.R. 2310, FAA); June 26, 1987 (H.R. 2782, NASA)
May 19, 1987	Hearing—GAO Survey, Federal Government Computer Security.	
Sep. 9, 1987	Hearing—H.R. 1517, The Aircraft Collision Avoidance Act of 1987.	

SUBCOMMITTEE ON TRANSPORTATION, AVIATION AND MATERIALS

DATE	SUBJECT	FULL COMMITTEE MEETING
Sep. 9, 1987	Markup—H.R. 1517, The Aircraft Collision Avoidance Act of 1987.	Sep. 29, 1987
Sep. 30, 1987	Hearing—Progress in Aviation Weather Prediction and Reporting.	
Oct. 7, 1987	Joint Hearing—Superconductivity (H.R. 3048; H.R. 3217; H.R. 3024)(Jointly with Subcommittee on Science, Research and Technology).	
Nov. 18, 1987	Joint Hearing—Civil Applications of the Tilt Rotor (Jointly with Committee on Public Works and Transportation, Subcommittee on Aviation).	
Dec. 7, 1987	Field Hearing—Roles and Mission of the Civil Aeromedical Institute (CAMI)(Oklahoma City, Oklahoma).	
	SECOND SESSION	
Mar. 17, 1988	Joint Hearing—FY 1989/1990 National Aeronautics and Space Administration Authorization (Jointly with Committee on Armed Services).	
Mar. 22, 1988	Hearing—Bureau of Mines Oversight	
Mar. 24, 1988	Hearing—Department of Energy Authorization for FY 1989 (Transportation Programs).	
Apr. 12, 1988	Hearing—H.R. 4157, the National Aeronautics and Space Administration Authorization Act, 1989 (Aeronautics Programs).	
Apr. 13, 1988	Hearing—H.R. 4157, the National Aeronautics and Space Administration Authorization Act, 1989 (Aeronautics Programs).	
Apr. 27, 1988	Markup—H.R. 4157, the National Aeronautics and Space Administration Authorization Act, 1989 (Aeronautics Programs); Department of Energy FY 1989 Authorization (Transportation Programs).	May 5, 1988 (NASA) May 12, 1988 (DOE)
May 3, 1988	Hearing—Federal Aviation Administration R&D Program Review, NAS Plan, CAMI Mission and Program Plan.	
May 4, 1988	Hearing—Federal Aviation Administration R&D Program Review, NAS Plan, CAMI Mission and Program Plan.	
June 16, 1988	Hearing—Air Safety R&D: H.R. 3779, the Controller Performance Research Act; H.R. 4686, the Aviation Safety Research Act of 1988; H.Res. 450, a Resolution regarding aging aircraft.	
June 29, 1988	Markup—H.R. 3779, the Controller Performance Research Act; H.R. 4686, the Aviation Safety Research Act of 1988; H.Res. 450, a Resolution regarding aging aircraft.	Aug. 11, 1988
July 7, 1988	Markup—H.R. 3048, the National Superconductivity and Competitiveness Act of 1987.	Aug. 11, 1988
July 7, 1988	Hearing—National Critical Materials Policy	

SUBCOMMITTEE ON TRANSPORTATION, AVIATION AND MATERIALS

DATE	SUBJECT	FULL COMMITTEE MEETING
July 13, 1988	Hearing—R&D on Pollution from Trucks and Buses	—
Sep. 14, 1988	Hearing—The Medical Mission of the Federal Aviation Administration.	
Sep. 22, 1988	Hearing—Implementation of the Computer Security Act (P.L. 100-235).	

AUTHOR INDEX

ACKERMAN, Gary L. of New York

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

AKAKA, Daniel K. of Hawaii

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 2541 To establish a hydrogen research and development program.

H.R. 2542 To promote the development of technologies which will enable fuel cells to use alternative fuel sources.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.

H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

ALEXANDER, Bill of Arkansas

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

ANDERSON, Glenn M. of California

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

ANDREWS, Michael A. of Texas

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

ANNUNZIO, Frank of Illinois

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

ANTHONY, Beryl, Jr. of Arkansas

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

APPLEGATE, Douglas of Ohio

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

ARCHER, Bill of Texas

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

ARMEY, Richard "Dick" of Texas

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

ASPIN, Les of Wisconsin

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

ATKINS, Chester G. of Massachusetts

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 1615 To establish the Government Information Agency to enhance the economic, scientific, and technological position of the United States by acquiring, processing, and distributing the fruits of federally-performed and federally-sponsored research, development, and analysis, and for other purposes.
H.R. 1621 To direct the Secretary of Transportation, in consultation with the National Research Council, National Academy of Sciences, and National Academy of Engineers, to carry out certain highway research.
H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2492 To establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such Services.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3704 To amend the Federal Fire Prevention and Control Act of 1974 to direct the Director of the Federal Emergency Management Agency, acting through the Administrator of the United States Fire Administration, to propose and promulgate a model code and guidelines governing the use and installation of automatic sprinkler systems in places of public accommodation affecting commerce, and for other purposes.
H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 3858 To establish a National Mars Commission, and for other purposes.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.
H.R. 5373 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".
H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

AUCOIN, Les of Oregon

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.
H.R. 5380 To establish a national energy policy to reduce global warming, and for other purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

BADHAM, Robert E. of California

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.

BAKER, Richard Hugh of Louisiana

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

BALLENGER, Cass of North Carolina

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

BARNARD, Doug, Jr. of Georgia

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.
H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

BARTLETT, Steve of Texas

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

BARTON, Joe of Texas

H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

BATEMAN, Herbert H. of Virginia

H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

BATES, Jim of California

H.R. 737 Relating to the incineration at sea of hazadous waste.

BATES, Jim of California—Continued

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2541 To establish a hydrogen research and development program.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.
H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".
H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

BEILENSON, Anthony C. of California

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 1621 To direct the Secretary of Transportation, in consultation with the National Research Council, National Academy of Sciences, and National Academy of Engineers, to carry out certain highway research.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4454 To establish programs to promote recycling, and for other purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".
H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

BENNETT, Charles E. of Florida

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 1513 To direct the Administrator of the Environmental Protection Agency to develop and demonstrate a water resources- aquatic plant management project and to provide grants for scientific research to support such project.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

BENTLEY, Helen Delich of Maryland

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 790 Entitled the "National Space Policy Act of 1987".
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

BENTLEY, Helen Delich of Maryland—Continued

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.
H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

BEREUTER, Doug K. of Nebraska

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

BERMAN, Howard L. of California

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 1510 To amend title 35, United States Code, and the National Aeronautics and Space Act of 1958, with respect to the use of inventions in outer space.
H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.
H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

BEVILL, Tom of Alabama

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

BIAGGI, Mario of New York

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

BILBRAY, James H. of Nevada

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 5228 To authorize the appropriation of funds to reimburse persons whose property was damaged by an explosion in Clark County, Nevada, for certain uninsured expenses in connection with such damage.

BILIRAKIS, Michael of Florida

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

BLAZ, Ben Garrido of Guam

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

BLILEY, Thomas J., Jr. of Virginia

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

BOEHLERT, Sherwood L. of New York

H.R. 145 To provide for a computer standards program within the National Bureau of Standards, to provide for Government- wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes.

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2068 To establish the National Bureau of Standards and Industrial Competitiveness, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 2160 To authorize appropriations to the Secretary of Commerce for the programs of the National Bureau of Standards for fiscal year 1988, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2492 To establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such Services.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3704 To amend the Federal Fire Prevention and Control Act of 1974 to direct the Director of the Federal Emergency Management Agency, acting through the Administrator of the United States Fire Administration, to propose and promulgate a model code and guidelines governing the use and installation of automatic sprinkler systems in places of public accommodation affecting commerce, and for other purposes.

BOEHLERT, Sherwood L. of New York—Continued

H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4454 To establish programs to promote recycling, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".
H.Con.Res. 290 Supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

BOGGS, Lindy of Louisiana

H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

BOLAND, Edward P. of Massachusetts

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

BONER, William Hill of Tennessee

H.R. 1615 To establish the Government Information Agency to enhance the economic, scientific, and technological position of the United States by acquiring, processing, and distributing the fruits of federally-performed and federally-sponsored research, development, and analysis, and for other purposes.

BONIOR, David E. of Michigan

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

BONKER, Don of Washington

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.
H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4193 To create a Federal facility nuclear cleanup trust fund, to require the Secretary of Energy and the Administrator of the Environmental Protection Agency to enter into compliance agreements for environmental cleanup of Federal nuclear facilities, to create a special environmental counsel, to provide for research and development for Federal nuclear facilities, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.R. 5373 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

BORSKI, Robert A. of Pennsylvania

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 4224 To require the Secretary of Energy to develop a plan for demonstrating the technical feasibility of burning weapons grade nuclear materials that have been removed from dismantled nuclear weapons in nuclear reactors of the Department of Energy and to report to Congress on that plan, and to require the President to consider inviting the Soviet Union to participate in the demonstration.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

BORSKI, Robert A. of Pennsylvania—Continued

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

BOSCO, Douglas H. of California

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.

BOUCHER, Rick of Virginia

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

BOULTER, Beau of Texas

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.

BOXER, Barbara of California

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 1615 To establish the Government Information Agency to enhance the economic, scientific, and technological position of the United States by acquiring, processing, and distributing the fruits of federally-performed and federally-sponsored research, development, and analysis, and for other purposes.

H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.

H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4454 To establish programs to promote recycling, and for other purposes.

H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

BRENNAN, Joseph E. of Maine

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

BROOKS, Jack of Texas

H.R. 145 To provide for a computer standards program within the National Bureau of Standards, to provide for Government- wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes.

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

BROOMFIELD, Wm. S. of Michigan

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 5249 To protect the Great Lakes from the disposal of medical waste, and for other purposes.

BROWN, George E., Jr. of California

H.R. 145 To provide for a computer standards program within the National Bureau of Standards, to provide for Government- wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes.

H.R. 717 To promote economic competitiveness in the United States, and for other purposes.

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1615 To establish the Government Information Agency to enhance the economic, scientific, and technological position of the United States by acquiring, processing, and distributing the fruits of federally-performed and federally-sponsored research, development, and analysis, and for other purposes.

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 1964 To amend the Metric Conversion Act of 1975 to increase the use of the metric system in Government programs.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2068 To establish the National Bureau of Standards and Industrial Competitiveness, and for other purposes.

H.R. 2069 To create a National Commission on Commercial and National Defense Applications of Superconductors to study methods of developing improved superconductors and expanding the commercial and strategic use of superconductors.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 2541 To establish a hydrogen research and development program.

H.R. 2542 To promote the development of technologies which will enable fuel cells to use alternative fuel sources.

H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.

H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.

H.R. 3217 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3765 To facilitate commercial access to space, and for other purposes.

H.R. 3858 To establish a National Mars Commission, and for other purposes.

H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.

H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4399 To facilitate commercial access to space, and for other purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5056 To authorize agricultural research programs, improve the operations of the National Agricultural Library, and for other purposes.

BROWN, George E., Jr. of California—Continued

H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

H.Con.Res. 290 Supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

BROWN, Hank of Colorado

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

BRUCE, Terry L. of Illinois

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4502 To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.R. 5132 To amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer.

BRYANT, John of Texas

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

BUECHNER, Jack of Missouri

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3765 To facilitate commercial access to space, and for other purposes.

H.R. 3779 To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes.

H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4399 To facilitate commercial access to space, and for other purposes.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

BURTON, Dan of Indiana

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

BURTON, Sala of California

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

BUSTAMANTE, Albert G. of Texas

H.R. 145 To provide for a computer standards program within the National Bureau of Standards, to provide for Government- wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.
H.R. 2310 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.
H.R. 2958 To establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

BYRON, Beverly B. of Maryland

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

CALLAHAN, H. L. "Sonny" of Alabama

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

CAMPBELL, Ben Nighthorse of Colorado

H.R. 790 Entitled the "National Space Policy Act of 1987".
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

CARDIN, Benjamin L. of Maryland

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1510 To amend title 35, United States Code, and the National Aeronautics and Space Act of 1958, with respect to the use of inventions in outer space.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

CARPER, Thomas R. of Delaware

H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.

CARPER, Thomas R. of Delaware—Continued

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

CARR, Bob of Michigan

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

CHANDLER, Rod of Washington

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4224 To require the Secretary of Energy to develop a plan for demonstrating the technical feasibility of burning weapons grade nuclear materials that have been removed from dismantled nuclear weapons in nuclear reactors of the Department of Energy and to report to Congress on that plan, and to require the President to consider inviting the Soviet Union to participate in the demonstration.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

CHAPMAN, Jim of Texas

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3765 To facilitate commercial access to space, and for other purposes.

H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4399 To facilitate commercial access to space, and for other purposes.

H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.R. 5132 To amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer.

H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

CHENEY, Dick of Wyoming

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

CLARKE, James McClure of North Carolina

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

CLAY, William of Missouri

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 1615 To establish the Government Information Agency to enhance the economic, scientific, and technological position of the United States by acquiring, processing, and distributing the fruits of federally-performed and federally-sponsored research, development, and analysis, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

CLEMENT, Bob of Tennessee

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4454 To establish programs to promote recycling, and for other purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

CLINGER, William F., Jr. of Pennsylvania

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

COATS, Dan of Indiana

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

COBLE, Howard of North Carolina

H.R. 1510 To amend title 35, United States Code, and the National Aeronautics and Space Act of 1958, with respect to the use of inventions in outer space.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

COELHO, Tony of California

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

COLEMAN, E. Thomas of Missouri

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

COLEMAN, Ronald D. of Texas

H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

COLLINS, Cardiss of Illinois

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2958 To establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

COMBEST, Larry of Texas

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

CONTE, Silvio O. of Massachusetts

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

CONYERS, John, Jr. of Michigan

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.
H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

COOPER, Jim of Tennessee

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4331 To amend the Clean Air Act to provide further controls of certain stationary sources of sulfur dioxides and nitrogen oxides to reduce acid deposition, to provide for the commercialization of clean coal technologies for existing stationary sources, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

COOPER, Jim of Tennessee—Continued

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

COUGHLIN, Lawrence of Pennsylvania

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

COURTER, James A. of New Jersey

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 4454 To establish programs to promote recycling, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

COYNE, William J. of Pennsylvania

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

CRAIG, Larry E. of Idaho

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.
H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

CRANE, Philip M. of Illinois

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

CROCKETT, George W., Jr. of Michigan

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.
H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

DANNEMEYER, William E. of California

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.
H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

DARDEN, George of Georgia

H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

DAUB, Hal of Nebraska

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 2205 To establish the Value Engineering Council.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

DAVIS, Jack of Illinois

H.R. 2068 To establish the National Bureau of Standards and Industrial Competitiveness, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

DAVIS, Robert W. of Michigan

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4210 To reauthorize Title II of the Marine Protection, Research, and Sanctuaries Act of 1972, for fiscal years 1989 and 1990, and for other purposes.

H.R. 4211 To reauthorize the National Ocean Pollution Planning Act of 1978 for fiscal years 1989 and 1990, and for other purposes.

H.R. 5249 To protect the Great Lakes from the disposal of medical waste, and for other purposes.

DE LA GARZA, E. of Texas

H.R. 1621 To direct the Secretary of Transportation, in consultation with the National Research Council, National Academy of Sciences, and National Academy of Engineers, to carry out certain highway research.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.R. 5056 To authorize agricultural research programs, improve the operations of the National Agricultural Library, and for other purposes.

DE LUGO, Ron of Virgin Islands

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3858 To establish a National Mars Commission, and for other purposes.

H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

DEFAZIO, Peter A. of Oregon

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 4193 To create a Federal facility nuclear cleanup trust fund, to require the Secretary of Energy and the Administrator of the Environmental Protection Agency to enter into compliance agreements for environmental cleanup of Federal nuclear facilities, to create a special environmental counsel, to provide for research and development for Federal nuclear facilities, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

DEFAZIO, Peter A. of Oregon—Continued

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

DELAY, Tom of Texas

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.

DELLUMS, Ronald V. of California

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.
H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

DEWINE, Michael of Ohio

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

DICKS, Norman D. of Washington

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4193 To create a Federal facility nuclear cleanup trust fund, to require the Secretary of Energy and the Administrator of the Environmental Protection Agency to enter into compliance agreements for environmental cleanup of Federal nuclear facilities, to create a special environmental counsel, to provide for research and development for Federal nuclear facilities, and for other purposes.
H.R. 4224 To require the Secretary of Energy to develop a plan for demonstrating the technical feasibility of burning weapons grade nuclear materials that have been removed from dismantled nuclear weapons in nuclear reactors of the Department of Energy and to report to Congress on that plan, and to require the President to consider inviting the Soviet Union to participate in the demonstration.

DINGELL, John D. of Michigan

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

DIOGUARDI, Joseph J. of New York

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

DIXON, Julian C. of California

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

94-889 - 89 - 5

DIXON, Julian C. of California—Continued

H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

DONNELLY, Brian J. of Massachusetts

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

DORGAN, Byron L. of North Dakota

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

DORNAN, Robert K. of California

H.R. 790 Entitled the "National Space Policy Act of 1987".
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 2205 To establish the Value Engineering Council.
H.R. 2520 To repeal certain provisions of law which violate the doctrine of separation of powers and to eliminate certain restrictions on the authority of the executive branch.
H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

DOWDY, Wayne of Mississippi

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

DOWNEY, Thomas J. of New York

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

DREIER, David of California

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 2205 To establish the Value Engineering Council.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

DUNCAN, John J. of Tennessee

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3350 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.

DURBIN, Richard J. of Illinois

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

DWYER, Bernard J. of New Jersey

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

DWYER, Bernard J. of New Jersey—Continued

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 2958 To establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

H.R. 4454 To establish programs to promote recycling, and for other purposes.

H.R. 5373 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

DYMALLY, Mervyn M. of California

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.

H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

H.R. 5373 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

DYSON, Roy of Maryland

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

ECKART, Dennis E. of Ohio

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2219 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a Center on State and Local Initiatives on Productivity, Technology, and Innovation, and for other purposes.

H.R. 2541 To establish a hydrogen research and development program.

H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

ECKART, Dennis E. of Ohio—Continued

H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

EDWARDS, Don of California

H.R. 145 To provide for a computer standards program within the National Bureau of Standards, to provide for Government- wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes.

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

EDWARDS, Mickey of Oklahoma

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

EMERSON, Bill of Missouri

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

ENGLISH, Glenn of Oklahoma

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

ERDREICH, Ben of Alabama

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

ESPY, Mike of Mississippi

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

EVANS, Lane of Illinois

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.

H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

FASCELL, Dante B. of Florida

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1513 To direct the Administrator of the Environmental Protection Agency to develop and demonstrate a water resources- aquatic plant management project and to provide grants for scientific research to support such project.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

FAUNTROY, Walter E. of District of Columbia

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2958 To establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes.

H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.

H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.

H.R. 5373 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

FAWELL, Harris W. of Illinois

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2069 To create a National Commission on Commercial and National Defense Applications of Superconductors to study methods of developing improved superconductors and expanding the commercial and strategic use of superconductors.

H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.

FAWELL, Harris W. of Illinois—Continued

H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4224 To require the Secretary of Energy to develop a plan for demonstrating the technical feasibility of burning weapons grade nuclear materials that have been removed from dismantled nuclear weapons in nuclear reactors of the Department of Energy and to report to Congress on that plan, and to require the President to consider inviting the Soviet Union to participate in the demonstration.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 5132 To amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer.
H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

FAZIO, Vic of California

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.
H.R. 2492 To establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such Services.
H.R. 2958 To establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3858 To establish a National Mars Commission, and for other purposes.
H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.
H.R. 5380 To establish a national energy policy to reduce global warming, and for other purposes.
H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

FEIGHAN, Edward F. of Ohio

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 2492 To establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such Services.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

FIELDS, Jack of Texas

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

FISH, Hamilton, Jr. of New York

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

FISH, Hamilton, Jr. of New York—Continued

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4193 To create a Federal facility nuclear cleanup trust fund, to require the Secretary of Energy and the Administrator of the Environmental Protection Agency to enter into compliance agreements for environmental cleanup of Federal nuclear facilities, to create a special environmental counsel, to provide for research and development for Federal nuclear facilities, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.
H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

FLAKE, Floyd H. of New York

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

FLIPPO, Ronnie G. of Alabama

H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

FLORIO, James J. of New Jersey

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

FOGLIETTA, Thomas M. of Pennsylvania

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2958 To establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes.
H.R. 4193 To create a Federal facility nuclear cleanup trust fund, to require the Secretary of Energy and the Administrator of the Environmental Protection Agency to enter into compliance agreements for environmental cleanup of Federal nuclear facilities, to create a special environmental counsel, to provide for research and development for Federal nuclear facilities, and for other purposes.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.
H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

FOLEY, Thomas S. of Washington

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3676 To authorize the water resources activities of the United States Geological Survey, to coordinate and improve ground water research, development and demonstration activities of Federal agencies, to improve understanding of the relationship between agricultural practices and ground water use, to provide assistance for small communities with ground water radium contamination, and for other purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

FORD, Harold E. of Tennessee

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

FORD, William D. of Michigan

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

FRANK, Barney of Massachusetts

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

FRENZEL, Bill of Minnesota

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 2069 To create a National Commission on Commercial and National Defense Applications of Superconductors to study methods of developing improved superconductors and expanding the commercial and strategic use of superconductors.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

FROST, Martin of Texas

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

FUSTER, Jaime B. of Puerto Rico

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2492 To establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such Services.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

GALLEGLY, Elton of California

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

GALLO, Dean A. of New Jersey

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4454 To establish programs to promote recycling, and for other purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

GARCIA, Robert of New York

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

GARCIA, Robert of New York—Continued

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 1615 To establish the Government Information Agency to enhance the economic, scientific, and technological position of the United States by acquiring, processing, and distributing the fruits of federally-performed and federally-sponsored research, development, and analysis, and for other purposes.

H.R. 1621 To direct the Secretary of Transportation, in consultation with the National Research Council, National Academy of Sciences, and National Academy of Engineers, to carry out certain highway research.

H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

GEJDENSON, Sam of Connecticut

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

GEKAS, George W. of Pennsylvania

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

GEPHARDT, Richard A. of Missouri

H.R. 3 To enhance the competitiveness of American industry, and for other purposes.

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

GIBBONS, Sam of Florida

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

GILMAN, Benjamin A. of New York

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

GILMAN, Benjamin A. of New York—Continued

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

GINGRICH, Newt of Georgia

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 2310 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.
H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.
H.R. 3350 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

GLICKMAN, Dan of Kansas

H.R. 145 To provide for a computer standards program within the National Bureau of Standards, to provide for Government- wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes.
H.R. 1621 To direct the Secretary of Transportation, in consultation with the National Research Council, National Academy of Sciences, and National Academy of Engineers, to carry out certain highway research.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2068 To establish the National Bureau of Standards and Industrial Competitiveness, and for other purposes.
H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.
H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.
H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.
H.R. 4686 To amend the Federal Aviation Act of 1958 relating to aviation research.
H.Res. 450 To express the sense of the House of Representatives that the Federal Aviation Administration should immediately establish a research and development program to study structural fatigue, wear, corrosion and damage to aircraft resulting from age and intensive utilization and to conduct non-destructive and destructive testing of older aircraft on a regular basis.

GONZALEZ, Henry B. of Texas

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.J.Res. 668 To reduce the amount of manmade material in space.

GORDON, Bart of Tennessee

H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

GRADISON, Willis D., Jr. of Ohio

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

GRANDY, Fred of Iowa

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

GRANT, Bill of Florida

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 1513 To direct the Administrator of the Environmental Protection Agency to develop and demonstrate a water resources- aquatic plant management project and to provide grants for scientific research to support such project.

GRANT, Bill of Florida—Continued

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.
H.R. 2492 To establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such Services.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3244 To direct the Secretary of the Army to develop and demonstrate methods for the management and control of aquatic plants in Lake Okeechobee, Florida, and for other purposes.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

GRAY, Kenneth J. of Illinois

H.R. 790 Entitled the "National Space Policy Act of 1987".
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

GRAY, William H., III of Pennsylvania

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 3545 To provide for reconciliation pursuant to section 4 of the concurrent resolution on the budget for fiscal year 1988.
H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 5373 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

GREEN, Bill of New York

H.R. 2315 To amend the National Science Foundation Act of 1950 to provide for the continuing evaluation and improvement of curricula in the fields of mathematics, science, and technology, and for the continuing evaluation of developments in educational applications of new technologies.
H.R. 3094 To authorize the Administrator of the Environmental Protection Agency to establish an industrial assistance program for reducing the generation of all environmental pollutants and hazardous waste at their source, to assist States in establishing waste reduction progrmas, to establish an Office of Waste Reduction, and for other purposes.
H.Res. 164 Expressing the sense of the House of Representatives that the NASA Distinguished Service Medal should be taken away from Arthur Rudolph.
H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

GREGG, Judd of New Hampshire

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

GUARINI, Frank J. of New Jersey

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

GUNDERSON, Steve of Wisconsin

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

HALL, Ralph M. of Texas

H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3463 To require the Secretary of Energy to make certain assessments with respect to the research and development of the Superconducting Super Collider program.
H.R. 3497 To require the President to take appropriate actions domestically and internationally to establish a Global Change Research Program aimed at understanding the cumulative impacts of man on his environment.
H.R. 3765 To facilitate commercial access to space, and for other purposes.

HALL, Ralph M. of Texas—Continued

H.R. 4399 To facilitate commercial access to space, and for other purposes.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

HAMILTON, Lee H. of Indiana

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.

H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

HAMMERSCHMIDT, John Paul of Arkansas

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 2310 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3350 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.

HANSEN, James V. of Utah

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.Con.Res. 290 Supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction.

HARRIS, Claude of Alabama

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

HASTERT, J. Dennis of Illinois

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

HATCHER, Charles of Georgia

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

HAWKINS, Augustus F. of California

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

HAWKINS, Augustus F. of California—Continued

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4454 To establish programs to promote recycling, and for other purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

HAYES, Charles A. of Illinois

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.
H.R. 2492 To establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such Services.
H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5373 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

HAYES, James A. "Jimmy" of Louisiana

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2068 To establish the National Bureau of Standards and Industrial Competitiveness, and for other purposes.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 2310 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.
H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.
H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 3779 To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes.
H.R. 4399 To facilitate commercial access to space, and for other purposes.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

HEFLEY, Joel of Colorado

H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 4399 To facilitate commercial access to space, and for other purposes.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 5444 To reestablish the National Aeronautics and Space Council, and for other purposes.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

HENRY, Paul B. of Michigan

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.
H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.
H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3765 To facilitate commercial access to space, and for other purposes.

HENRY, Paul B. of Michigan—Continued

H.R. 3779 To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4502 To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

HERGER, Wally of California

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

HERTEL, Dennis M. of Michigan

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 5249 To protect the Great Lakes from the disposal of medical waste, and for other purposes.

HILER, John of Indiana

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

HOCHBRUECKNER, George J. of New York

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.
H.R. 4502 To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.
H.R. 5132 To amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer.
H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

HOLLOWAY, Clyde C. of Louisiana

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

HOPKINS, Larry J. of Kentucky

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

HORTON, Frank of New York

H.R. 145 To provide for a computer standards program within the National Bureau of Standards, to provide for Government- wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

HORTON, Frank of New York—Continued

H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.
H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

HOUGHTON, Amo, Jr. of New York

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2069 To create a National Commission on Commercial and National Defense Applications of Superconductors to study methods of developing improved superconductors and expanding the commercial and strategic use of superconductors.
H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

HOWARD, James J. of New Jersey

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 2310 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.
H.R. 3350 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

HOYER, Steny H. of Maryland

H.R. 737 Relating to the incineration at sea of hazadous waste.

HUBBARD, Carroll, Jr. of Kentucky

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4934 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

HUCKABY, Jerry of Louisiana

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.Con.Res. 73 Expressing the sense of the Congress that the United States should enter into a joint high-level scientific study with the Soviet Union to determine the long-term climatic and environmental effects of a nuclear exchange.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

HUGHES, William J. of New Jersey

H.R. 145 To provide for a computer standards program within the National Bureau of Standards, to provide for Government- wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes.
H.R. 474 Entitled the "Plastic Waste Study Act of 1987".
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 1510 To amend title 35, United States Code, and the National Aeronautics and Space Act of 1958, with respect to the use of inventions in outer space.

HUGHES, William J. of New Jersey—Continued

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 1615 To establish the Government Information Agency to enhance the economic, scientific, and technological position of the United States by acquiring, processing, and distributing the fruits of federally-performed and federally-sponsored research, development, and analysis, and for other purposes.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4210 To reauthorize Title II of the Marine Protection, Research, and Sanctuaries Act of 1972, for fiscal years 1989 and 1990, and for other purposes.

H.R. 4211 To reauthorize the National Ocean Pollution Planning Act of 1978 for fiscal years 1989 and 1990, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.P. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

HUNTER, Duncan of California

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

HUTTO, Earl of Florida

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1513 To direct the Administrator of the Environmental Protection Agency to develop and demonstrate a water resources- aquatic plant management project and to provide grants for scientific research to support such project.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

HYDE, Henry J. of Illinois

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

INHOFE, James M. of Oklahoma

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4439 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.

INHOFE, James M. of Oklahoma—Continued

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

IRELAND, Andy of Florida

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

JACOBS, Andrew, Jr. of Indiana

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

JEFFORDS, James M. of Vermont

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 1650 To establish a Trade Development Investment Trust Fund to provide funds for efforts to improve the United States competitiveness in international trade, and for other purposes.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5056 To authorize agricultural research programs, improve the operations of the National Agricultural Library, and for other purposes.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

JENKINS, Ed of Georgia

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

JOHNSON, Nancy L. of Connecticut

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 2310 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

JOHNSON, Tim of South Dakota

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

JONES, Ed of Tennessee

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

JONES, Walter B. of North Carolina

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 3499 To amend the Nuclear Waste Policy Act of 1982 to encourage the continuation of research on the subseabed disposal of nuclear waste by establishing an Office of Alternative Disposal Methods, and for other purposes.

H.R. 4210 To reauthorize Title II of the Marine Protection, Research, and Sanctuaries Act of 1972, for fiscal years 1989 and 1990, and for other purposes.

H.R. 4211 To reauthorize the National Ocean Pollution Planning Act of 1978 for fiscal years 1989 and 1990, and for other purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.R. 5070 To establish the National Oceanic and Atmospheric Administration as an independent agency of the Government, and for other purposes.

H.R. 5421 To provide for development of a National Global Change Research Plan to coordinate oceanographic, atmospheric, terrestrial, and cryospheric research programs, and to establish the Council on Global Environmental Policy.

JONTZ, James of Indiana

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4454 To establish programs to promote recycling, and for other purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5373 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

KANJORSKI, Paul E. of Pennsylvania

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 5132 To amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer.

KAPTUR, Marcy of Ohio

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2958 To establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

KASICH, John R. of Ohio

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

KASTENMEIER, Robert W. of Wisconsin

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 1510 To amend title 35, United States Code, and the National Aeronautics and Space Act of 1958, with respect to the use of inventions in outer space.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

KASTENMEIER, Robert W. of Wisconsin—Continued

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.R. 4971 To regulate the use of genetically-engineered animals in agricultural activities, and for other purposes.

KENNEDY, Joseph P., II of Massachusetts

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 4193 To create a Federal facility nuclear cleanup trust fund, to require the Secretary of Energy and the Administrator of the Environmental Protection Agency to enter into compliance agreements for environmental cleanup of Federal nuclear facilities, to create a special environmental counsel, to provide for research and development for Federal nuclear facilities, and for other purposes.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5373 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

KENNELLY, Barbara B. of Connecticut

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

KILDEE, Dale E. of Michigan

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

KLECZKA, Gerald D. of Wisconsin

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

KOLBE, Jim of Arizona

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.

KOLTER, Joe of Pennsylvania

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

KOLTER, Joe of Pennsylvania—Continued

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2205 To establish the Value Engineering Council.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 2492 To establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such Services.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

KONNYU, Ernest L. of California

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3765 To facilitate commercial access to space, and for other purposes.

H.R. 3779 To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes.

H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4399 To facilitate commercial access to space, and for other purposes.

H.R. 4502 To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

KOSTMAYER, Peter H. of Pennsylvania

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

KYL, Jon of Arizona

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

LAFALCE, John J. of New York

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

LAGOMARSINO, Robert J. of California

H.R. 173 To allow the National Aeronautics and Space Administration to accept restricted gifts.

LAGOMARSINO, Robert J. of California—Continued

H.R. 474 Entitled the "Plastic Waste Study Act of 1987".
H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2205 To establish the Value Engineering Council.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 4399 To facilitate commercial access to space, and for other purposes.
H.R. 4454 To establish programs to promote recycling, and for other purposes.
H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.
H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

LANCASTER, Martin of North Carolina

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.
H.R. 2958 To establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes.
H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.
H.R. 5056 To authorize agricultural research programs, improve the operations of the National Agricultural Library, and for other purposes.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

LANTOS, Tom of California

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity: to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

LATTA, Delbert L. of Ohio

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

LEACH, Jim of Iowa

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

LEATH, Marvin of Texas

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

LEHMAN, Richard H. of California

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

LEHMAN, Richard H. of California—Continued

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

LEHMAN, William of Florida

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

LELAND, Mickey of Texas

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

LENT, Norman F. of New York

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

LEVIN, Sander M. of Michigan

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

LEVINE, Mel of California

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.

H.R. 2958 To establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3858 To establish a National Mars Commission, and for other purposes.

H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

LEVINE, Mel of California—Continued

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".
H.J.Res. 646 Establishing the National Commission on Human Resources.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

LEWIS, Jerry of California

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.
H.Con.Res. 290 Supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

LEWIS, John of Georgia

H.R. 474 Entitled the "Plastic Waste Study Act of 1987".
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 1621 To direct the Secretary of Transportation, in consultation with the National Research Council, National Academy of Sciences, and National Academy of Engineers, to carry out certain highway research.
H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.
H.R. 5373 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

LEWIS, Tom of Florida

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 1513 To direct the Administrator of the Environmental Protection Agency to develop and demonstrate a water resources- aquatic plant management project and to provide grants for scientific research to support such project.
H.R. 1621 To direct the Secretary of Transportation, in consultation with the National Research Council, National Academy of Sciences, and National Academy of Engineers, to carry out certain highway research.
H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.
H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 3217 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3244 To direct the Secretary of the Army to develop and demonstrate methods for the management and control of aquatic plants in Lake Okeechobee, Florida, and for other purposes.
H.R. 3350 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.
H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 3779 To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes.
H.R. 4399 To facilitate commercial access to space, and for other purposes.
H.R. 4561 To authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes.
H.R. 4686 To amend the Federal Aviation Act of 1958 relating to aviation research.
H.R. 5466 To require the Environmental Protection Agency to conduct research on the management of infectious medical wastes.

LEWIS, Tom of Florida—Continued

H.Res. 450 To express the sense of the House of Representatives that the Federal Aviation Administration should immediately establish a research and development program to study structural fatigue, wear, corrosion and damage to aircraft resulting from age and intensive utilization and to conduct non-destructive and destructive testing of older aircraft on a regular basis.

H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

LIGHTFOOT, Jim Ross of Iowa

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

LIPINSKI, William O. of Illinois

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2205 To establish the Value Engineering Council.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

LIVINGSTON, Bob of Louisiana

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

LLOYD, Marilyn of Tennessee

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.

H.R. 2368 To authorize appropriations to the Department of Energy for civilian energy research and development programs for fiscal year 1988.

H.R. 2369 To authorize appropriations to the Department of Energy for civilian energy programs for fiscal year 1988.

H.R. 2751 To provide permanent authority to the Department of Energy to indemnify its civilian nuclear energy research and development contractors.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3765 To facilitate commercial access to space, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4399 To facilitate commercial access to space, and for other purposes.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4505 To authorize appropriations to the Department of Energy for civilian research and development programs for fiscal year 1989.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.R. 5132 To amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

LOTT, Trent of Mississippi

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4560 To designate the National Space Technology Laboratories in Bay St. Louis, Mississippi, as the "John C. Stennis Space Center".

LOWERY, Bill of California

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

LOWERY, Bill of California—Continued

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

LOWRY, Mike of Washington

H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 4193 To create a Federal facility nuclear cleanup trust fund, to require the Secretary of Energy and the Administrator of the Environmental Protection Agency to enter into compliance agreements for environmental cleanup of Federal nuclear facilities, to create a special environmental counsel, to provide for research and development for Federal nuclear facilities, and for other purposes.
H.R. 4210 To reauthorize Title II of the Marine Protection, Research, and Sanctuaries Act of 1972, for fiscal years 1989 and 1990, and for other purposes.
H.R. 4211 To reauthorize the National Ocean Pollution Planning Act of 1978 for fiscal years 1989 and 1990, and for other purposes.
H.R. 4224 To require the Secretary of Energy to develop a plan for demonstrating the technical feasibility of burning weapons grade nuclear materials that have been removed from dismantled nuclear weapons in nuclear reactors of the Department of Energy and to report to Congress on that plan, and to require the President to consider inviting the Soviet Union to participate in the demonstration.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5070 To establish the National Oceanic and Atmospheric Administration as an independent agency of the Government, and for other purposes.
H.R. 5421 To provide for development of a National Global Change Research Plan to coordinate oceanographic, atmospheric, terrestrial, and cryospheric research programs, and to establish the Council on Global Environmental Policy.
H.Con.Res. 290 Supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction.

LUJAN, Manuel, Jr. of New Mexico

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".
H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.
H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.
H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.
H.R. 3006 To improve the integration of universities and private industry into the National Laboratory system of the Department of Energy in order to speed the development of technology in areas of significant economic potential.
H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3350 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.
H.R. 3704 To amend the Federal Fire Prevention and Control Act of 1974 to direct the Director of the Federal Emergency Management Agency, acting through the Administrator of the United States Fire Administration, to propose and promulgate a model code and guidelines governing the use and installation of automatic sprinkler systems in places of public accommodation affecting commerce, and for other purposes.
H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 3779 To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes.
H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.
H.R. 4283 To preserve the independence of the scientific evaluation group for the Waste Isolation Pilot Plant in New Mexico.
H.R. 4399 To facilitate commercial access to space, and for other purposes.
H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 5132 To amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer.
H.R. 5433 To assist in creating a viable domestic uranium enrichment industry, to insure the maximum economic utilization of the existing diffusion plant assests, to establish mechanisms which would permit the creation of a privately owned corporation or a mixed government-privately owned corporation to utilize the federal government's investment in centrifuge technology and in the centrifuge assests, to establish alternate sources of enrichment supply, so as to create American jobs, to return monies to the government and to increase American industrial competitiveness in world wide nuclear fuel sales.

LUJAN, Manuel, Jr. of New Mexico—Continued

H.Res. 55 In memorium of the crew of the space shuttle Challenger.
H.Res. 369 Honoring the 25th Anniversary of the Cerro Tololo Inter-American Observatory.
H.Res. 574 To commemorate the successful return to flight by the Space Shuttle Discovery.
H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.
H.Con.Res. 290 Supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

LUKEN, Thomas A. of Ohio

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

LUKENS, Donald E. of Ohio

H.R. 2205 To establish the Value Engineering Council.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

LUNGREN, Dan of California

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

MACK, Connie of Florida

H.R. 790 Entitled the "National Space Policy Act of 1987".
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

MACKAY, Buddy of Florida

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 2492 To establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such Services.
H.R. 2541 To establish a hydrogen research and development program.
H.R. 2542 To promote the development of technologies which will enable fuel cells to use alternative fuel sources.
H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.
H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.
H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.
H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4399 To facilitate commercial access to space, and for other purposes.
H.R. 4502 To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".
H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

MACKAY, Buddy of Florida—Continued

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

MADIGAN, Edward R. of Illinois

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.R. 5056 To authorize agricultural research programs, improve the operations of the National Agricultural Library, and for other purposes.

MANTON, Thomas J. of New York

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

MARKEY, Edward J. of Massachusetts

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

MARLENEE, Ron of Montana

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

MARTIN, David O'B. of New York

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.

H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

MARTIN, Lynn of Illinois

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 5056 To authorize agricultural research programs, improve the operations of the National Agricultural Library, and for other purposes.

MARTINEZ, Matthew G. of California

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2068 To establish the National Bureau of Standards and Industrial Competitiveness, and for other purposes.

MARTINEZ, Matthew G. of California—Continued

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2205 To establish the Value Engineering Council.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 2958 To establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

MATSUI, Robert T. of California

H.R. 2069 To create a National Commission on Commercial and National Defense Applications of Superconductors to study methods of developing improved superconductors and expanding the commercial and strategic use of superconductors.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

MAVROULES, Nicholas of Massachusetts

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

MAZZOLI, Romano L. of Kentucky

H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

MCCANDLESS, Alfred A.(Al) of California

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

MCCLOSKEY, Frank of Indiana

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

MCCOLLUM, Bill of Florida

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

MCCOLLUM, Bill of Florida—Continued

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

MCCURDY, Dave of Oklahoma

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 2368 To authorize appropriations to the Department of Energy for civilian energy research and development programs for fiscal year 1988.

H.R. 2369 To authorize appropriations to the Department of Energy for civilian energy programs for fiscal year 1988.

H.R. 2541 To establish a hydrogen research and development program.

H.R. 2542 To promote the development of technologies which will enable fuel cells to use alternative fuel sources.

H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.

H.R. 3217 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.

H.R. 3350 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.

H.R. 3765 To facilitate commercial access to space, and for other purposes.

H.R. 3779 To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4502 To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.

H.R. 4561 To authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes.

H.R. 4686 To amend the Federal Aviation Act of 1958 relating to aviation research.

H.Res. 450 To express the sense of the House of Representatives that the Federal Aviation Administration should immediately establish a research and development program to study structural fatigue, wear, corrosion and damage to aircraft resulting from age and intensive utilization and to conduct non-destructive and destructive testing of older aircraft on a regular basis.

H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

MCDADE, Joseph M. of Pennsylvania

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

MCEWEN, Bob of Ohio

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

MCGRATH, Raymond J. of New York

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

MCHUGH, Matthew F. of New York

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

MCKINNEY, Stewart B. of Connecticut

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

MCMILLAN, J. Alex of North Carolina

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

MCMILLEN, C. Thomas of Maryland

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.
H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.
H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 3858 To establish a National Mars Commission, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4399 To facilitate commercial access to space, and for other purposes.
H.R. 4502 To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.
H.R. 5571 To protect the Chesapeake Bay from the disposal of medical waste, and for other purposes.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

MEYERS, Jan of Kansas

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4454 To establish programs to promote recycling, and for other purposes.
H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.
H.R. 5373 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

MFUME, Kweisi of Maryland

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

MFUME, Kweisi of Maryland—Continued

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

MICA, Dan of Florida

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1777 To authorize appropriations for fiscal years 1988 and 1989 for the Department of State, the United States Information Agency, the Voice of America, the Board for International Broadcasting, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

MICHEL, Robert H. of Illinois

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

MILLER, Clarence E. of Ohio

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

MILLER, George of California

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

MILLER, John of Washington

H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4193 To create a Federal facility nuclear cleanup trust fund, to require the Secretary of Energy and the Administrator of the Environmental Protection Agency to enter into compliance agreements for environmental cleanup of Federal nuclear facilities, to create a special environmental counsel, to provide for research and development for Federal nuclear facilities, and for other purposes.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

MINETA, Norman Y. of California

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.

H.R. 2310 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.

MINETA, Norman Y. of California—Continued

H.R. 3217 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3350 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.

H.R. 3765 To facilitate commercial access to space, and for other purposes.

H.R. 3858 To establish a National Mars Commission, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4399 To facilitate commercial access to space, and for other purposes.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

H.Con.Res. 290 Supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

MOAKLEY, Joe of Massachusetts

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.

MOLINARI, Guy V. of New York

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

MOLLOHAN, Alan B. of West Virginia

H.R. 1621 To direct the Secretary of Transportation, in consultation with the National Research Council, National Academy of Sciences, and National Academy of Engineers, to carry out certain highway research.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

MONTGOMERY, G. V. of Mississippi

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

MOODY, Jim of Wisconsin

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

MOORHEAD, Carlos J. of California

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 1510 To amend title 35, United States Code, and the National Aeronautics and Space Act of 1958, with respect to the use of inventions in outer space.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

MORELLA, Constance A. of Maryland

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.
H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4399 To facilitate commercial access to space, and for other purposes.
H.R. 4502 To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

MORRISON, Bruce A. of Connecticut

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

MORRISON, Sid of Washington

H.R. 2068 To establish the National Bureau of Standards and Industrial Competitiveness, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.
H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 3077 To suspend certain activities of the Secretary of Energy under the Nuclear Waste Policy Act of 1982, to authorize construction of regional monitored retrievable storage facilities, and for other purposes.
H.R. 3217 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3499 To amend the Nuclear Waste Policy Act of 1982 to encourage the continuation of research on the subseabed disposal of nuclear waste by establishing an Office of Alternative Disposal Methods, and for other purposes.
H.R. 4224 To require the Secretary of Energy to develop a plan for demonstrating the technical feasibility of burning weapons grade nuclear materials that have been removed from dismantled nuclear weapons in nuclear reactors of the Department of Energy and to report to Congress on that plan, and to require the President to consider inviting the Soviet Union to participate in the demonstration.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 5132 To amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer.
H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

MRAZEK, Robert J. of New York

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.

94-889 - 89 - 6

MRAZEK, Robert J. of New York—Continued

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.
H.R. 3858 To establish a National Mars Commission, and for other purposes.
H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.
H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

MURPHY, Austin J. of Pennsylvania

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.
H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

MURTHA, John P. of Pennsylvania

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

NAGLE, David R. of Iowa

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.
H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.
H.R. 4399 To facilitate commercial access to space, and for other purposes.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

NEAL, Stephen L. of North Carolina

H.R. 145 To provide for a computer standards program within the National Bureau of Standards, to provide for Government- wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes.
H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.
H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.
H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.
H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.

NEAL, Stephen L. of North Carolina—Continued

H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.
H.R. 4224 To require the Secretary of Energy to develop a plan for demonstrating the technical feasibility of burning weapons grade nuclear materials that have been removed from dismantled nuclear weapons in nuclear reactors of the Department of Energy and to report to Congress on that plan, and to require the President to consider inviting the Soviet Union to participate in the demonstration.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5040 To establish a standard nuclear reactor program to develop an inherently safe and economic nuclear reactor, and for other purposes.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

NELSON, Bill of Florida

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 1513 To direct the Administrator of the Environmental Protection Agency to develop and demonstrate a water resources- aquatic plant management project and to provide grants for scientific research to support such project.
H.R. 1521 To amend title 35, United States Code, and the National Aeronautics and Space Act of 1958, with respect to the use of inventions in outer space.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.
H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.
H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 3779 To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4399 To facilitate commercial access to space, and for other purposes.
H.R. 4561 To authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes.
H.Res. 574 To commemorate the successful return to flight by the Space Shuttle Discovery.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

NIELSON, Howard C. of Utah

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".
H.R. 2205 To establish the Value Engineering Council.
H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

NOWAK, Henry J. of New York

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.
H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4399 To facilitate commercial access to space, and for other purposes.

NOWAK, Henry J. of New York—Continued

H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

H.Con.Res. 290 Supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction.

OAKAR, Mary Rose of Ohio

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4193 To create a Federal facility nuclear cleanup trust fund, to require the Secretary of Energy and the Administrator of the Environmental Protection Agency to enter into compliance agreements for environmental cleanup of Federal nuclear facilities, to create a special environmental counsel, to provide for research and development for Federal nuclear facilities, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

OBERSTAR, James L. of Minnesota

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

OBEY, David R. of Wisconsin

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

OLIN, Jim of Virginia

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.

H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.

H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

ORTIZ, Solomon P. of Texas

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

OWENS, Major R. of New York

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.
H.R. 1615 To establish the Government Information Agency to enhance the economic, scientific, and technological position of the United States by acquiring, processing, and distributing the fruits of federally-performed and federally-sponsored research, development, and analysis, and for other purposes.
H.R. 1621 To direct the Secretary of Transportation, in consultation with the National Research Council, National Academy of Sciences, and National Academy of Engineers, to carry out certain highway research.
H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.
H.R. 2958 To establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.
H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.
H.R. 5375 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

OWENS, Wayne of Utah

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

OXLEY, Michael G. of Ohio

H.R. 790 Entitled the "National Space Policy Act of 1987".
H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

PACKARD, Ronald C. of California

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

PACKARD, Ronald C. of California—Continued

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.
H.R. 4399 To facilitate commercial access to space, and for other purposes.
H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

PANETTA, Leon E. of California

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 2527 To direct the Administrator of the Environmental Protection Agency to conduct a study of possible solutions to certain problems associated with disposal of nonbiodegradable plastics, and to control pollution of the environment caused by the discarding of plastics on the land and in water.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

PARRIS, Stan of Virginia

H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.

PASHAYAN, Charles, Jr. of California

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

PATTERSON, Liz J. of South Carolina

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

PEASE, Donald J. of Ohio

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

PELOSI, Nancy of California

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.
H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

PELOSI, Nancy of California—Continued

H.R. 5373 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

PENNY, Timothy J. of Minnesota

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

PEPPER, Claude of Florida

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 1513 To direct the Administrator of the Environmental Protection Agency to develop and demonstrate a water resources- aquatic plant management project and to provide grants for scientific research to support such project.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 4193 To create a Federal facility nuclear cleanup trust fund, to require the Secretary of Energy and the Administrator of the Environmental Protection Agency to enter into compliance agreements for environmental cleanup of Federal nuclear facilities, to create a special environmental counsel, to provide for research and development for Federal nuclear facilities, and for other purposes.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

PERKINS, Carl C. of Kentucky

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.
H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.
H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.
H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.
H.R. 4399 To facilitate commercial access to space, and for other purposes.
H.Con.Res. 290 Supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

PETRI, Thomas E. of Wisconsin

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

PICKETT, Owen B. of Virginia

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

PICKLE, J. J. of Texas

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

PORTER, John Edward of Illinois

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federai Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

PRICE, David E. of North Carolina

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.
H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.
H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

PRICE, Melvin of Illinois

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

PURSELL, Carl D. of Michigan

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

QUILLEN, James H. of Tennessee

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

RAHALL, Nick Joe, II of West Virginia

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 2492 To establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such Services.

RANGEL, Charles B. of New York

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

RAVENEL, Arthur, Jr. of South Carolina

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

REGULA, Ralph of Ohio

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

RHODES, John J., III of Arizona

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

RICHARDSON, Bill of New Mexico

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 3006 To improve the integration of universities and private industry into the National Laboratory system of the Department of Energy in order to speed the development of technology in areas of significant economic potential.

H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4283 To preserve the independence of the scientific evaluation group for the Waste Isolation Pilot Plant in New Mexico.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mil! tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4934 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

RIDGE, Thomas J. of Pennsylvania

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

RINALDO, Matthew J. of New Jersey

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

RITTER, Don of Pennsylvania

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 1964 To amend the Metric Conversion Act of 1975 to increase the use of the metric system in Government programs.

H.R. 2068 To establish the National Bureau of Standards and Industrial Competitiveness, and for other purposes.

H.R. 2069 To create a National Commission on Commercial and National Defense Applications of Superconductors to study methods of developing improved superconductors and expanding the commercial and strategic use of superconductors.

H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.

H.R. 3779 To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

ROBERTS, Pat of Kansas

H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 5056 To authorize agricultural research programs, improve the operations of the National Agricultural Library, and for other purposes.

ROBINSON, Tommy of Arkansas

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 2492 To establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such Services.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

RODINO, Peter W., Jr. of New Jersey

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

ROE, Robert A. of New Jersey

H.R. 145 To provide for a computer standards program within the National Bureau of Standards, to provide for Government- wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes.
H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 1521 To amend title 35, United States Code, and the National Aeronautics and Space Act of 1958, with respect to the use of inventions in outer space.
H.R. 1522 To authorize appropriations for activities under the Federal Fire Prevention and Control Act of 1974.
H.R. 1523 To authorize appropriations for environmental research, development, and demonstration for fiscal years 1988 and 1989.
H.R. 1612 To authorize appropriations under the Earthquake Hazards Reduction Act of 1977 for fiscal years 1988 and 1989.
H.R. 1627 To amend title II of the Marine Protection, Research, and Sanctuaries Act of 1972, as amended, to authorize appopriations for fiscal years 1988 and 1989.
H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 1739 To authorize appropriations for carrying out the National Climate Program for fiscal years 1988 and 1989.
H.R. 1740 To authorize appropriations for the fiscal years 1988 and 1989 for the Office of Commercial Space Transportation of the Department of Transportation.
H.R. 1741 To authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic-advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 2782 To authorize appropriations to the National Aeronautics and Space Administration for research and development; space flight, control and data communications; construction of facilities; and research and program management; and for other purposes.
H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3350 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.
H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 4157 To authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes.
H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4399 To facilitate commercial access to space, and for other purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.R. 5120 To provide for a system of standardization of measurement of bolts to increase bolt quality and reduce the danger of substandard bolt failure, and for other purposes.
H.R. 5183 To authorize appropriations to the Secretary of Commerce for the programs of the National Institute of Standards and Technology for fiscal year 1989, and for other purposes.
H.R. 5228 To authorize the appropriation of funds to reimburse persons whose property was damaged by an explosion in Clark County, Nevada, for certain uninsured expenses in connection with such damage.
H.R. 5466 To require the Environmental Protection Agency to conduct research on the management of infectious medical wastes.
H.Res. 55 In memorium of the crew of the space shuttle Challenger.
H.Res. 369 Honoring the 25th Anniversary of the Cerro Tololo Inter-American Observatory.

ROE, Robert A. of New Jersey—Continued

H.Res. 574 To commemorate the successful return to flight by the Space Shuttle Discovery.
H.Con.Res. 69 Expressing the sense of the Congress that procurement of the new United States weather radar system, NEXRAD, continue on schedule and according to the established minimum requirements agreed to by the National Weather Service, the Federal Aviation Administration, and the Department of Defense.
H.Con.Res. 71 Expressing the sense of the Congress that the Federal Government take immediate steps to support a National STORM Program.
H.Con.Res. 290 Supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

ROEMER, Buddy of Louisiana

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

ROGERS, Harold of Kentucky

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.
H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

ROSE, Charles of North Carolina

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

ROSTENKOWSKI, Dan of Illinois

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3350 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

ROTH, Toby of Wisconsin

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

ROUKEMA, Marge of New Jersey

H.R. 474 Entitled the "Plastic Waste Study Act of 1987".
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.
H.R. 3779 To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

ROWLAND, J. Roy of Georgia

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

ROWLAND, John G. of Connecticut

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

ROYBAL, Edward R. of California

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

RUSSO, Marty of Illinois

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

SABO, Martin Olav of Minnesota

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.

SAIKI, Patricia of Hawaii

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

ST GERMAIN, Fernand J. of Rhode Island

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

SAVAGE, Gus of Illinois

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.
H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.

SAWYER, Thomas C. of Ohio

H.R. 2958 To establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.Res. 55 In memorium of the crew of the space shuttle Challenger.

SAXTON, H. James of New Jersey

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 4210 To reauthorize Title II of the Marine Protection, Research, and Sanctuaries Act of 1972, for fiscal years 1989 and 1990, and for other purposes.
H.R. 4211 To reauthorize the National Ocean Pollution Planning Act of 1978 for fiscal years 1989 and 1990, and for other purposes.
H.R. 4454 To establish programs to promote recycling, and for other purposes.

SAXTON, H. James of New Jersey—Continued

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

SCHAEFER, Dan of Colorado

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

SCHEUER, James H. of New York

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 2355 To authorize appropriations for environmental research, development, and demonstration for the fiscal years 1988 and 1989, and for other purposes.

H.R. 2368 To authorize appropriations to the Department of Energy for civilian energy research and development programs for fiscal year 1988.

H.R. 2369 To authorize appropriations to the Department of Energy for civilian energy programs for fiscal year 1988.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3497 To require the President to take appropriate actions domestically and internationally to establish a Global Change Research Program aimed at understanding the cumulative impacts of man on his environment.

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4399 To facilitate commercial access to space, and for other purposes.

H.R. 4502 To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

H.Con.Res. 167 Declaring the support of the Congress for continuation of civil land remote-sensing activities, for the benefit of all mankind, through the continuation and commercialization of the existing Landsat program.

H.Con.Res. 290 Supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

SCHNEIDER, Claudine of Rhode Island

H.R. 474 Entitled the "Plastic Waste Study Act of 1987".

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2219 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a Center on State and Local Initiatives on Productivity, Technology, and Innovation, and for other purposes.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 2492 To establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such Services.

H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.

SCHNEIDER, Claudine of Rhode Island—Continued

H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 3217 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 4210 To reauthorize Title II of the Marine Protection, Research, and Sanctuaries Act of 1972, for fiscal years 1989 and 1990, and for other purposes.
H.R. 4211 To reauthorize the National Ocean Pollution Planning Act of 1978 for fiscal years 1989 and 1990, and for other purposes.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.
H.R. 5120 To provide for a system of standardization of measurement of bolts to increase bolt quality and reduce the danger of substandard bolt failure, and for other purposes.
H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".
H.J.Res. 646 Establishing the National Commission on Human Resources.
H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

SCHROEDER, Patricia of Colorado

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

SCHUETTE, Bill of Michigan

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.
H.R. 5249 To protect the Great Lakes from the disposal of medical waste, and for other purposes.

SCHULZE, Richard T. of Pennsylvania

H.R. 737 Relating to the incineration at sea of hazardous waste.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

SCHUMER, Charles E. of New York

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

SENSENBRENNER, F. James, Jr. of Wisconsin

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3463 To require the Secretary of Energy to make certain assessments with respect to the research and development of the Superconducting Super Collider program.
H.R. 3656 To establish an interagency committee to review proposed international scientific and technological agreements and increase through negotiations for such agreements equivalent technolgical access between the United States and foreign countries.
H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 3779 To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes.
H.R. 4399 To facilitate commercial access to space, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

SENSENBRENNER, F. James, Jr. of Wisconsin—Continued

H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

SHARP, Philip R. of Indiana

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4465 To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.R. 5424 To amend the Energy Policy and Conservation Act to increase the efficiency and effectiveness of State energy conservation programs conducted under such Act, and for other purposes.

SHAW, E. Clay, Jr. of Florida

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1513 To direct the Administrator of the Environmental Protection Agency to develop and demonstrate a water resources- aquatic plant management project and to provide grants for scientific research to support such project.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3244 To direct the Secretary of the Army to develop and demonstrate methods for the management and control of aquatic plants in Lake Okeechobee, Florida, and for other purposes.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

SHAYS, Christopher of Connecticut

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4502 To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

SHUMWAY, Norman D. of California

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

SHUSTER, Bud of Pennsylvania

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

SIKORSKI, Gerry of Minnesota

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

SKAGGS, David of Colorado

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

SKAGGS, David of Colorado—Continued

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2068 To establish the National Bureau of Standards and Industrial Competitiveness, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3765 To facilitate commercial access to space, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4399 To facilitate commercial access to space, and for other purposes.

H.R. 4502 To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.

H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

H.Con.Res. 290 Supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

SKEEN, Joe of New Mexico

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4283 To preserve the independence of the scientific evaluation group for the Waste Isolation Pilot Plant in New Mexico.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

SKELTON, Ike of Missouri

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

SLATTERY, Jim of Kansas

H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.

H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

SLAUGHTER, D. French, Jr. of Virginia

H.R. 1510 To amend title 35, United States Code, and the National Aeronautics and Space Act of 1958, with respect to the use of inventions in outer space.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 3765 To facilitate commercial access to space, and for other purposes.

H.R. 3779 To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes.

H.R. 4399 To facilitate commercial access to space, and for other purposes.

H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

SLAUGHTER, Louise M. of New York

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

SLAUGHTER, Louise M. of New York—Continued

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

SMITH, Christopher H. of New Jersey

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 4454 To establish programs to promote recycling, and for other purposes.

SMITH, Denny of Oregon

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

SMITH, Lamar of Texas

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4502 To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.

SMITH, Lawrence J. of Florida

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1621 To direct the Secretary of Transportation, in consultation with the National Research Council, National Academy of Sciences, and National Academy of Engineers, to carry out certain highway research.

H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

SMITH, Neal of Iowa

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

SMITH, Robert C. of New Hampshire

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4399 To facilitate commercial access to space, and for other purposes.

H.R. 4502 To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.

SMITH, Robert C. of New Hampshire—Continued

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

SMITH, Robert F. of Oregon

H.R. 173 To allow the National Aeronautics and Space Administration to accept restricted gifts.

SMITH, Virginia of Nebraska

H.R. 5056 To authorize agricultural research programs, improve the operations of the National Agricultural Library, and for other purposes.

SNOWE, Olympia J. of Maine

H.R. 1777 To authorize appropriations for fiscal years 1988 and 1989 for the Department of State, the United States Information Agency, the Voice of America, the Board for International Broadcasting, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

SOLARZ, Stephen J. of New York

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1615 To establish the Government Information Agency to enhance the economic, scientific, and technological position of the United States by acquiring, processing, and distributing the fruits of federally-performed and federally-sponsored research, development, and analysis, and for other purposes.

H.R. 1621 To direct the Secretary of Transportation, in consultation with the National Research Council, National Academy of Sciences, and National Academy of Engineers, to carry out certain highway research.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.

H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

H.R. 5373 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

SOLOMON, Gerald B.H. of New York

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4454 To establish programs to promote recycling, and for other purposes.

H.R. 4816 To amend the Export Administration Act of 1979 to prohibit United States corporations from entering into commercial ventures using the Soviet space station and to prohibit United States satellites from being launched from launch vehicles owned by certain countries.

H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

SPRATT, John M., Jr. of South Carolina

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

SPRATT, John M., Jr. of South Carolina—Continued

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

STAGGERS, Harley O., Jr. of West Virginia

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

STALLINGS, Richard of Idaho

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4502 To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 5132 To amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

STANGELAND, Arlan of Minnesota

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

STARK, Fortney H. of California

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4193 To create a Federal facility nuclear cleanup trust fund, to require the Secretary of Energy and the Administrator of the Environmental Protection Agency to enter into compliance agreements for environmental cleanup of Federal nuclear facilities, to create a special environmental counsel, to provide for research and development for Federal nuclear facilities, and for other purposes.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

H.Con.Res. 254 Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental reactor.

STENHOLM, Charles W. of Texas

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 5056 To authorize agricultural research programs, improve the operations of the National Agricultural Library, and for other purposes.

STOKES, Louis of Ohio

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.

STOKES, Louis of Ohio—Continued

H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

STRATTON, Samuel S. of New York

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.

STUDDS, Gerry E. of Massachusetts

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.

H.R. 4210 To reauthorize Title II of the Marine Protection, Research, and Sanctuaries Act of 1972, for fiscal years 1989 and 1990, and for other purposes.

H.R. 4211 To reauthorize the National Ocean Pollution Planning Act of 1978 for fiscal years 1989 and 1990, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5421 To provide for development of a National Global Change Research Plan to coordinate oceanographic, atmospheric, terrestrial, and cryospheric research programs, and to establish the Council on Global Environmental Policy.

STUMP, Bob of Arizona

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

SUNDQUIST, Don of Tennessee

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

SUNIA, Fofo I.F. of American Samoa

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 1633 To establish a National Space Grant College and Fellowship Program.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

SWEENEY, Mac of Texas

H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

SWIFT, Al of Washington

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

SWIFT, Al of Washington—Continued

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.
H.R. 4224 To require the Secretary of Energy to develop a plan for demonstrating the technical feasibility of burning weapons grade nuclear materials that have been removed from dismantled nuclear weapons in nuclear reactors of the Department of Energy and to report to Congress on that plan, and to require the President to consider inviting the Soviet Union to participate in the demonstration.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

SWINDALL, Pat of Georgia

H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.

SYNAR, Mike of Oklahoma

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.
H.Con.Res. 52 To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect.

TALLON, Robin of South Carolina

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

TAUKE, Thomas J. of Iowa

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1621 To direct the Secretary of Transportation, in consultation with the National Research Council, National Academy of Sciences, and National Academy of Engineers, to carry out certain highway research.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

TAUZIN, W. J. of Louisiana

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

TAYLOR, Gene of Missouri

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

THOMAS, Robert Lindsay of Georgia

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

THOMAS, William M. of California

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

TORRES, Esteban Edward of California

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

TORRES, Esteban Edward of California—Continued

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

TORRICELLI, Robert G. of New Jersey

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.
H.R. 3048 To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3765 To facilitate commercial access to space, and for other purposes.
H.R. 3858 To establish a National Mars Commission, and for other purposes.
H.R. 4036 To establish the Commission on International Security and Satellite Monitoring.
H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.
H.R. 4399 To facilitate commercial access to space, and for other purposes.
H.R. 4502 To establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

TOWNS, Edolphus of New York

H.R. 737 Relating to the incineration at sea of hazadous waste.
H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.
H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 1633 To establish a National Space Grant College and Fellowship Program.
H.R. 1733 To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 3300 To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes.
H.R. 3858 To establish a National Mars Commission, and for other purposes.
H.R. 4071 To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

TRAFICANT, James A., Jr. of Ohio

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 942 To prohibit further launches of the space shuttle until improved safety features have been developed and installed.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

TRAFICANT, James A., Jr. of Ohio—Continued

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4399 To facilitate commercial access to space, and for other purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5132 To amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer.

H.R. 5373 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

H.Con.Res. 384 Expressing the sense of the Congress that the National Aeronautics and Space Administration should develop and maintain a crew rescue capability in support of the Space Station Freedom.

UDALL, Morris K. of Arizona

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1414 To amend the Price-Anderson provisions of the Atomic Energy Act of 1954 to extend and improve the procedures for liability and indemnification for nuclear incidents.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 5040 To establish a standard nuclear reactor program to develop an inherently safe and economic nuclear reactor, and for other purposes.

H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.

H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

H.Con.Res. 73 Expressing the sense of the Congress that the United States should enter into a joint high-level scientific study with the Soviet Union to determine the long-term climatic and environmental effects of a nuclear exchange.

UPTON, Fred of Michigan

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 5249 To protect the Great Lakes from the disposal of medical waste, and for other purposes.

VALENTINE, Tim of North Carolina

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2069 To create a National Commission on Commercial and National Defense Applications of Superconductors to study methods of developing improved superconductors and expanding the commercial and strategic use of superconductors.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2191 To advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

VALENTINE, Tim of North Carolina—Continued

H.R. 5132 To amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer.

H.Con.Res. 69 Expressing the sense of the Congress that procurement of the new United States weather radar system, NEXRAD, continue on schedule and according to the established minimum requirements agreed to by the National Weather Service, the Federal Aviation Administration, and the Department of Defense.

VANDER JAGT, Guy of Michigan

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

VENTO, Bruce F. of Minnesota

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.

VISCLOSKY, Peter J. of Indiana

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 2310 To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

VOLKMER, Harold L. of Missouri

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2541 To establish a hydrogen research and development program.

H.R. 2542 To promote the development of technologies which will enable fuel cells to use alternative fuel sources.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 3765 To facilitate commercial access to space, and for other purposes.

H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.

H.R. 4399 To facilitate commercial access to space, and for other purposes.

H.R. 5405 To amend the Omnibus Trade and Competitiveness Act of 1988 to repeal certain requirements for the implementation of the metric system of measurements.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

VUCANOVICH, Barbara F. of Nevada

H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 5228 To authorize the appropriation of funds to reimburse persons whose property was damaged by an explosion in Clark County, Nevada, for certain uninsured expenses in connection with such damage.

WALGREN, Doug of Pennsylvania

H.R. 145 To provide for a computer standards program within the National Bureau of Standards, to provide for Government- wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes.

H.R. 812 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

H.R. 1621 To direct the Secretary of Transportation, in consultation with the National Research Council, National Academy of Sciences, and National Academy of Engineers, to carry out certain highway research.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

H.R. 2068 To establish the National Bureau of Standards and Industrial Competitiveness, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 2159 To amend the Stevenson-Wydler Act to establish the National Technical Information Corporation as a wholly-owned Government corporation under the direction and supervision of the Secretary of Commerce.

H.R. 2160 To authorize appropriations to the Secretary of Commerce for the programs of the National Bureau of Standards for fiscal year 1988, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 2219 To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a Center on State and Local Initiatives on Productivity, Technology, and Innovation, and for other purposes.

H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.

H.R. 2330 To authorize appropriations to the National Science Foundation for the fiscal year 1988, and for other purposes.

H.R. 2492 To establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such Services.

H.R. 2916 To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes.

H.R. 3704 To amend the Federal Fire Prevention and Control Act of 1974 to direct the Director of the Federal Emergency Management Agency, acting through the Administrator of the United States Fire Administration, to propose and promulgate a model code and guidelines governing the use and installation of automatic sprinkler systems in places of public accommodation affecting commerce, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4417 To authorize appropriations to the Secretary of Commerce for the programs of the National Bureau of Standards for fiscal year 1989, and for other purposes.

H.R. 4418 To authorize appropriations for the National Science Foundation for fiscal years 1989 and 1990, and for other purposes.

H.R. 4419 To authorize appropriations for activities under the Federal Fire Prevention and Control Act of 1974.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

H.R. 5120 To provide for a system of standardization of measurement of bolts to increase bolt quality and reduce the danger of substandard bolt failure, and for other purposes.

H.R. 5132 To amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer.

H.R. 5279 To promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes.

H.R. 5518 To establish the Congressional Scholarships for Science, Mathematics, and Engineering, and for other purposes.

H.Con.Res. 290 Supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction.

WALKER, Robert S. of Pennsylvania

H.R. 3765 To facilitate commercial access to space, and for other purposes.

H.R. 3779 To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes.

H.R. 4218 To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes.

H.R. 4399 To facilitate commercial access to space, and for other purposes.

H.R. 56122 To authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes.

H.Res. 574 To commemorate the successful return to flight by the Space Shuttle Discovery.

H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

WATKINS, Wes of Oklahoma

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 2135 To establish as an executive department of the Government a Department of International Trade and Industry, to establish the National Oceanic and Atmospheric Administration and the Bureau of the Census as independent agencies, and for other purposes.

94-889 - 89 - 7

WATKINS, Wes of Oklahoma—Continued

H.R. 2958 To establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes.
H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.
H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

WAXMAN, Henry A. of California

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.
H.R. 2253 To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.
H.J.Res. 646 Establishing the National Commission on Human Resources.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.

WEBER, Vin of Minnesota

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.Con.Res. 353 Expressing the sense of the Congress that the United States should make the space program a national priority.
H.Con.Res. 374 Expressing the sense of the Congress regarding funding for the space station program.

WEISS, Ted of New York

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.
H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.
H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.
H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.
H.R. 3809 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.
H.R. 4231 To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers.
H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.
H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.
H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.
H.R. 5373 To authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
H.R. 5460 To establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the earth's atmosphere, known as the "greenhouse effect".

WELDON, Curt of Pennsylvania

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.

WHITTAKER, Bob of Kansas

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.
H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".
H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.
H.R. 2737 To direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.
H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.
H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

WHITTAKER, Bob of Kansas—Continued

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

WHITTEN, Jamie L. of Mississippi

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

WILLIAMS, Pat of Montana

H.R. 1425 To provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes.

H.R. 1905 To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges.

WILSON, Charles of Texas

H.R. 737 Relating to the incineration at sea of hazadous waste.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

WISE, Robert E., Jr. of West Virginia

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2151 To establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan.

H.R. 2958 To establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

WOLF, Frank R. of Virginia

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

WOLPE, Howard of Michigan

H.R. 791 To authorize the water resources research activities of the United States Geological Survey, and for other purposes.

H.R. 2036 To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes.

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 2165 To advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

H.R. 4335 To establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes.

H.R. 4848 To enhance the competitiveness of American industry, and for other purposes.

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

WORTLEY, George C. of New York

H.R. 2134 To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes.

H.R. 3024 To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4454 To establish programs to promote recycling, and for other purposes.

H.R. 4935 To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries.

H.R. 5000 To encourage scientific research and development of technologies relating to recycling, and for other purposes.

H.R. 5032 To amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes.

WYDEN, Ron of Oregon

H.R. 145 To provide for a computer standards program within the National Bureau of Standards, to provide for Government- wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

H.R. 4230 To enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes.

WYDEN, Ron of Oregon—Continued

H.R. 5051 To require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce.

WYLIE, Chalmers P. of Ohio

H.R. 1155 Entitled, "The Trade, Employment, and Productivity Act of 1987".

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

YATES, Sidney R. of Illinois

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4226 To promote the development and commercialization of renewable energy and energy conservation.

YOUNG, C.W. Bill of Florida

H.R. 1513 To direct the Administrator of the Environmental Protection Agency to develop and demonstrate a water resources- aquatic plant management project and to provide grants for scientific research to support such project.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.Con.Res. 366 Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

YOUNG, Don of Alaska

H.R. 790 Entitled the "National Space Policy Act of 1987".

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

H.R. 4975 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned government corporation to manage the nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes. should continue to utilize the weather reconnaissance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior.

YOUNG, Don of Alaska

H.R. 790 Entitled the "National Space Policy Act of 1987".

H.R. 1517 To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes.

H.R. 3228 To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program.

H.R. 4489 To provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active uranium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes.

INDEX BY TOPIC OF MEASURES REFERRED TO THE COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY

A

Access to space, to facilitate commercial access to space, and for other purposes, H.R. 3765, by Mr. Nelson of Florida.

Acid rain, to amend the Clean Air Act to provide further controls of certain stationary sources of sulfur dioxides and nitrogen oxides to reduce acid deposition, to provide for the commercialization of clean coal technologies for existing stationary sources, and for other purposes, H.R. 4331, by Mr. Cooper.

Acid rain, to amend the Clean Air Act to better control sources of acid deposition, to assist States with the costs of controlling such sources, and for other purposes, H.R. 5032, by Mr. Boehlert.

Aging aircraft, to express the sense of the House of Representatives that the Federal Aviation Administration should immediately establish a research and development program to study structural fatigue, wear, corrosion and damage to aircraft resulting from age and intensive utilization and to conduct nondestructive and destructive testing of older aircraft on a reuglar basis, H.Res. 450, by Mr. Glickman.

Aircraft collision avoidance, to amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS–III collision avoidance system as soon as possible, and for other purposes, H.R. 1517, by Mr. Packard.

Aircraft reconnaisance, expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaisance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior, H.Con. Res. 366, by Mr. Lewis of Florida.

Airports and airways, to amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes, H.R. 2310, by Mr. Mineta; H.R. 3350, by Mr. Howard.

Air quality, to authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors, H.R. 5373, by Mr. Kennedy.

Air traffic control system, to direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes, H.R. 3779, by Mr. Buechner.

Aluminum, to promote energy conservation and technology competitiveness in the American steel and aluminum industries, S. 2470.

America's living standard, to promote economic competitiveness in the United States, and for other purposes, H.R. 717, by Mr. Brown of California.

Aquatic plants, to direct the Administrator of the Environmental Protection Agency to develop and demonstrate a water resources–aquatic plant management project and to provide grants for scientific research to support such project, H.R. 1513, by Mr. Lewis of Florida.

Aquatic plants, to direct the Secretary of the Army to develop and demonstrate methods for the management and control of aquatic plants in Lake Okeechobee, Florida, and for other purposes, H.R. 3244, by Mr. Lewis of Florida.

Aviation safety, to amend the Federal Aviation Act of 1958 relating to aviation research, H.R. 4686, by Mr. Lewis of Florida.

B

Biological diversity, to establish a national policy for the conservation of biological diversity; to support environmental research and training necessary for conservation and sustainable use of biotic natural resources; to establish mechanisms for carrying out the national policy and for coordinating related activities; and to facilitate the collection, synthesis, and dissemination of information necessary for these purposes, H.R. 4335, by Mr. Scheuer.

Biotechnology, to amend the Public Health Service Act to improve information and research on biotechnology and the human genome, and for other purposes, S. 1966.

Biotechnology, to establish a national advisory commission to promote and coordinate scientific information and research on biotechnology, and for other purposes, H.R. 4502, by Mr. Scheuer.

Bolt quality, to provide for a system of standardization of measurement of bolts to increase bolt quality and reduce the danger of substandard bolt failure, and for other purposes, H.R. 5120, by Mr. Roe.

C

Centrifuge technology investment, to assist in creating a viable domestic uranium enrichment industry, to insure the maximum economic utilization of the existing diffusion plant assets, to establish mechanisms which would permit the creation of a privately owned corporation or a mixed Government privately owned corporation to utilize the Federal Government's investment in centrifuge technology and in the centrifuge assets, to establish alternate sources of enrichment supply, so as to create American jobs, to return moneys to the Government and to increase American industrial competitiveness in world wide nuclear fuel sales, H.R. 5433, by Mr. Lujan.

Cerro Tololo, honoring the twenty-fifth anniversary of the Cerro Tololo Inter-American Observatory, H.Res. 369, by Mr. Roe.

Challenger, in memorium of the crew of the space shuttle Challenger, H.Res. 55, by Mr. Roe.

Chesapeake Bay, to protect the Chesapeake Bay from the disposal of medical waste, and for other purposes, H.R. 5571, by Mr. McMillen.

Clean air, to amend the Clean Air Act to provide further controls of certain stationary sources of sulfur dioxides and nitrogen oxides to reduce acid deposition, to provide for the commercialization of clean coal technologies for existing stationary sources, and for other purposes, H.R. 4331, by Mr. Cooper.

Clean air, to amend the Clean Air Act to better control sources of acid deposition, to assist States with costs of controlling such sources, and for other purposes, H.R. 5032, by Mr. Boehlert.

Climate Program, to authorize appropriations for carrying out the National Climate Program for fiscal years 1988 and 1989, H.R. 1739, by Mr. Roe.

Collision avoidance, to amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS-III collision avoidance system as soon as possible, and for other purposes, H.R. 1517, by Mr. Packard.

Commercial access, to facilitate commercial access to space, and for other purposes, H.R. 4399, by Mr. Nelson of Florida.

Commercial Space Launch Act, to facilitate commercial access to space, and for other purposes, H.R. 3765, by Mr. Nelson of Florida.

COMPETITIVENESS

To promote economic competitiveness in the United States, and for other purposes, H.R. 717, by Mr. Brown of California.

To increase investment in human and intellectual capital, to promote the development of science and technology, to enhance the protection of intellectual property, to bring about legal and regulatory reform essential to the elimination of obstacles to competitiveness, to improve the international economic environment, and for other purposes, H.R. 1155, by Mr. Michel.

To establish a Trade Development Investment Trust Fund to provide funds for efforts to improve the United States competitiveness in international trade, and for other purposes, H.R. 1650, by Mr. Jeffords.

To establish the National Bureau of Standards and Industrial Competitiveness, and for other purposes, H.R. 2068, by Mr. Ritter.

To amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a Center on State and Local Initiatives on Productivity, Technology, and Innovation, and for other purposes, H.R. 2219, by Miss Schneider.

To establish a national advanced technician training program, utilizing the resources of the Nation's two-year associate-degree-granting colleges to expand the pool of skilled technicians in strategic advanced-technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes, H.R. 2134, by Mr. Walgren.

To amend the Act of March 3, 1901, and the Stevenson-Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes, H.R. 2916, by Mr. Roe.

To promote energy conservation and technology competitiveness in the American steel and aluminum industries, S. 2470.

To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes, H.R. 4465, by Mr. Owens of Utah.

To enhance the competitiveness of American industry, and for other purposes, H.R. 4848, by Mr. Rostenkowski.

To assist in creating a viable domestic uranium enrichment industry, to insure the maximum economic utilization of the existing diffusion plant assets, to establish mechanisms which would permit the creation of a privately owned corporation to utilize the Federal Government's investment in centrifuge technology and in the centrifuge assets, to establish alternate sources of enrichment supply, so as to create American jobs, to return moneys to the Government and to increase American industrial competitiveness in world wide nuclear fuel sales, H.R. 5433, by Mr. Lujan.

C—Continued

Computer security, to provide for a computer standards program within the National Bureau of Standards, to provide for Government-wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes, H.R. 145, by Mr. Glickman.

Continental Scientific Drilling and Exploration Act, to direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling and Exploration Program, H.R. 2737, by Miss Schneider; S. 52.

Controller performance research, to direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes, H.R. 3779, by Mr. Buechner.

Crew rescue capability, expressing the sense of the Congress that the National Aeronautics and Space Administration should develop and maintain a crew rescue capability in support of the Space Station Freedom, H.Con. Res. 384, by Mr. Traficant.

D

DEPARTMENT OF ENERGY

To authorize appropriations to the Department of Energy for civilian energy research and development programs for fiscal year 1988, H.R. 2368, by Mrs. Lloyd.

To authorize appropriations to the Department of Energy for civilian energy programs for fiscal year 1988, H.R. 2369, by Mrs. Lloyd.

To promote the development of technologies which will enable fuel cells to use alternative fuel sources, H.R. 2542, by Mr. Brown of California.

To provide permanent authority to the Department of Energy to indemnify its civilian nuclear energy research and development contractors, H.R. 2751, by Mrs. Lloyd.

To improve the integration of universities and private industry into the National Laboratory system of the Department of Energy in order to speed the development of technology in areas of significant economic potential, H.R. 3006, by Mr. Lujan.

To suspend certain activities of the Secretary of Energy under the Nuclear Waste Policy Act of 1982, to authorize construction of regional monitored retrievable storage facilities, and for other purposes, H.R. 3077, by Mr. Morrison of Washington.

To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program, H.R. 3228, by Mr. Roe.

To require the Secretary of Energy to make certain assessments with respect to the research and development of the Superconducting Super Collider program, H.R. 3463, by Mr. Hall of Texas.

Recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental Reactor, H.Con. Res. 254, by Mr. Stark.

To promote the development of technologies which will enable fuel cells to use alternative fuel sources, S. 1294.

To amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes, H.R. 4071, by Mr. Slattery.

To create a Federal facility nuclear cleanup trust fund, to require the Secretary of Energy and the Administrator of the Environmental Protection Agency to enter into compliance agreements for environmental cleanup of Federal nuclear facilities, to create a special environmental counsel, to provide for research and development for Federal nuclear facilities, and for other purposes, H.R. 4193, by Mr. Bonker.

To require the Secretary of Energy to develop a plan for demonstrating the technical feasiblity of burning weapons grade nuclear materials that have been removed from dismantled nuclear weapons in nuclear reactors of the Department of Energy and to report to Congress on that plan, and to require the President to consider inviting the Soviet Union to participate in the demonstration, H.R. 4224, by Mr. Morrison of Washington.

To promote the development and commercialization of renewable energy and energy conservation, H.R. 4226, by Mr. Sharp.

To preserve the independence of the scientific evaluation group for the Waste Isolation Pilot Plant in New Mexico, H.R. 4283, by Mr. Skeen.

To provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes, H.R. 4465, by Mr. Owens of Utah.

To authorize appropriations to the Department of Energy for civilian research and development programs for fiscal year 1989, H.R. 4505, by Mrs. Lloyd.

To establish a standard nuclear reactor program to develop an inherently safe and economic nuclear reactor, and for other purposes, H.R. 5040, by Mr. Udall.

To amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer, H.R. 5132, by Mrs. Lloyd.

D—Continued

To amend the Energy Policy and Conservation Act to increase the efficiency and effectiveness of State energy conservation programs conducted under such Act, and for other purposes, H.R. 5424, by Mr. Sharp.

Department of Industry and Technology, to establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes, H.R. 2958, by Mr. Levine of California.

Department of International Trade and Industry, to establish as an executive department of the Government a Department of International Trade and Industry, to establish the National Oceanic and Atmospheric Administration and the Bureau of the Census as independent agencies, and for other purposes, H.R. 2135, by Mr. Watkins.

Drug abuse, to enact the Omnibus Antidrug Abuse Act of 1988, and for other purposes, H.R. 4230, by Mr. English.

E

ENVIRONMENTAL PROTECTION AGENCY

Entitled the "Plastic Waste Study Act of 1987", H.R. 474, by Mr. Hughes.

To direct the Administrator of the Environmental Protection Agency to develop and demonstrate a water resources-aquatic plant management project and to provide grants for scientific research to support such project, H.R. 1513, by Mr. Lewis of Florida.

To authorize appropriations for environmental research, development, and demonstration for fiscal years 1988 and 1989, H.R. 1523, by Mr. Roe.

To require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes, H.R. 2036, by Mr. Bates.

To establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources, H.R. 2253, by Mr. Scheuer.

To authorize appropriations for environmental research, development, and demonstration for the fiscal years 1988 and 1989, and for other purposes, H.R. 2355, by Mr. Scheuer.

To direct the Administrator of the Environmental Protection Agency to conduct a study of possible solutions to certain problems associated with disposal of nonbiodegradable plastics, and to control pollution of the environment caused by the discarding of plastics on the land and in water, H.R. 2527, by Mr. Panetta.

To authorize the Administrator of the Environmental Protection Agency to establish an industrial assistance program for reducing the generation of all environmental pollutants and hazardous waste at their source, to assist States in establishing waste reduction programs, to establish an Office of Waste Reduction, and for other purposes, H.R. 3094, by Mr. Green.

To direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes, H.R. 3300, by Mrs. Boxer.

To create a Federal facility nuclear cleanup trust fund, to require the Secretary of Energy and the Administrator of the Environmental Protection Agency to enter into compliance agreements for environmental cleanup of Federal nuclear facilities, to create a special environmental counsel, to provide for research and development for Federal nuclear facilities, and for other purposes, H.R. 4193, by Mr. Bonker.

To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers, H.R. 4231, by Mr. Brennan.

To establish programs to promote recycling, and for other purposes, H.R. 4454, by Mr. Courter.

To require the Environmental Protection Agency to conduct research on the management of infectious medical wastes, H.R. 5466, by Mr. Roe.

To reauthorize title II of the Marine Protection, Research, and Sanctuaries Act of 1972, for fiscal years 1989 and 1990, and for other purposes, H.R. 4210, by Mr. Lowry of Washington.

Earthquake hazards, to authorize appropriations under the Earthquake Hazards Reduction Act of 1977 for fiscal years 1988 and 1989, H.R. 1612, by Mr. Roe.

Economic competitiveness, to promote economic competitiveness in the United States, and for other purposes, H.R. 717, by Mr. Brown of California.

Economic competitiveness, to establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes, H.R. 2958, by Mr. Levine of California.

E—Continued

Energy commercialization, to promote the development and commercialization of renewable energy and energy conservation, H.R. 4226, by Mr. Sharp.

Energy conservation, to amend the Energy Policy and Conservation Act to increase the efficiency and effectiveness of State energy conservation programs conducted under such Act, and for other purposes, H.R. 5424, by Mr. Sharp.

Energy policy, to establish a national energy policy to reduce global warming, and for other purposes, H.R. 5380, by Mr. AuCoin.

Energy programs, to authorize appropriations to the Department of Energy for civilian energy programs for fiscal year 1988, H.R. 2369, by Mrs. Lloyd.

Energy programs, to authorize appropriations to the Department of Energy for civilian research and development programs for fiscal year 1989, H.R. 4505, by Mrs. Lloyd.

Energy R&D, to authorize appropriations to the Department of Energy for civilian energy research and development programs for fiscal year 1988, H.R. 2368, by Mrs. Lloyd.

Energy R&D contractors, to provide permanent authority to the Department of Energy to indemnify its civilian nuclear energy research and development contractors, H.R. 2751, by Mrs. Lloyd.

Environmental policy, to provide for development of a National Global Change Research Plan to coordinate oceanographic, atmospheric, terrestrial, and cryospheric research programs, and to establish the Council on Global Environmental Policy, H.R. 5421, by Mr. Jones of North Carolina.

Extension services, to establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such Services, H.R. 2492, by Mr. Boehlert.

F

Family farms, to provide price and income protection to family farmers through the management supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes, H.R. 1425, by Mr. Gephardt.

Fastener quality, to require that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured and to provide for the approval of accreditation systems for laboratories testing fasteners sold in commerce, H.R. 5051, by Mr. Dingell.

FEDERAL AVIATION ADMINISTRATION

To amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS–III collision avoidance system as soon as possible, and for other purposes, H.R. 1517, by Mr. Packard.

To amend the Airport and Airway Improvement Act of 1982 for the purpose of extending the authorization of appropriations for airport and airway improvements, and for other purposes, H.R. 2310, by Mr. Mineta; H.R. 3350, by Mr. Howard.

To direct the Administrator of the Federal Aviation Administration to conduct research into the consequences for the air traffic control system of automation of such system, and for other purposes, H.R. 3779, by Mr. Buechner.

Expressing the sense of the Congress that procurement of the new United States weather radar system, NEXRAD, continue on schedule and according to the established minimum requirements agreed to by the National Weather Service, the Federal Aviation Administration, and the Department of Defense, H.Con. Res. 69, by Mr. Roe.

To express the sense of the House of Representatives that the Federal Aviation Administration should immediately establish a research and development program to study structural fatigue, wear, corrosion and damage to aircraft resulting from age and intensive utilization and to conduct non-destructive and destructive testing of older aircraft on a regular basis, H.Res. 450, by Mr. Glickman.

To amend the Federal Aviation Act of 1958 relating to aviation research, H.R. 4686, by Mr. Lewis of Florida.

FEDERAL EMERGENCY MANAGEMENT AGENCY

To authorize appropriations for activities under the Federal Fire Prevention and Control Act of 1974, H.R. 1522, by Mr. Roe.

To authorize appropriations under the Earthquake Hazards Reduction Act of 1977 for fiscal years 1988 and 1989, H.R. 1612, by Mr. Roe.

To amend the Federal Fire Prevention and Control Act of 1974 to direct the Director of the Federal Emergency Management Agency, acting through the Administrator of the United States Fire Administration, to propose and promulgate a model code and guidelines governing the use and installation of automatic sprinkler systems in places of public accommodation affecting commerce, and for other purposes, H.R. 3704, by Mr. Walgren.

To authorize appropriations for activities under the Federal Fire Prevention and Control Act of 1974, H.R. 4419, by Mr. Walgren.

F--Continued

Fire prevention, to authorize appropriations for activities under the Federal Fire Prevention and Control Act of 1974, H.R. 1522, by Mr. Roe; H.R. 4419, by Mr. Walgren.

Fuel cells, to promote the development of technologies which will enable fuel cells to use alternative fuel sources, H.R. 2542, by Mr. Brown of California; S. 1294.

G

Genetic engineering, to regulate the use of genetically-engineered animals in agricultural activities, and for other purposes, H.R. 4971, by Mr. Kastenmeier.

Global change research, to require the President to take appropriate actions domestically and internationally to establish a Global Change Research Program aimed at understanding the cumulative impacts of man on his environment, H.R. 3497, by Mr. Hall of Texas.

Global environmental policy, to provide for development of a National Global Change Research Plan to coordinate oceanographic, atmospheric, terrestrial, and cryospheric research programs, and to establish the Council on Global Environmental Policy, H.R. 5421, by Mr. Jones of North Carolina.

Global warming, to establish a national energy policy to reduce global warming, and for other purposes, H.R. 5380, by Mr. AuCoin.

Government Information Agency, to establish the Government Information Agency to enhance the economic, scientific, and technological position of the United States by acquiring, processing, and distributing the fruits of federally performed and federally sponsored research, development, and analysis, and for other purposes, H.R. 1615, by Mr. Brown of California.

Great Lakes, to protect the Great Lakes from the disposal of medical waste, and for other purposes, H.R. 5249, by Mr. Davis of Michigan.

Greenhouse effect, to request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect, H.Con. Res. 52, by Mr. Green.

Greenhouse effect/global warming, to establish national policies and support and encourage international agreements that implement energy and natural resource conservation strategies appropriate to preventing the overheating of the Earth's atmosphere, known as the "greenhouse effect", H.R. 5460, by Miss Schneider.

Ground water research, to authorize the water resources research activities of the United States Geological Survey, and for other purposes, H.R. 791, by Mr. Gejdenson.

Ground water research, to establish within the Environmental Protection Agency a comprehensive program of environmental research, development, and demonstration relating to ground water contamination and ground water resources, H.R. 2253, by Mr. Scheuer.

Ground water research, to authorize the water resource activities of the United States Geological Survey, to coordinate and improve ground water research, development and demonstration activities of Federal agencies, to improve understanding of the relationship between agricultural practices and ground water use, to provide assistance for small communities with ground water radium contamination, and for other purposes, H.R. 3676, by Mr. Foley.

H

Hazardous waste reduction, to direct the Director of the Office of Technology Assessment to prepare a report regarding hazardous waste reduction and management; to direct the Administrator of the Environmental Protection Agency to prepare a hazardous waste reduction and management plan; and for other purposes, H.R. 3300, by Mrs. Boxer.

Hazardous waste, relating to the incineration at sea of hazardous waste, H.R. 737, by Mr. Dyson.

Highway research, to direct the Secretary of Transportation, in consultation with the National Research Council, National Academy of Sciences, and National Academy of Engineers, to carry out certain highway research, H.R. 1621, by Mr. Glickman.

Hotel-Motel fire safety, to amend the Federal Fire Prevention and Control Act of 1974 to direct the Director of the Federal Emergency Management Agency, acting through the Administrator of the United States Fire Administration, to propose and promulgate a model code and guidelines governing the use and installation of automatic sprinkler systems in places of public accommodation affecting commerce, and for other purposes, H.R. 3704, Mr. Walgren.

Human genome, to amend the Public Health Service Act to improve information and research on biotechnology and the human genome, and for other purposes, S. 1966.

Human resources, establishing the National Commission on Human Resources, H.J. Res. 646, by Mr. Waxman.

Hydrogen, to establish a hydrogen research and development program, H.R. 2541, by Mr. Brown of California.

I

Indemnification, to amend the Price-Anderson provisions of the Atomic Energy Act of 1954 to extend and improve the procedures for liability and indemnification for nuclear incidents, H.R. 1414, by Mr. Udall.

I—Continued

Indemnification, to provide permanent authority to the Department of Energy to indemnify its civilian nuclear energy research and development contractors, H.R. 2751, by Mrs. Lloyd.

Indoor air quality, to authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors, H.R. 3809; H.R. 5373, by Mr. Kennedy.

Industrial extension services, to establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such services, H.R. 2492, by Mr. Boehlert.

Industry and technology, to establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes, H.R. 2958, by Mr. Levine of California.

Information, to establish the Government Information Agency to enhance the economic, scientific, and technological position of the United States by acquiring, processing, and distributing the fruits of federaliy performed and federally sponsored research, development, and analysis, and for other purposes, H.R. 1615, by Mr. Brown of California.

Innovation, to amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a Center on State and Local Initiatives on Productivity, Technology, and Innovation, and for other purposes, H.R. 2219, by Miss Schneider.

International scientific and technological agreements, to establish an interagency committee to review proposed international scientific and technological agreements and increase through negotiations for such agreements equivalent technological access between the United States and foreign countries, H.R. 3656, by Mr. Sensenbrenner.

International security, to establish the Commission on International Security and Satellite Monitoring, H.R. 4036, by Mr. Mrazek.

International study, expressing the sense of the Congress that the United States should enter into a joint high-level scientific study with the Soviet Union to determine the long-term climatic and environmental effects of a nuclear exchange, H.Con. Res. 73, by Mr. Huckaby.

International Thermonuclear Experimental Reactor, recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental Reactor, H.Con. Res. 254, by Mr. Stark.

International trade, to establish as an executive department of the Government a Department of International Trade and Industry, to establish the National Oceanic and Atmospheric Administration and the Bureau of the Census as independent agencies, and for other purposes, H.R. 2135, by Mr. Watkins.

Inventions, to amend title 35, United States Code, and the National Aeronautics and Space Act of 1958, with respect to the use of inventions in outer space, H.R. 1510, by Mr. Kastenmeier; H.R. 1521, by Mr. Roe.

J

K

L

Laboratories, to amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer, H.R. 5132, by Mrs. Lloyd.

Landsat, declaring the support of the Congress for continuation of civil land remote-sensing activities, for the benefit of all mankind, through the continuation and commercialization of the existing Landsat program, H.Con. Res. 167, by Mr. Scheuer.

M

Magnetic fusion, recommending that the Department of Energy work more closely with other nations in the field of magnetic fusion research and that the Department continue to pursue an agreement with other nations to jointly design the International Thermonuclear Experimental Reactor, H.Con. Res. 254, by Mr. Stark.

Marine protection, to amend title II of the Marine Protection, Research, and Sanctuaries Act of 1972, as amended, to authorize appropriations for fiscal years 1988 and 1989, H.R. 1627, by Mr. Roe; H.R. 4210, by Mr. Lowry of Washington.

Marine protection, to amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers, H.R. 4231, by Mr. Brennan.

Mars, to establish a National Mars Commission, and for other purposes, H.R. 3858, by Mr. Torricelli.

Mathematics education, to amend the National Science Foundation Act of 1950 to provide for the continuing evaluation and improvement of curricula in the fields of mathematics, science, and technology, and for the continuing evaluation of developments in educational applications of new technologies, H.R. 2315, by Mr. Green.

M—Continued

Medical waste, to protect the Great Lakes from the disposal of medical wastes, and for other purposes, H.R. 5249, by Mr. Davis of Michigan.

Medical waste, to require the Environmental Protection Agency to conduct research on the management of infectious medical wastes, H.R. 5466, by Mr. Roe.

Medical waste, to protect the Chesapeake Bay from the disposal of medical waste, and for other purposes, H.R. 5571, by Mr. McMillen of Maryland.

Metric system, to amend the Metric Conversion Act of 1975 to increase the use of the metric system in Government programs, H.R. 1964, by Mr. Brown of California.

Metric system, to amend the Omnibus Trade and Competitiveness Act of 1988 to repeal certain requirements for the implementation of the metric system of measurements, H.R. 5405, by Mr. Volkmer.

N

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

To allow the National Aeronautics and Space Administration to accept restricted gifts, H.R. 173, by Mr. Lagomarsino.

To prohibit further launches of the space shuttle until improved safety features have been developed and installed, H.R. 942, by Mr. Traficant.

To amend title 35, United States Code, and the National Aeronautics and Space Act of 1958, with respect to the use of inventions in outer space, H.R. 1510, by Mr. Kastenmeier; H.R. 1521, by Mr. Roe.

To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only, H.R. 1733, by Mr. Mineta.

To authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes, H.R. 1741, by Mr. Roe; H.R. 2782, by Mr. Roe.

In memorium of the crew of the space shuttle Challenger, H.Res. 55, by Mr. Roe.

Expressing the sense of the House of Representatives that the NASA Distinguished Service Medal should be taken away from Arthur Rudolph, H.Res. 164, by Mr. Green.

To commemorate the successful return to flight by the Space Shuttle Discovery, H.Res. 574, by Mr. Roe.

To reduce the amount of manmade material in space, H.J. Res. 668, by Mr. Gonzalez.

Expressing the sense of the Congress that the United States should make the space program a national priority, H.Con. Res. 353, by Mr. Buechner.

Expressinsg the sense of the Congress regarding funding for the space station program, H.Con. Res. 374, by Mr. Packard.

Expressing the sense of the Congress that the National Aeronautics and Space Administration should develop and maintain a crew rescue capability in support of the Space Station Freedom, H.Con. Res. 384, by Mr. Traficant.

To establish a National Mars Commission, and for other purposes, H.R. 3858, by Mr. Torricelli.

To authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes, H.R. 4157, by Mr. Roe.

To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes, H.R. 4218, by Mr. Brown of California.

To designate the National Space Technology Laboratories in Bay St. Louis, Mississippi, as the John C. Stennis Space Center, H.R. 4560, by Mr. Lott.

To authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes, H.R. 4561, by Mr. Nelson of Florida.

To authorize the appropriation of funds to reimburse persons whose property was damaged by an explosion in Clark County, Nevada, for certain uninsured expenses in connection with such damage, H.R. 5228, by Mr. Roe.

NATIONAL BUREAU OF STANDARDS

To provide for a computer standards program within the National Bureau of Standards, to provide for Government-wide computer security, and to provide for the training in security matters of persons who are involved in the management, operation, and use of Federal computer systems, and for other purposes, H.R. 145, by Mr. Glickman.

To establish within the National Bureau of Standards an Office of Extension Services to support, advise, and assist the various State Industrial Extension Services, and to provide for a 3-year pilot grant program to demonstrate methods by which the Federal Government can help States establish, improve, and expand such services, H.R. 2492, by Mr. Boehlert.

N—Continued

To authorize appropriations to the Secretary of Commerce for the programs of the National Bureau of Standards for fiscal year 1988, and for other purposes, H.R. 2160, by Mr. Walgren.

To establish the National Bureau of Standards and Industrial Competitiveness, and for other purposes, H.R. 2068, by Mr. Ritter.

To authorize appropriations to the Secretary of Commerce for the programs of the National Bureau of Standards for fiscal year 1989, and for other purposes, H.R. 4417, by Mr. Walgren.

National Climate Program, to authorize appropriations for carrying out the National Climate Program for fiscal years 1988 and 1989, H.R. 1739, by Mr. Roe.

National Critical Materials Council, to enhance the competitiveness of American industry, and for other purposes, H.R. 4848, by Mr. Rostenkowski.

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

To authorize appropriations to the Secretary of Commerce for the programs of the National Bureau of Standards for fiscal year 1989, and for other purposes, H.R. 4417, by Mr. Walgren.

To enhance the competitiveness of American industry, and for other purposes, H.R. 4848, by Mr. Rostenkowski.

To authorize appropriations to the Secretary of Commerce for the programs of the National Institute of Standards and Technology for fiscal year 1989, and for other purposes, H.R. 5183, by Mr. Roe.

National laboratories, to improve the integration of universities and private industry into the National Laboratory system of the Department of Energy in order to speed the development of technology in areas of significant economic potential, H.R. 3006, by Mr. Lujan.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

To establish as an executive department of the Government a Department of International Trade and Industry, to establish the National Oceanic and Atmospheric Administration and the Bureau of the Census as independent agencies, and for other purposes, H.R. 2135, by Mr. Watkins.

To authorize certain atmospheric and satellite programs and functions of the National Oceanic and Atmospheric Administration, and for other purposes, S. 1667.

To request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect, H.Con. Res. 52, by Mr. Green.

Expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaisance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior, H.Con. Res. 366, by Mr. Lewis of Florida.

To reauthorize title II of the Marine Protection, Research, and Sanctuaries Act of 1972, for fiscal years 1989 and 1990, and for other purposes, H.R. 4210, by Mr. Lowry of Washington.

To reauthorize the National Ocean Pollution Planning Act of 1978 for fiscal years 1989 and 1990, and for other purposes, H.R. 4211, by Mr. Lowry of Washington.

To amend the Marine Protection, Research, and Sanctuaries Act of 1972 to protect the marine environment through the establishment of regional marine research centers, H.R. 4231, by Mr. Brennan.

To establish the National Oceanic and Atmospheric Administration as an independent agency of the Government, and for other purposes, H.R. 5070, by Mr. Lowry of Washington.

NATIONAL SCIENCE FOUNDATION

To assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges, H.R. 1905, by Mr. Roe.

To amend the National Science Foundation Act of 1950 to provide for the continuing evaluation and improvement of curricula in the fields of mathematics, science, and technology, and for the continuing evaluation of developments in educational applications of new technologies, H.R. 2315, by Mr. Green.

To authorize appropriations to the National Science Foundation for the fiscal year 1988, and for other purposes, H.R. 2330, by Mr. Walgren.

To authorize appropriations for the National Science Foundation for fiscal years 1989 and 1990, and for other purposes, H.R. 4418, by Mr. Walgren.

Natural disaster reduction, supporting the International Decade for Natural Disaster Reduction by endorsing the establishment of a United States Decade for Natural Disaster Reduction, H.Con. Res. 290, by Mr. Brown of California.

N—Continued

NEXRAD, expressing the sense of the Congress that procurement of the new United States weather radar system, NEXRAD, continue on schedule and according to the established minimum requirements agreed to by the National Weather Service, the Federal Aviation Administration, and the Department of Defense, H.Con. Res. 69, by Mr. Roe.

Nuclear energy R&D contractors, to provide permanent authority to the Department of Energy to indemnify its civilian nuclear energy research and development contractors, H.R. 2751, by Mrs. Lloyd.

Nuclear fuel, to assist in creating a viable domestic uranium enrichment industry, to insure the maximum economic utilization of the existing diffusion plant assets, to establish mechanisms which would permit the creation of a privately owned corporation or a mixed Government privately owned corporation to utilize the Federal Government's investment in centrifuge technology and in the centrifuge assets, to establish alternate sources of enrichment supply, so as to create American jobs, to return moneys to the Government and to increase American industrial competitiveness in world wide nuclear fuel sales, H.R. 5433, by Mr. Lujan.

Nuclear power, to promote a United States-Soviet Union ban on the use of nuclear power sources in orbit around the Earth, and for other purposes, H.R. 5279, by Mr. Brown of California.

Nuclear reactor, to establish a standard nuclear reactor program to develop an inherently safe and economic nuclear reactor, and for other purposes, H.R. 5040, by Mr. Udall.

Nuclear war effects, expressing the sense of the Congress that the United States should enter into a joint high-level scientific study with the Soviet Union to determine the long-term climatic and environmental effects of a nuclear exchange, H.Con. Res. 73, by Mr. Huckaby.

Nuclear waste disposal, to amend the Nuclear Waste Policy Act of 1982 to encourage the continuation of research on the subseabed disposal of nuclear waste by establishing an Office of Alternative Disposal Methods, and for other purposes, H.R. 3499, by Mr. Jones of North Carolina.

Nutrition monitoring, to provide price and income protection to family farmers through the management of the supply of the 1988 through 2000 crops of certain agricultural commodities, to enhance the ability of eligible farm borrowers of qualifying States and the farm creditors of such borrowers to restructure farm loans, to provide grants to States to assist persons leaving farming, and for other purposes, H.R. 1425, by Mr. Gephardt.

Nutrition monitoring, to establish a coordinated National Nutrition Monitoring and Related Research Program, and a comprehensive plan for the assessment of the nutritional and dietary status of the United States population and the nutritional quality of the United States food supply, with provision for the conduct of scientific research and development in support of such program and plan, H.R. 2151, by Mr. MacKay; S. 1081.

O

Ocean incineration, relating to the incineration at sea of hazardous waste, H.R. 737, by Mr. Dyson.

Ocean pollution, to reauthorize the National Ocean Pollution Planning Act of 19978 for fiscal years 1989 and 1990, and for other purposes, H.R. 4211, by Mr. Lowry of Washington.

Outer space, to amend title 35, United States Code, and the National Aeronautics and Space Act of 1958, with respect to the use of invention in outer space, H.R. 1510, by Mr. Kastenmeier; H.R. 1521, by Mr. Roe.

Ozone protection, to require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes, H.R. 2036, by Mr. Bates.

P

Plastic waste, to direct the Administrator of the Environmental Protection Agency to conduct a study of possible solutions to certain problems associated with disposal of nonbiodegradable plastics, and to control pollution of the environment caused by the discarding of plastics on the land and in water, H.R. 2527, by Mr. Panetta.

Plastic waste, entitled the "Plastic Waste Study Act of 1987", H.R. 474, by Mr. Hughes.

Policy and technology, to advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes, H.R. 2165, by Mr. Brown of California.

Preventive environmental protection, to authorize the Administrator of the Environmental Protection Agency to establish an industrial assistance program for reducing the generation of all environmental pollutants and hazardous waste at their source, to assist States in establishing waste reduction programs, to establish an Office of Waste Reduction, and for other purposes, H.R. 3094, by Mr. Green.

Price-Anderson, to amend the Price-Anderson provisions of the Atomic Energy Act of 1954 to extend and improve the procedures for liability and indemnification for nuclear incidents, H.R. 1414, by Mr. Udall.

Q

Quality improvement, to amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services, H.R. 812, by Mr. Walgren.

R

Radioactive waste storage, to suspend certain activities of the Secretary of Energy under the Nuclear Waste Policy Act of 1982, to authorize construction of regional monitored retrievable storage facilities, and for other purposes, H.R. 3077, by Mr. Morrison of Washington.

Recycle, to establish programs to promote recycling, and for other purposes, H.R. 4454, by Mr. Courter.

Recycle, to encourage scientific research and development of technologies relating to recycling, and for other purposes, H.R. 5000, by Mr. Hochbrueckner.

Renewable energy, to promote the development of technologies which will enable fuel cells to use alternative fuel sources, H.R. 2542, by Mr. Brown of California; S. 1294.

Renewable energy, to promote the development and commercialization of renewable energy and energy conservation, H.R. 4226, by Mr. Sharp.

Research facilities, to enhance the competitiveness of American industry, and for other purposes, H.R. 4848, by Mr. Rostenkowski.

S

Satellite monitoring, to establish the Commission on International Security and Satellite Monitoring, H.R. 4036, by Mr. Mrazek.

Science education, to amend the National Science Foundation Act of 1950 to provide for the continuing evaluation and improvement of curricula in the fields of mathematics, science, and technology, and for the continuing evaluation of developments in educational applications of new technologies, H.R. 2315, by Mr. Green.

Scientific and technological agreements, to establish an interagency committee to review proposed international scientific and technological agreements and increase through negotiations for such agreements equivalent technological access between the United States and foreign countries, H.R. 3656, by Mr. Sensenbrenner.

Scientific scholarships, to establish the Congressional Scholarships for Science, Mathematics, and Engineering, and for other purposes, H.R. 5518, by Mr. Walgren.

Semiconductor research, to advance the national leadership in semiconductor technology, to establish a National Advisory Committee on Semiconductors, and for other purposes, H.R. 2191, by Mr. Valentine.

Separation of powers, to repeal certain provisions of law which violate the doctrine of separation of powers and to eliminate certain restrictions on the authority of the executive branch, H.R. 2520, by Mr. Dornan.

Solar energy R&D, to provide adequate funding levels for solar energy research and development, to encourage Federal procurement of solar energy systems, to encourage Federal loans for solar energy equipment, to enhance the international competitiveness of the solar industry, and for other purposes, H.R. 4465, by Mr. Owens of Utah.

SPACE

Entitled the "National Space Policy Act of 1987", H.R. 790, by Mr. Dornan.

To prohibit further launches of the space shuttle until improved safety features have been developed and installed, H.R. 942, by Mr. Traficant.

To establish a National Space Grant College and Fellowship Program, H.R. 1633, by Mr. Andrews.

To make it clear that the space station being planned and developed by NASA is to be used for civilian purposes only, H.R. 1733, by Mr. Mineta.

To authorize appropriations for the fiscal years 1988 and 1989 for the Office of Commercial Space Transportation of the Department of Transportation, H.R. 1740, by Mr. Roe.

To facilitate commercial access to space, and for other purposes, H.R. 3765, by Mr. Nelson of Florida.

In memorium of the crew of the space shuttle Challenger, H.Res. 55, by Mr. Roe.

To commemorate the successful return to flight by the Space Shuttle Discovery, H.Res. 574, by Mr. Roe.

To reduce the amount of manmade material in space, H.J. Res. 668, by Mr. Gonzalez.

Expressing the sense of the Congress that the United States should make the space program a national priority, H.Con. Res. 353, by Mr. Buechner.

Expressing the sense of the Congress regarding funding for the space station program, H.Con. Res. 374, by Mr. Packard.

To require the National Aeronautics and Space Administration to investigate and promote the development of human settlements in space, and for other purposes, H.R. 4218, by Mr. Brown of California.

To facilitate commercial access to space, and for other purposes, H.R. 4399, by Mr. Nelson of Florida.

To amend the Export Administration Act of 1979 to prohibit United States corporations from entering into commercial ventures using the Soviet space station and to prohibit United States satellites from being launched from launch vehicles owned by certain countries, H.R. 4816, by Mr. Solomon.

To amend the Export Administration Act of 1979 to prohibit United satellites from being launched from launch vehicles owned by certain countries, H.R. 4935, by Mr. Solomon.

To reestablish the National Aeronautics and Space Council, and for other purposes, H.R. 5444, by Mr. Hefley.

Steel, to promote energy conservation and technology competitiveness in the American steel and aluminum industries, S. 2470.

STORM, expressing the sense of the Congress that the Federal Government take immediate steps to support a National STORM Program, H.Con. Res. 71, by Mr. Roe.

Stratospheric ozone, to require the Environmental Protection Agency to take certain steps to protect the stratospheric ozone layer from depletion resulting from chlorofluorocarbons, and for other purposes, H.R. 2036, by Mr. Bates.

Subseabed nuclear waste disposal, to amend the Nuclear Waste Policy Act of 1982 to encourage the continuation of research on the subseabed disposal of nuclear waste by establishing an Office of Alternative Disposal methods, and for other purposes, H.R. 3499, by Mr. Jones of North Carolina.

SUPERCONDUCTIVITY AND SUPERCONDUCTORS

To create a National Commission on Commercial and National Defense Applications of Superconductors to study methods of developing improved superconductors and expanding the commercial and strategic use of superconductors, H.R. 2069, by Mr. Ritter.

To establish a National Superconductor Manufacturing and Processing Technology Initiative, and for other purposes, H.R. 3024, by Mr. Ritter.

To establish a national Federal program effort in close collaboration with the private sector to develop as rapidly as possible the applications of superconductivity to enhance the Nation's economic competitiveness and strategic well-being, and for other purposes, H.R. 3048, H.R. 3217, by Mr. McCurdy.

To authorize appropriations to the Secretary of Energy for the Superconducting Super Collider Program, H.R. 3228, by Mr. Roe.

To require the Secretary of Energy to make certain assessments with respect to the research and development of the Superconducting Super Collider program, H.R. 3463, by Mr. Hall of Texas.

Symmetrical access to technological research, to enhance the competitiveness of American industry, and for other purposes, H.R. 4848, by Mr. Rostenkowski.

TCAS–III, to amend the Federal Aviation Act of 1958 to require the installation and use of collision avoidance systems in aircraft, to require the Federal Aviation Administration to complete research on and development of the TCAS–III collision avoidance system as soon as possible, and for other purposes, H.R. 1517, by Mr. Packard.

Technical information, to amend the Stevenson–Wydler Act to establish the National Technical Information Corporation as a wholly–owned Government corporation under the direction and supervision of the Secretary of Commerce, H.R. 2159, by Mr. Walgren.

Technician training, to establish a national advanced technician training program, utilizing the resources of the Nation's two–year associate–degree–granting colleges to expand the pool of skilled technicians in strategic advanced–technology fields, to increase the productivity of the Nation's industries, and to improve the competitiveness of the United States in international trade, and for other purposes, H.R. 2134, by Mr. Walgren.

Technology, to establish as an executive department of the Government a Department of Industry and Technology, to establish within that Department the Advanced Civilian Technology Agency, to establish the United States Trade Administration, and for other purposes, H.R. 2958, by Mr. Levine of California.

Technology competitiveness, to amend the Act of March 3, 1901, and the Stevenson–Wydler Technology Innovation Act of 1980 to further United States technological leadership, and for other purposes, H.R. 2916, by Mr. Roe.

Technology competitiveness, to enhance the competitiveness of American industry, and for other purposes, H.R. 4848, by Mr. Rostenkowski.

Technology education, to amend the National Science Foundation Act of 1950 to provide for the continuing evaluation and improvement of curricula in the fields of mathematics, science, and technology, and for the continuing evaluation of developments in educational applications of new technologies, H.R. 2315, by Mr. Green.

Technology foundation, to advance the national prosperity, quality of life, and welfare, to establish a National Policy and Technology Foundation, and for other purposes, H.R. 2165, by Mr. Brown of

Technology transfer, to amend the Federal Nonnuclear Energy Research and Development Act of 1974 to improve the transfer of technology or devices developed by the Department of Energy National Laboratories, and to improve interagency cooperation between the Department of Energy and other agencies with respect to technology transfer, H.R. 5132, by Mrs. Lloyd. California.

Trade, to establish as an executive department of the Government a Department of International Trade and Industry, to establish the National Oceanic and Atmospheric Administration and the Bureau of the Census as independent agencies, and for other purposes, H.R. 2135, by Mr. Watkins.

T—Continued

Trade, to amend the Omnibus Trade and Competitiveness Act of 1988 to repeal certain requirements for the implementation of the metric system of measurements, H.R. 5405, by Mr. Volkmer.

Trade development, to establish a Trade Development Investment Trust Fund to provide funds for efforts to improve the United States competitiveness in international trade, and for other purposes, H.R. 1650, by Mr. Jeffords.

Trade policy, to increase investment in human and intellectual capital, to promote the development of science and technology, to enhance the protection of intellectual property, to bring about legal and regulatory reform essential to the elimination of obstacles to competitiveness, to improve the international economic environment, and for other purposes, H.R. 1155, by Mr. Michel.

U

Universities revitalization, to assist in revitalizing the Nation's academic research programs by authorizing a program in the National Science Foundation for the repair, renovation, or replacement of laboratories and other research facilities at universities and colleges, H.R. 1905,

Uranium enrichment, to provide for a viable domestic uranium industry, to establish a program to fund reclamation and other remedial actions with respect to mill tailings at active urnaium and thorium sites, to establish a wholly-owned Government corporation to manage the Nation's uranium enrichment enterprise, operating as a continuing, commercial enterprise on a profitable and efficient basis, and for other purposes, H.R. 4489; H.R. 4934 by Mr. Richardson; H.R. 4975, by Mr. Nielson of Utah.

Uranium enrichment, to assistk in creating a viable domestic uranium enrichment industry, to insure the maximum economic utilization of the existing diffusion plant assets, to establish mechanisms which would permit the creation of a privately owned corporation or a mixed Government privately owned corporation to utilize the Federal Government's investment in centrifuge technology and in the centrifuge assets, to establish alternate sources of enrichment supply, so as to create American jobs, to return moneys to the Government and to increase American industrial competitiveness in world wide nuclear fuel sales, H.R. 5433, by Mr. Lujan. by Mr. Roe.

U.S./U.S.S.R. study, expressing the sense of the Congress that the United States should enter into a joint high-level scientific study with the Soviet Union to determine the long-term climatic and environmental effects of a nuclear exchange, H.Con. Res. 73, by Mr. Huckaby.

V

Value engineering, to establish the Value Engineering Council, H.R. 2205, by Mr. Dreier.

W

Waste Isolation Pilot Plant, to preserve the independence of the scientific evaluation group for the Waste Isolation Pilot Plant in New Mexico, H.R. 4283, by Mr. Skeen.

Waste reduction, to direct the Administrator of the Environmental Protection Agency to conduct a study of possible solutions to certain problems associated with disposal of nonbiodegradable plastics, and to control pollution of the environment caused by the discarding of plastics on the land and in water, H.R. 2527, by Mr. Panetta.

Waste reduction, to authorize the Administrator of the Environmental Protection Agency to establish an industrial assistance program for reducing the generation of all environmental pollutants and hazardous waste at their source, to assist States in establishing waste reduction programs, to establish an Office of Waste Reduction, and for other purposes, H.R. 3094, by Mr. Green.

Waste study, entitled the "Plastic Waste Study Act of 1987", H.R. 474, by Mr. Hughes.

Weather, expressing the sense of the Congress that the Federal Government take immediate steps to support a National STORM Program, H.Con. Res. 71, by Mr. Roe.

Weather, expressing the sense of the Congress that the Air Force should continue to utilize the weather reconnaisance aircraft, WC-130, in coordination with National Oceanic and Atmospheric Administration operated satellite technologies, for tracking hurricanes and collecting research data to enable scientists to predict and understand hurricane behavior, H.Con. Res. 366, by Mr. Lewis of Florida.

Weather radar system, expressing the sense of the Congress that procurement of the new United States weather radar system, NEXRAD, continue on schedule and according to the established minimum requirements agreed to by the National Weather Service, the Federal Aviation Administration, and the Department of Defense, H.Con. Res. 69, by Mr. Roe.

W—Continued

Whistleblowers, to amend section 210 of the Energy Reorganization Act of 1974 to provide protection against discrimination for certain employees, and for other purposes, H.R. 4071, by Mr. Slattery.

Z

INDEX BY "SHORT TITLE" OF MEASURES REFERRED TO THE COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY

A

Acid Rain Abatement Act of 1988, H.R. 4331, by Mr. Cooper.

Acid Rain/Energy Security Initiative Act of 1988, H.R. 5032, by Mr. Boehlert.

Aircraft Collision Avoidance Act of 1987, H.R. 1517, by Mr. Packard.

Airport and Airway Improvement Amendments of 1987, H.R. 2310, by Mr. Mineta; H.R. 3350, by Mr. Howard.

America's Living Standard Act of 1987, H.R. 717, by Mr. Brown of California.

Aviation Safety Research Act of 1988, H.R. 4686, by Mr. Lewis of Florida.

B

Ban Nuclear Power in Earth Orbit Act, H.R. 5279, by Mr. Brown of California.

Biotechnology Competitiveness Act of 1988, S. 1966.

Biotechnology Science Coordination and Competitiveness Act of 1988, H.R. 4502, by Mr. Scheuer.

C

Chesapeake Bay Medical Waste Control Act, H.R. 5571, by Mr. McMillen of Maryland.

Commercial Space Launch Act Amendments of 1987, H.R. 3765, by Mr. Nelson of Florida.

Commercial Space Launch Act Amendments of 1988, H.R. 4399, by Mr. Nelson of Florida.

Competitiveness Enhancement Act of 1987, H.R. 2219, by Miss Schneider.

Computer Security Act of 1987, H.R. 145, by Mr. Glickman.

Congressional Scholarships for Science, Mathematics, and Engineering Act, H.R. 5518, by Mr. Walgren.

Controller Performance Research Act, H.R. 3779, by Mr. Buechner.

Continental Scientific Drilling and and Exploration Act, H.R. 2737, by Miss Schneider; S. 52.

D

Department of Energy Civilian Energy Programs Authorization Act for Fiscal Year 1988, H.R. 2369, by Mrs. Lloyd.

Department of Energy Civilian Research and Development Authorization Act for Fiscal Year 1989, H.R. 4505, by Mrs. Lloyd.

Department of Energy Civilian Energy Research and Development Authorization Act for Fiscal Year 1988, H.R. 2368, by Mrs. Lloyd.

Department of Energy National Laboratory Cooperative Research Initiatives Act, H.R. 3006, by Mr. Lujan.

Department of International Trade and Industry Act of 1987, H.R. 2135, by Mr. Watkins.

E

Environmental Research, Development, and Demonstration Authorization Act of 1987, H.R. 1523, by Mr. Roe; H.R. 2355, by Mr. Scheuer.

F

Family Farm Act, H.R. 1425, by Mr. Gephardt.

Fastener Quality Assurance Act of 1988, H.R. 5051, by Mr. Dingell.

Federal Industrial Extension Act of 1987, H.R. 2492, by Mr. Boehlert.

Federal Nuclear Facilities Environmental Restoration and Management Act, H.R. 4193, by Mr. Bonker.

INDEX BY "SHORT TITLE" OF MEASURES REFERRED TO THE COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY

G

Geological Survey Water Resources Organic Act, H.R. 791, by Mr. Gejdenson; H.R. 3676, by Mr. Foley.

Global Environment Research and Policy Act of 1988, H.R. 5421, by Mr. Jones of North Carolina.

Global Warming Prevention Act of 1988, H.R. 5460, by Miss Schneider.

Great Lakes Medical Waste Control Act, H.R. 5249, by Mr. Davis of Michigan.

Ground Water Research, Development, and Demonstration Act, H.R. 2253, by Mr. Scheuer.

H

Hazardous Waste Reduction and Management Act of 1987, H.R. 3300, by Mrs. Boxer.

Highway Research and Development Act, H.R. 1621, by Mr. Glickman.

Hotel and Motel Fire Safety Act of 1987, H.R. 3704, by Mr. Walgren.

Hydrogen Research and Development Act, H.R. 2541, by Mr. Brown of California.

I

Indoor Air Quality Act of 1987, H.R. 3809, by Mr. Kennedy.

Indoor Air Quality Act of 1988, H.R. 5373, by Mr. Kennedy.

International Security and Satellite Monitoring Act of 1988, H.R. 4036, by Mr. Mrazek.

J

K

L

M

Marine Research Act of 1988, H.R. 4231, by Mr. Brennan.

Metric Usage Act of 1987, H.R. 1964, by Mr. Brown of California.

Multiyear National Aeronautics and Space Administration Authorization Act, H.R. 4561, by Mr. Nelson of Florida.

N

National Advanced Technician Training Act, H.R. 2134, by Mr. Walgren.

National Advisory Committee on Semiconductor Research and Development Act of 1987, H.R. 2191, by Mr. Valentine.

National Aeronautics and Space Administration Authorization Act, 1988, H.R. 2782, H.R. 1741, by Mr. Roe.

National Aeronautics and Space Administration Authorization Act, 1989, H.R. 4157, by Mr. Roe.

National Biological Diversity Conservation and Environmental Research Act, H.R. 4335, by Mr. Scheuer.

National Bureau of Standards and Industrial Competitiveness Act of 1987, H.R. 2068, by Mr. Ritter.

National Bureau of Standards Authorization Act for Fiscal Year 1988, H.R. 2160, by Mr. Walgren.

National Bureau of Standards Authorization Act for Fiscal Year 1989, H.R. 4417, by Mr. Walgren.

National Commission on Human Resources Act, H.J. Res. 646, by Mr. Waxman.

National Energy Policy Act of 1988, H.R. 5380, by Mr. AuCoin.

National Institute of Standards and Technology Authorization Act for Fiscal Year 1989, H.R. 5183, by Mr. Roe.

National Laboratory Competitiveness Act of 1988, H.R. 5132, by Mrs. Lloyd.

National Mars Commission Act, H.R. 3858, by Mr. Torricelli.

National Nutrition Monitoring and Related Research Act of 1987, H.R. 2151, by Mr. MacKay.

National Nutrition Monitoring and Related Research Act of 1988, S. 1081.

National Oceanic and Atmospheric Administration Organic Act, H.R. 5070, by Mr. Lowry of Washington.

National Oceanic and Atmospheric Administration Atmospheric and Satellite Program Authorization Act of 1987, S. 1667.

National Policy and Technology Foundation Act of 1987, H.R. 2165, by Mr. Brown of California.

INDEX BY "SHORT TITLE" OF MEASURES REFERRED TO THE COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY

N—Continued

National Quality Improvement Award Act of 1987, H.R. 812, by Mr. Walgren.

National Science Foundation Authorization Act for Fiscal Year 1988, H.R. 2330, by Mr. Walgren.

National Science Foundation Authorization Act for Fiscal Years 1989 and 1990, H.R. 4418, by Mr. Walgren.

National Space Grant College and Fellowship Act, H.R. 1633, by Mr. Andrews.

National Space Policy Act of 1987, H.R. 790, by Mr. Dornan.

National Superconductivity and Competitiveness Act of 1987, H.R. 3048, by Mr. McCurdy.

National Superconductivity, Competitiveness and National Security Act of 1987, H.R. 3217, by Mr. McCurdy.

National Superconductor Manufacturing and Processing Technology Act of 1987, H.R. 3024, by Mr. Ritter.

National Technical Information Act of 1987, H.R. 2159, by Mr. Walgren.

Nuclear Fuel Utilization and Domestic Production Act of 1988, H.R. 5433, by Mr. Lujan.

Nuclear Whistleblowers Protection Act Amendments of 1988, H.R. 4071, by Mr. Slattery.

O

Ocean Incineration Research Act of 1987, H.R. 737, by Mr. Dyson.

Omnibus Antidrug Abuse Act of 1988, H.R. 4230, by Mr. English.

Omnibus Trade and Competitiveness Act of 1988, H.R. 4848, by Mr. Rostenkowski.

P

Plastic Waste Reduction Act of 1987, H.R. 2527, by Mr. Panetta.

Plastic Waste Study Act of 1987, H.R. 474, by Mr. Hughes.

Preventive Environmental Protection and Waste Reduction Assistance Act, H.R. 3094, by Mr. Green.

Price-Anderson Amendments Act of 1987, H.R. 1414, by Mr. Udall.

Q

R

Recyclable Materials Science and Technology Development Act of 1988, H.R. 5000, by Mr. Hochbrueckner.

Recycling Act of 1988, H.R. 4454, by Mr. Courter.

Regional Monitored Retrievable Storage Act, H.R. 3077, by Mr. Morrison of Washington.

Renewable Energy/Fuel Cell Systems Integration Act of 1987, H.R. 2542, by Mr. Brown of California.

Renewable Energy and Energy Conservation Commercialization and Development Act, H.R. 4226, by Mr. Sharp.

Renewable Energy/Fuel Cell Systems Integration Act of 1988, S. 1294.

S

Separation of Powers Act of 1987, H.R. 2520, by Mr. Dornan.

Solar Development Iniitiative Act of 1988, H.R. 4465, by Mr. Owens of Utah.

Space Settlement Act of 1988, H.R. 4218, by Mr. Brown of California.

Standard Nuclear Reactor Development Act of 1988, H.R. 5040, by Mr. Udall.

Standardization of Measurement Act of 1988, H.R. 5120, by Mr. Roe.

State Energy Conservation Programs Improvement Act of 1988, H.R. 5424, by Mr. Sharp.

Steel and Aluminum Energy Conservation and Technology Competitiveness Act of 1988, S. 2470.

Stratospheric Ozone Protection Act of 1987, H.R. 2036, by Mr. Bates.

Subseabed Nuclear Waste Disposal Research Act of 1987, H.R. 3499, by Mr. Jones of North Carolina.

T

Technology Competitiveness Act of 1987, H.R. 2916, by Mr. Roe.

Trade Development Investment Act of 1987, H.R. 1650, by Mr. Jeffords.

Trade, Employment, and Productivity Act of 1987, H.R. 1155, by Mr. Michel.

Transgenic Animal Regulatory Reform Act, H.R. 4971, by Mr. Kastenmeier.

INDEX BY "SHORT TITLE" OF MEASURES REFERRED TO THE COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY

U

University Research Facilities Revitalization Act of 1987, H.R. 1905, by Mr. Roe.

Uranium Revitalization Tailings Reclamation and Enrichment Act of 1988, H.R. 4489 and H.R. 4934, by Mr. Richardson; H.R. 4975, by Mr. Nielson of Utah.

V

Value Engineering Council Act of 1987, H.R. 2205, by Mr. Dreier of California.

COMMITTEE PUBLICATIONS

HEARINGS

Date	Title	Publication No.
Jan. 28, 1987	Posture Hearing with the Science Advisor to the President	1.
Feb. 3, 1987	Flight of the Voyager	2.
Mar. 3, 1987	1988 NBS Authorization (H.R. 2160)	3.
Mar. 31; Apr. 2, 1987	The Future of the Landsat System	4.
Mar. 4, 1987	Hearing on the Privatization of the National Technical Information Service, and H.R. 812, the National Quality Improvement Award Act of 1987.	5.
Mar. 24, 25; Apr. 23, 1987.	Oversight on the Federal Aviation Administration Fiscal Year 1988 Research, Engineering and Development Budget Request.	6.
Feb. 26, 1987	NASA's Response to the Committee's Investigation of the "Challenger" Accident	7.
Feb. 26, 1987	The Computer Security Act of 1987 (H.R. 145)	8.
Feb. 25, 1987	Rail Safety Technology	9.
Mar. 3, 1987	1988 DOE Authorization (Transportation Programs) (H.R. 2368/H.R. 2369)	10.
Apr. 3, 1987	High Speed Rail Technology	11.
Feb. 4; Apr. 23, 1987	National Academy of Sciences Report on International Technology Transfer	12.
Feb. 19, 25; Mar. 11, 24, 1987.	1988 NSF Authorization (H.R. 2330)	13.
Mar. 10, 1987	Earthquake Reauthorization for Fiscal Year 1988 (H.R. 1612)	14.
May 19, 1987	GAO Survey, Federal Government Computer Security	15.
Mar. 5, 1987	Hotel Fire Safety: What's Needed to Protect Our Citizens and Fiscal Year 1988 Authorization for the Federal Fire Prevention and Control Act.	16.
May 7, 1987	International Cooperation on the Superconducting Super Collider (SSC)	17.
Mar. 31, 1987	National Critical Materials Council	18.
Mar. 18, 1987	Bureau of Mines Authorization and Oversight	19.
Mar. 10, 11, 1987	1988 NASA Authorization (Volume I)(H.R. 1741)	20.
June 4, 1987	Research and Competitiveness in the Construction Industry	21.
Apr. 28, 29, 30, 1987	The Role of Science and Technology in Competitiveness	22.
Apr. 29, 30, 1987	Space Shuttle Recovery (Volume I)	23.
June 25, 1987	Communications and Computers in the 21st Century	24.

HEARINGS

Date	Title	Publication No.
Mar. 11, 1987	National Aero-Space Plane Program (Joint Hearing with the Committee on Armed Services).	25.
June 23, 25, 1987	To Examine U.S-Soviet Science and Technology Exchanges	26.
July 22, 1987	NASA's Long-Range Goals (Volume I)	27.
July 29, 1987	The Commercial Development of Medical Biotechnology	28.
Mar. 3, 1987	Review of Previous Studies	29.
June 17, 1987	H.R. 1414, The Price-Anderson Amendments Act of 1987	30.
July 15, 1987	Cooperation in Industrial Research and Technology Development	31.
July 1, 1987	The Effects of Technological Change on the Labor Force	32.
Mar. 17, 18, 1987	1988 DOE Authorization (Posture Hearing; National Laboratories)(Volume I)(H.R. 2368/H.R. 2369).	33.
Sep. 16, 1987	Results of the Development Motor 8 Test Firing	34.
Feb. 5, 24, 25; Mar. 3, 5, 10, 11, 18, 19, 31; Apr. 23; May 6, 1987.	1988 NASA Authorization (Volume II)(H.R. 1741)	35.
July 14, 15, 1987	Scientific and Technical Information: Policy and Organization in the Federal Government (H.R. 2159 and H.R. 1615).	36.
Oct. 14, 1987	NASA's Implementation of NRC Recommendations on Space Station	37.
Feb. 26; Mar. 4, 1987	1988 DOE Authorization (Fossil R&D and Clean Coal Technology)(Volume II)(H.R. 2368/H.R. 2369).	38.
Mar. 3, 4, 1987	1988 DOE Authorization (General Science and Research; Basic Energy Sciences)(Volume IV)(H.R. 2368/H.R. 2369).	39.
July 21, 23, 1987	Global Prospects for U.S. Coal and Coal Technologies	40.
July 28, 1987	Space Station Cost, Schedule, and Performance Oversight	41.
Feb. 24, 25, 1987	1988 DOE Authorization (Magnetic Fusion Energy; Inertial Confinement Fusion)(Volume III)(H.R. 2368/H.R. 2369).	42.
Apr. 8, 1987	1988 NASA Authorization (Volume III)(H.R. 1741)	43.
June 18, 1987	The Role and Balance of Federal R&D Support	44.
Nov. 3, 1987	H.R. 2737, The Continental Scientific Drilling and Exploration Act (Joint Hearing with the Committe on Interior and Insular Affairs).	45.
Sep. 23, 1987	Hydrogen: Fuel of the Future	46.
July 15, 16, 1987	Geosciences	47.
Mar. 19, 24, 1987	1988 DOE Authorization (Nuclear Waste; Uranium Enrichment) (Volume VI)(H.R. 2368/H.R. 2369).	48.
Mar. 5, 11, 1987	1988 DOE Authorization (Solar and Other Renewables) (Volume VII)(H.R. 2368/ H.R. 2369).	49.

HEARINGS

DATE	TITLE	PUBLICATION NO.
Oct. 28, 1987	OTA Magnetic Fusion Report "Starpower"	50.
Nov. 4, 1987	Corporate Giants and Global Competition: Dynamos or Dinosaurs?	51.

June 27, 1988	The Cutting Edge: Science and Technology for America's Future	131.
Aug. 10, 1988	H.R. 5000, Recyclable Materials: Plastics in the Environment	132.
June 22, 1988	Technologies for Conserving Species: Saving the Endangered Rhinoceros	133.
June 28, 1988	Women, Minorities, and the Disabled In Science and Technology	134.
May 2, 1988	Photonics	135.
Mar. 25, 1988	Work for Others and Technology Transfer	136.

HEARINGS

DATE	TITLE	PUBLICATION NO.
June 29, 1988	Technologies for Remediating Global Warming	137.
July 14, 1988	H.R. 4502 and S. 1966, The Biotechnology Competitiveness Act	138.
Mar. 2, 3, 1988	Fiscal Year 1989 Department of Energy Authorization (Fossil Energy R&D and Clean Coal Technology Program) (Volume I)(H.R. 4505).	139.
Mar. 16, 17, 1988	Fiscal Year 1989 Department of Energy Authorization (Nuclear Energy R&D and Remedial Action and Waste Technology) (Volume IV)(H.R. 4505).	140.
Oct. 3, 1988	Medical Waste and Ocean Pollution Research and Monitoring	141.
Mar. 8, 9, 10, 1988	Fiscal Year 1989 Department of Energy Authorization (Solar and Renewable Energy and Energy Conservation).	142.
June 9, 30, 1988	The National Biological Diversity Conservation and Environmental Research Act (H.R. 4335).	143.
Oct. 6, 1988	Uranium Enrichment (H.R. 4489; H.R. 4934; H.R. 4975)	144.
Sep. 23, 27, 1988	The Administration's Decision to License the Chinese Long March Launch Vehicle.	145.
Sep. 22, 1988	Implementation of the Computer Security Act	146.
Sep. 14, 1988	The Medical Mission of the FAA	147.
July 13, 1988	U.S./Japan Science and Technology Agreement	148.
Apr. 27, 1988	Sharing Foreign Technology: Should We Pick Their Brains?	149.
Sep. 10, 1988	Cleanup Options for the Stringfellow Acid Pits Superfund Site	150.
Mar. 23, 29, 30, 1988	Fiscal Year 1989 Department of Energy Authorization (Supporting Research and Technical Analysis, Energy R&D, and General Science and Research Programs) (Volume V)(H.R. 4505).	151.
Sep. 28, 1988	Indoor Air Quality Act of 1988	152.
Sep. 30, 1988	The National Nutrition Monitoring and Related Research Act of 1988	153.
Mar. 22, 1988	Superconducting Super Collider	154.

COMMITTEE PUBLICATIONS

REPORTS

DATE	TITLE	PUBLICATION NO.
June 1987	An Agenda for a Study of U.S. Technology Policy	A.
July 1987	Prospects for Sustainable Development in Sub-Saharan Africa	B.
September 1987	Brick and Mortar: A Summary and Analysis of Proposals to Meet Research Facilities Needs on College Campuses.	C.
July 1987	Science, Technology, and American Diplomacy 1987 (Joint Committee Print with the Committee on Foreign Affairs).	D.
November 1987	Technology Policy Task Force Hearing Summary (Review of Previous Studies)	E.
November 1987	Technology Policy Task Force Hearing Summary (The Technical Enterprise for Computers, Communications, and Manufacturing in the 21st Century).	F.
November 1987	Appendices to—Brick and Mortar: A Summary and Analysis of Proposals to Meet Research Facilities Needs on College Campuses (Serial C).	G.
November 1987	Technology Policy Task Force Hearing Summary (The Effects of Technological Change on the Labor Force).	H.
October 1987	Space Activities of the United States, Soviet Union, and Other Launching Countries: 1957–1986.	I.
October 1987	Oversight Visit to Europe	J.
May 18, 1987	National Quality Improvement Act of 1987 (Report to accompany H.R. 812)	H.Rept. 100–96
May 19, 1987	National Bureau of Standards Authorization Act for Fiscal Year 1988 (Report to accompany H.R. 2160).	H.Rept. 100–98
May 21, 1987	Earthquake Hazards Reduction Act of 1977: Authorization for Fiscal Years 1988 and 1989 (Report to accompany H.R. 1612).	H.Rept. 100–89, Part 2
May 21, 1987	Federal Fire Prevention and Control Act of 1974: Authorization for Fiscal Year 1988 (Report to accompany H.R. 1522).	H.Rept. 100–103
May 28, 1987	National Science Foundation Authorization Act for Fiscal Year 1988 (Report to accompany H.R. 2330).	H.Rept. 100–110
May 28, 1987	The Environmental Research, Development, and Demonstration Authorization Act of 1987 (Report to accompany H.R. 2355).	H.Rept. 100–111
June 3, 1987	Airport and Airway Improvement Amendments of 1987 (Report to accompany H.R. 2310).	H.Rept. 100–123, Part 1
June 11, 1987	Computer Security Act of 1987 (Report to accompany H.R. 145)	H.Rept. 100–153, Part 1
July 7, 1987	National Aeronautics and Space Administration Authorization Act, Fiscal Year 1988 (Report to accompany H.R. 2782).	H.Rept. 100–204
July 22, 1987	Price-Anderson Amendments Act of 1987 (Report to accompany H.R. 1414)	H.Rept. 100–104, Part 2

REPORTS

Date	Title	Publication No.
Aug. 4, 1987	Technology Competitiveness Act of 1987 (Report to accompany H.R. 2916)	H.Rept. 100–266
Sep. 30, 1987	The National Ground Water Research and Protection Assistance Act of 1987 (Report to accompany H.R. 791).	H.Rept. 100–155, Part 4
Oct. 6, 1987	Aircraft Collision Avoidance Act of 1987 (Report to accompany H.R. 1517)	H.Rept. 100–286, Part 2
Oct. 27, 1987	National Oceanic and Atmospheric Administration Atmospheric and Satellite Program Authorization Act of 1987 (Report to accompany S. 1667).	H.Rept. 100–406
Oct. 29, 1987	Superconducting Super Collider Authorization Act of 1987 (Report to accompany H.R. 3228).	H.Rept. 100–413
November 1987	Technology Policy Task Force Hearing Summary (The Commmercial Development of Medical Biotechnology).	K.
December 1987	Summary of Activities, 100th Congress/First Session	L.
April 1988	Science, Technology, and American Diplomacy 1988 (Joint Committee Print with the Committee on Foreign Affairs).	M.
June 1988	Oversight Review of South American Science, Space, and Technology	N.
September 1988	Commercialization of Federally Funded R&D: A Guide to Technology Transfer from Federal Laboratories.	O.
July 1988	Space Activities of the United States, Soviet Union, and Other Launching Countries: 1957-1987.	P.
October 1988	Oversight Review of European Science and Technology Activities and Policies	Q.
December 1988	Technology Policy and Its Effect on the National Economy (Report of the Technology Policy Task Force).	R.
May 2, 1988	Continental Scientific Drilling and Exploration Act (Report to accompany H.R. 2737/S. 52).	H.Rept. 100–580, Part 2
Apr. 27, 1988	Authorizing Appropriations for Activities under the Federal Fire Prevention and Control Act of 1974 (Report to accompany H.R. 4419).	H.Rept. 100–589
May 19, 1988	Department of Energy Civilian Energy Research and Development Programs Authorization Act for Fiscal Year 1989 (Report to accompany H.R. 4505).	H.Rept. 100–636
May 19, 1988	Commercial Space Launch Act Amendments of 1988 (Report to accompany H.R. 4399).	H.Rept. 100–639
May 24, 1988	National Science Foundation Authorization Act for Fiscal Years 1989 and 1990 (Report to accompany H.R. 4418).	H.Rept. 100–649
May 24, 1988	Multiyear National Aeronautics and Space Administration Authorization Act (Report to accompany H.R. 4561).	H.Rept. 100–650
June 3, 1988	National Bureau of Standards Authorization Act for Fiscal Year 1989 (Report to accompany H.R. 4417).	H.Rept. 100–673, Part 1
Sep. 8, 1988	Controller Performance Research Act (Report to accompany H.R. 3779)	H.Rept. 100–893
Sep. 8, 1988	Aviation Safety Research Act of 1988 (Report to accompany H.R. 4686)	H.Rept. 100–894
Sep. 8, 1988	Research and Development on Fatigue and Corrosion in Aging Aircraft (Report to accompany H.Res. 450).	H.Rept. 100–895

REPORTS

DATE	TITLE	PUBLICATION NO.
Sep. 9, 1988	The National Superconductivity and Competitiveness Act of 1988 (Report to accompany H.R. 3048).	H.Rept. 100–900
Sep. 15, 1988	Establishment of a United States Decade for Natural Disaster Reduction (Report to accompany H.Con. Res. 290).	H.Rept. 100–920
Sep. 20, 1988	The Department of Energy Laboratory Competitiveness Act of 1988 (Report to accompany H.R. 5132).	H.Rept. 100–943, Part 1
Sep. 22, 1988	Hotel and Motel Fire Safety Act of 1988 (Report to accompany H.R. 3704)	H.Rept. 100–956
Sep. 28, 1988	The Biotechnology Science Coordination and Competitiveness Act of 1988 (Report to accompany S. 1966).	H.Rept. 100–992, Part 1
Oct. 6, 1988	Steel and Aluminum Energy Conservation and Technology Competitiveness Act of 1988 (Report to accompany S. 2470).	H.Rept. 100–1061
Oct. 6, 1988	National Nutrition Monitoring and Related Research Act of 1988 (Report to accompany S. 1081).	H.Rept. 100–1067, Part 1
Oct. 19, 1988	Technology Policy and Its Effect on the National Economy (Report of the Technology Policy Task Force).	H.Rept. 100–1093
Dec. 19, 1988	Summary of Activities of the Committee on Science, Space, and Technology for the 100th Congress.	H.Rept. 100–1109
December 1988	Compilation of Public Laws Reported by the Committee on Science, Space, and Technology 1958–1988.	S.*
December 1988	Technology Policy Task Force (Interim Report) Technology and Human Resources.	T.*

*Will be published and available during the first session of the 101st Congress.
